Things in Philadelphia.

Correspondence of The Tribune.

PHILADELPHIA, July 30, 1847.

The city has been much excited to-day by the Southern news received by telegraph, though it is generally discredited, and some glaring inconsistencies are apparent.

Our market has been dull to-day in expectation of foreign news and in consequence of many business men being absent from the city.

The stock of Flour continues very light. Small sales of Western at $5 6¼ and Pennsylvania held at $6.—Wheat has been in better demand. Sales 3,600 Western at 125 to 127 for Red. Sales 2,500 bushels Yellow Corn at 75 cents weight. Corn Meal $3 37. 2100 bushels Western Corn via New-Orleans sold at 68 to 70 cts. Oats 50 to 54 for Southern Pennsylvania. No movement in Cotton or Provisions. Whisky in bbls 27 cts. Sales 100 bales Western Dew-rotted Hemp at $130 on 6 months.

Death of a Prince—Torch-Light Funeral.

Correspondence of The Tribune.

RIO JANEIRO, June 14, 1847.

Our city mourns! Our poor little imperial Prince died day before yesterday of congestion of the brain. The Empress refused to let the Prince be taken from her for nearly two days, and at last he expired in her arms. I was at the opera last evening with Dr. W. and B. and just as it commenced a person appeared in the box and announced the death of the heir apparent—the curtain fell and we were dismissed. The imperial family reside at the Palace, three miles from town. The next morning the little Prince was brought to the City Palace. He was laid in the throne room where I could see him from my window.

The funeral came off last night by torch-light. It began to move about 8 o'clock through the streets which were guarded by the military. It is impossible to describe the magnificence of the scene. The State carriages were richly caprisoned with gold and beautifully decorated. The body was deposited just at midnight—all the men-of-war and the military firing at the instant.

It appears that all the first male born of the Braganza family die off. The Emperor is himself the sixth son.

The Empress is expected to give birth to another Prince or Princess in a few days. Considerable alarm is felt for her on account of the sudden death of Prince Alfonzo. I.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

FRIDAY, P. M.

The Stock Market was rather inactive to-day and heavy. Treasury Notes sold at 5¼. In Harlem there were considerable operations. At the Second Board the advices from the South had a favorable effect, and Treasury Notes improved ½ per cent, selling at 6¼. There was altogether a better feeling in consequence of the pacific nature of the Southern advices.

The Bill Market is not active, but quotations are steady. Sterling is 7¼@6 for leading bills; 5 11¼ for France. To-morrow is steamer day, when there will probably be more activity.

The Freight Market was very quiet, and we heard of only a few small engagements. The rates are nominally as before.

The Breadstuff dealers were pleasantly disappointed yesterday by the tenor of the advices by the Washington. The advance in Breadstuffs in England was generally unexpected, and coming in the face of fine weather and promising crops shows that there is a large demand for consumption with moderate stocks. The fears of extensive potato rot was less prevalent, and the crops on the Continent generally looked very well, yet the markets had an upward tendency. The markets here immediately felt the effect of these advices, and shorter faces were seen on 'Change. There was a good deal of excitement, but not many transactions. Flour went up about 37½ cents per bbl, and Corn 5 cents per bushel. The news did not seem to affect Cotton, but when the private letters are received there may be a movement. The money market in London was in an improving condition, and Consols went up on the 15th. There was, however, a little anxiety occasioned by the renewal of specie shipments to this country, insurance for £100,000 having been obtained on shipments by the Hibernia. Still it was not expected that these shipments would continue.

The *New-London Morning News* contradicts the report that a day line, between Boston and New-York, was to be started over the Long Island and Norwich Railroads.

The Report of the preliminary survey of the Chicago and Galena Railroad has been favorably received by a full Board of the Directors of the Road.

The *Albany Argus* in an article relating to the Chicago Convention, makes a comparison to show the increase in the lake imports at Buffalo for 5 years, from which are taken the following figures showing the imports of certain articles at that point in the years:

	1841.	1846.	Inc. in 5 yrs.
Flour, bbls	730,040	1,321,509	591,469
Wheat, bushels	1,935,000	4,744,184	3,109,184
Corn do	291,034	1,455,208	1,254,227
Oats do	14,144	248,003	233,859
Butter and lard, lbs	2,500,000	9,609,071	7,109,071
Lumber, feet	8,000,000	34,536,929	26,576,929
Staves	7,860	10,762,500	10,754,640

The value of the imports at Buffalo in 1841 was $10,000,000; in 1846 $20,000,000. This year, the quantity and value have greatly increased. The flour from the Lakes to the single port of Buffalo will not be less than 2,500,000 bbls, wheat 6,000,000 bushels, Oats 400,000, and corn 5,000,000. The value of these three or four staples of western production at Albany, at the prices which ruled on the 1st of July, would have shown the aggregate of full $22,000,000—at present prices, some $26,000,000. The number of vessels navigating the Lakes above Niagara Falls is now not less than 500, tonnage more than 100,000, and the capital invested upward of $6,000,000.

The *Harrisburg Union* says: "We are highly gratified in being able to state that the temporary loan of $200,000, which was made to supply the deficit in the Treasury on the first of February last, to pay the interest then due, was promptly repaid out of the Treasury at the time stipulated, and that there will be in the Treasury on the 1st of August coming, ample funds to meet the interest which will then be due, and probably a surplus left."

Markets—*Carefully reported for The Tribune.*

FRIDAY, July 30.

ASHES—Pearls have advanced to $7, with sales 200 or 300 bbls. Pots are quiet at $4 87½.

COTTON—The advices by the steamer had no marked effect upon this market, as letters were not delivered until afternoon and parties would not operate.

FLOUR AND MEAL—Before the steamer's news was received the market was firm at $5 75 for Genesee with a good demand for filling contracts. Western was $5 50 for strait brands and in steady demand. After the advices per Washington were received the market became unsettled and holders generally withdrew from market. There were some sellers of Genesee at $6 25 and Michigan at $6, and buyers offered $5 for Genesee to some extent. The only sales we hear of are 500 bbls Western at $6 next week, and another small parcel Michigan at same figure. A contract for 1000 bbls Genesee was settled at $6 25. There was a fair inquiry but an indisposition on the part of holders to meet buyers. Sales 400 bbls New Orleans at $4 75. After 'Change the market was firm with good inquiry but few transactions.—In Southern descriptions there were no sales. Holders ask $6@6 25. Meal was held at $4 for Jersey. A sale of 400 bbls was made, before the news, at $2 87½ for Western.

GRAIN—Wheat was in fair demand before the Washington arrived, and prices were without change. A sale of 400 bushels musty New-Orleans was made at 90c; 3,000 do. fair Red Illinois at 102; 2,000 do. New-Orleans at 110 cts, and 600 or 700 bushels new, reported Genesee, the first lot received this season, supposed $1 31½, for milling. Corn was selling, before the news, at 59@60 for Round, 62½ for Mixed, and 64@65 for flat Yellow; but holders afterward advanced their demands to 75 for round, 70 for flat Yellow, and 66@68 for Mixed. The aggregate sales of the day were 30,000 bushels, of which about 10,000 were sold after the steamer at 66½ to 70c for flat Yellow. Round could be bought at the close at 71@72 cts. Oats are more plenty, and a cargo sold at 50 cts. In Rye nothing done. Sales 2,000 bushels Barley at 55, which is an improvement.

WHISKY—The market is up again to-day, and sales 150 bbls were made at 27½@28½ cts. Drudge is held at 28 cts.

PROVISIONS—The improved feeling in Pork continues and the tendency is upward. The sales are 500 or 600 bbls at $12 50 for Prime and $13 25 for Mess. At the close $15 25 was refused for Mess. There were also sales 500 bbls Old at $12 and $15 for Prime and Mess, a portion of the Mess on time. Beef is without movement of importance. Prime is quoted at $9, Mess $12 50@13 25, with fair trade demand. Lard is heavy, with sales fair bbls at 9@9¼. In cut Meats there is something doing. We note sales 108 tcs and 100 bbls Hams at 7¼@7¾; 63 tcs Shoulders at 6¼, and 50 tcs Western Smoked Hams on private terms. In Butter there is a fair demand and moderate supply at 11@15 for Western and State. Cheese is 6½@8c and scarce.

BONE—A sale of 10,000 lbs North-west was made at 28c, cash.

COPPER—Sales 5,000 lbs Old at 18½c, cash.

LATH—We note farther parcels changing hands, together 700 M at $1 62½, cash.

LEAD—A sale of 1,200 pigs was made at $3 75, which is an advance.

HEMP—A parcel of Hackled, 150 bales, sold at $155 per ton.

OIL—Linseed is quiet. A sale of 100 bbls Crude Sperm was made at 92c, cash.

GROCERIES—The Sugar market is more firm, for Muscovado, closing with an advance of ¼ on lower grades and 3-16 to ¼ on the higher. The sales for the last three days have been chiefly confined to Cuba, and comprise about 700 hhds, as follows: 375 hhds 6¾c, 40 do. 6¾, 37 6¾c, 75 6¾, 130 6c, 20 5¾, 25 5½c..... The advance in Molasses noticed in our last has been fully sustained, and farther sales have been made, closing very firm at 32c for Porto Rico and 35c for St Croix. Good Cuba and Trinidad were also in demand and held with firmness at 23@25 for the former and 29@32½ for the latter. The sale of Trinidad noticed in our last at 25c, was inferior in quality, in absence of lots of fine. We only note sales of 70 hhds Porto Rico 32c, 200 Nuevitas 31@35c, 280 Cuba for refining, 20@21c..... There has not been much doing in Coffee since the sales noticed in our last. 600 bags Brazil at 7@7½, 150 St. Domingo 6½, 100 6¼, cash. The lots recently arrived are held at 6¾, firm; 200 Sumatra 6½, 75 Java 8½, at 6 mos.
