SEVEN PER CENT. GOLD

FIRST MORTGAGE CONVERTIBLE BONDS OF THE DANVILLE, URBANA, BLOOMINGTON AND PEKIN RAILROAD COMPANY OF ILLINOIS.

Principal and Interest payable in Gold at the Farmers' Loan and Trust Company, New York. Coupons payable April and October, FREE OF GOVERNMENT TAX.

The Danville, Urbana, Bloomington and Pekin Railroad, upon whose property these bonds are issued, is now in process of construction, its termini being the cities of Danville and Pekin, both in Illinois. The length of the road is 117 5-100 miles; its capital stock, $3,000,000. The grading, bridging, and all the work necessary to perfect a complete roadway has been already done, and the whole line is ready for the rails. These are well located, and a portion of the road is now in successful operation. It is expected that the whole road will be completed early the coming autumn.

These bonds are convertible into stock at par, at the option of the holder, and may be registered in the name of the owner, at any time, if desired. The total amount of bonds is limited to $2,000,000. The security offered is, as we shall show, the very best. Already sums, nearly equal to the total amount of bonds to be issued, have been expended on the road. The bonds averaging less than $15,000 per mile, are secured by a first mortgage on the whole road and entire property of the Company. The road runs east and west on the line of the principal and oldest emigrant wagon road in the State, passing through several populous towns and cities, and the richest agricultural district in Illinois—in a word, through the garden of the Garden State. Its local business alone will suffice to make it a first-class paying road; while, with its connections with many principal lines, its through trade must be such as to make it one of the most profitable in the country.

The road will be consolidated with the line from Danville to Indianapolis, making a line of 210 miles. At Indianapolis connection will be made with all the through lines to New York and Baltimore; at Danville, with the Toledo, Wabash, and Western. In fact, the road will form a main link in the direct communication of the principal Atlantic cities with Southern Illinois, with Keokuk and Burlington, Iowa, and thence with Omaha and the Pacific.

It will complete a direct line from Boston to Peoria, Keokuk, Burlington, Omaha, and the Far West, via Albany, Buffalo, Cleveland, and the Bellefontaine Railroad to Indianapolis and Danville, or via Toledo and Wabash and Western Road.

It will form the most direct line from New York to the same points West via the New York Central, Lake Shore, and Bellefontaine Roads to Indianapolis and Danville, or via the Erie, Atlantic and Great Western, to Dayton, Ohio, and Central, to Indianapolis, Danville, Bloomington, &c., as well as from Philadelphia, via the Penn. Central, to Harrisburg, Pittsburgh, Columbus, Dayton, and Indianapolis.

It will form an important link in the communication of Baltimore and the South with the Great West, the Northwest, and the Pacific, via Baltimore and Ohio Railroad, to Parkersburg, Cincinnati, Indianapolis, Danville, and Peoria.

Thus, with the combined advantages of a certainty of a remunerative local business and a thorough business, which, as a connecting link to so many diverging and principal lines, it must necessarily have, it is reasonable to expect that the earnings of the road must exceed, in proportion to its length, those of any other railroad in Illinois. The following table shows the earnings of some of the principal railroads in Illinois,

Railroads.	Miles road.	Earnings per mile.
Chicago, Alton and St. Louis	279	$13,900
Chicago and Northwestern	1,152	11,670
Chicago, Rock Island and Pacific	410	10,012
Toledo, Wabash and Western	521	7,261
Illinois Central	708	10,115

It is safe to estimate the receipts of the Danville, Urbana, Bloomington and Pekin Railroad for the first year at $12,000 per mile, or on 117.65 miles, $1,404,600.

FIRST YEAR.

Receipts, as estimated $1,404,600

Estimated expenses as follows:

Operating expenses, 50 per cent.	$702,300
Interest on $2,000,000 gold bonds, 7 per cent.	140,000
Premium, 40 per cent on $140,000 gold	56,000
Set aside as Sinking Fund	10,000
	908,300
Leaving net profit over interest and expenses	$496,300

or over 35 per cent. for dividends on the capital stock the first year of its operation. Without doubt, a progressive increase thereafter, each year, would be the result. The geographical location of the road is alone sufficient to convince all of its great value and usefulness.

The stock of the Rock Island and the Illinois Central, the Chicago and Alton, Burlington and Quincy Roads, are all selling at from one to two nearly 200, while none of them are more favorably located, and the competition with either is much greater than this can have. There is no reason why this bond should not sell as high as either of the above. Hence the privilege of converting these bonds into stock of this Company at par any time desired greatly enhances their value.

After having personally and thoroughly examined this road, we accepted the agency for negotiating its bonds. We now offer them at 86 and accrued interest in currency. With the interest payable here in gold, they are as a reliable and safe security and profitable investment.

At the present price they pay 10 per cent. currency—over 45 per cent. in gold, and the same amount invested in Five-twenty Bonds—besides the advantage of being free from tax, and the prospect of a speedy advance in the stock of the road on completion, into which they may be converted.

Government bonds and gold received at their market value in exchange without commission. Bonds forwarded by express free of charge.

Full particulars furnished by the undersigned, Financial Agents of the Company,

TURNER BROTHERS, BANKERS, 14 Nassau street, New York.

A SEVEN PER CENT. GOLD LOAN. $6,500,000.

The Kansas Pacific Railway, now in successful operation from Kansas City to Sheridan, proposes to build an extension to Denver, Colorado. The Government has granted three millions of acres of the finest lands in Kansas and Colorado, which are mortgaged for the security of a loan of $6,500,000.

This loan is secured in the most efficient manner. It receives a net earning in actual operation, from all of the trade of the Rocky Mountain country and connect it with the great markets of the East. It is considered to be one of the best loans in the market.

EVEN BETTER IN SOME RESPECTS THAN GOVERNMENT SECURITIES.

The loan has thirty years to run, principal and interest payable in gold, semi-annually, seven per cent.

The coupons will be payable semi-annually in either Frankfort, London, or New York, and will be free from Government taxation. The bonds for the present are sold in currency at 86, with accrued interest.

Circulars, maps, and pamphlets sent on application.
