Mesmeric Influences.

To the Editor of The Tribune:

Contributions to the facts of Mesmerism, originating on the other side of the water, cannot very well be charged with distortion, however pertinently they may be adverse to or bear hard upon the Revelations (?) of Davis; especially when it is recollected that their occurrence bears date long prior to Davis's natal day.

It strikes me that the "stupendous phenomena" in Davis's case is pretty much encompassed in a nutshell—and that there is nothing remaining really more "stupendous" than that the "learned Professor" of Hebrew should have been so long in the state of hallucination which he betrays.

From a long and interesting article in *Blackwood* for August, I select an item or two:

* * * * * "Then he became sad; and M. de Puysegur tried *mentally* to inspire him with cheerful thoughts. He hummed a tune to himself *inaudibly* and *immediately Victor began to sing the air.*"

* * * * * "But during these eight days her powers manifested a still greater extension; she foretold what was going to happen to her; she discussed with astonishing subtlety questions of mental philosophy and physiology; *she caught what those around her meant to say, BEFORE they expressed their wishes*, and either did what they *desired*, or begged they would not ask her to do what was beyond her strength."

The amount of it all was, that amid a highly enthusiastic company of sympathetic Frenchmen, the *entranced was possibly en rapport* with the whole.

There can be no question but that Davis was the mere reflex of his mesmerizer or mesmerizers! and therefore there was no stretch of memory in dictating his book, or any other powers requisite in the case, except a willing surrender of his faculties, mental and physical, into their hands; and inasmuch as that was *his decided interest* who can doubt but he did so?

The facts in the case *prove* it; and T. L. need not be afraid he is making concessions to the Evil One himself, in admitting anything ordinary or extraordinary be witnessed in Davis in the mesmeric state; because there is nothing, after all, extraordinary in it. We always, in this country, (in some things, at least) are in at the death. And all the *extraordinary* of Davis's case has been *killed off* in Europe long ago.

Does not Cambridge dispute, and successfully too, the discovery, popularly awarded to *Le Verrier*. [Am I wrong?] If so, might not a whisper have reached some of Davis's friends? and then this proof (the professor's "best bower") of inspiration, or far-seeing, falls to the ground, even with those carried away by specious appearances; though it amounts to nothing at any rate in claiming inspired origin for Davis's Book, as nothing is easier than random assertions, which may sometimes turn up right.

All this noise is a fine thing for the getters-up of the book, no doubt; without it, by this time, it would have been in a worse sleep than Davis has yet taken—the sleep of death.

If there is neither "fustian" nor "bombast" in Davis's book, please expunge those words from the language, as there is then no meaning for them.

Yours, O. P. Q.

Court Calendar.... This Day.

SUPERIOR COURT—Nos. 15, 21, 26 to 32, 36 to 46, 48 to 57.

The Certiorari Calendar will be called on Saturday, 12th instant.

Law Courts.

SUPREME COURT—Arguments were heard in the General and Special terms. In the latter the case of *Brant* was continued.

SUPERIOR COURT—Before Judge Oakley—*The People of the State of New York* vs. *Wm Buckley, Joseph W. Corbes and Richard Lawrence.*—Action to recover on an administration bond as to the estate of Charles Buckley, deceased, already referred to. Verdict for plaintiff, subject to the opinion of the Court.

COURT OF COMMON PLEAS—In Chambers—Before Judge Ingraham.—*Habeas Corpus—Robert Spence*, a minor, who had enlisted in the New-Jersey corps, was brought up and his discharge asked. Mr. D. B. Taylor appearing on his behalf. He was given up.

Dennis Duffy, also a minor who had enlisted, was also brought before Judge Vanderpoel, of the Superior Court. He was discharged.

UNITED STATES MARSHAL'S OFFICE—*Alleged attemp. at Revolt*—Ten seamen belonging to the new ship Germania, from Boston, at anchor in the Lower Bay, were complained of by Capt. Sherman of the vessel who charged them with an attempt at revolt in refusing to weigh anchor and work the vessel up to the City. Officers were sent down and they were arrested.

THE WILL OF A WEALTHY SOUTHERNER—The *New-Orleans Picayune* publishes extracts from the last will and testament of Julien Poydras, late of the parish of Point Coupee, and of great wealth. The testator died in possession of six large plantations, and on each of them there are a great many slaves, who are directed to be sold at public sale, the purchasers to bind themselves to emancipate the slaves with their increase, at the end of twenty-five years from the day of sale. The balance of the estate, after the payment of the legacies, is to be divided among a number of nephews and nieces of the deceased. To each of his god-children, Mr. Poydras bequeathed $500; to each of his negroes, large and small, he bequeathed $10. To Felix Bernard, Eustache Lebedel, Willis Alston, and Madame Zacherie, he left each $2,000. To Miss Frances Gallatin, daughter of Albert Gallatin, he left $10,000; to Mr. Lefitte, notary in New-Orleans, $6,000. To Joseph Thodore Bandue, of New-Orleans, and Guy Richard, of Pointe Coupee, his executors, he left each $25,000. Rich bequests are made to all the charitable institutions of New-Orleans. To the parishes of Point Coupee and West Baton Rouge, he leaves $30,000 each. The interest of this sum is to be employed in giving a *dowry to all girls of the said parish who may get married*; the unfortunate to be always preferred.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

TUESDAY, P. M.

The fancy market was generally heavy to-day, but in Norwich there was a great fall, the supply of stock thrown on the market being far beyond its ability to receive. The market went down rapidly to 47, but after the Board reached to 49, and closed at the Second Board at 48. Upward of 5,000 shares of this stock were sold. One of the largest operators in the late corner was sold out. Treasury Notes were also heavy and sold at 3¼, having lost nearly all it gained after the late news from Vera Cruz. Capitalists do not yet put much confidence in the prospects of immediate peace. The street has been active to-day and a good deal excited. The fall in Norwich was expected, but it was not supposed that it would be so rapid. A well known operator is said to have been considerably pushed to-day to carry his load of stock.

The Bill market for the steamer is dull, and Sterling is not sustained. The sales range from 8¼ to 8¾, although some large drawers ask 9. Francs are 5 27½@5 25. The demand for Bills has been somewhat increased by the demand from parties who have remitted Prime, Ward & Co's bills, which they fear may come back.

The earnings of the Norwich & Worcester Railroad for August show a small falling off from August, 1846, occasioned by the suspension of the Long-Island train, the receipts from which in August, 1846, were $4,614. The local business shows an encouraging increase, and the net earnings of the road are considerably larger than in August, 1846. The statement of receipts is as subjoined:

	1847.	1846.
Through travel	$3,730 77	$8,506 99
Local do	8,378 06	7,597 99
Freight	10,959 62	8,621 30
Mails, &c	1,461 76	904 48
Total	$24,530 51	$25,700 76
Decrease in 1847		$1,170 55

The Erie Railroad Co. advertise for proposals for $750,000 seven per cent. bonds forming a first lien on the road. The interest on these bonds until a track is completed to Lake Erie is to be deposited with the Controller of the State. No bid less than par will be received. Nothing can be safer than these bonds, and we presume the loan will be at once filled up.

At Boston the Money market is in rather an unsettled state, having been affected by the events of last week in this City.

The value of merchandise exported from the port of Boston to foreign ports during the week ending Sept 11, was as follows: Domestic products, $201,764 83; Foreign products, $33,124 36. Total, $234,889 19.

The quantity of Flour received at Boston last week was 14,066 bbls, of which 9,100 went over the Western Railroad. Of Corn there were received 30,938 bushels and 10,186 sacks. Corn Meal, 934 bbls. Wheat, 10,738 bush. Oats 9,312 bush.

The White Water Canal Co. have petitioned the City Council of Cincinnati for a loan of $5,000 to complete the repairs of their Canal.

The Banks in Wilmington (N. C) have advanced the rate of premium for Northern checks from the half of one to 1 per cent.

The defalcation of the Cashier and Teller of the Branch Bank of Virginia at Lynchburg is now supposed to exceed fifty thousand dollars.

The value of exports from Baltimore during the month of August was $620,651. The quantity of lumber inspected in the first six months of the year 32,000,000 of feet. The export of Tobacco 1st January to 9th inst. have been 30,952 hhds, of which 27,001 hhds were to Germany.

Markets—*Carefully reported for The Tribune.*

TUESDAY, September 14.

ASHES—Pearls are down to 6 87½, with sales 50 bbls. Pots are steady at 5 25. The transactions are moderate.

COTTON—The sales to-day have been less extensive than for some days past, say 1,200 bales, owing to the advanced demands on the part of holders. Fair Uplands are now worth 13 cents.

FLOUR AND MEAL—There was no important change to-day to notice, but the demand for fresh Flour and that from new Wheat was good, and the supply moderate. Sales were made from new Wheat at 5 75@5 81. Fresh ground from old Wheat was 5 50@5 62½; Oswego 5 50; street West-rn 5 44@5 50; Mixed 5 25@5 37½. There is a considerable proportion of the Flour now on the market bad. The aggregate sales of the day are about 8,000 bbls, including 500 bbls round hoop Ohio at 5 25; 2,500 do Oswego at 5 50, and 3,000 do Western uninspected at 5 12½; and 1,000 do N O bad at $4. The demand was mostly for the East, and the uninspected was for that destination. The supplies to-day are light—There is no shipping inquiry there we can hear of at present rates. In Southern there are small sales only, and the market is heavier. Sales some small lots of Georgetown at 5 87½@$6. Meal is not active. Sales 800 bbls at 2 50@2 62½, and small lots new Rye Flour at 4 75.

GRAIN—Wheat continues heavy and dull. A small sale new Genesee, 800 bushels, was made at 115 cts, and 1,000 do fair red Illinois at 100 cents. For a good sample white Ohio 105 was offered—110 asked. Corn was also heavy, and the market closed with moderate demand. The sales were 25,000 bushels at 65@66 for Mixed, 66½@68 for flat Yellow, and 68 cents for White. The sales also include 8,000 bushels at 58@61 for heated. Rye is lower. Sales 2,000 or 3,000 bushels at 73@75 cents. Oats are not plenty and higher. Sales 42@44 cents for new—45@47 for old. A sale of 100 bbls Beans was made at 1 12½ per bushel.

WHISKY—There have been sales 200 or 300 bbls at 27@27½ cents, and 25 hhds at 27 cents.

PROVISIONS—There is not much animation in Pork, and quotations are heavy. Sales 700 or 800 bbls at 11 50 and 14 62½. Of Beef a sale of 600 bbls Mess at $13 for Government was the only transaction of importance. A small lot of Prime Mess, 83 tierces, sold at 18 25. Lard is rather quiet, and sales 150 bbls were made at 10@10¼ cents. For Butter the inquiry is fair at previous rates. We note sales 1,000 boxes and casks Cheese at 7½@7¾ cents. About 50 tierces Pickled Meats sold at 6½@6¾ for Shoulders, and 7¼ for Hams. 20 casks Smoked Shoulders at 7½@8, and 12 casks Child's Smoked Hams at 10½ cents. A few dead Hogs are coming in, and selling at 7@7½ cents. Live Hogs are 5@5½ cents.

OIL—English Linseed continues to decline, and 6,000 or 8,000 gallons have sold at 61½ down to 60 cents—American is dull.

BONE—A sale of 3,000 lbs North west was made at 34 cents, cash.

SEED—There is some movement in Clover, and 20,000 lbs sold at 7½ cents. Timothy is very firm, and 50 bbls sold at $19. A parcel of Rough Flax, 1,200 bushels, sold supposed in the neighborhood of 132 cents.

IRON—There have been sales of 300 tons Scotch Pig at $35 from ship, and $36 from store, 6 mos. All the lots offering have been taken.

FISH—We note sales 600 bbls No 3 Halifax Mackerel at 4 94 per bbl.

COAL—There have been sales 300 tons Hull at about $7; some Liverpool Orrel to arrive at $9, and a cargo of Picton at 6 75@$7, all cash.

GROCERIES—The Sugar market is more steady, but purchasers are demanding lower prices still. The sales, however, have been to a moderate extent at last week's prices, including 500 hhds Cuba 5½@6; 150, 6; 200, 6¼; 100 Porto Rico 6¾@6½; for St Croix, 6; 600 boxes Brown 5½@5¾ cents.... Molasses is now sought for and prices have given way to advance in view of the small quantity of good offering. RICE—We notice a sale of 200 tierces at 5 87½. It was as good as any parcel on the market, and graded fully prime.

GENTLEMEN'S HATS.
FALL FASHION—1847.
BEEBE & COSTAR, HATTERS,
156 BROADWAY, NEW-YORK, AND
138 CHESNUT-ST. PHILADELPHIA, WILL PRESENT THE
FALL FASHION FOR GENTLEMEN'S HATS.
On Saturday, August 28, 1847.

☞ **Upon issuing the Fall Fashion for the season,** B. & C. have great pleasure in say that it is their intention to introduce a style of hat altogether superior to any before offered. They have adopted an entirely new and unique mode of trimming, which, combining in the highest degree elegance of finish and durability, tends materially toward the preservation of the hat.

Another improvement will be the strict adaptation of every hat as well to the features as to the form and size of the wearer, thereby avoiding the apparent incongruity of a large and tall man with a diminutive hat, and vice versa.

BEEBE & COSTAR will present on this occasion, beside their well-known superior Moleskin Hat, a Black Fur Hat, of the Rocky Mountain beaver, a superior article, which will be sold at their regular standard price.

They would respectfully invite attention to the branch of their establishment, 138 Chesnut-st. Philadelphia, which will be opened on the 28th inst. in a style corresponding with their house in New-York, with a superior stock of goods, and with the avowed object of furnishing a better hat for the price than can be found elsewhere. There will always be found at both places a full and complete assortment of hats and caps for gents, youths and children, together with ladies' riding hats and caps, and a variety of fancy goods appertaining to the trade, such as canes, umbrellas, gloves, brushes, and other articles for the toilet.

The facilities afforded them by a ready and frequent intercourse with the cities of Paris and London, together with the recent improvement which they have effected in the construction and use of machinery, will enable them to offer goods of the most desirable fashion and fabrication at the very lowest market prices, either at wholesale or retail. au17 1stf
