CONSUMPTION.

ANOTHER ADDRESS BY DR. SCHENCK. We copy the following from the Boston Journal of January 17. Read it:

Dr. Schenck was at his elegant rooms in Hanover st, yesterday, on the occasion of his weekly visit. As usual there was a great rush of patients, coming from almost every portion of New England. The Doctor, who is wise and shrewd, saw at a glance what could and what could not be done in the few remaining hours of the day, and en-sorted the reception rooms, proceeded to address those present, giving, as will be seen, some very excellent counsel. The Doctor deals in common sense, makes plain statements, and knows what he says. He spoke as follows:

Ladies and Gentlemen:

I see there are more here than I can properly attend to, and so I must try and manage it to get a number of you at a time. Many of you only want a little advice. You have seen me before. Some of you I suppose have come a long distance, and are apparently too feeble to wait your turn. Those that want a thorough examination will find the consultation room I will take into my private room as soon as possible. My charges are five dollars for an examination. I can listen to your lungs and tell pretty well their condition, but if you want to know their exact state—whether it is Bronchial, Tuberculous, Pleuritic or Pulmonary Consumption, and whether you are curable or incurable, you must be examined by the Respirometer. It is the only proper way of ascertaining. Consumption can be cured: lungs decayed cannot be healed, but I can so invigorate get into a healthy, healing condition. The course pursued by the majority of physicians is all wrong. They commence cure, by giving Cod Liver Oil and Whisky, only ruts the stomach. I frequently, in riding in the cars, get seated by consumptives. They have all their trying to do with the stomach, and the most they get into a spell of coughing they take a drink of whisky. And so they go on, and many drink a quart a day. Take a healthy man and let him drink in this way, and he will soon lose his appetite. My first step is to cleanse the stomach and liver and then to create an appetite. Many of you have a cough, night sweats, creeping chills; and you all want to have them stopped. You think you would be so much better. Now I stop nothing. The cough is to relieve the lungs, if your lungs are diseased, the first and only thing to be done is get the strength; and the only way to do that is to cleanse the stomach and liver. If the liver does not see healthy effected, with my Mandrake Pills, Sea Weed Tonic and Pulmonic Syrup I can frequently effect the most wonderful cures of Consumption. I can more frequently requires gentle purgative for some length of time, to get the stomach and liver to act naturally. As soon as the mucus and slime begin to move, the appetite begins to come up. The coolness I feel (not being an alkali, preserves the food in the stomach until it is digested, preventing it from souring. Now, in almost all cases of lung disease, the action of the system is so slow that food lies in the stomach and sours. Blood is made of it after it is spoiled; and this is the way consumption, bronchitis and Bronchial Pills, 25 cents a box. Sold by druggists and dealers everywhere. A full supply can always be obtained at his Rooms, No. 32 BOND STREET, New York.
