SONNET....To Mrs. D.

BY E. J. YAMES.

Oh! stranger Lady! Oft thy pleasant voice
Like silvery music cometh back to me;
I will believe that ever dwells with thee
The Law of Kindness—that thou dost rejoice
In all life's tender ministries; for thine eye
(Not with the glances of proud beauty burning,)
Wears the clear light of sunset's softest sky
Gentle and loving; and my heart is yearning
To meet those eyes of sympathy again—
To hear that voice, the 'ever soft and low,'
Which like a memory of long ago,
Bringeth the distant nearer—and I fain
Would call *thee friend!* O, Lady! On thy head
Blessings of heaven and earth, a thousand fold be shed.

Election in Arkansas—Railroads—The Mexican War.

Correspondence of The Tribune.

LITTLE ROCK, (Ark.) 8th Jan. 1847.

In The Semi-Weekly Tribune of 26th ult. there is an extended notice of a *Phonographic Exhibition* at Brooklyn, by Messrs. Andrews & Boyle. I desire much to acquire that art. Can you put me in the way of it?*

The result of the election for Member of Congress, to supply the vacancy caused by Mr. YELL's absence with the army, is not known. There were five candidates: Judge GEORGE PASCHAL, ALBERT RUST and HENDON HARALSON, Loco, and THOMAS W. NEWTON and C. F. M. NOLAND, Whig. HARALSON is behind all, NOLAND is next, RUST next—the try being between PASCHAL and NEWTON, Whig. P. is 7 ahead at pre- Loco, and NEWTON, Whig. P. is 7 ahead at present, with four counties to hear from, in but two of which elections are supposed to have been held, one Loco and the other Whig. The result is very doubtful. The vote now stands—PASCHAL, 1724; NEWTON, 1717; RUST, 1629; NOLAND about 650, and HARALSON about 300. The Legislature passed an act to incorporate a Railroad Company, to construct a road from here to White River, which will open a communication from here to the Mississippi River at all times. It is directly in the line of the railroad from Charleston, S. C. to California. Almost the entire distance from Charleston to Memphis, Tenn. is complete. Mr. Whitney's project to build his road will some day be accomplished; but be it known that the route through Arkansas would take it over a better country, and would open direct railway travel from the vast and rich mineral regions of Northern Mexico to the Missouri River, or even the Atlantic seaboard; beside almost the whole extent of country from Memphis to Mexico is to be a rich agricultural region, provided there are means for taking such bulky products to markets. Another advantage would be the absence of ice and snow in the Winter. The expense of this war would pay for California honestly, and would build a railroad from Memphis, Tenn. to Monterey, or San Francisco Bay, via Santa Fé. Why will not men count the cost?

* Our correspondent can obtain the books necessary to an acquisition of Phonography by addressing a letter to Messrs Andrews & Boyle, Boston, with a current dollar bill enclosed.

CITY ITEMS.

☞ MAY, as the old poet says, can never agree with JANUARY, but the world at large seemed to have no great quarrel with the specimen of Mayish weather they got yesterday. From the point nearest to zero the thermometer mounted to a very genial and respectable elevation and instead of rude hyperborean blasts filling a thousand moustaches with dirty dust while they stuffed the breath vainly seeking to find an outlet through their interstices, Broadway rejoiced in an atmosphere in which ears and noses appeared in public with perfect safety.

Having thus informed five hundred thousand of our readers of what they all knew before and done the polite thing to the weather, we shall hope to keep up with it the distinguished good understanding so long cultivated by our witty and poetic predecessor, now attracted from this orbit to revolve with undiminished brilliancy in other spheres.

☞ Professor AGASSIZ, the successor of CUVIER, and one of the most distinguished naturalists in the world, who has been lecturing before the Lowell Institute in Boston, will shortly be in New-York for the purpose of giving a course of lectures upon Zoölogy, a subject which, as we know, he treats in the profoundest and most satisfactory manner. Beside his unequaled scientific acquirements he is physically one of the most splendid specimens of a man that fair American eyes ever had the happiness of resting on.

BOSTON FIRE.—A committee has been appointed in Boston to collect subscriptions for the relief of the sufferers by the late fire. Are there no sons of Boston in New-York who will wish to aid their unfortunate townsmen in their distress? Donations may be forwarded to the Mayor, Hon. Josiah Quincy, Jr.

SMITHSONIAN INSTITUTE.—Our architects have been busy in designing plans for the buildings of this institution and we have little doubt that some one of them will have the honor of furnishing the successful design. We have heard one in the Norman style, by Martin G. Thompson, highly spoken of, and we have had the opportunity of examining those furnished by Mr. James Renwick, Jr. the architect of Grace Church, of Dr. Cheever's Church, of Mr. Southard's, as well as of the Croton Distributing Reservoir, and have been greatly pleased by the inspection of them, although the more showy perspective views had been left in Washington and only the elevations and ground plans remained. Two plans were submitted by Mr. Renwick, one Gothic and the other Lombard or Romanesque. Both are remarkably striking and effective, availing themselves of the bold projections and strong effect of light and shade by which the skilful architect acquires great power of expression with economy of material and money. Of the two, the Gothic seemed to us the more beautiful and the Lombard the more picturesque.

☞ The friends of *Temperance and the Excise Law*, especially of the extension of the latter to this City, are earnestly invited to rally in their strength at the City Meeting *this evening* at the Tabernacle. Some of the ablest and firmest champions of Temperance will speak. Temperance Men! *the City is with us!* The adversary shrink from an appeal to the Ballot-Boxes! They dare not meet us in an Election, even in this Metropolis of Rum! Do your duty, and the Legislature will not repeal our excellent Law, but will extend it to this City. Forward!

ALMS-HOUSE.—From the report of the Commissioner to the Controller it appears that on the 1st of Jan. the number of inmates at Bellevue Alms-House was 2281; in the hospital 516; city prison 125; lunatic asylum 410; Long Island farms 893; penitentiary 635; hospital 188; small-pox hospital 3. Total in-doors 5021.

The number of out-door poor was—children at nurse 170; pensioners 1600; transient paupers for thirty days 700. Total out-doors 2470. This shows that at the beginning of the present month 7491 persons were dependant on public charity; by this time the number is without doubt greatly increased. Among the items of expense we notice that wine, ale and brandy cost $221, exactly the amount expended for potatoes! How is this?

MOVEMENT OF TROOPS.—On Friday the bark Carolina, Capt. Sherwood, sailed for the seat of war with one hundred and sixty-four officers, non-commissioned officers and privates on board, under command of Capt. Merchant, 2d Artillery. Capt. M. and Lieut. J. Totten are the only commissioned officers with the detachment. The gallant Captain has been on the point of going three times before but has been prevented by countermand of his orders. He has already a son and a son-in-law in Mexico.

☞ Some idea may be formed of the density of business operations in New-York—the closeness with which every part of the City is packed in which business is carried on, by examining a single building. We will take for example the narrow four-story building 111 Nassau-st. which is cut up into numberless apartments so small as scarcely to afford breathing room. In this building there is the printing and publication office of the Sunday Atlas, the Christian Intelligencer, the Youth's Cabinet, the Temperance Union, the Gazette of the Union, the Magazine of the Republic, the Volunteer, the Willow, the Calvary Token, the book office of Piercy & Hodell, the job office of Searing & Cook, a stereotyper, a lithographer, a copper-plate printer, six lawyers, an oyster-cellar, two washer-women, a day worker, all conducted by separate individuals, having not the least interest in common. Nassau-st. is by no means as crowded as some other streets in the lower part of the town, and if any other city can show such a human hive as the one above described, in the expressive language of Mr. Pickwick, we say we "would like to see it."

☞ The communication with Boston by the new wires of the Electric Telegraph was opened yesterday.

☞ JONATHAN GIBBS, of 86 Front-st. was compelled of on Saturday morning for having left the sidewalk before his premises, No. 118 Sheriff-st. in a dangerous state, the whole extent of soil having caved in. Many accidents had already happened: the nuisance was an old one.

☞ It is said that the Rumsellers in the city are to hand up to get names to put to their petition to the Legislature for a Repeal of the Excise Law, that they go to the Grave-yards and take names off the tombstones.

FIRES.—A fire occurred in the basement of 100 Beekman-st. on Saturday night, occupied by Mr. Johnson as a grocery store. Loss inconsiderable.....Another in the house of Mr. Dodd, 65½ West Thirteenth-st. on Sunday morning.

☞ An owner wanted for a cream colored horse found astray about 5 o'clock Sunday morning. Apply to officer Plumer. Also for a sorrell horse and butcher's cart found by Richard Williams corner of West and Gansevoort-sts.

☞ A boy named Thomas Gray, of 247 Stanton-st. fell on the ice yesterday and broke his arm. Conveyed to the hospital.

☞ A young man named Jas. McCurdy, of 377 Grand-st. was run over by Engine No. 15 on Saturday night and very badly hurt.

☞ The wholesale warehouse of S. F. Nichal & Co. 69 Front-st. was burglariously entered on Saturday night about 11 o'clock, by means of an ax. Assist. Capt Dwyer luckily being upon the spot, the villains fled without obtaining their booty, which would have been large, as there were $2,000 in cash and $300,000 worth of stock in the store. The officers complain that clerks attached to stores are in the habit of writing or staying in their counting rooms till late at night, leaving the front doors unlocked and the store in darkness, giving opportunity to thieves to secret themselves, and when warned by the officers of the danger, insult and abuse them.

☞ As Assistant Ald. Feeks (who it will be remembered rescued a family from perishing by fire a week or two since at the risk of his life) accompanied by Mr. John McKaye, of No. 18 Mangin-st. was passing through Chatham-st. on Saturday night about half past 11 o'clock, he was assaulted and knocked down by two men named Robt. Barron and Thos. Burns, and severely beaten. Burns was soon after arrested, and immediately rescued by a mob which had collected on the spot. Information being given at the station house, Capt. Smith ordered a platoon of police to the scene of riot, who rearrested Burns and dispersed the mob. The scoundrel was fully committed to answer for his murderous assault.

☞ Continued complaints of the lamps.

DANCING AND RELIGION.—*Mr. Editor*—Sir: It is rumored that there have been music and dancing among the children on the L. I. Farms. I sincerely hope there is no truth in this report. Can it be possible that the Superintendent of the Nursery has allowed such disgraceful scenes to be enacted among the children of the public in his charge in that institution. If I mistake not, it was said at the time the Superintendent of the Nursery was appointed, as an additional reason in favor of his appointment, that he professed an established religious character, but I fear his religion is nothing more than a profession, or he would not suffer such things to be done. As a citizen, I contribute my share of the expense in maintaining the Nursery, but I am free to say that for one I am not willing to assist in supporting an institution for children, if music and dancing are to constitute any part of the indulgences as amusements, either *common* of *occasional*. My object, Mr. Editor, is to ask you whether there is any truth in this report or not, and if it is true, will you use the influence of your journal to cause the Superintendent of that institution to be drawn before the bar of public opinion to answer for this breach of trust. INQUIRER.

We can't say whether the report is true or not, but for our part we are unable to see how it is against the religious character of a man that he give children the chance of dancing to music and help them to dance into the bargain. Why, the little things dance of themselves if you leave them alone, and the man or woman who can see them jumping and skipping in their young life without blessing God for their happiness must be made of stuff that has nothing to do with Spring and sunlight. If the Superintendent at Long Island Farms has provided music for the hapless pauper children under his charge to dance by, at hours which would not interfere with their health, we must confess that we like him none the worse for it, but a great deal better.

☞ An Irishman named Terrence Brenin, while laboring under *delirium tremens*, cut his throat in three places, on Saturday, at the house 269 Houston-st.

☞ Mrs. Eliza Waters was arraigned on a charge of assaulting her husband, Owen Waters, inflicting several severe gashes on his head, face and arms with an edge tool. The Amazon is committed until her husband's wounds will permit him to appear in testimony against her.

THE BOMB SHELL ENTERPRISE.—Since the 18th of December 28,649 Shells have been dispatched from the Greenbush Dépet, by railroad, to New-York. These Shells, when they leave the Dépot, have cost the Government $3 87½ each, making the sum of $110,871 63.—This is a mere "drop in the bucket" of the Mexican War expenses! [Eve. Jour. 21st.

☞ The trial of Jesse Robins, in Columbia Co. Pa. for the murder of his brother, has resulted in a verdict of "Guilty of Voluntary Manslaughter." The prisoner has been sentenced to pay a fine of $5 and costs of prosecution, and to undergo an imprisonment of *three* years in the Eastern Penitentiary.

☞ The Foundry of Messrs. Gowan, McGehee & Co. in Louisville, was destroyed by fire on the night of the 17th. Loss 13 to $15,000—no insurance. A person employed as watchman on the premises supposed to have been burned to death.

THE WAY THEY DO THINGS DOWN SOUTH.—The Chattahoochee, published in Georgia, states that on the 12th inst. a negro who had been convicted of manslaughter, was taken out for punishment, according to his sentence. He received a brand of the letter "M" on his right cheek, and thirty lashes on his bare back.—The sentence confers three mere degrees of thirty lashes each, to be given respectively for three regular, successive mornings. The whipping was taken with a good deal of composure—but a strong evidence that the negro's *fase hurt him*, was made abundantly manifest at the application of the brand.

COMMERCIAL AND MONEY MATTERS.

☞ **"Facts for the People."**—Exposure to cold when the body is heated, wet feet, putting on or keeping on wet clothes, in addition to hereditary disposition or unwholesome employment, are some of the primary and most frequent causes of that fearful disease—PULMONARY CONSUMPTION. For the removal of the *effects of these causes*, freeing the system of all obstruction, allaying irritation and promoting a healthy action of the lungs, the most *speedy* and *certain* remedy is THOMSON'S COMPOUND SYRUP OF TAR AND WOOD NAPHTHA.

This preparation is formed by a union of some of the principles of our most valuable *vegetable protectors* in a combination with TAR—the value of which, in all affections of the breast, all known and confess. Since its introduction, of those who have employed it,

"None name it but to praise."

And even the prejudice of Physicians to the employment of combinations, of whose exact constituents they may be ignorant, has been so far overcome that *this one* has been *recommended* and is now daily *prescribed* in their practice. Prepared only by Aagney & Dickson, successors to S. P. Thomson, cor. Fifth and Spruce sts. Philadelphia. Sold, wholesale and retail, by WYATT & KETCHAM 121 Fulton-st. and retail by H. Johnson, 271 Broadway, New-York. Price 50 cents a bottle; six bottles for $2 50. ¼19 6mis

☞ **The Sudden Action** of this astonishing remedy is not its least remarkable characteristic—it is not only quick but permanent in its effect, and may be used with perfect safety. Profuse are the expressions of grateful adoration that have been lavished by groaning sufferers upon this preparation. So well and faithfully has the CLOVE ANODYNE perform all that has been claimed for it, that many attempts have been made to imitate it, and many worthless compounds are offered under the name of Clove Anodyne. Purchasers must be sure and ask for Johnson's Toothache Drops, and observe the name of Henry Johnson on the wrapper of every genuine vial. Prepared only by HENRY JOHNSON, (successor to A. B. Sands & Co.) Chemist and Druggist, 273 Broadway, cor. Chambers-st. in the granite building. Sold also at 100 Fulton-st. 77 East Broadway, and 501 Hudson-st. Price 50 cents for large, 25 cents for small bottles.

☞ Purchasers must remember that all genuine has the name of Henry Johnson. d18 3mseodis

☞ **Dr. Wood's** Sarsaparilla and Wild Cherry Bitters, for the permanent removal of all such diseases as take their rise in an impure blood impaired digestion, morbid state of the liver and stomach, weakness of the nervous system, and a disordered habit of constitution, and the whole class of diseases, for which the medical faculty have for years united in prescribing the celebrated Sarsaparilla and the Bark of Wild Cherry.

Dr. Wood's Sarsaparilla and Wild Cherry Bitters, is the only medicine ever made of these articles, and founded as it is on the best medical principles, and their virtues extracted by a rigid chemical analysis, experience has shown it is unusual power and efficacy, and will be found on trial, to be a sure and speedy remedy for the diseases enumerated above. They purify the blood, secure regular digestion, promote a healthy action of the liver and stomach, and strengthen the nerves, at once securing health and vigor to the whole system. In all cases of despondency, from indigestion or nervous irritation, they have been used with remarkable success; nor are they less useful as a remedy for headache, dainteiney, loss of appetite, and a general prostration of the system. At the same time, it must be stated, that they are neither violent, nor at all dangerous in their operations, securing as they do the desired end, by a steady, regular, and easy influence.

Sold wholesale and retail, by WYATT & KETCHAM, general agents, 121 Fulton-st.; at retail 192 Broadway; 311 Fulton-st.; and 501 Hudson-st. Fulton and Cranberry-sts. Brooklyn. Price $1, large bottles. ¼ 3mis
