# NEW-YORK TRIBUNE.

## Fourth of July in the Massachusetts State Prison.

*Editors of the Boston Traveller:*

In this day of novelties and innovation upon old customs, perhaps you may condescend to notice in your interesting Daily, the humble and unostentatious celebration of the 5th, within the precincts of the Massachusetts State Prison. That day was the stated anniversary of the "Society for Moral Reform and Mutual Aid," established in the prison somewhat more than a year since, and was the second celebration of the kind holden by the Society. It was held in the Chapel which was tastefully decorated with flowers. The services commenced at 9 o'clock A. M. and continued till half past 12. The whole of the prisoners were present, the members of the Society occupying the front seats. A number of the honorary members of the Society from without, with other gentlemen, and a goodly number of ladies, were also present to give interest to the occasion.

Everything was conducted in the most perfect order, and was marked with the strictest decorum. The prisoners who had parts assigned them, acquitted themselves most honorably and to the entire satisfaction of all present. The writer of this heard it remarked by more than one of the spectators, that it was the most interesting celebration of the Anniversary of the American Independence, which they had ever attended—The place, the occasion, the talent and taste exhibited on the part of the prisoners, and the perfect order and decorum manifested throughout the whole performances, could hardly fail to excite approbation and even admiration.

The music, both instrumental and vocal, was fine, and all by members of the Society; and should the skeptical be disposed to inquire, "Can any good thing come out of Nazareth?" we would only say, that when another Anniversary shall arrive, "Come and see."

Should you be disposed to notice our humble efforts, Messrs. Editors, the writer will furnish you with some of the speeches and little poems of the occasion, from which you can make such selections as you may see fit.

The order of exercises was as follows:—1. Instrumental Music. 2. Prayer, by the Chaplain. 3. Hymn, by the Choir. 4. Remarks by the President (the Warden.) 5. Glee, by a select number of the Choir—"Pilgrims and Wanderers." 6. Remarks by William Hubby. 7. Original Song. 8. Remarks by Lowry Spence. 9. Poem, by C. Meadows. 10. Song—"A Good Time Coming." 11. Remarks by J. M. King. 12. Poem on the Death of Daniel O'Connell, by Benjamin F. Emery. 13. Remarks by Windsor Hatch. 14. Glee—"Day on the Mountains." 15. Remarks by J. M. Bradley. 16. Poem, by William Bradley. 17. Remarks by Abijah Larned. 18. Remarks by S. W. Smith. 19. "Ode on Science," by the Choir. 20. Instrumental Music.

In addition to the foregoing regularly prescribed order of exercises, interesting and appropriate remarks were made by several gentlemen who were present.

At half-past 12 o'clock, a very bountiful and good dinner was served out to the prisoners, much to their satisfaction and liking; who, though they could not enjoy it *socially*, yet ate it with good relish in the retirement and solitude of their cells. In fine the day and the occasion furnished a rich treat, both to body and mind, to the inmates of the Granite Palace; and it can hardly be doubted that the minds and hearts of very many were quickened and encouraged to go forward and regain an honorable station, in future life, among their friends and fellow-citizens; and we trust they will do it. C.

[The following is the poem, by C. Meadows, which was read on the occasion, with some introductory and explanatory remarks addressed to the President of the Society by the author:]

*Mr. President*—In endeavoring to comply with the request made of me to prepare a poem for this occasion, I was somewhat at a loss upon what subject to write. I asked myself this question—What can I say that will be suitable to the occasion and the peculiar situation in which we are placed? It occurred to me that the motto upon the diploma presented to the members of this Society on their discharge, would furnish a suitable one, and that its sentiment could not be too deeply impressed upon our minds ever before leaving this institution.—The motto is this: "*Hope*, to cheer, and *Faith*, to sustain." This sentiment I have endeavored to express in the humble verses I am about to present.

This day, joyful notes are ascending on high,
Loud peals float along through the bright Summer sky
And echoing hills are repeating the sound,
While Nature is smiling in beauty around.
Oh, long live in memory that firm patriot band
Who bequeathed to their sons this goodly free land;
Like heroes they conquered, and victory won:
"I was *Faith* that sustained them, while *Hope* cheered them on.

But why, on this day, when each breeze passing by
Bears fresh on its bosom a chorus of joy—
When millions are cheering, oh, why are we not
Now mingling a voice in the shout of the free?
Truth blushes to answer, and words to reply—
These garments of shame too plainly tell why;
Yet still we resolve to be freemen again—
Hope brightens to cheer us, and Faith to sustain.
Shall the freeborn submit to be goaded and grieved,
And sully the glory their fathers achieved?
Shall they crouch to a tyrant, tho' powerful and strong,
Or yield to temptation, well knowing the wrong?
No! let us resolve this day to begin
A war of our own, and battle with sin;
Resist the foul monster who thousands has slain,
And Hope will yet cheer us, and Faith will sustain.

Too long have we bowed to the traitor whose might
Has swayed us from honor, from virtue, and right,
And filched the dear treasure most prized upon earth—
The blessing of freedom, the right of our birth.
No more then deceived by the treacherous bowl,
Nor folly mislead us, nor passion control,
But aim in the future the right to maintain,
And Hope will yet cheer us, and Faith will sustain.

If, then, as we journey o'er life's rugged way,
The sunshine of fortune withdraws its warm ray,
And our pathway is darkened with sorrow and care,
Let Faith but uphold us—we need not despair.
Though the heart by adversity sorely is pressed,
Have courage to bear it—'tis wisest and best;
Look onward, and upward, and still persevere,
And Faith will sustain us, and Hope ever cheer.

Be cheerful, my comrades, be cheerful to day.
The cloud that hangs o'er us will soon pass away;
Life is not all darkness; as morn follows night,
A day may be beaming all lovely and bright.
Look forward, still hoping, nor sigh for the Past,
For all must be well, that ends well at last. [care
When this brief life shall close, and we rest free from
May Faith lead us upward, and Hope anchor there.

**PASSENGERS ARRIVED**

*In steamship Southerner, from Charleston*—Chas Walsh, lady, 2 children and servant, Mrs J Washburn, Mrs Bull, Miss Heyward, Miss Heyward, Miss Simons, Mrs A Wells, Mrs J H Grant, Edward W Marshall, lady and 2 children, J Johnson, A J Johnson, W S Johnson, J Miller, Capt David Dunbar, Wm Dunbar, Mrs Carr, Mrs Vance, Miss Alkin, Mrs H Gawdy, Miss M M Burrell, Miss Catherine Froth, Mrs Vanderhout, Miss Vanderhout, Mrs Davis, Miss Davis, Miss E Rice, 2 Misses Watles, Miss A Butler, Chas Das and family, Charles Morgan and lady, Messrs Edmund Ruck, S T Ferguson, Masters John and A Vanderhout, J Murdock, Judge Bronson, lady and 2 daughters, General Hernandez, G Taylor and child, W Stevenson, J C Hanahan, Thomas St John, E W Seabrook, R C Seabrook, J M Moody, Wm Laird, A Gordon, B C Lewis, D E Hull, A Roulain, J A Grant, Ch Cronan, F M Jenings, R H Fushenden, A Wells, H Edwards, H Scranton, Alex Christie, Edward R Lambdin, Geo Froth, C Gill, John P Adams, E Swift, Wm Wallace, J Clancy, J Scheller, E Jencks, Capt Roland, Jno Ingersoll, Lieut Harrison, U S N, Wm C O'Driscoll, J Bradley, John S Fay, Isaac Sawle, S A Olds, Edward Sill, J R Meyer, M Riley, Thomas Wilson, A Woodbury, J Bowen, Judge Duskin, Thos Gates—26 in steerage.

*In brig Tybee, from Apalachicola*—Miss Eliza Warwick, Mrs Archy and child, Mr Fing, lady and child, Messrs Bennett, Babcock, Crow, Roberts, Mullie, Davis, Downer, and Hussey.

*In brig Cayuga, from New Orleans*—Miss J C Smith, Mrs R McDonald and child, J Dillingham—3 in steerage.

*In brig Detroit, from St Marks*—C O Nash, A G Tuttle and Mr Ryan.

## MARINE JOURNAL.

### PORT OF NEW-YORK

ARRIVED.

Steamship Southerner, Berry, 55 hours fm Charleston, mdse, to Spofford, Tileston & Co.

Ship Horatio, (before reported) Crocker, fm Canton, March 18. Left ship Vancouver, Fuller, for Boston.—May 8, lat 28 20, lon 45 30 spoke bark Douglass, Sumner, fm Calcutta for Antwerp, 56 ds out; 9th inst, lat 38, lon 66 20, lir brig Ametyst, fm Halifax for St Jago; 10th, lat 34 20, lon 67 20, ship Sabastas of Pittston, fm Orleans for Genoa; 20 ds out; same day, brig Alert, fm Boston for Port au Prince, 5 days out. Ship Sea Witch, hence for Canton, was reported as having passed Anjier March 18.

Bark Pilgrim, Williams, 12 ds fm Apalachicola, cotton to E D Hurlbut & Co.

Brig Tybee, McCormick, 12 ds fm Apalachicola, cotton to master.

Hamburg brig Hover, Johannsen, 40 ds fm Hamburg, mdse, to Faber & Bierwith. 73 passengers.

Brig Detroit, Ward, 18 ds fm St Marks, cotton and tobacco, to master. 5th inst, off Cape Florida, spoke ship York, of Boston, from New-Orleans for London; same day, boarded schr Palmyra, from New-Orleans for New-York.

Brig Cayuga, Mitchell, 18 ds fm New-Orleans, mdse, to master.

Brig Ann Maria, (of Portland) Ratcliffe, 50 days from Rio Janeiro, coffee, to master. Sailed in co with brig Sterling, for Philadelphia. 5th inst, lat 32 30, lon 68 10, spoke brig Edward, fm Alexandria for Barbadoes.

Schr Comet, Sonney, 19 ds fm New-Orleans, corn to J & R Millbanks.

Schr Grecian, Gilchrist, 19 ds fm New-Orleans, pork, &c. to master.

Schr Dilphin, Salver, 7 days from Newbern, NC, naval stores, to M Pinet.

Schr Lynchburg, Smack, 4 ds fm Richmond, mdse, to Allen & Paxson.

Schr Brilliant, Smith, 4 ds fm Norfolk, coal, to master.

MEMORANDA.

The packet-ship John R Skiddy, Capt Luce, will sail on Thursday next, at 12 o'clock M. for Liverpool.

## Medicines.

A VERY IMPORTANT COMMUNICATION
TO ALL PERSONS IN ALL PLACES,
*At all times,*
AND
UNDER ALL CIRCUMSTANCES!

IF YOU ARE SICK, getured; if well, employ measures to continue so. Every individual indulges in habits, which must, to a greater or lesser extent, disarrange the system, and consequently

EVERY INDIVIDUAL

should possess some mild, yet efficacious, simple and accredited agent for preserving all the functions of the body in good order.

DR. WOOD'S
SARSAPARILLA AND WILD CHERRY BITTERS

will achieve this result, and should be in every family, and in the hands of every person, who, by business, profession or general course of life, is predisposed to the very many little ailments that render life a curse, instead of a blessing, and finally result in their aggravated condition, in the cause

OF DEATH.

The Bitters here mentioned are compounded by a man of great skill and knowledge, from the simples Nature presents to those who care to findthem, and which are the only reliable antidotes to the poison of disease. The chief ingredients are the universally believed *Sarsaparilla* and the *Bark of the Wild Cherry Tree*, with which the red man of the forest cures nearly every disease of the internal organs. These materials, though powerful in their action, are as common error teaches us,

ENTIRELY HARMLESS;

and prepared as they are here, one of the greatest medical governors in the intuitable globe. By taking these BITTERS, the *scrofulous* may be restored to beauty, and avoid the sharp knife of the surgeon; for they not only eradicate pimples and tumors, but overcome

CANCER AND KING'S EVIL!

Whoever is afflicted with the horrors of Costiveness, should at once purchase this *rare remedy*. In the train of Costiveness follow dreadful bowel congestions, oftentimes insanity, very frequently mania or *hypochondria*, violent headaches, palpitations, and other affections of the heart, and excruciating gallings. Dr. Wood's Compound is one of the most efficient medicines in routing these complaints, and their formation head, that can possibly be procured.

From being confined in close rooms, and from taking a small modicum of exercise, numerous persons daily are made to deplore a *loss of appetite*, painful headaches, weakness of the muscles, languor, want of energy sufficient to permit them to seek recreation, &c. &c. These persons say for years, that they "don't feel very well." If they do not employ a method by which they can feel entirely well, they experience a lingering, wasting, and in all of illness, which

SAVED FROM THE GRAVE

only by a miracle, and even then the *lumen, neck, luster and cabinet* have left them more shattered wrecks, full of aches and sorrows, and not only a pest to themselves, but a source of disgust and annoyance to all with whom they come in contact. All these

FEARFUL CONSEQUENCES

may be averted by the early application of the virtues of these BITTERS. For the truth of this, the proprietor pledges his word and honor, and in evidence can show files of unsolicited certificates which he has received, unsolicited from all quarters. He does not, however, ask the invalid to swallow his certificates, but the BITTERS, and is willing to stake all he holds dear on earth in favor of their worth.

THE DYSPEPSIA,

in either *a modified or severe form*, will disappear before the qualities of Dr. Wood's preparation, and the cure may be relied on as a permanent one. Did the BITTERS possess no other recommendation, it would be one of the most vegetable compounds science never can invent; but it is equal to the complete eradication of

LIVER COMPLAINT,

in every shape, and of every affection, minor or gigantic, of the biliary apparatus. Individuals who are constitutionally bilious ought regularly to take this mild agreeable and excellent tonic and APERIENT, as it will at once health throughout every fibre of the system, and harmonize the disturbed frame into thrilling to the heart. *Families ought to keep it as good.*

Every medicine chest on board ship should also be well stocked with this capital remedy, as [illegible] SCURVY [illegible] cannot effect those who take it, or long resist its vigorous results. ALL IMPURITIES of the BLOOD vanish before it, and the old relics of early impurities are invariably disappear, and the system is renovated to its action. *Every constituent of the stomach is broken by it.* THE BITTERS have in an instance failed of curing JAUNDICE, GENERAL DEBILITY every disorganization of

THE NERVOUS SYSTEM.

By neglecting the little intruder made upon the outer a vast portion of our fellow-beings have suffered extremely miserable, indeed, that they wish to die. Every bottle of "Dr. Wood's Sarsaparilla and Wild Cherry Bitters" contains a modicum of joy and content for each of these anxious and imprudent sufferers. Remember that an injudicious use of mercury is inevitably productive of many evils which are put to flight by this glorious and unsurpassable compound; and that afflictions which are

HEREDITARY

may speedily and safely be shuffled off through its agency. As a medicine which must benefit

EVERYBODY,

from the SIMPLY delicate to the CONFINED AND DESPAIRING INVALID, no equal is to be found for it. It would be well to bear in mind that prevention is infinitely more desirable than cure, and that *Dr. Wood's Sarsaparilla and Wild Cherry Bitters* ARE BOTH.

Put up and sold in large bottles, at $1, by WYATT & KETCHAM, Wholesale and Retail Agents, 121 Fulton st.; at retail, 192 Broadway; 311 Bleecker st, N. Y.; J. W. Smith, corner Fulton and Cranberry sts. Brooklyn, and by Druggists generally throughout the United States.

GREAT AMERICAN REMEDY.
WESTERN NEW-YORK COLLEGE OF HEALTH, 207 MAIN-ST
BUFFALO, N. Y.

DR. G. C. VAUGHN'S VEGETABLE LITHONTRIPTIC ADVERTISEMENT FOR 1847.—"*I Came, I Saw, I Conquered*," is most emphatically the case with this article. Disease has ever yielded to its most marvellous medicinal powers. Wherever it has gone, and South America, Mexico, Kingdom Canada, and the United States have proved the truth of this statement, the above quotation, in a strong and pithy sentence, tells the whole story. Invalids, the principle upon which you are cured may not be known to you, but the result of a trial of the article is satisfactory; you are restored, and the secret of the cure remains with the proprietor. The medicine is compounded of as distinct vegetable agencies, each individual root has its own particular, exclusive, medicinal property, conflicting with no other compound—each root makes its own cure—and as a perfect combination, when taken into the system, it does the work which nature, when her laws were first established, intended it should do—purifies, strengthens, and restores the disordered system, without violence or cruelty. Dropsy, in all its characters, will be completely eradicated from the system by its use. See pamphlets in agents' hands, for free circulation—they treat upon all diseases, and show testimony of cures. Gravel, and all complaints of the urinary organs, form also the cause of great suffering, and VAUGHN'S LITHONTRIPTIC has acquired no small celebrity over the country by the cures made in this distressing class of afflictions. So famed, it seems, is this medicine, that it has thus attracted the notice of one of our medical publications. In the the November number, 1846, of the "Buffalo Journal and Monthly Review of Medical and Surgical Science," in an article upon calculous diseases, and "gravel," the writer, after telling the fact that the English throughout Canada purchased a secret remedy, and also noticing the purchase in 1842, of a secret remedy, by the Legislature of New-York, thus pays tribute to the fame of the Medicine: "Why do not our Representatives in Senate and Assembly convened, enlighten and dissolve the suffering thousands of this country, by the purchase of Vaugh's Vegetable Lithontriptic, that which has so long and so deservedly been pronounced "one half the fame?" Reader, here is a periodical of high standing, acknowledged throughout a large section of this country to be one of the best conducted journals of the kind in the United States, exchanging with the scientific works of Europe to our certain knowledge, edited by Austin Flint, M. D. and contributed to by men of the highest professional ability, thus stepping forward to notice a secret remedy! You will at once understand no unknown and worthless nostrum, could thus extort a comment from so high a quarter—and consequently, unless it directly conflicted with the practice of the faculty, it must have been its great "fame" which has caused it to receive this passing notice. Kidney diseases, weakness of the back and spine, irregular, painful and scanty menstruation, Stone, Brick dust, and the other complicated train of evils which follow a disordered system, are at once relieved by the medicine. Send for pamphlets from agents, and you will find sentence of the value of the Lithontriptic there put forth. As a remedy for the irregularities of the female system, it has in the course of two years, which has been generally used in the North of Europe for centuries—as a sure cure for this complaint, and a restorer of the health of the entire system. Liver complaint, jaundice, bilious diseases, &c. are instantly relieved. People of the West will find in this only remedy in these complaints, as well as fever and ague. There is no remedy like it, and no calomel or quinine forms any part of this mixture. No injury will result to its use, and its active properties are manifested in all its uses. Price $1 per bottle, or six bottles for $5. For fever and ague, bilious disorders, take no other medicine. Rheumatism, gout, will find relief. The action of this medicine upon the blood, will change the disease—which originates in the blood—and a healthy result will follow. Dyspepsia, indigestion, &c. yield in a few days' use of this medicine. Inflammation of the lungs, cough, consumption, asthma, has ever found relief in this medicine, and the pain, inflamed eyes—all caused by impure blood—will find this article the remedy. The system, completely acted upon by the twenty-two different properties of the mixture, is purified and restored—as a partial cure will not follow. The train of common complaints, palpitation of the heart, sick headache, debility, &c. are all the result of some derangement of the system, and the Lithontriptic will do its work. The promises set forth in the advertisement, are based upon the proof of what it has done in the past four years. The written testimony of 1,000 agents, in Canada, the United States, England and South America, is the possession of the proprietor—and can be seen by all interested—is a sufficient demonstration that it is the best medicine ever offered to the world. Get the pamphlet, and study the principles as there laid down, of the method of cure. Put up in 50 oz. bottles, at $2; 12 oz. do at $1 each—the larger holding 6 oz. more than two small bottles. Look out and not get imposed upon. Every bottle has "Vaughn's Vegetable Lithontriptic Mixture" blown upon the glass, the written signature of "G. C. Vaughn" on the directions, and "G. C. Vaughn, Buffalo," stamped on the cork. None other are genuine. Prepared by Dr. G. C. Vaughn, and sold at the principal office, 207 Main-st, Buffalo, at wholesale and retail. No attention given to letters unless post-paid—orders from regularly constituted agents excepted. Post-paid letters, or verbal communications soliciting advice, promptly attended to gratis.

Offices devoted exclusively to the sale of this article—132 NASSAU-ST, NEW-YORK CITY; 265 Essex-st, Salem, Mass.; and by the principal druggists throughout the United States and Canada, as advertised in the papers.

Agents in this City—Chas. H. Ring, 192 Broadway, cor. John-st; E. M. Guion, 127 Bowery, cor. Grand-st; Wyatt & Ketcham, 121 Fulton-st; J. A. Coddington, 85 Hudson-st; Wm. S. Pagan, 402 Pearl-st; Jos. Cockcroft, 41 Ann-st; H. Mosher, cor. Madison and James sts.; Dr. S. Hart, 368 Broadway.

Only Agent in Williamsburgh, L. Williams, 168 Grand-st.
Only Agent in Brooklyn, Mrs. Hayes, 126 Fulton-st. 1192

HUDSON RIVER RAILROAD—NOTICE FOR PROPOSALS.—Sealed proposals will be received by the Directors of the Hudson River Railroad Company, at their office, No. 54 Wall-st until the 20th day of July next, for the grading, masonry, piling and bridging for that portion of said road which extends from Thirty-second-st, in the City of New-York, to Break Neck Hill, including the heavy work through the Highlands. The work to be completed according to the order of October, 1846, according to the plans and specifications that will be prepared for examination at the hereinafter mentioned. A reserve of 20 per cent, on the estimates will be retained by the Company until the contract is completed, as security for performance. No transfer of contract will be recognized or permitted.

The map and profile of the line, the form of contracts and specifications, the manner of executing the same, will be ready on and after the first day of July, at the office of the Resident Engineer, Cold Spring, for the Highland Division, after the 5th day of July, at the office of the Resident Engineer, at Sing-Sing, for the Westchester Division, and at the office of the Resident Engineer, at Manhattanville, for the New-York Division. The office at Manhattanville, or the office of Mr. Delaney, 34 Wall-st, after the 5th of July, where all necessary information will be given.

The full names of all persons that are parties to a proposition must be written out on the same.

The party to any proposition which may be accepted will be required to enter into contract immediately after the acceptance of the same.

The Directors reserve to themselves the right to accept or reject proposals that may be offered, as they may consider the interest of the Company to require.

New-York, 30th June, 1847.

WM. CHAMBERLAIN, President.
JOHN B. JERVIS, Chief Engineer. jy3 tJy10

## Medicines.

DR. SWEETSER'S PANACEA.

THIS MEDICINE CONTAINS NEITHER OPIUM NOR OATH, NOT TO CONTAIN A PARTICLE OF CALOMEL, Corrosive Sublimate, Arsenic, Chloride of Gold, or any deleterious minerals.

The principle upon which this medicine acts, is by assisting and harmonizing with nature; it drives out all foul scrofulous humors from the blood and body, and by assimilating with and strengthening the gastric juice of the stomach, it assists digestion; in short, there is not a vein, artery, muscle, or nerve in the human body, that is not a participant by this Panacea, and it also possesses the remarkable property of removing mercury from the bones and joints.

FOR ERUPTIONS OF THE SKIN,

Scurvy, scorbutic affections, tumors, scrofula or kings' evil, white swellings, erysipelas, ulcers, cancers, running sores, scald head, tetter, pore and a generalized persecutrance in Dr. SWEETSER'S PANACEA, will effect a cure.

FOR INDIGESTION,

retention of food, nausea, vomitings, nervous affections, bilious complaints, headache, paleness, or female irregularities, Dr. SWEETSER'S PANACEA will soon effect a cure; but if obstinate or attended with griping, flying cures; but if obstinate or attended with griping, flying pains, the dose should be increased, and the cure will soon be effected. Let not the patients frighten themselves with the idea that they are too weak to take much medicine; but the idea that they are too weak to take much medicine; but the idea that this mildly operating medicine puts not weakness into the frame, but most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night, and an appetite to relish any food, reinstates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA & GLANDULAR AFFECTIONS.

Scrofula is said to be hereditary, the infant receiving from the parent the seeds of this disease, which increases with its years, if neglected and not submitted to treatment, in conjunction with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication, their residence is a subject on which much difference of opinion prevails; it is sufficient to know that when in a diseased or distorted state, they are capable of being purified and cleansed by a long course of DR. SWEETSER'S PANACEA, which restores them to the sound and proper action. Scrofulous persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance they will even cure hereditary disease.

In cases of jaundice, asthma, liver complaint, dropsy, leprosy, rheumatism or rheumatic gout, DR. SWEETSER'S PANACEA cannot be too highly extolled; it has been the remedy ever tried; it removes all the morbid humors from the blood, which give rise to the above diseases, and by keeping the blood in a pure condition, prevents them.

GRAVEL AND URINARY COMPLAINTS.

These complaints are generally attended with the most fatal consequences, and are seldom or never cured by the present mode of treatment; they usually accompany the patient to the grave, after suffering the most excruciating pain and torture. The cause of these complaints are the same as all other diseases, the dross of the blood becomes incrusted and lodges in the finest narrow passages, whence arise mortal secretions and stoppages of urine. You will find the most powerful diuretics of no use, as they only increase the quantity of urine and do not purify and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you remove the cause of disease, and consequently it cannot return; it may be a long, after sufficient perseverance in its use has deprived the blood and body of all acrimonious humors and impurities.

SPINE DISEASE.

Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, rupture, falling of the bowels and womb disease, will find a speedy cure in Dr. SWEETSER'S PANACEA. We have seen these diseases of long standing, where time alone required to make a cure will be longer, but the patient may rest assured that a determined perseverance will effect it.

SHIP FEVER.

Several vessels have arrived recently with emigrants who were sick with the "ship fever." This fever has proved to be contagious in New-York and other places, and in many instances very fatal. Hundreds of persons have fallen victims to the disease, and many more have escaped with their lives as well contaminated. To guard against an attack of ship fever, the wise should then commence the purification of their blood without delay, and those already attacked with sickness should hasten to do the same. DR. SWEETZER'S PANACEA will be found the most powerful purifier of the blood and strengthener of the system yet discovered. It will reach the most remote blood vessels, driving out all foul humors, and leaving all health and strength within. It strengthens the nerves and gives tone to the stomach. For dyspepsia, costiveness, piles, rheumatism, gout, tic doloreux, palpitation of heart, singing in ears, and all buzzing noises in the head, it is without a rival; and it possesses the remarkable property of purifying the body of the bad effects of mercury and all mineral poisons.

DR. SWEETSER'S PANACEA

RHEUMATISM, RHEUMATIC GOUT AND MERCURIAL DISEASES.

Find a safe and speedy cure in Dr. SWEETSER'S PANACEA. It cures by searching every blood vessel and artery, and driving out all impurities and foul humors accumulated therein, which is the cause of rheumatism, gout and swellings of the joints. The deleterious effects of calomel and other mineral poisons, readily yield to its sovereign influence; indeed when its valuable properties become fully known, the use of all mineral poison will be consigned to "the tomb of all the Capulets," and only be thought of as a by-gone custom of the darker ages. DR. SWEETSER'S PANACEA is also a sure cure for dyspepsia, piles, costiveness, vertigo, headache, pain in the stomach and liver complaint.

For dropsy, falling of the bowels, impurities of the blood, mercurial taint, weakness of the spine, flow of blood to the head, giddiness, singing or buzzing noises in the head and ears, DR. SWEETSER'S PANACEA will give certain relief; in all severe and of long standing cases the patient should persevere, and recollect that larger doses and perseverance will effect a cure.

In chills and fevers, bilious fever, affections of the eyes and ears, spongy and bleeding gums, bronchitis and recent coughs and colds, DR. SWEETSER'S PANACEA will be found perfectly sure and certain in its results.

FEVER AND AGUE.

Fever is always caused by a disorderly movement of the blood, struggling to free itself of something that incumbers it; in fact, every kind of fever is nothing more than a struggle between the blood and corrupt humors, and as soon as the corrupt humors are expelled, you have no more fever. When the patient with fever submits to be bled, or has his blood poisoned with mercury, it does not free the system of the disease, but if he survives the process, it always leaves him subject to distressing chills, when nine times out of ten, he resorts to sugar pills, powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c. are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into the body, as not to be perceptible, but we defy the skill of any person to cure a fever without it. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be efficiently done by using DR. SWEETSER'S PANACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

SUMMER COMPLAINT, DYSENTERY, DIARRHŒA AND BOWEL COMPLAINT.

Find a sovereign and speedy cure in Dr. SWEETSER'S PANACEA. It cures by searching and driving all impurities and foul humors from the blood, strengthening the stomach and bowels, the relaxed state of which are the cause of the above named diseases. Beware of taking the best purgative medicine to stop the bowels, it is the old plan, and is the cause of throwing oil on it to extinguish it. Dr. SWEETSER'S PANACEA regulates the bowels and thus prevents and cures costiveness and piles, and by strengthening the gastric of the stomach it cures dyspepsia. Never take calomel or any mineral poison for the above complaints, as they only smother and hide for a time the disease, which will break forth again with redoubled energy, unless you use DR. SWEETSER'S PANACEA.

FLATULENCY AND WIND.

These diseases are caused by the stomach and bowels being choked up with viscid slimy matter, the air which enters them cannot escape, until forced by some contraction of the stomach to expel it, hence the cause of pain. A few doses of DR. SWEETSER'S PANACEA will convince the sufferer that the cure is at hand.

GREAT MEDICINE FOR CHILDREN.

Parents will find this PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with any epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state, and all healthy diseases, or diseases of weakness from the body and leaves all health behind.

MARRIED LADIES

Will find DR SWEETSER'S PANACEA a medicine peculiarly adapted to their use. Most ladies during the period of pregnancy, are afflicted with piles. DR. SWEETSER'S PANACEA, by regulating the bowels, will entirely obviate this, and its purifying properties on the blood and fluids, insures to them healthy offspring. No other medicine should be without it, and those who are nursing will find it of great benefit to the health of their infants.

For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines, by its extraordinary strengthening power; it stimulates and strengthens the womb, a weakness of which is the cause of failure in bearing children.

NERVOUS DISEASES.

Under this head may be classed palpitation of the heart, tic doloreux or face ache, neuralgia, tooth ache, indigestion, melancholy, hysterics, and in fact, every disease caused by the sharp, biting, acrimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood, through the agency of the stomach and digestive organs; and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid impressions conveyed from the blood by the nerves to that part. A few doses of DR. SWEETSER'S PANACEA will soon assure the patient that he has the cure in his possession.

ERYSIPELAS, OR ST. ANTHONY'S FIRE.

This is an inflammatory disorder, always attended with more or less pain. It proceeds from foul acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the surface are worse than useless, as they only tend to throw the disease on another part, and perhaps cause death. Bleeding is likewise improper. To cure the disease you must get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. DR. SWEETSER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote parts of the body and expel it through the medium of the bowels, or it will settle with the muscle, or organ of the entire framework of man, that DR. SWEETSER'S PANACEA does not improve. To taken it when you are well is to keep well; and when sick to become well.

Dr. SWEETSER'S PANACEA, being composed only of vegetable powder, or medical herbs, and separated on oath, as containing not one particle of mercurial, mineral or chemical substances, is found to be perfectly harmless to the most tender age or the weakest frame under any stage of human suffering; the most pleasant and benign in its operation that was ever offered to the world; and at the same time the most certain in searching out the root of any complaint, however deep, and of performing a cure. Price $1 per bottle, or six bottles for $5. Sold wholesale and retail by WYATT & KETCHAM,

## Spring and Summer Medicine.

DR. TOWNSEND'S SARSAPARILLA.
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

THIS extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening, or debilitating the patient.

GREAT SPRING AND SUMMER MEDICINE.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates diseases it gives greater health, and more of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed wonders the past two years, more than 30,000 cures of severe cases of disease; at least 6,000 of these were considered incurable. More than

3,000 cases of CHRONIC RHEUMATISM;
2,000 cases of DYSPEPSIA;
100 cases of GENERAL DEBILITY and WANT OF ENERGY;
7,000 cases of the different FEMALE COMPLAINTS;
2,000 cases of SCROFULA;
1,500 cases of the LIVER COMPLAINT;
2,500 cases of DISEASE IN THE KIDNEYS AND DROPSY;
8,000 cases of CONSUMPTION;

And thousands of cases of diseases of the blood, viz: Ulcers, erysipelas, eruptions, pimples on the face, &c. &c. Together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. van Buskirk, Esq. one of the most respectable druggists in Newark, N. J. informs us that he can refer to more than 150 cases in that town, and a Clergyman of the same City of New-York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventive of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON!

As it removed the cause of diseases, and prepared them for the summer season.

SHIP FEVER.

That this disease is contagious there now can be no doubt, and is spreading through the city. It is the duty of every one to use every precaution to guard against it.—Dr. TOWNSEND'S SARSAPARILLA will prevent the ship fever, if the blood is pure and healthy it is impossible to take this fever or any other. Let all such as have impure blood or are in any way debilitated, and especially weakly children, take the Sarsaparilla and protect them from the pestilence and the hot season before little too late.

"IT IS GOOD."

There are thousands who have used Dr. TOWNSEND'S SARSAPARILLA, and when you ask them if they were benefited by it, answer, the "disease is gone," "can't tell whether it did or not." The fact is that this medicine is so pleasant to take, and in its effects upon the system, it seems impossible to the person taking it, even when the disease is gradually disappearing, as it always does, that this medicine can accomplish such results. It gets to the very great beauty and perfection—it never weakens the system, but cleanses and creates new, rich and pure blood, and the disease cannot exist.

CONSUMPTION CURED.

*Disease and Strength.* *Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Cough, Asthma, Spitting of Blood, Soreness in the Chest, Broke Flank, Night Sweats, Difficult or Profuse Expectoration,
