NEW-YORK TRIBUNE.

Religious Intelligence.

SABBATH OBSERVANCE.—It appears from occasional reports and notices, that Rev. Dr. Edwards, the veteran agent in enterprises of Christian philanthropy, is the present Winter pursuing his labors in behalf of the Sabbath successfully in the South-western part of our country—addressing large assemblies of various descriptions—enlisting the sympathies and moral efforts of distinguished Laymen, as well as Clergymen of all denominations, and adopting measures for the still more extensive circulation of the "Sabbath Documents"—a small volume of facts, the distribution of which has already been secured to about *three hundred thousand families*.

A MISSION CHURCH.—In reference to the interesting letter of Mr. Pohlman, the Reformed Dutch Missionary at Amoy, requesting $3,000 for the immediate erection of a Chinese Mission Chapel, the *Intelligencer* of this week states that an individual of the City, anxious for a quick response, has just made the offer of $500, payable as soon as the remaining $2,500 should be contributed.

RECIPROCAL BENEVOLENCE.—We have learned with surprise, yet delight, (says the *Intelligencer*,) that a Foreign Missionary Society in the *Sandwich Islands* has sent to the American Home Missionary Society a donation for planting the Gospel in our own West!

THE CHRISTIAN UNION AND RELIGIOUS MEMORIAL is the title of a new Monthly, just started in this City, to be devoted to the common interests and the current history of the Church, in all its branches throughout the world.

EPISCOPAL BETHEL.—The steam ferry-boat Olive Branch, which has long plied between this City and Brooklyn, is now moored in the Atlantic Dock, and used as a floating church. Rev. Edward M'Gee (Episcopal) holds divine service on board of her every Sunday, at the usual hours.

GERMANS IN NEW-YORK.—Rev. Mr. Guldin, the respected Pastor of the German Mission Church, in Houston-st. has, by particular request, furnished important information to the *Christian Intelligencer* respecting the German population in this City, from which the following is an extract. Mr. Guldin says:

"The whole number now in the City is not less than fifty thousand—about one-half are Protestants, the other half Catholics and Jews. Of immigrants lately landed in New-York, we believe a majority are Catholics; with the exception of the German merchants, who do a considerable business in the lower part of the City.

"Those immigrants who bring with them any means, generally go West, so that mostly the poorer class stay in the City. This part of our immigrant population, is, of all others, as we believe, most deserving the attention of the American public, civil and religious. What is done for this people, in giving them the gospel, is most likely to be crowned with success."

RELIGION IN CALCUTTA.—The recent baptisms of native converts by Missionaries of the London Church Missionary Society, and the interest manifested by their pupils, and others, in the truths of Christianity, have produced great excitement in that city.

Among other expressions of hostility to the truth, the life of Doctor Duff, principal of the Seminary, has been threatened, like that of Dr. King at Athens, and he has been warned not to go abroad without a guard, not to venture out after nightfall at all.

CHURCH OF ENGLAND MISSIONS.—The *Quarterly* of the "Propagation Society" states in reference to the appeal of the three new Bishops for Australia and the one for the Cape of Good Hope, both for funds and for missionaries—"Though the wants of new Dioceses have in no sense been fully supplied, enough has been done to show that the Church of England is becoming more than ever awake to the duty of strengthening the hands of its Missionary Bishops, and of caring for its distant members.—The sum of $75,000 in donations, and of $5,000 in annual subscriptions for five years, has been already contributed, and there are few towns of any importance in England in which a hearty response has not been given to appeals of the new Bishops. Not a few clergy, and many candidates for holy orders have also been found to offer themselves for Australia and Southern Africa.

CHAPLAIN FOR HAVANA.—The American Seamen's Friend Society are about to sent out Rev. Mr. Knight, as chaplain to American and English seamen in Havana.

Law Courts.

CIRCUIT COURT—Before Judge Strong.—*John Leeds* vs. *the Mechanics' Fire Insurance Co. of Newark.*—The Company insured $2,000 on the brig Tremont, on the 5th Oct. 1842, for one year, being for the captain's share of the brig. On the 12th Sept. 1844, she sailed from Havana, bound to Boston, but encountered a gale on this coast, on the 5th Oct. 1844, and went ashore and was lost about midnight, 12 hours after the year expired, which was at noon. It is now contended that the policy was contemplated 'till 24 hours after moored in safety; and that there was a valid extension of three months more, both of which were denied, the Company, as to the latter point having ceased to take marine risks, and the Secretary transcended his authority in extending. Verdict for plaintiff, $2,500, subject to the Court, with liberty to change the verdict to a verdict for defendant.—For plff. Mr. F. B. Cutting and Mr. E. H. Owen; for defs. Messrs. Daniels Lord and Daniel D. Lord.

THE WEATHER IN VERMONT.—A letter from Highgate, Vt. of 1st inst. states that "there is no appearance of ice in the lake opposite Burlington, and a steamer crosses each morning to Fort Kent, returning in the afternoon. Yesterday I saw three or four vessels under sail at the same time, a very unusual sight at this season. The ice in the bays and narrow parts of the lake is very unsafe. The mail carrier between Alburgh and Swanton Falls broke through the ice and was drowned, with his horse, in crossing last week."

☞ A letter from Cantwell's Bridge to the *Delaware Journal*, says that a night or two ago, fire, by some means, caught to the barn of Elias S. Naudain, Esq. and burnt 2,000 bushels of corn, or more, 3 horses, supposed worth $200; cow and calf $25; barn supposed $1,000, with the hay and all of his blades, supposed 5,000 sheaves, and top fodder, which was in the barn yard, supposed $150. By the exertions of the neighbors, and hard work at that, the dwelling house and the other buildings were kept from burning. Whole loss supposed $3,000. Mr. N. is from home, being in Washington City.

☞ A SLAVE CASE of importance was reported this morning from the Committee on Military Afairs by Mr. Brent, of S. C. It proposes to pay for a slave, the services of whom was hired by the General Government for the army. He either made his escape to the Seminoles or was taken prisoner by them. Upon the restoration of peace, he was sent with the Seminoles, west of the Mississippi, and the proposition is to pay for this Slave out of Treasury. [Express Cor. 9th.

☞ The number of vessels wrecked on the coast of Florida and taken into Key West, during the last year was 20, valued at $515,250. Their expenses for repairs, &c. amounted to $60,117, and the sum awarded to wreckers was $50,904.

☞ The Camden and Amboy Railroad Company have placed a new and powerful locomotive on their road. It can carry the train with ease at the rate of 40 miles an hour.

The *Haverhill* (Mass.) *Banner* has the following gratifying statement as to the condition of the shoe business, in which is engaged a good portion of the productive industry of Massachusetts:"Our manufacturers and those who are employed in completing our staple commodity, have been exceedingly busy during a few months past, and a very large amount of shoes have been sent to market. We are told that 60,000 pairs of shoes were sent from Haverhill week before last, for the South and West, by order of purchasers; and large orders are continually filled by our manufacturers."

The State of Georgia has issued proposals for contracts for the completion of the Western and Atlantic Railroad, viz: from Dalton to Chatanooga, on the Tennessee River, 38 miles. This is the last link in the chain between the Atlantic at two points, viz: Savannah and Charleston and the valley of the Tennessee. From the point where the Road strikes the Tennessee River is about 100 miles steamboat navigation to Knoxville, and about 500 to the Ohio River. The passage over the Muscle Shoals, however, can only be effected when the river is high. From Charleston to Augusta, by the South Carolina Railroad, is 136 miles, thence to Atlanta, by the Georgia Railroad, 171 miles. At Atlanta the Roads from Savannah and Charleston meet—and the total distance from Charleston to the Tennessee River at Chattanooga is 445 miles.

The progressive increase of Agricultural wealth in the Territory of Wisconsin will be seen from the following table:

Years.	Acres assessed.	Total value.	Excess in 1847 over 1846 over
1844	Not returned.	$8,077,250	
1845	2,740,684	9,524,485	
1846	3,227,927	11,334,622	
1847	4,028,554	14,209,640	

The Iron Manufacture of Pennsylvania is thus contrasted for two years:

	1847. Pounds.	1846. Pounds.	Excess in 1847. Pounds.	Excess in 1846. Pounds.
Pig iron	185,115,276	150,913,535	34,196,637	
Wrought iron	72,244,763	39,365,242	32,879,521	
Nails & spikes	19,558,777	10,627,736	8,931,041	
Blooms	6,290,070	9,710,730		3,420,660
Total	283,208,880	210,622,241	76,007,199	3,420,660

MESMERISM.
CLAIRVOYANCE AND MAGNETISM applied to the discovery and cure of all diseases, by Dr. G. Hayes, and the great clairvoyant formerly of Dr. Brown, 174 Chambers-st. has removed to 111 Spring-st. between Greene and Mercer sts west of Broadway. Dr. G Hayes takes this method to inform the public that he will do the best that is in his power to any that will favor him with a call. Medicine sold wholesale and retail at his office.
7f 2w* Dr G HAYES, New-York.

TEETH EXTRACTED
WITHOUT PAIN—By the application of Chloroform, an article of superior test to sulphuric ether or nitrous oxide, as its application may be made with the greatest safety to the most nervous systems. The undersigned recommends his surgical skill in extracting teeth.
P. S.—Should the above not prove satisfactory to the anticipations of the patient no charge will be made for extracting. j15 1m* L. BERHARD, Dentist, 125 Pearl-st.

PAINTING
WHICH IS PAINTING.—The undersigned wishes to inform his customers, and the public generally, that he has purchased the right to use in his business, Otto's justly celebrated Patent China Gloss, with which he can put a white or other color to a house in a manner hitherto unequaled for elegance and durability. It dries quickly and presents a hard and polished surface, similar in appearance to fine enamel or China ware, which will remain so for a number of years.
It is decidedly the best and cheapest ever got up for painting the interior of steamboats, hotels, saloons, parlors and walls of private dwellings.
Specimens may be seen at his shop, 239 Wooster-st. near Fourth-st. Also, at the store of John Dick, 111 Nassau-st. where he will be happy to give any information respecting the said Patent Paint.
House and Sign Painting in all its various branches, with or without the China Gloss.
Specimens of the China Gloss may also be seen at Mr. George E. Watrise's saloon, corner of Broadway and Leonard-st. [7f 1w*] L. N. COWLEY, 239 Wooster-st.

LOCKE'S
PATENT PORTABLE CHAMBER,
Vapor or Shower and Douche Bath,
FOR GENTLEMEN, LADIES AND CHILDREN,
No. 31 Ann-st. New-York.
THIS BATH is acknowledged, by all who have used it, to be superior to anything ever manufactured for the purpose. It took the premiums at the Fairs of the American Institute, and at the late State Fair at Saratoga, N. Y., and at the Rensselaer Co. Fair, held at Troy, N. Y., in competition with twenty others, and is highly recommended by the most scientific men.
It forms an ornamental piece of furniture for a bedroom, may be used as a bathing tub, a Douche Bath, hip or sitz Bath, or as a Shower and Vapor Bath, more particularly the latter, as it is made perfectly tight at the top to retain the steam, and protects the whole apparatus from dust, and is so arranged with hooks, that when not used for bathing purposes, it is a very convenient wardrobe for ladies' or gentlemen's use. It occupies 24 or 26 inches square on the floor, and weighs 65 pounds, when Bates's baths, of the same size, weigh 115, thus rendering it movable with perfect ease from room to room.
The construction of the Bath is such that the most delicate female can manage it with perfectness. The fount is lowered to receive the water by a small crank, which can be turned by a child; the water is then heated at any required temperature by the child, lady or gentleman. The bath is administered by pulling a small cord, which opens a valve in the bottom of the fountain, and may be closed at pleasure, thereby enabling a lady of a nervous temperament to take from one to five gallons at a time.
It may be converted into a simple or medicated vapor bath, by attaching a small apparatus with a spirit lamp, which is sold with the bath if required.
Manufactured and sold, wholesale and retail, by
JOHN LOCKE 31 Ann-st. New-York.
Prices range from $8 to $18. Steam Generator, with its appurtances, $5. Persons at a distance desiring farther information relative to size, style of finish and prices, can, by addressing the subscriber, be furnished with a circular containing particulars. 5f lawtf

TO BANKERS AND MERCHANTS.
WOODBRIDGE'S IMPROVED PATENT BANK SAFE, AND STORE LOCKS.
THE CLAIMS OF THIS LOCK to superiority are based on its safety, certainty of operation, simplicity of construction and durability.
The result of the recent trial at the Exchange has placed its superiority beyond dispute. No other lock offered to the public has endured the same test.
The simplicity of its construction, and the manner in which its motions are produced, combine to render its action certain.
The PRICES are comparatively moderate, especially when considered in connection with their safety. Each lock is accompanied with two keys. Price of the largest size $200, medium size $125, for safes and stores from $30 to $15. The lowest priced locks are designed expressly for STORES, and are made on the same principle, but with solid instead of changeable keys. Orders may be addressed to W. E. WOODBRIDGE, at the
j13 1aw8f Manufactory, 61 Elizabeth-st. N. Y.

BANK OF CHESTER COUNTY, Jan. 12, 1848.
THE PUBLIC ARE NOTIFIED that the money stolen from the President of this Bank has not been recovered, and that the Bank has issued new notes, differing from the old notes, to wit:
The Fives, Tens and Twenties have printed, in *red ink*, on the backs, a combination lathe-work design, with the amount of the notes in figures, and the words "new issue" across the middle of the design.
The Fifties and Hundreds, of former issues, were printed in black ink—the new issues are printed in *red ink*.
The Five Hundreds have for the vignette three male figures in the front of the picture, one of them a sling on a block of stone—a medallion head with 500 on it, to the right of the vignette. The left end of the note has a head of Washington, with 500 above and below. The right end has a full length female figure, representing Ceres, standing on a square lathe-work block, with the figures 500 in it. These printed in *blue ink*.
The former issues of $500 have a farming scene, with haymakers for a vignette, with figures 500 on each side—each end has a medallion head in the middle, with 500 top and bottom, on square lathe-work blocks, and printed in black ink.
The One Thousands of the new issue have for a vignette a railroad, view of locomotive and cars coming round a curve, &c. on the left end of the note an engraved female head, top and bottom, and a square block with figures 1,000 between them; on the right end a head of Washington, with 1,000 top and bottom, on square blocks, and printed in *blue ink*.
The former issues of $1,000 have for vignette a drove of cattle passing through a toll gate—a man paying toll to a woman at toll-house door—figures 1,000 on each side of vignette—both ends have a medallion head in the middle, and figures 1,000 in square blocks, top and bottom, printed in *black ink*.
The new notes will all bear date in the year 1848. The stolen notes bear date in 1847, and prior years. Caution on the part of the public, and care and vigilance in receiving notes of the old issues, except from persons of known integrity, will assist in detecting the robbers.
j15 1awtf DAVID TOWNSEND, Cashier.

NEW-YORK AND ERIE Railroad Company.—The stockholders of the New-York and Erie Railroad Company are hereby notified that an instalment of $10 per share on all shares on which the payments heretofore made do not exceed $75, is required to be paid at the office of the Company, 45 Wall-st. on or before the 17th day of February next. By order of the Directors.—New-York, Jan. 17, 1848. [j17 1m] NATHANIEL MARSH, Secy.

THE MUTUAL BENEFIT Life Insurance Company—Office 11 Wall-st.—This Institution is distinguished by the following peculiarities:
1st. When the premium is over $50 annually, one-fourth may be paid in cash and three-fourths in a secured note at 12 months, bearing six per cent interest, or it may be paid half-yearly, quarterly or monthly.
2d. Persons take life policies and paying 50 per cent of premium in cash, and those taking policies for shorter periods and paying 60 per cent in cash, may give their individual notes for the balance, if satisfactory to the officers. There is an annual dividend of profits made to the insured.
The business of the Company has been unparalleled during the time of its existence. To the 1st of August, 1847, (27 months) 4100 policies had been issued, and after paying all losses and expenses, there remained a net capital of over $350,000. Statements of the business and all other papers of the Company may be had by applying at the office of the Company, 11 Wall-st. New-York.

LEGAL NOTICES.

BY ORDER of the Honorable Albert Lockwood, County Judge of the County of Westchester, of the degree of Counselor, &c. notice is hereby given that an attachment has issued against the estates of WILSON BUFFINGTON and M. B. BUFFINGTON, now or late of the town of Mamaroneck, in the said County of Westchester, absconding or concealed debtors, on due proof made to the said County Judge, pursuant to the directions of the Statute concerning "attachments against absconding, concealed, or non-resident debtors," and that the estate will be sold for the payment of the debts, unless they, the said Wilson Buffington and M. B. Buffington, appear and discharge such attachment, according to law, within three months from the first publication of this notice; and that the payment of any debts, and the delivery of any property belonging to the said debtors, or either of them, to them or either of them, or for their use, or the use of either of them, and the transfer of any property by them or either of them, for any purpose whatsoever, are forbidden by law and are void.—Dated Sing-Sing, November 18, 1847.
n20 1awlm M. L. CORB, Atty for attaching creditor.

BY ORDER of F. Sheldon Root, County Judge of the County of Oneida, Notice is hereby given that an attachment has issued against the estate of THOMAS DUDGEON as a non-resident debtor, and that the same will be sold for the payment of his debts, unless he appear and discharge such attachment according to law within nine months from the first publication of this notice; and that the payment of any debts due to him by residents of this State, and the delivery to him or for his use of any property within this State belonging to him, and the transfer of any such property by him, are forbidden by law and are void.—Dated Utica, January 15, 1848.

MEDICINES.

INTELLIGENT PHYSICIANS ARE NOW, from undoubted evidence, in cases of curable cases of

PILES,

torpidity of the bowels, constipation, liver complaint, ulceration of the stomach, bowels, kidneys and bladder, flow of blood to the head, chronic dysentery, and all inflammatory diseases of the bowels and stomach, are making use of and prescribing

DR. UPHAM'S VEGETABLE ELECTUARY.

It is the best medicine ever discovered, entirely vegetable, and superior to any other as a cathartic or purgative, and especially for those subject to Piles, as

THOUSANDS WILL TESTIFY.

It is an internal remedy, and may be used in all cases and under all circumstances, with perfect safety and full confidence of a permanent cure of Piles, either bleeding or blind, external or internal.

REMARKABLE CURES.
THIRTY YEARS STANDING.

MOUNT WASHINGTON, Berkshire Co. Mass. Nov. 29, 1847.
MESSRS. WYATT & KETCHAM: Gents: For thirty years I have been afflicted with Piles, general debility and inflammation, cystic tumors and prolapsus of the bowels, and which had resisted all the medical treatment Dr. Chapman and others could give. The last three years of that time my sufferings defy description. I was confined to bed, unable to help myself, and at last given up by my physicians and friends in despair of ever gaining my health; in fact, for a time before I commenced using Dr. Upham's Electuary I was entirely speechless, and my burial clothes were made. But under the beneficent agencies of Providence and the use of Dr. Upham's Electuary, though an old man, I have the pleasure of stating the fact to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary and to recommend it to my afflicted fellow creatures. It helped me beyond the expectation of all that knew my case, and I can only say to fellows of all that knew my case, that the best medicine in the others that it is in my opinion the best medicine in the world for Piles, or any other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure in every case.
Yours, with the utmost expression of thankfulness,
CORNELIUS WEBB.

EGREMONT, Berk Co. Mass. Nov. 18, 1847.
The above certificate tells a simple and truthful story of suffering and relief, of which, as physician and witness to the case, I therefore endorse it.
DR. CHAPMAN.

UNITED STATES NAVY OFFICE.
CERTIFICATE OF CAPT. MCLEAN.
BARNEY, Dec. 1, 1847.
I have been afflicted for years with the Piles, and have tried, without anything like permanent benefit, almost everything assuming the name of a remedy. I had at a certain of course, put it down as incurable in medicine. Under this feeling I was induced—not without reluctance, I confess—to use "Upham's Electuary," and having used it for about three weeks, according to the directions laid down, I feel to my utter surprise, as well as satisfaction, that every symptom of the disease has left me. I think it due alike to Dr. Upham and myself to make this statement.
G. W. McLEAN.

CURE OF BLEEDING PILES.
PORTLAND, Me. Nov. 2, 1847.
MY DEAR SIR: I cannot express to you my unbounded and heartfelt thanks for the wonderful cure I have experienced by the use of your invaluable Pile Electuary. I have been a perfect martyr to the bleeding Piles
