COMMERCIAL AND MONEY MATTERS

For Sales of Stocks, &c. see Fourth Page.

THURSDAY, March 21—P. M.

Stocks, especially the fancy kinds, went down this morning very considerably. They had been run up rapidly on the peace prospects, and kept up against a close money market. The coming of the French news had the effect to produce a panic among buyers, and this, as usual, caused a reaction. At the Second Board the demand again became good. The sales were very large and prices improved in one case, Harlem, 3 per cent. Treasury Notes were forced off in the morning as low as ¼ premium, but grew in demand in the afternoon at ⅛ to ¼, we think the decline more than is warranted by the facts, and that in a few days this will be shown by the arrival of the steamer of the 11th inst.

In Bills there is not much movement. The stringency of the money market will prevent large remittances by the Cambria. Sterling is held at 9@9¾, good bills being obtainable at 9¼ per cent. Favorite signatures of France are selling to some extent. About 200,000 sold at 5.26@5.25.

There is not much doing in Freights. An engagement of 4,000 bush Corn was made for Liverpool at 4d in bulk. Some 900 tcs Beef were taken at 2s 6d, and Cotton at 5-32d. To Antwerp 500 bales were engaged at ⅛c.

The Money market continues the same, or perhaps a little less stringent, as some of the leading Banks are taking considerable amounts of short paper from their dealers. There is no panic feeling, and the whole of the moneyed opinion seems to be that the French Revolution, while it will not permanently injure, may conduce in several important respects to an improved state of things in this country.

The following table will show the shipments of specie from this port since the publication of the last weekly report:

Ship Fidelia, Liverpool, sovereigns	$1,600
" Burgundy, Havre, five francs	23,810
" " " Mexican dollars	25,600
Brig Almira, Porto Cabello, five francs	14,295
Total week ending March 18	67,705
Shipments Jan. 1 to March 11	2,531,645
Total for 1848	$2,599,350

At Boston the Money market continues tight.

At Buffalo the Money market is easy, and first-class paper can readily be negotiated at moderate rates. The Banks are discounting more freely, although the demand on the part of produce operators is as yet of a very limited nature.

At Baltimore there is less stringency, but the effect of the French news had not been experienced.

At Cincinnati Eastern Exchange was selling at ⅛ per cent with good demand. The demand was less for money, but the market was still tight.

At New-Orleans the Money market continues quite easy, and first-class paper was readily negotiated out of doors at 10@12 per cent discount; second-class signatures are not so easily placed, and the rates range from ¼ to 2 per cent a month. The Banks are discounting to the full extent of their receipts, and altogether the feeling in moneyed circles is decidedly good.

A statement has recently appeared in some of the papers that railroad iron had been shipped from this country to England. The explanation is this: the rails sent to England were some English rails of an inferior quality, which had been lying in New-York for sale, for some time, without finding a purchaser. The fact is now well established that American rails are better than English. The New-Jersey Railroad Company, a few weeks ago, made a contract to purchase 1,000 tons of the Trenton Iron Company, at $61 per ton, which was $8 or $9 above the price of English rails. The New-Jersey Railroad Company had tried both English rails and those made at Trenton, and preferred to buy the latter at this difference of price. Since this contract was made, the price has risen in England and the United States.

The first boat from the Delaware Division of the Pennsylvania Canal reached Philadelphia on Friday.

The tonnage of the inland port of Buffalo is 37,118 tons.

Markets....*Carefully reported for The Tribune.*

TUESDAY, March 21.

ASHES—Remain dull at 5 75@5 87½ and $8 for Pots and Pearls. The sales are very limited.

COTTON—The demand for Cotton is larger, and some exporters having come in, holders have met them, and about 1,500 bales changed hands at prices showing a decline of ⅛ to ¼ cent on prices before the steamer. Some exporters quote the decline ½ to ¾ cent, while others call it 1 cent ⅝ lb. One line of fair Orleans sold at 7½ cents.

FLOUR AND MEAL—The Flour market has been very quiet to-day, and the tendency of prices is downward. This has been partly the result of a falling off in demand, and partly in consequence of the prospect of opening of the River to Albany. The sales to-day have not exceeded 1,500 bbls at 5 50@5 62½ for common to fair, and 5 75 for the latter for strictly prime. A sale of good Genesee was reported made at 6 62½. The inquiry for the East is less than it was. We hear of no operations for future delivery. One sale of 500 bbls Ohio was made at 6 50, and Black Rock at 6 62½. In Southern there is some movement, and the market is steady at 6 37½@6 50 for good common brands. Sales are 600 or 800 bbls Richmond and Petersburg at about previous rates, and 400 Petersburg fine at 5 37½. Meal has been in much better inquiry to-day, and 1,600 to 1,800 bbls have been sold at 2 50 for Jersey.

GRAIN—For Wheat there is some inquiry for milling, and the market is firm. A sale of 2,000 bushels prime Genesee was made at 152 cents, and a small parcel grown on this Island, at 132d-st. a very handsome sample, sold at 153 cents. Corn was in some inquiry for shipment, as well as the East, and sales 10,000 bushels Jersey were made, a portion at 56 cents for prime, and yellow. There were also sales White Jersey at 54 cents; 2,000 bushels Georgia at 52½ in store, and 6,000 bushels New-Orleans inferior at 51½ cents, for distilling. Sales 2,500 bushels Rye at 80 cts. Oats are 47@50 cents for Northern, 44@47 cents for Jersey, and dull.

WHISKY—Is improving. There are but few bbls in market. Small sales at 25 cents. Drudge is now held at 24 cents. Sales 100 hhds at 29@29½, and 25 wooden bound at 27½ cents, time.

PROVISIONS—In Provisions the market is rather more active. Pork, however, continues dull as does also Barrel Beef. Sales to small extent of Mess Pork were made at 16 12½@16 25 and 100 bbls Prime sold at something off 9 25. It was offered freely at 9 25. Beef is only selling in small parcels at 5 12½@5 6 and 8 12½@9. A sale of 300 or 400 tcs Prime Mess Beef was made for England at $15. It was a good parcel. Lard continues in good request and the sales are 1,000 bbls at 7@7¼, the latter for strictly prime, and 1,500 kegs at 7¼@8. A sale of 500 kegs steam rendered was made at 7½ cts. Pickled Meats are not pressing on the market and the sales are small. Hams are firm. Hams sole at 6½ cts. Butter and Cheese are firm.

FRUIT—A sale of 2,000 boxes Raisins was made at 140 and 150 cents, according to order.

TALLOW—Is scarce, and nominally 9@9½ cents. The sales are small.

BONE—A sale of 5,000 or 6,000 lbs North-west was made at 27 cents, cash.

METALS—Sales 900 pigs Soft Lead at 4 37½, cash. Iron is quiet, but held rather firmly.

OILS—Linseed is dull of sale. Retail lots English bring 64 cents. Whale is nominally 35 cents, for export; 36@37 for selected. Sperm is 100 cents.

SEEDS—Flaxseed is heavy. A sale of 50 tierces was made at 140, and 50 do at something off. Sales 150 bbls Clover at 7@7½ cents.

TOBACCO—A sale of 150 bales Cuba Tobacco was made at about 15 cents ⅌ lb. For Kentucky there is a moderate demand, and the market is firm.

NAVAL STORES—The market is very dull for all descriptions. Raw Turpentine is nominally $3 and Spirits 38 cents, but there is nothing doing. Sales 100 bbls New-bern Rosin at 72 cents, and 100 bbls Tar at 1 81½. Rosin is scarce and wanted.

BREAD—There is no change to note. Sales Pilot at 48 cents, fine Navy at 5½, and Navy at 5¼.

HEMP—A sale of 1,000 bales Manilla has been made on terms not made public.

HAY—We note sales 400 bales North River at 62½ cents per cwt.

☞ THE GREAT ENGLISH REMEDY.—The only original and genuine article for the cure of Hoarse, other complaints of the respiratory apparatus, and derangement of the digestive functions in the Horse, is KIRKBRIDE'S Tattersall's Horse Powders. It is warranted to be perfectly safe in all cases, will not incommodate the animal or injure even if he has no disease; it is from 4 to 8 times cheaper than most of the imitations which are being circulated throughout the country, being put up in much larger packages, sufficient to cure an ordinary case of Heaves, and to administer to a dozen cases of cold, catarrh, &c.

At this season, while the Horse is shedding his coat, his vital energy is much reduced, and he is extremely liable to colds, &c. and many cases of incipient Heaves are contracted now, but are suppressed by pasture or warm weather, till they break out with full force in the Fall. Thousands of Horses can be saved from future unsoundness if, when the first symptoms of cold or wheezing is observed, a few doses of the Tattersall's Heave Powders should be administered. They are warranted to wholly eradicate recent Heaves at this season.

GREAT SPRING PURIFIER.—The Heave Powders, given in small doses, will be found most useful at this season. They stimulate the skin to cast off the superfluous hair and produce new; they loosen the gelling phlegm, compassion to the most pulmonary and restorative powers, purify from the first alterative and tonic effects, give a glossy appearance to the hair and renovate the system, which Horses require at this season as much as any of the human race, who find a preparation of sarsaparilla useful to correct the vitiated state of the fluids, incident to the change of weather, which, in the Spring, affects all the tribe
