COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

WEDNESDAY, P. M.

The Stock Market was rather heavy to-day for the fancies, but Long Island improved ¼ per cent in consequence of the probabilities of a satisfactory arrangement with the Jamaica Co. The inquiry for sound stocks was good and rates were without change.

The market for bills is dull at 7 per cent for Sterling. France are 5 30@5 28¾.

In Freights there is not a great deal doing, but there is rather more produce offering than last week. To Liverpool 2s and 2s 6d in British and American vessels are the quotations. Grain 7d@8d; heavy goods 30s. To London 3s for Flour. The Waterloo is reported to have 20,000 bushels wheat at 10d. There is a good demand for British vessels to go to Quebec to load. To the Continent the market is very dull.

We heard of loans to-day made on Treasury Notes at ¼ per cent.

The law of Indiana converting her entire Bonded Debt into new transferable stocks, and providing for the interest thereon, having now been carried out by the required subscription to the loan,—payment of the first instalment thereon and the surrender of Bonds,—it will be interesting at this time to give a summary of the arrangement, and showing the different descriptions of stocks into which the old bonds are to be converted, and which will hereafter represent the Public Debt of the State.

Under this arrangement for each bond and its accrued interest the holder will receive:

1. For one-half the principal a certificate for five hundred dollars, bearing interest at five per cent, payable half yearly, commencing in July, 1847; four per cent in cash and one per cent funded to 1853; after 1853 the whole payable in cash.

2. For one-half of the back interest a certificate for one hundred and fifty dollars, bearing interest at the rate of two-and-a half per cent after 1853.

These stocks are payable by the State.

3. For the other half of the principal a certificate for five hundred dollars, bearing five per cent interest after first of January, 1847.

4. For the other half of the back interest a certificate of one hundred and fifty dollars, bearing five per cent interest after first of January, 1853.

These stocks are payable out of the revenues of the Canal.

There will then exist, after the creation of these stocks a the market, the following debt and stocks pertaining to the State of Indiana:

1. Indiana Bonds, as now existing, so long as there are any not converted.
2. The Indiana Canal Loan, bearing six per cent interest, issued for the eight hundred thousand dollar loan.
3. The Indiana State five per cent stock, issued for half the principal.
4. The Indiana State two-and-a half per cent stock, issued for half the interest.
5. The Indiana Canal five per cent, *preferred* stock, issued for half the principal to subscribers.
6. The Indiana Special five per cent, *preferred* stock, issued for half the interest to subscribers.
7. The Indiana Canal, five per cent, *deferred* stock, issued for half the principal to non-subscribers.
8. The Indiana Special, five per cent, *deferred* stock, issued for half the interest to non-subscribers.

The Canal Stock issued to subscribers to the loan will be called "*Preferred Canal Stock*," and be first paid, both principal and interest, out of the Canal revenues, before any payment of either will be made upon the Canal Stock issued to non-subscribers.

The right of all bondholders to subscribe to the loan of eight hundred thousand dollars, and receive preferred Canal Stock, continues until the first of November next; but there is no limit to the time within which bondholders may surrender bonds for the other stocks; it is, however, provided, that bonds surrendered *after* any such payment will not be entitled to cash payments for any part of the accrued interest, but all arrears of interest up to the date of such surrender will be funded into the stock designated above as Indiana State two-and-a half per cent and Indiana five per cent Special Stock.

Thus, in order to receive the cash payment of interest 1st July next, the bonds must be funded *prior* to that time, and in January next, and so on progressively, the difference being in the value of *ten dollars* in a two-and-a half per cent Stock drawing interest after 1853, and in that amount of cash.

The first semi-annual cash payment of interest, being *two per cent* on the Stock designated as Indiana State Fives, will be made in this City by the State agent, on on the 1st day of July next, and as each bond yields five hundred dollars of this description of Stock, it amounts to ten dollars on each.

[Shipping List.

FLOUR AND MEAL—There was a good deal of excitement in the Flour market this morning, produced by the advices per Rainbow, and there were few buyers in market both for home use and for shipment, as well as speculative purchasers. Holders advanced their views rapidly to 8 62½ for Genesee, at which some sales were made. The impression is almost universal that the Steamer will bring still higher figures, and buyers were thus less unwilling to accede to the advance demanded. The transactions reach 12 to 13,000 bbls at 8 37½@8 62½ for Genesee, and 8 50@8 56¼ for Michigan. For future delivery the inquiry was good at full rates, and including some sales last evening, the sales add up 14 to 15,000 bbls at 8¾ per next week, 8 37½@8 50 for June, 8⅝@8 12½ for July, 7 87½ for August, and 7 75 for September; the sales for late delivery were made last evening. There were also several lots sold on the privilege of taking or leaving after the steamer, at 12½ cents on 8 62½. The receipts to-day are 32,000 bbls. In Southern there is but little doing. A sale of 50 bbls Georgetown, to arrive, was made at 9 50, but other parcels offered at that could not be sold. Rye Flour is $7, with sales 200 or 300 bbls. Export, from 1st to 31st May—111,700 bbls Wheat Flour.

GRAIN—The excitement in the Flour market extended to Grain, and Corn advanced 3 to 5 cents per bushel. The inquiry was considerable for shipment, and the aggregate sales reach 40,000 bushels Yellow at 112½@115 cents closing at 114@115. Mixed is 105@110, with sales 10,000 bushels. To arrive, there were sales of 28,000 or 30,000 bushels at 100@102 cents for August. Wheat was in request, with a considerable quantity offering. A lot of prime Genesee, 2,000 bushels, sold at 2 12½, which is an advance; 2500 do Ohio on the spot at $2,00 8,000 to 10,000 Ohio Mixed to arrive at 198 cents; and last evening 2500 do Red at 185 for June. Barley was held high, without sales. For Rye there were buyers at 125, but holders asked 135@140 cents. Oats 64@66 cents, with sales. Black-eyed Peas were held at 3 50 per bag. Export, from 1st to 31st May—471,947 bushels Corn; 66,282 do Wheat; 135,900 do Rye; 51,981 do Barley; 74,925 do Oats.

SEEDS—Clover is dull at 6¼@7 cents. Of Timothy about 900 bbls sold at $4@$4 15. Flaxseed is nominally 131@135 cents ℔ bushel, with sales of a few hundred bushels.

NAVAL STORES—A sale of 650 bbls Crude Turpentine was made at 3 25 for 280 lbs. Spirits are 34@35 cents. The market is rather firmer. A sale of 200 bbls White Rosin was made at 2 50, cash.

There has been a fair demand for Muscovado Sugars but the market is dull at previous rates. Prices of Refined are reduced half a cent ℔ lb. The sales include 700 bhds Porto Rico at 6¼@7¼ cents; 200 Cuba, 6¼@7; 100 St Croix, 7¼@7¾; and 1000 boxes Havana, at 6¼@7¼ for Brown, and 8@8¾, 4 mos, for White. The stock, May 31, consisted of 2794 hhds New-Orleans, 3948 Porto Rico, 1477 St Croix, 3851 Cuba—together 12,070 hhds and 10,313 boxes Havana, against, of Muscovado, 7961 hhds last year. BOARD OF ASSISTANT ALDERMEN, May 31, 1847.

☞ **The following Message** was received from his Honor the Mayor, accompanying the return of the Resolutions, without his approval, adopted by this Board, and concurred in by the Board of Aldemen, May 24, 1847, in regard to the widening and extending of William-street, and fixing the time for the commencement of the same, as follows: from Maiden-lane to John-st. on the first day of August next, and from John to Chatham-street, on the first day of May next.

On motion of Assistant Alderman Gray, the Message was ordered to be published in one or more of the public newspapers, in accordance with the City Charter.

RICHARD SCOTT, Clerk.

MAYOR'S OFFICE, May 31, 1847.

To the Hon. the Board of Assistant Aldermen:

GENTLEMEN—I have had under consideration resolutions for the widening and extending of William-street, passed May 24, 1847, and am constrained to withhold my approval, for this reason, that I do not conceive it practicable to carry said improvement into operation, as proposed by the Resolutions, viz: portions at different periods. By law, the awards for damages are payable within four months after the period fixed for the actual widening and extending of the street, and the assessments are due within sixty days from the same time.

As the whole improvement is embraced within one entire assessment, it would be impossible to collect any portion of the same until two months after the latest period fixed for the widening and extending of the street between John and Chatham streets, while the awards for damages on the part between Maiden-lane and John-street would have to be paid within four months from the earlier period fixed for widening that portion of the street, upon which the city would lose about nine months' interest.

For these reasons I respectfully return the resolutions for your reconsideration, and suggest also the propriety of naming in the resolutions, which you may think proper to pass, a Collector, to collect the assessments.
