NEW-YORK TRIBUNE.

From the Louisville Journal.

SPRING.

I know that the Spring-time
Is come, for I heard
In the morn's early prime
The blithe bluebird;
And high in the clear sky
The martin, that brings
Tidings of Summer nigh,
Warm on his wings!

And see, in the hedge hid
The violet blue,
With its half-opened lid
Laden with dew;
And in the border trim
The crocus lifts up,
As a young novice prim,
Her tiny cup.

And the brook hurries fast
With bright dimpled face,
As a child frolics past
Flushed with the chase;
And the wind wooing sips
Delight as it goes,
From the sweet budding lips
Of the young rose!

Oh! 'tis the season gay,
When earth from its gloom,
Warmed by the vernal ray,
Bursts into bloom!
And the soul's cherished thought,
Imprisoned too long,
By its own fervor taught,
Breaks into song!

Then hail to the Spring-time!
Her sunshine, her showers!
Welcome the merry chime
Heard in her bowers!
Hail her with beaming brow,
With sports and with cheer!
Crown her with garlands now,
Queen of the Year!

CITY ITEMS.

WEDNESDAY, April 14.

IMMIGRANTS FROM HOLLAND.—We understand that the Netherlands Society for the aid and assistance of immigrants from Holland, is now in full operation.—We learn that it has taken all possible measures to warn immigrants against impositions. Those who wish to go to the interior will be sent forward to their destination, without delay, while those who prefer remaining in the City will be provided with situations. The Agent has already many applications for servants, farmers and mechanics. We learn also that a large number of Hollanders may be expected here the coming season. They will be welcome. Their industry and good habits render them valuable citizens.

☞ We learn from the Police Office that the complaint made by Daniel Sweeny against Charles Ellis, charging him with abetting William Colyer of Williamsburgh in bringing men from Williamsburgh, for the purpose of voting for Messrs. Purser and Mullen, in the Fourth Ward of this City, has been dismissed by the Magistrate, Mr. Ellis having been found upon examination to be perfectly innocent of the charge brought against him.

ILLEGAL VOTING.—Hugh Dugan was yesterday arrested for illegally voting in the First District of the Fifth Ward. He was committed by Alderman Benson. Hugh Baylan was arrested for illegally voting in the Sixth District of the Eighth Ward. Committed for examination.

STATE PRISON STATISTICS.—We have been politely furnished by Deputy Sheriff Stanton with the following statistics for the month of March. Number of males received during the month of March, 12; number discharged by expiration of term, 13; died, 3; pardoned, 2; remaining in prison March 31, 756; number of females received during the month, 1; discharged by expiration of term, 1; remaining in prison March 31, 82.

ATTEMPTS TO COMMIT SUICIDE.—A man (name unknown) cut his throat yesterday morning in house No. 209 Mulberry-st. His wound was dressed by a surgeon, when he was taken to the hospital....Jesse Champlin, of No. 23 Leroy-st. attempted to hang himself yesterday in his stable, but was discovered and cut down in time to save his life....A woman named Margaret Byrne, cut her throat about 9 o'clock this morning in Center-st. opposite Center Market. She was arrested and her wound dressed, when she was taken to the hospital.

PETIT LARCENIES.—Harriet Windu, Mary Doughty, Eliza J. Williams and Julia Barto were arrested yesterday, charged with stealing a watch from John Kelly, on the Points. Committed for examination....Andrew Ryan was arrested on suspicion of stealing a carpet. Committed for examination.

☞ The Steamer Hendrik Hudson, Capt. CRITTENDEN, has now commenced her regular trips between this City and Albany. She runs in connection with the Isaac Newton—forming a six o'clock line. The accommodations on this Steam Palace, including the promenades, lounges, eating, sleeping attentions, &c. are not inferior to those of our best hotels.

Gen. Scott and the Foreign Consuls at Vera Cruz.

We have already published the letter addressed to Gen. Scott by the Foreign Consuls at Vera Cruz, praying the suspension of hostilities to enable their respective compatriots to leave the place with their women and children, as well as the Mexican women and children. We now give the answer of Gen. Scott to that request:

HEADQUARTERS OF THE ARMY OF THE U. S. Camp Washington, before VERA CRUZ, March 25, 1847.

The undersigned, Major General Scott, &c. &c. had the honor to receive (late last night) the memorial signed by the Consuls of Great Britain, France, Spain and Prussia, in the City of Vera Cruz, requesting that the undersigned would grant a truce, sufficient to enable the Consuls and the subjects of those Powers, together with Mexican women and children, to leave that city, now under close siege and blockade.

The undersigned deeply regrets the lateness of this application, for up to the 23d instant, the communication between the neutrals in Vera Cruz and the neutral ships-of-war, lying off Sacrificios, was left open mainly to allow those neutrals an opportunity to escape from the horrors of the impending siege of which the undersigned gave to the consuls every admonition in his power.

In respect to a truce, it must, on reflection, be evident to the consuls, that the undersigned cannot grant one, except on the application of the Governor and Commander-in-Chief of Vera Cruz, accompanied by a distinct proposition of surrender. In the meantime the siege will go on with increased means and vigor.

That the unavoidable distresses of the women and children, in the besieged place, had deeply engaged the sympathies of the undersigned, before one shot or shell had been fired by him in that direction, he begs to refer to the accompanying copy of his summons addressed the 22d instant to his Excellency the Governor and Commander-in-chief of Vera Cruz. His excellency chose to consider the Castle of San Juan de Ulloa, as well as Vera Cruz, to be included in that summons, and expressed his confidence in his ability to make a successful defence of both.

The undersigned has the honor to tender to the Consuls of Great Britain, France, Spain and Prussia, the assurance of his high respect and consideration.

WINFIELD SCOTT.

To Messrs. GIFFORD, GLOUX, ESCALANTE, and D'OLEIRE, &c. &c. &c. &c. Vera Cruz.

This communication being laid before the Governor of Vera Cruz, that functionary at once opened the correspondence with Gen. Scott which resulted in the surrender of the City and Castle.

DEATH OF CAPT. VINTON.—Captain Vinton has left a family of four children, *entirely orphan*. His wife was the daughter of Ebenezer Parker, Esq. of this city—a lady endowed with every personal and mental attraction, and one who will long be remembered. She died several years since, leaving behind her a beautiful memory of a young and exemplary wife and mother—one never to be thought of without a recollection of her refined and delicate sensibility. And now the brave spirit of the warrior-husband is joined to that of the loving bride, and it is the tears of the orphan children, of the bereaved and venerable mother, of the band of manly brothers that will water his bier and unite in fond recollections around the sepulchral urn of the hero slain in the battle. And this is only one of the results of this heart-sickening combat. Other bosoms are weeping for the loved—the lost—the early dead. Unless the shouts of the conflict are stopped, and the soft hand of Peace held out, the tide will continue to bring to us the blood-curdling tale of more deaths—more fearful slaughter. And so it will yet be, we fear, until "the policy of an accidental administration of our Government shall have been successfully maintained, in the acquisition of unneeded territory, and the satisfaction of some pecuniary claims!" [Bost. Trans.

MIDSHIPMAN ROGERS.—The New-Orleans Mercury says: "Midshipman Rogers is at Perote, but it is not believed that it is designed to harm him, and the general opinion is that he would have been liberated at Vera Cruz, were it not from the fear that he would impart to our forces important information in relation to the defences of the city.

☞ Capt. Hendrick's company, recruited at Madison under the ten regiment law, came down on the mail-boat this morning. We understand that this company and that of Capt. Brannon, of this city, will leave for New-Orleans on the Talma. [Louisville Jour. 9th.

☞ The official field-return of the forces under Gen. Scott, on the 25th March, before Vera Cruz, shows an aggregate of 13,470—one of the best disciplined and most gallant corps in the world. [Washington Union.

☞ The U. S. steamer Scorpion left Savannah for Vera Cruz on the 9th inst.

FROM GALENA.—The steamer Lynx, Capt. J. Atchison, arrived last night from Galena, the first boat from that point this season. She left Galena on the 30th ult. and reports that the ice in Fever River was broken up by the boats that arrived there on the previous day. The weather was cold, and a good deal of ice running in the Upper Mississippi. She found three feet nine inches water on the Lower Rapids. A part of her cargo consisted of 1500 pigs lead. [St. Louis Rep. 3d.

STABBING.—Yesterday evening, about dusk, Dr. Pendergrast was stabbed near his residence on Market-st. by a man named Rickerson. Two flesh wounds were inflicted in the Doctor's right breast. They are not considered dangerous. Rickerson is in jail. He has a family and is a carpenter by trade. [Louisville Jour. 9th.

Medicines.

GREAT AMERICAN REMEDY.

WESTERN NEW-YORK COLLEGE OF HEALTH, 207 MAIN-ST. BUFFALO, N. Y.

DR. G. C. VAUGHN'S VEGETABLE LITHONTRIPTIC ADVERTISEMENT FOR 1847.—"*I Came, I Saw, I Conquered,*" is most emphatically the case with this article. Disease has ever yielded to its most marvellous medicinal power. Wherever it has gone, and South America, England, Canada, and the United States have proved the truth of this statement, the above quotation, in a strong and pithy sentence, tells the whole story. Invalids, the principle upon which you are cured may not be known to you, but the result of a trial of the article is satisfactory; you are restored, and the secret of the cure remains with the proprietor. The medicine is a compound of 22 distinct vegetable agencies; each individual root has its own particular, exclusive, medicinal property, conflicting with no other compound—each root makes its own cure—and as a perfect combination, when taken into the system, it does the work which nature, when her laws were first established, intended it should do—purifies, strengthens, and restores the broken down, debilitated constitution. Dropsy, in all its characters, will be completely eradicated from the system by its use. See pamphlets in agents' hands, for free circulation—they treat upon all diseases, and show testimony of cures. Gravel, and all complaints of the urinary organs, form also the cause of great suffering, and VAUGHN'S LITHONTRIPTIC has acquired no small celebrity over the country, by the cures it has made in this distressing class of afflictions. So famed, it seems, is this medicine, that it has thus attracted the notice of one of our medical publications. In the the November number, 1846, of the "Buffalo Journal and Monthly Review of Medical and Surgical Science," in an article upon calculous diseases, and "solvents," the writer, after noticing the fact that the English Government once purchased a secret remedy, and also noticing the purchase in 1802, of a secret remedy, by the Legislature of New-York, thus pays tribute to the fame of the Medicine: "Why do not our Representatives in Senate and Assembly convene, in golden and dissolve the suffering thousands of this country, by the purchase of Vaughn's Vegetable Lithontriptic, than which no solvent since the days of Alchemy has possessed one half the fame?" Reader, here is a periodical of high standing, acknowledged throughout a large section of this country to be one of the best conducted journals of the kind in the United States, exchanging with the scientific works of Europe to our certain knowledge, edited by Austin Flint, M. D. and contributed to by men of the highest professional ability, thus stepping aside to notice a "secret remedy." You will perhaps once understand no unknown and worthless nostrum, could thus extort a comment from an high quarter—and consequently, unless it directly conflicted with the practice of the faculty, it must have been its great "fame" which has caused it to receive this passing notice. Kidney diseases, weakness of the back and spine, irregular, painful and suppressed menstruation, fluor albus, and the entire train of female evils which follow a disordered system, are at once relieved by the medicine. Send for pamphlets from agents; and you will find evidence of the value of the Lithontriptic there put forth. As a remedy for the irregularities of the female system, it has in the compound a "root" which has been resorted to in the North of Europe for centuries—as a sure cure for this complaint, and a restorer of the health of the entire system. Liver complaint, jaundice, bilious diseases, &c. are instantly relieved. People of the Western States find it the only remedy in these complaints, as well as fever and ague. Cholera morbus, dysentery, and all bowel complaints, are speedily relieved by the use of this remedy like it, and no calomel or mineral forms any part of this mixture. No injury will result in its use, and its active properties are manifested in the use of a single 50 oz. bottle. For fever and ague, bilious disorders, take no other medicine. Rheumatism, gout, will find relief. The action of this medicine upon the blood, will change the constitution, which originates in the blood—and healthy results will follow. Dyspepsia, indigestion, &c. yield in a few days' use of this medicine. Inflammation of the lungs, cough, consumption also, has ever found relief. Scrofula, erysipelas, piles, inflamed eyes—all caused by impure blood—will find this article the remedy. The system, completely acted upon by the twenty-two different properties of the mixture, is purified and restored—as a partial cure will not follow. The train of common complaints, palpitation of the heart, sick headache, debility, &c. are all the result of some derangement of the system, and this great restorer will do its work. The promises set forth in the advertisement, are based upon the proof of what it has done in the past four years. The written testimony of 1,000 agents, in the United States, England and South America, in the possession of the proprietor—and can be seen by all interested—is a sufficient demonstration that it is the best medicine ever offered to the world. Get the pamphlet, and study the principles as there laid down, of the method of cure. Put up in 50 oz. bottles, at $2; 12 oz. do at $1 each—the larger holding 6 oz. more than two small bottles. Look out and not get imposed upon. Every bottle has "Vaughn's Vegetable Lithontriptic Mixture" blown upon the glass, the written signature of "G. C. Vaughn" on the directions, and "G. C. Vaughn, Buffalo," stamped on the cork. None other are genuine. Prepared by Dr. G. C. Vaughn, and sold at the principal office, 207 Main-st. Buffalo, at wholesale and retail. No attention given to letters unless post-paid—orders from regularly constituted agents excepted. Post-paid letters, or verbal communications soliciting advice, promptly attended to gratis.
