COMMERCIAL AND MONEY MATTERS.

For sales of Stocks, &c. see Fourth Page.

THURSDAY, P. M.

There was no marked change in the fancies to-day, and the transactions were to moderate extent. The investment stocks are steady, but the demand is not large. There is a want of life in the market which seems to preclude the possibility of any considerable rise.

For Exchange there is but little inquiry, excepting for the purpose of importing specie. The range for Sterling is 3@4¼, leading bills being steady at 4@4¼. The large banking houses are buying up low priced bills freely and giving their sixty-day paper for them.

There is considerable activity in the Freight market, but rates have given way. Engagements in British bottoms have been made at 6s 9d@7s for Flour, and 9¼d for Grain. The Lord Wellington, second class, took 20,000 bushels Corn at 90¾. Two American ships were taken up at 7s 6d for Flour and 21@25d—50,000 bushels—for Corn. The Skiddy and Rainbow also took Flour and Grain at these rates. Several engagements were made for Ireland at 24@25d. Oats to Liverpool shipped at 16d. Heavy freight 80s. For Havre $1 75 and 50c were paid for Flour and Grain, and two ships were taken to go round to load for Havre at Philadelphia at $2 per bbl.

The best paper was sold in the street to-day at 8 per cent.

A meeting is to be held at the Pacific Hotel, 162 Greenwich-st. this evening, for the purpose of taking into consideration the propriety of organizing and locating a new Bank in the Third Ward of this City.

The Collector of this port has given official notice that, in accordance with the instructions from the Treasury Department, all parts of New-Jersey lying east of the Hills, including Jersey City, are now attached to the district of New-York, and under the jurisdiction of the Collector thereof.

The annexed statement shows the amount of tonnage arrived and cleared at this port during the year 1846, compared with 1845. The increase is very great, both in inward and outward tonnage:

There have been considerable sales made of Government Sixes of 1867 (funded Treasury Notes) at 21@22 per cent. premium. The seller allows interest from 1st January last to the buyer, whatever may be the date of the certificates.

In pursuance of an act passed by the Legislature of Indiana, in January, 1846, entitled "An act to provide for the Funded Debt of the State of Indiana, and for the completion of the Wabash and Erie Canal to Evansville," and of the supplementary Act passed by the Legislature of said State in January last, a meeting of the subscribers toward the completion of the said Canal will be held in this City on the 29th day of April next, for the election of two Trustees in behalf of the said subscribers according to the provisions of the said acts.

The Hartford and New-Haven Railroad Co. have declared a semi annual dividend of three dollars and fifty cents; the Sussex Bank, N. J. a semi-annual dividend of 4 per cent. payable on demand; and the Belvidere Bank (on the Delaware) a semi-annual dividend of 4 per cent on demand.

The Jersey Associates have a company of men engaged in preparing the way for the accommodation of the Cunard line of ocean steamers at the foot of Grand-st. Jersey City, deepening the channel, &c.

We learn from the Detroit Advertiser that the bill providing for the payment of the interest on the State Debt after 1849, which had previously passed the House, was rejected in the Senate on the 15th. The Advertiser regrets that a measure of such vital importance to the reputation and interests of that State should have been defeated.

The Commissioners for the Morris, Sussex and Warren (N. J.) Railroad charter, have advertised to open the books at Dover on the 19th April, at Belvidere on the 20th, Bridgeville on the 21st, Hope on the 22d, and Hackettstown on the 23d.

A meeting is called to meet at the Broadhead House, in the Delaware Water Gap, to consider measures relative to the extension of the Morris and Essex Railroad to the Gap, and thence to the Lackawana Coal Beds, agreeably to the charters. The highest estimate of the cost of a road from Belvidere to Stanhope is $300,000, and the Warren Journal says if those interested in its completion will subscribe *half* the amount, the work will be commenced immediately.

At a meeting in Richmond, Va. in relation to the Richmond and Danville Railroad, a letter was read from a gentleman in New-York, proposing to contract for the construction of the entire line, and take from $100,000 to $150,000 of the stock in part payment.

On Thursday, twenty-one canal boats from Delaware City arrived at Philadelphia in tow of the steamboat Pennsylvania. Additionally to which, the steamer Superior arrived with twelve boats laden with Wheat, Flour, Grain, Iron, &c. These boats generally were of the largest class, and were laden with produce from the interior of the State.

The following table from the Buffalo Commercial shows the time of opening of the Lake and Canal for the past twenty years:

The brig Ann Stille arrived at New Orleans on the 10th, from Tampico, brought over $9,600 in specie.

The bill allowing the Fitchburg Railroad Co. to cross into the City of Boston passed its third reading unanimously, in the Senate, on Wednesday.

Markets.... *Carefully reported for The Tribune.*

THURSDAY, March 25.

ASHES—There is a fair business doing, and we notice sales about 100 bbls at $4 87½ and $6 25 for Pots and Pearls. Also a sale of 100 bbls Canadian Pots at 4 75, short price being the residue of the parcel.

COTTON—The market for this article has at length opened, and the sales to-day reach 1500 bales, taken almost entirely by manufacturers. In prices of the finer qualities there is no change, while on grades below Fair there is a decline of ¼ cent ⅌ lb. Holders maintain great firmness, and continue very indifferent about selling.

FLOUR AND MEAL—There is a pretty good demand for parcels on the spot, and to arrive there is a large inquiry, but the advanced rates demanded by sellers has prevented much business to-day. Of lots here about 3000 or 4000 bbls have been sold at $7 @7 12½ for Michigan, &c, and $7 12½@7 25 for Genesee, good brands. To arrive on the opening of the River, 3000 bbls sold at 7 12½, and to arrive in May, 1500 bbls sold at 6 25, which is an advance; also 500 bbls fancy Ohio in May at 6 50. There was considerable inquiry for the French market. In New-Orleans we hear of nothing doing. The inquiry for Southern is fair, and about 3000 bbls Philadelphia sold at 6 50, and 300 do Alexandria at 6 25; Georgetown is held at 6 75, and Baltimore, &c. 6 62½. Meal recovered somewhat from the decline of yesterday, and was in demand at 4 75. Sales 2000 bbls Northern to arrive in May at 4 50 and thereabouts, and 2000 do on the spot at 4 75@4 87½. Rye Flour is 4 62½@4 75. Small sales.

Correspondence of Buffalo Commercial Advertiser.

DETROIT, March 13.—In answer to your communication asking for information in relation to the stock of Flour and Wheat at this point, I would state that after a careful examination, I have ascertained that there is now in store here 170,000 barrels of Flour, 25,000 bushels Wheat, and some Ashes. There will be no Pork to ship. We shall have at least 200,000 bbls Flour by the opening of navigation, and were our Central Railroad in a condition to do all the business that will be offered it, 225,000 bbls might reasonably be expected. Yours, &c.

GRAIN—In Wheat we hear only of 1500 bushels Southern for milling at 128½, but there wereseveral negotiations for lots to arrive, on foot. The transactions in Corn continue to be very large—much the larger portion, however, to arrive in the Summer. The sales to-day of all descriptions reach 175,000 bushels, of which there were 20,000 Southern Mixed and White to arrive soon, at 85@86; 10,000 do Jersey at 94 do; 20,000 Northern, opening of River, at 93@94; 40,000 in May at 80 cts; 10,000 do in June at 75, and 30,000 do th July and August on private terms. On the spot and near at hand 12,000 Southern White and Mixed sold at 85@86; 20,000 do Southern and Northern and Jersey Yellow sold at 92, 93, 95@96 cents. Rye was in fair demand to arrive at 90 cents, Barley nominally 70 cents, to arrive. Oats 43@44 cents for Jersey; 44@45 for River. Beans and Peas in small supply and firm.

WHISKY—Sales 50 bbls at 27½. For Drudge 27½ was bid, 28 asked.

HAY—Some 500 or 600 bales have been sold at 56½ cents per cwt.

RICE—Since the steamer arrived there have been sales of about 1000 tres at $4 for fair to $4 75 for prime. Some inferior sold as low as 3 50, and a very choice parcel brought $5. The decline of 25 to 37½ cents, notified just before the arrival of the Steamer has been recovered.

SEEDS—There is nothing doing in Clover, and we notice sales 100 bbls new Pennsylvania at 8 cents, and 120 do new Ohio on private terms. Rough Flax is scarce and wanted at $11 50. Timothy dull at $18@23, the latter for repd.

SPIRITS TURPENTINE—Sales 300 bbls at 41 cents, cash.

OIL MEAL—A sale of 30 tons was made at 1 37½ per cwt. cash.

PROVISIONS—Old Pork is heavy, and we hear of few or no transactions. Prime could be bought at $12, and one lot was offered below that figure. Of new there have been 1100 bbls sold to arrive in June at 12 50@$13, and $15 for Prime and Mess. Beef is quiet, but steady. We quote $ 50@9 50, and $11@$12. Last sale good Beef Hams $16 50. Pickled Meats are firm. Of Lard there have been sales of 400 or 500 bbls at 9@10 cents, according to quality, and 400 or 500 kegs at 10½@10¾ cts. There has been a little movement in the small stock of Cheese remaining, and 600 box taken at 7¼@8 cents. Butter is scarce and firm.

BOARDING AND DAY SCHOOL
FOR YOUNG LADIES—MRS. BAILEY having made arrangements to enlarge her establishment in the course of the Spring and Fall, would call the attention of parents and guardians to the advantages offered the pupils in this Institution, for acquiring a thorough and accomplished education. The senior and Junior Departments are now placed under the direction of an able gentleman from Philadelphia, who has had great experience in the instruction of young ladies. Additional teachers are also employed in these and the other Departments, and all will be subject to Mrs. Bailey's immediate supervision. Every effort is made to render the young ladies happy and contented; to inculcate kind, polite, and amiable manners; and to cultivate them to constant exercise and progress in their studies, by rendering the same, as far as possible, attractive and pleasant. The school is furnished with charts, maps, globes, excellent Philosophical Apparatus, with a number of diagrams for the studies of Astronomy and Geometry. The best teachers are employed in the French Department. This language is taught daily to all the pupils, and, with the Latin, is included in the terms for English Tuition. Vocal Music, both Sacred and Secular, is also taught throughout the school, by a distinguished Professor. The next regular Term will commence on the 1st of May. Those parents, however, who may wish to place their daughters at this institution before that time, will find it to their advantage, as they will enter the classes now forming for the Spring and Summer.

Terms and further particulars may be ascertained, either by post, or by personal application to Mrs. Bailey, at her residence, 10 Centre-place, Bleecker-st.
