DR. MOTTS' BALSAMIC

SYRUP—For colds, coughs, consumption, bronchitis, asthma, weakness of the chest, &c. The effect of this highly-concentrated Syrup is to remove all impurities from the system, restore the blood to a pure state, act gently and soothingly upon the lungs, liver and kidneys, and bring back the deranged functions of the body to a healthy and vigorous action. This medicine is composed of ingredients which are separately in extensive use by the most emin-ent physicians, but this peculiar combination is only found in this invaluable Syrup, where they are combined so as to secure the most prompt and efficient action upon the system, and may be administered to infants with perfect safety. An important quality of this mucilaginous Syrup must not be overlooked, that while it is eradicating disease, it has no debilitating effect upon the system. At all seasons of the year it is particularly advisable to guard against those insidious colds and coughs which are the incipients of bronchitis, asthma, consumption, and everyone should provide themselves against these enemies of health, by having on hand some of this truly valuable medicine. It is not impaired by age, is very pleasant to the taste, and requires no change of diet or habit while taking it.
