SCHENCK'S MANDRAKE PILLS

will be found to possess those qualities necessary to the most evidence of all bilious affections, prompt to start the secretions of the liver, and give a healthy tone to the entire system. Indeed, it is no doubt a discovery in Medical Science to have invented a remedy for those stubborn complaints, which cost so all the exhausting doses by a hypocrite free use of calomel—a mineral partly dressed by mankind, and not knowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, therefore, I implore those who are afraid of calomel and those who use the Mandrake Pills will be fully satisfied that the best medicines are those provided by nature in the common herbs and roots of the field.

The Pills open the bowels and correct all bilious derangements without salivation or any of the injurious effects of calomel or other mineral. This conclusion or bile is protected by these Pills, as will be seen by the altered color of the stools and disappearance of the yellow complexion and cleansing of the tongue.

It has long been thought by the profession that calomel or some other form of mercury was the only medicine that would restore the deranged or depraved secretions of the liver. But such is the poisonous effects of any form of mercury, in producing salivation, caries of bones, and a premature decay, that the profession has long ago endeavored to find some other preparation that would act as well upon the liver, without any of the dreaded results of mercury.

In some of the Prize Essays in Europe it was regarded that the discoverer of this remedy was deserved to the lasting gratitude of the entire human race.

This preparation Dr. J. H. Schenck, of Philadelphia, has certainly discovered in the Vegetable Kingdom, and its active principle is contained in the Mandrake Pills. It is a sovereign cathartic, producing a healthy action of the liver as any of the forms of mercury, and entirely free from any dangerous or disagreeable results.

Dr. Schenck is professionally at his principal office, Philadelphia, every Saturday, where all letters for advice must be addressed.

He is also professionally at No. 39 Bond street, New York, every Tuesday; 35 Hanover street, Boston, every Wednesday. He gives advice free, but for every examination with his Kaleidoscope the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 per half dozen. Mandrake Pills, 25 cents a box. A full supply of Dr. Schenck's medicines for sale at all leading drug stores.—[Evening Telegraph, April 1, 1867. 217
