COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, see Fourth Page.

THURSDAY, P. M.

The Stock Market, under the effect of the Washington news, opened considerably higher than yesterday, but it afterward fell off and closed but little higher than yesterday. At the Second Board the quotations were still lower. A heaviness of the market followed the telegraph report that the amendment to the Sub-Treasury was lost.

In Foreign Bills there is little or no movement. Sterling is 5@5¼, and Francs 5,40, but almost nominal.

The Freight Market is steady, and there is a good demand for vessels. Three or four barks were taken for Ireland at 26d.@27d. in bulk and bags. Two ships were taken for Glasgow at 7s. 9d.@8s. and 26d. A ship of about 7500 bbls. was taken for Antwerp at $16,000. To Liverpool the current rates are 8s., 28d., ½d. for Cotton, and 90s. for heavy freight. To Havre the packet is taking Flour at $2. Cotton at 2 cents, and Grain at 55 cts.

The Money Market is pretty well supplied, although paper is more abundant than it was, and the rates are a little higher. Some descriptions of paper are very plenty, having been set afloat in the purchase of exchange for specie importations, and this paper is selling at 8@9 per cent. in the street. The Banks have as much as they want of it. Stock loans on the last securities are negotiated with freedom.

There is considerable activity in Treasury Notes. For $100,000, old ones, 100¼ was bid. A sale of $50,000 was made at 101, 30 days, and about 50,000 of the new issue were sold at 102.

The Secretary has not yet furnished any of the stock for which certificates from the Sub-Treasurer were sent to Washington. This delay is outrageous.—There is now another cause of complaint against the Department. Large amounts of specie have been deposited with the Sub-Treasurer for the purchase of 5 2-5 per cent. Treasury Notes. The certificates have been sent to Washington and instead of receiving the Notes, the owners are coolly informed that the Department has run out of blanks, and the parties must wait until more are printed. It is conceded that such a blundering administration of the Treasury Department never before existed.

The Manhattan Gas Light Company has declared a semi-annual dividend of three per cent.

There is to be a sale of $90,000 Mobile city bonds at Philadelphia, on the 6th of April. The interest upon them has always, we believe, been punctually paid. The sale is on account of the trustees of the Bank of the United States.

SALES OF REAL ESTATE.

By A. J. Bleecker—3 story brick house and lot 120 Lewis-st 25x100, $3,950; 2 lots on Third-avenue, corner One-hundred-and-eighth-st. with buildings thereon, together 50x100, $1,400.

By J. S. Platt—House and lot corner Birmingham and Henry-st. $4,140; House and lot adjoining, on Henry-st. $2,815; house and lot adjoining on Birmingham-st. $1,750.

Markets—*Carefully reported for The Tribune.*

THURSDAY, March 4.

ASHES—*Of Pots* about 400 or 500 bbls had been sold at 4 75@4 87½. We hear of nothing doing in Pearls, but the market is held at 6 50. There were buyers at 6 25.

COTTON—The sales to-day have amounted to 2000 bales, the majority of which has been taken by Spinners. Prices are without farther change from yesterday. Holders evince no anxiety to realize and the general one of the market is healthy.

FLOUR AND MEAL—There is rather less firmness in the market but no material change. There is considerable doing by the trade at 7 12½@7,25, but it is not easy to sell for shipment at $7. About 2000 bbls Michigan and Oswego sold at that rate. The stock is now reduced very low. To arrive after the opening of the Canal 4000 bbls sold at $6. For Southern there is a very moderate demand and Baltimore, Richmond, Georgetown and Brandywine are quoted at 6 62½@6 75. Meal is without particular change and we note sales 3600 bbls supposed at $5, to arrive. A sale of 200 hhds Brandywine, not regular, was made at 20 25. Rye Flour is nominally $5.

GRAIN—The supplies of Corn continue to be large and prices are not firm. Buyers are endeavoring to obtain lower terms. The sales are about 50,000 bushels at 90 and thereabout for White Southern, 95 for White Jersey, 95@96 for Yellow Southern and 97@98 for Yellow Jersey. A sale of 30000 bushels to arrive the 10th of April sold at 90, and 5000 do. on opening river at 90 cents. To arrive in June, 70 was offered and 75 asked. A small parcel of Red Jersey Wheat sold at 150 cents. White is nominally 170@175. Barley 75@80 without sales. Rye is also nominally. Oats 40@42 for South-ern, 41@43 for Jersey and 48@50 for Northern.

WHISKY—Bbls cannot be easily sold over 28½ but holders ask 29. Drudge is 29 with small sales.

HAY—Sales 400 or 500 bales at 60@65 cents.

GROCERIES—The markets generally are very heavy. Sales two or three cargoes Cuba Molasses at 25 cents, 4 months. The adjournment of Congress without any additional duty on Tea and Coffee has a tendency to depress the market.

SEEDS—A sale of 100 bbls new Clover was made at 4½ cents which is lower. Rough Flax is selling to some extent at $11@11 37½. Timothy is quiet at $20@$22. Sales 200 bushels reported at $2,25 ⅌ tierce.

OIL—We note sales 1000 gallons Dutch Linseed at 79 cents, cash, and a small lot Country at 77 cents, cash. English is nominally 80 cents.

OIL CAKE—A parcel of thick, about 40 tons, sold at $35, cash.

SALERATUS—The market is up to 6 cents in consequence of the rise in Pearls.

NAVAL STORES—Crude Turpentine is selling to some extent to distillers at 2 25 ⅌ bbl. Sales 100 bbls Spirits at 40 cents, cash.

LEATHER—There was a public sale yesterday of 10,000 sides Sole Leather, showing an advance of from 3 to 3½ cents on last Fall prices. The stock on hand is light, supposed to be about 150,000 sides.

HIDES—A sale of 1600 Matamoras was made at 9 for Salted and 12 for Dry, 6 mos. A parcel of 2900, same description, is withheld from the market. The importations continue very small.

SKINS—Sales 3000 Rio Hache on private terms, but at full rates.

PROVISIONS—The market for Pork remains dull, and Prime was offered at 12 25; Mess 14 25 and firm. Of Prime Mess about 500 bbls sold at 14 50 and an extra lot of 100 bbls sold at $16. Sale small parcel new Prime Mess at $16. In Pickled Meats there is more doing. Sales 40,000 ℔ Shoulders at 5, 5⅛@5¼ cents, and 60 hhds Hams at about 8¼ cents. A lot of 25,000 ℔ Sides for England sold at 11 cents. Lard is nominally 10½ in bbls with 10¼ cents bid for a lot of tierces and kegs. Sales 300 kegs at 11 cents and a parcel of fancy packages about 5 ℔ each, at 13 cents. Beef is without change and steady at $8 50@9 50 and $11@$12. Butter and Cheese continue in good request and the stocks are small. Cheese is quoted at 7½@8¼, and Butter at 14@25 cents. No good below 20 cents.

☞ **"Facts for the People."**—Exposure to cold when the body is heated, wet feet, putting on or keeping on wet clothes, in addition to hereditary disposition or unwholesome employment, are some of the primary and most frequent causes of that fearful disease—PULMONARY CONSUMPTION. For the removal of the *effects of these causes*, freeing the system of all obstruction, allaying irritation and promoting a healthy action of the lungs, the most speedy and certain remedy is THOMSON'S COMPOUND SYRUP OF TAR AND WOOD NAPHTHA.

This preparation is formed by a union of some of the principles of our most valuable *vegetable pectorals* in a combination with TAR—the value of which, in all affections of the breast, all know and confess. Since its introduction, of those who have employed it,

"None name it but to praise."

And even the prejudice of Physicians to the employment of combinations, of whose exact constituents they may be ignorant, has been so far overcome that *this one* has been recommended and is now daily *prescribed* in their practice. Prepared only by Anguey & Dickson, successors to S. P. Thomson, cor. Fifth and Spruce sts. Philadelphia. Sold, wholesale and retail, by WYATT & KETCHUM, 121 Fulton-st. and at retail by H. Hats.

☞ **Fashionable Hats**—SPRING STYLE.—JOHN N. GENIN, 214 Broadway, justly celebrated among fashionable gentlemen as the true connoisseur in finishing Hats; particularly his Silk Hats are the most superb ever offered the public.

ADVICE TO HAT WEARERS.—Never buy a Hat unless the brim suits your form and countenance, for on that depends its beauty and elegance. An experienced fitter is always in attendance at Genin's, who will not sell a Hat unless it suits the form and size of the purchaser. This is the reason of the popularity and preference manifested for his Hats; 'tis this that has caused them to be enrolled as the "ne plus ultra" of Hats. Particular attention is called to his new style of dotted Silk Lining. m3 1wis

☞ **A Lesson in Economy**—*Original Phenix Hat and Cap Manufactory*, 103 Fulton-st. *next to the Church.*—SPRING STYLE.—The proprietor of this establishment is constantly demonstrating the fact that a Beaver Hat can be sold for $3 50 and a Moleskin Hat for $3 superior to four-fifths and equal to the very best $5 hat sold in the city or elsewhere, equal in style, beauty of shape, completeness of finish, neatness of lining, and every other requisite whatever. This fact is the result of a system which, if more generally adopted, would prove a great and to much ruinous extravagance, upon which so many tradesmen have made shipwreck of their hopes. The success of the Phenix proves conclusively that a low rent, the utmost economy in expenditures, quick sales for cash, with small profits, can compete triumphantly with the most glaring and costly establishments of the day, and that the sacrifice of no point, important or unimportant, in the manufactory of a hat is necessary to enable the proprietor to warrant a saving of from $3 50 to $5 per hat, equal to each of his patrons. The schedule of prices as below:

1st quality Nutria	$3 50	1st quality Cloth Caps	$1 50
2d " "	3 00	2d " "	1 00
1st " Moleskin	3 00	3d " "	75
2d " "	2 50		

In addition to the current Spring style (a beautiful article) he keeps on hand an assortment of different styles adapted to all peculiarities of form and feature, and is also prepared to make to order, at short notice, Hats, Caps, &c. of any pattern. m3 1wis

☞ **Knox,** of 128 Fulton-st. is now ready to supply the public with elegant Hats of his Spring Fashion. The quality of the article he offers for public approval and patronity of the article he offers for public approval and patronity can be judged from the fact, that no man ever purchased a Hat at his establishment but who became a permanent customer. He will not say anything of his long experience, his peculiar facilities and taste, as the public press have circulated the fact that he has had no superior in his business for years past. m1 9ts

IMPROVED MAGNETIC MACHINES.
MOORHEAD'S
Graduated Magnetic Machine.

☞ **This Instrument** is an important improvement over all other forms of manufacture, and has been adopted by the medical profession generally, as the most effectual Machine in use. It is perfectly simple in construction and therefore not liable to get out of order, as is the case with similar instruments. It admits of perfect control and can be GRADUATED to any power, adapted for any infant, or sufficient for the strongest adult, at the pleasure of the operator. The magnetic force is imparted in a continuous manner and with no unpleasant sensation to the most delicate patient. It requires no assistant in its use, and is in every respect perfectly harmless.

The diseases in which the Magnetic Machine has been found most beneficial, are those comprehended under nervous complaints; among which are Paralysis, Tic Doloureux, Fits, Rheumatism, acute and chronic; Headache, Deafness, Bronchitis, Dyspepsia, Spinal affections, Palpitation of the Heart, General Debility and Deficiency of Nervous and Physical energy. Many of the cures performed are truly wonderful; some of them in diseases of the most serious and obstinate character known to the medical profession.

As an evidence of the superiority of these machines over all others in use, reference can be made to several of the most distinguished among the medical profession, who have used them in a great variety of complaints with surprising success. A single trial will test their advantages.

Each machine is neatly arranged with the battery and all necessary appliances, put up in neat rose-wood cases. Accompanying each are full directions regarding its use and application.

☞ Owing to the facilities possessed by the subscriber, the Graduated Magnetic Machines are sold at prices equally low as those charged for inferior articles. They can be readily sent to any part of the country.

Price of the machines $5, $10, $12 and $14 each, according to size and finish. Each instrument is WARRANTED.

Physicians and others are cautioned against purchasing the imitations of these machines, under whatever name, as they will be found of little or no value.

Manufactured and for sale, wholesale and retail, by
m4 tfs D. C. MOORHEAD, 182 Broadway, N. Y.

☞ **Dr. Wood's** Sarsaparilla and Wild Cherry Bitters, for the permanent removal of all such diseases as take their rise in an impure blood impaired digestion, morbid state of the liver and stomach, weakness of the nervous system, and a disordered habit of constitution, and the whole class of diseases, for which the medical faculty have for years united in prescribing the celebrated Sarsaparilla and the Bark of Wild Cherry.

Dr. Wood's Sarsaparilla and Wild Cherry Bitters, is the only medicine ever made of these articles, and founded as it is on the best medical principles, and their virtues extracted by a rigid chemical analysis, experience has shown its unusual power and efficacy and will be found on trial, to be a sure and speedy remedy for the diseases enumerated above. They purify the blood, secure regular digestion, promote a healthy action of the liver and stomach, and strengthen the nerves, at once securing health and vigor to the whole system. In all cases of despondency, from indigestion or nervous irritation, they have been used with remarkable success; nor are they less useful as a remedy for headache, flatulency, loss of appetite, and a general prostration of the system. At the same time, it must be stated, that they are neither violent nor at all dangerous in their operations, securing as they do the desired end, by a steady, regular, and easy influence.
