Financial.

FIRST MORTGAGE
CONVERTIBLE SINKING FUND
SEVEN PER CENT.
GOLD BONDS
OF THE
DANVILLE, URBANA, BLOOMINGTON AND PEKIN RAILROAD COMPANY
OF ILLINOIS.

Principal and interest payable in gold at the Farmers Loan and Trust Company, New York. Coupons payable April and October 1.
FREE OF GOVERNMENT TAX.

LENGTH OF ROAD, 117 5-100 MILES; CAPITAL STOCK, $3,000,000; TOTAL ISSUE OF BONDS, $2,000,000. The bonds are limited to less than $18,000 per mile, and are secured by a *First Mortgage on the entire property of the Company*, which cost about $40,000 per mile, and which we can say with the utmost confidence will be worth soon after the completion of the road at least double its cost. The consolidation of this line with the Indianapolis, Crawfordsville and Danville Road places over two hundred miles under one management, and furnishes still further security to the bondholders, those bonds having been assumed (a virtual guarantee) by the consolidated Company, under the name of the Indianapolis, Bloomington and Western Railroad Company. This is an East and West road, connecting with direct lines to Boston, New York, Philadelphia, and Baltimore on the east, and with the Pacific roads on the west. It runs through the richest and most populous districts of Illinois, the local business of which will be more than sufficient to sustain it, while the through business (which will be limited only by the capacity of the road) must make it one of the best paying railways in the country. The greater part of the road is now finished, and the balance will be completed and thoroughly equipped by the first of January next.

Over two-thirds of the loan has been taken by actual investors. We continue to offer, for the present, the balance at 90 and accrued interest in currency, at which price they pay about 10 per cent. interest in currency—50 per cent. more than Governments. The high premium which the stock of all the East and West roads in Illinois commands justifies the belief that the stock of this road will also soon soil above par, thus making the convertible clause of the bond a valuable option.

These bonds can be registered. All marketable securities received in exchange at the highest market rates. Bonds forwarded by express free of charge. Pamphlets containing full particulars furnished on application by the undersigned financial agents of the company.
