pressing the market 30 cents per bbl on Flour, and 5 cts per bushel on Corn. Dealers were all expecting a decline in the steamer, yet held on, in the hope they might be disappointed. There was not much done after news was made public, but the few transactions show the above decline. The Cotton holders are much better satisfied than the Breadstuff speculators. The market on the other side is shown to be in a healthy and prosperous state, and the market here to-day has been active with an upward tendency. The quotations are 1 to 2 cent above those of last week.

Moses Putnam, Esq. has been elected President of the Village Bank of Danvers.

The Revenue collected at Tampico during the last two months reaches $7,000.

The arrivals and clearances at the port of Milwaukee from April 12 to July 1, 1847, and the number of tons bulk of passengers, goods, and number of tons of merchandise landed, were as follows:

Steamboats, propellers, brigs and schooners	343
Number of passengers	10,890
Number of barrels bulk of passengers' goods	27,476
Number of tons merchandise	2,786

During the month of June there passed through Lock No. 4 of the Welland Canal, 376 vessels—188 down and 188 up—of which, 126 were from and 118 to Oswego, and 49 from and 42 to Kingston. 184 crows and 104 rafts also passed through.

In 1846, the first cargo of Wheat was shipped from Chicago. The following shows the increase from that period:

	Wheat.	Flour.	Beef and Pork.	Wool. lbs.
1842	168,267	2,920	16,200	1,500
1843	628,567	16,616	21,492	22,662
1844	801,934	4,320	14,808	96,636
1845	1,008,500	13,292	13,969	246,610
1846	1,430,190	22,045	31,260	281,235

At the Utica Steam Woolen Factory from 350,000 to 375,000 lbs of fleece wool is required annually for manufacturing by this company, at a cost generally of about $125,000. The cloth manufactured daily, exceeds 400 yards. The amount of goods sold each year will amount to upward of $300,000—whereas the cost of buildings, machinery, lots, &c. does not exceed $75,000, the whole of the machinery being now in full operation. The wool purchased since 1st June last, by the company, is about 384,000 lbs. costing about $115,000.

A new Railroad is contemplated to be laid down in a direct line between the thriving village of Westchester and the City of Philadelphia. There is at present a Railroad from the village intersecting the Philadelphia and Columbia Railroad, but the convenience of the public would seem to require a shorter and more direct route.

New-York Cattle Market—Monday, Aug. 2.
[By our own Reporter.]

At Market 1,550 Beef Cattle, (500 Southern,) 50 Cows and Calves, and 2,400 Sheep and Lambs.

Beef Cattle—The offerings were larger than usual last week, but buyers operate pretty freely. Prices remain firm at from $6 to $8 per cwt. About 150 left over. (Last week a typographical error made us quote prices at $6@$7, instead of $6@$8—it should have been.)

Cows and Calves—There was an ordinary supply on hand last week, which met buyers at prices a little lower than those current the week before. $18 to $28 will cover all transactions. All sold.

Sheep and Lambs—Though there is a pretty steady demand buyers do not operate liberally enough to dispose of the supplies as fast as they come in. Sales of Sheep at from $1 50 to $2 25@$4 25, which is a slight advance on last week's quotations. Lambs brought $1 25@$2 25 to $3 25—prices hardly equivalent to those quoted in our report. 150 left over.

Hay and Straw—Sales of timothy, red top, and clover (old crop) from Long Island and Westchester County, at 62½ to 80c per cwt.; New crop is worth 50 to 62½ cents per cwt. Good Oat and Wheat Straw at $2 50 the hundred bundles.

Markets—*Carefully reported for The Tribune.*
Monday, August 2.

ASHES—The market is steady for Pearls at $7, but Pots are dull and have sold at $4 87½, a decline of 6¼ cts. The sales were only 100 to 150 bbls.

COTTON—The advices by the steamer had a favorable effect upon the market, and the quotations are 1 to ½c above those current in the early part of last week. The sales reach 1,500 to 2,000 bales, mostly for shipment, and the market closed with firmness. We quote:

	Uplands.	Mo. & N. Orleans.
Interior	none.	none.
Ordinary to Good Ord	11 @11½	11 @11½
Middling to Good Mid	11½@12	11½@12
Middling Fair to Fair	12½@12½	12½@13
Fully Fair to Good Fair	13 @13½	13½@14
Fine	none.	none.

FLOUR AND MEAL—The market was steady early in the morning, but the steamer being telegraphed at 8 o'clock business became generally suspended. When the quotations from Liverpool were made public there was a pause in the market. Low or ordinary brands were sold at $5 50@$5 62½, and Genesee at $5 75, but we heard of no sales. On Change a few buyers appeared, but holders generally would not meet their views. Some sellers were found, however, at $5 25 for Michigan and $5 50@5 62½ for Genesee. The aggregate sales were about 2,000 bbls. We could hear of no inquiry for shipment; operators not being ready to move until the letter mail is received. The market closed dull at $5 12½@5 25 for Michigan and $5 37½@5 50 for Genesee, but it cannot be considered settled. In Southern there was nothing done. The supply being very small holders were unwilling to yield any decline. A small sale Meal, 200 bbls, was made at $2 75, but it was offered afterward at $2 62½. Rye Flour is $4 in small lots.

GRAIN—The advices by the steamer had a depressing effect upon Grain excepting Rye. Wheat could have been bought at 3 to 5 cents cheaper, but we heard of no sales. Corn fell off to 60@62½ for Mixed, 65@66 for flat and Yellow Round and White. The sales were about 30,000 bushels, including 5,000 Mixed to arrive next week at 60 cts. Before the steamer a boat load of Yellow sold at 68 cts. A small sale of Rye, 500 bushels was made at 81 cts and 82 was refused for a cargo delivered. Oats are still plenty and retail at 48@50 cts.

WHISKY—About 100 bbls have sold to-day at 28@28½ cts, at which the market is steady. Drudge is held at the same figure.

PROVISIONS—The market has been very quiet today since the news, and Pork has lost its firmness. The quotations are nominally $12 50 and $15 25 without sales! A sale of Beef was made, but the particulars did not transpire. Lard was quiet and all kinds of Provisions without important movement, dealers waiting for their foreign letters.

OIL—Crude Sperm has an upward tendency and sales 500 bbls were made at the East at 100 cts. Whale is quiet, but a sale of 1,200 bbls was made at 32c at New-Bedford. Linseed is dull and Dutch can be bought 70 cents.

NAVAL STORES—Crude Turpentine is quiet. A sale of 600 bbls Wilmington Rosin was made at 67½ cts, and 200 bbls Tar at $2 50. Spirits are held at 42@43c, this being the first day of the new arrangement of making the charge for bbls. This is about equal to 37c for Spirits. We hear of no sales.

HAY—The market is 40@50c with moderate demand, the sales being mostly at 45@50.

LEATHER—The market is firm with moderate supply. A public sale is advertised for Thursday next.

BONE—Sales 7,000 or 8,000 lbs North-west were made for bone use, at 29 cts.

GROCERIES—The markets are generally firm and the demand is fair. We note sales of a cargo inferior Porto Rico Molasses at 30½c, and 150 hhds Cuba Sugar at 6½@6¾ cts.

Arrivals of Produce, &c. by the New-York and Erie Railroad.....*J. F. Clarkson, Agent.*
Reported specially for The New-York Tribune.
Monday, August 2, 1847.
