This work, prepared some years ago, was received with great favor by the public, attaining a larger sale, it is believed, than any work of its kind ever published. Lapse of time has brought material changes in the statutes of many States; the War has not only altered the Social condition of some of them, but has introduced the Internal Revenue System, National Banks, new Post Office and Custom House regulations, and has led to the Constitution of the United States, Emancipation of Slaves, General Bankrupt Law, &c.

The Pension, Bounties and War Claims has also assumed a new and greatly increased importance.

Since numerous changes have led the publisher to make a new and thoroughly revised edition, reproducing the whole work, with special reference to making the work complete and reliable, without regard to expense. No pains have been spared to make this revision, that the most implicit reliance can be placed upon the work, as authority on all the subjects of which it treats.

Over two hundred and fifty pages of new matter have been added to meet the requirements of the times.

The utility of such a work, no one will now question. The sale of hundreds of thousands of copies of the former editions, and the constant demand for it have satisfied that professional gentleman, the farmer, the mechanic, the manufacturer, the soldier, the sailor, each requires a convenient, comprehensive work which will enable him to draw up any instrument in writing that may be required, in a legal form, which will furnish such legal information as will save the various vexations of life, a book that everybody can understand, and that will enable every man or woman to be his or her own lawyer.

There is no class of the community, male or female, who have, or expect to have, any property, or who have any rights or privileges which require protection, but will be benefited and materially advantaged by the possession of this book. It will save them money, save them trouble, save them time, and save them vexation of spirit, and give them information that nobody can afford to be without.
