Arrangements have been made by the Ocean Steam Navigation Company, by which specie shipped by the Washington will be delivered in London. She will probably take a considerable amount. The Fidelia is reported to have $200,000.

The quantity of Uncurrent Money in Wall-st. is so much increased, and this, in connection with the scarcity of money, has advanced the rates of discount—The following are the quotations from *Thompson's Bank Note Reporter*:

Some of our Banks are receiving Treasury Notes in deposit in limited amounts, and others have the matter under advisement. These notes will be paid out to their customers instead of specie for payment into the Custom-House. As the Sub-Treasury requires that Government officers shall disburse nothing but specie, it would appear that the Secretary of the Treasury will soon be in something of a category. So long as Treasury Notes continue at par, large amounts will be paid in for duties, and the specie locked up in the depositories, will find its way into the Banks again. This will have a very favorable effect upon the money market. The *Philadelphia Bulletin* says:

United States Treasury Notes have fallen to par. Our city Banks, we understand, will pay out these notes for specie; and, for convenience, they will now be used by our merchants in payment of duties at the Custom-House. The effect of this will be to keep in active circulation the specie that would otherwise accumulate in the various sub-Treasuries; and the Banks no longer apprehending a specie drain, great relief must soon be experienced in the money market.

The *Boston Courier* says:

Shipments of specie to Europe have checked the discount market, and in some instances exorbitant rates of interest have been paid for temporary loans. The Banks have been quite cautious, causing active demands for money in the street, where there is no fixed rate, leaders demanding and receiving their own terms. Some relief is expected after the departure of the steamer, particularly as Treasury Notes are beginning to be paid in at the Custom House, in lieu of specie.

The business on the Little Miami Railroad continues to show a gratifying increase. The receipts for the last month are as follows, as compared with October in 1846:

	1846.	1847.
Freights	$9,266 06	$9,261 21
Passengers	6,007 78	8,783 08
Total	$15,213 84	$18,044 29

Increase $2,830 45. The total receipts for the month of October for each of the last three years have been as follows:

1845.	1846.	1847.
$8,615 17	$15,203 84	$18,044 29

The first of the three years the Road was open only to Xenia. The second and third years afford a fair comparison—the Road being in full operation to Springfield.

Markets—*Carefully reported for The Tribune.*

TUESDAY, November 14.

ASHES—The market is heavy to-day, and Pots sold at $6 50 to small extent. Pearls are dull at $7 75. The demand at the present high rates is very limited.

COTTON—The sales to-day have been about 500 bales chiefly to spinners, without change in price from yesterday.

FLOUR AND MEAL—There has been a larger request to day from the East and for home supplies, but the market has been well supplied, and the quotations are lower. The transactions add up about 10,000 bbls, including 3,000 bbls for January and February on terms not made public, and 1,000 do for Saturday a little better than common at 6 25. The sales have ranged from $6 to 6 12½ for Western and 6 12½ to 6 25 for Genesee, closing at 6 12½ for Genesee and $6@6 12½ for Michigan, and dull. A sale of 1,000 bbls Oswego was made at the close at $6 06½—Flour was rather pressed on the market to-day, which gave buyers the advantage. There is a good deal going into store, some of the leading receivers declining to sell at present rates. Sales fancy brands at 6 37½@6 75, and Extra at $6@7 50. There is no movement in Southern, the quantity offering being very small. The range is 6 37½@6 50. Meal is a little heavy in consequence of the supplies of New-Orleans on the market. Sales 600 bbls State at 3 18¾@3 31¼. Rye Flour is nominally 4 87½@$5.

The quantity of Flour, Wheat, Corn and Barley left at tide-water during the 26 week in November, in the years 1846 and 1847, is as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1847	150,897	159,203	55,144	132,087
1846	196,104	211,105	34,857	92,302
Decrease	45,207	51,902	Inc. 21,287	39,785

The aggregate quantity of the same articles left at tide-water from the commencement of navigation to the 14th of November, inclusive, is as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1847	3,493,280	3,501,931	5,786,776	1,243,372
1846	2,618,534	2,597,683	1,482,124	1,259,333
Increase	874,756	904,248	4,304,652	Dec 15,961

By reducing the Wheat to Flour, the quantity of the latter left at tide-water this year, compared with the corresponding period of last year, shows an excess equal to 1,055,627 barrels of Flour, and a decrease of excess since our statement of last week of 55,587 barrels of Flour.

The receipts of Corn thus far exceed by 4,000,000 bushels the entire receipts of 1846.

The receipts of Barley up to the close of the 2d week in November during the present year, compared with the corresponding period in 1846, show a decrease of 15,961 bushels; and from the 1st of September to the 14th of November, inclusive, compared with the same period in 1846, a decrease of 147,017 bushels.

The following table shows the quantity of some of the principal articles of produce left at tide-water, from the commencement of navigation to the 14th of November inclusive, during the years 1845, (214 days,) 1846, (213 days,) and 1847, (198 days):

TO THE PUBLIC.—WILDER vs. GAYLER.—The U. S. Circuit Court having refused to grant the injunction prayed for against the defendant, the right of the subscriber to manufacture and sell his Salamander Safes remains unimpaired.

The public will understand that the verdict rendered in the suit at *Law*, is subject to the decision of the Supreme Court of the United States, to which it has been taken on a writ of error.

It yet remains to be seen whether the highest tribunal in the land will give to Mr. Wilder the exclusive right to use, in the manufacture of Iron Safes, Gypsum or Plaster of Paris, a substance whose natural properties and qualities were known to every schoolboy before Mr. Fitzgerald, under whom Mr. Wilder claims, was born, and whose use, too, had been applied to this identical purpose anterior to the time when Fitzgerald claims to have discovered it. This is the point at issue, and this the subscriber is prepared to try; and in the meanwhile the public will find for sale at the Sale Room, 126 Water-st.
