CONSUMPTION.

DR. SCHENCK AND HIS MEDICINES.

No physician in the whole country is better or more widely known than Dr. J. H. Schenck, of Philadelphia, who visits Boston professionally at the permanent office at No. 38 Hanover street. We have so several times wasted Dr. Schenck's own, we have seen his pamphlet, the second or third time, perhaps, and felt we owed the improvement in some of them; we have heard the doctor address them in a body when his limited time would not enable him to examine them individually, and we now add our mite unto the thousands heretofore given him. His name is generally familiar to thousands of Boston, in the form of a has happily received from communing dinner and testimonial to health thousand upon thousands who have been the dreary prey of the regular, friendless and consult doctors and given over as hopeless. Himself rescued, as it were from the impending grave which apparently in the last stages of consumption, it is not a matter of wonder that he has entire confidence in the restorative powers of his own medicine, he is strong, nervous, active and robust, a man as one would be likely to rely upon the office of a public health. The fact that he possesses its arduous profession the public day, and then travels the entire night to reach his next office, as from Boston to New York, Philadelphia and Baltimore each week indicates both his physical ability and his business and the extraordinary demands which are thus made upon him. If he were not "as rough as a truck horse" to use a homely but expressive comparison, he could not stand it as he does, and maintain his vigorous health and an exhaustless flow of animal spirits. The secret of it is in having cured himself by the right sort of remedies, and resorting to them personally whenever occasion requires. What was seemingly so miraculous in his case is not a whit more than is witnessed in a hundred of every month by under his own eyes. The plain and emphatic truth is, his medicines act with and assist nature, instead of running counter to her methods. In this important respect they differ essentially from those used by the regular faculty. His theory of diseases, treatment of patients and kindred matters are also in contrast to other physicians, and so much so as to render his system peculiar and original. In the cure of Pulmonary Complaints, Affections of the Liver and Stomach, we presume Dr. Schenck now stands at the head of American practitioners. This is certainly the case if the number of cures he effects on an immense scale of skill and correct doctrine. Dr. Schenck has three preparations which are accomplishing most remarkable results, viz.

1. PULMONIC SYRUP.
2. SEAWEED TONIC.
3. MANDRAKE PILLS.

These are the magic wands which he wields with such wonderful beneficent effects. With these he strikes the stronghold of disease, and achieves successes which are the admiration and astonishment of the public. With the marvelous healing virtues of these compounds, added to the good advice of the Doctor, there are few cases indeed that are not followed by all that the patient can hope. His method of expelling disease from the system is thus made clear, simple and effective. He does not experiment with and victimize those who seek him for treatment. He knows just what his medicines will and won't do, and so one will be left in doubt as to the matter. If he knows him, he will save many a patient's money that cannot be helped or cured. People who have bad lungs, bad livers and bad stomachs should advise with Dr. Schenck, for he is the man to help them. The trio of pills just named comprehends, or causes, about all the maladies flesh is heir to, and once taken in hand in the right manner a cure is likely to follow. Dr. Schenck makes the stomach clean and strong and healthy, and puts it in working order as a starting point. This is in fact, the foundation of his cures. He then sets it to making the material for good blood, and puts it in the whole body. Very sensibly and naturally he believes in making the mill grind the corn. Of course the liver and other organs are looked after sharply at the same time. It is just probable that a disease which is at all curable within his line of practice would resist Dr. Schenck's most admirable combination of medicine, and the sick may therefore go to him with every expectation of restored health—the greatest of human blessings.

Dr. Schenck is professionally at his principal office, Philadelphia, every Saturday, where all letters for advice must be addressed.

He is also professionally at No. 32 Bond street, New York, every Tuesday, 35 Hanover street, Boston, every Wednesday. He gives advice free, but for every examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Pills of the Pulmonic Syrup and Seaweed Tonic each, $1 50 per bottle, or $7 50 per half dozen. Mandrake Pills, 25 cents a box. A full supply of Dr. SCHENCK'S medicines for sale at all times at his rooms; also by druggists generally. 248

TEAS AND COFFEE.

THE GREAT AMERICAN TEA CO., ESTABLISHED 1861.

THE IMMENSE PROFITS OF THE TEA TRADE GREATLY REDUCED.

The proprietors became fully convinced, several years ago, that the consumers of Tea and coffee were being taxed, many and to large profits on these articles of every day consumption, and therefore organized THE GREAT AMERICAN TEA CO. of New York, to do away, as far as possible, with these enormous gains, and to supply them with these necessaries at the smallest possible price.

To give our readers an idea of the profits which have been made in the Tea trade, we will start with the Japan Tea, which, leaving out of the account entirely the profits of the Chinese Factors.

1st.....The American Importers in China or Japan make large profits on their sales or shipments—and some of the richest retired merchants in this country have made their immense fortunes through their houses in China.

2nd.....The banker makes large profits upon the foreign exchange used in the purchase of Tea.

3rd.....The importer makes a profit of 30 to 50 per cent, in his sales.

4th.....On its arrival here it is sold by the cargo, and the purchaser sells it to the speculator in two per cent. (1,000 to 2,000 pkgs), at an average profit of about 10 per cent.

5th.....The speculator sells it to the wholesale tea dealer in lines at a profit of 10 to 15 per cent.

6th.....The wholesale tea dealer sells it to the who ole grocer in lots to suit his trade, at a profit of about 10 per cent.

7th.....The wholesale grocer sells it to the retail dealer at a profit of 15 to 25 per cent.

8th.....The retailer sells it to the consumer for all the profit he can get.

When you have added to these eight profits as many brokerages, cartages, storages, cooperages and waste and add the original cost of the tea, it will be perceived what the consumer has to pay. And we we propose to show why we can sell so very much lower than other dealers.

We propose to do away with all these various profits and brokerages, cartages, storages, cooperages and waste, with the exception of a small commission paid for purchasing to our correspondents in China and Japan, one cartage and a small profit to ourselves—which on our large sales will amply pay us.

Parties getting their Teas from us may confidently rely upon getting them pure and fresh as they come direct from the Custom House stores to our warehouse.

The Company continue to sell at the following prices:

OOLONG, Black, 60c, 70c, 80c, best 90c per lb.
