THEY SAY HE IS A FRAUD.

Two Doctors Assert that Willie Mains is Shamming.

ST. LOUIS, Jan. 10.—The case of Willie Mains, the 14-year-old victim of three dog catchers, has astonished the doctors. About a month ago the boy interfered with the dog catchers, and one of them lassoed him with a coil of wire and threw him among the dogs in the wagon. The boy was bitten and badly frightened. When released he was seized with hysteria. The dog catchers were arrested and public indignation was at white heat. The men were held in bonds of $15,000. Meanwhile the boy evinced the most remarkable symptoms. He went into paroxysms resembling epilepsy, and kept his face covered with his hands. A score of doctors examined him, and said the base of his brain was injured by the wire. Yesterday Dr. J. K. Baudrey, Professor of Nervous Disorders in the Missouri Medical College, and Dr. Frve, a Professor in the St. Louis Medical College, made a thorough examination of the boy and pronounced him a fraud. They allege that he is simply shamming, and showed how they caught him. The other doctors insist, however, that the boy's sufferings are genuine.

Must Pay Goldenkirch's Insurance.

Although a jury in the Court of Sessions, Brooklyn, a few weeks ago acquitted Charles W. Green of the murder of Nicholas Goldenkirch, who had been secretly married to Green's sister, and whom Green shot down in his own house, there was virtually a retrial of the case yesterday. In September, 1887, Goldenkirch insured his life for $5,000 in the United States Mutual Accident Association, but the company refused to pay the policy on the ground that Goldenkirch had violated its provisions by wilfully exposing himself to danger and by engaging in a fight or struggle in which he received the fatal bullet wound. Suit for the payment of the policy was brought by Peter and Catharine Goldenkirch, the parents, and the trial was begun yesterday in the City Court, before Judge Van Wyck and a jury. Green was in court all day and sat within a few feet of the spot where he so lately faced a jury while on trial for his life. The testimony introduced was substantially the same as that presented on the former trial. The jury gave a verdict for the plaintiff for the full amount claimed, with $192.50 interest.

Wanted—Females.

Proposals.

PROPOSALS FOR THE CONSTRUCTION OF THE MACHINERY FOR THE UNITED STATES ARMORED CRUISER "MAINE."—NAVY DEPARTMENT, Washington, D. C., Nov. 20, 1888.—Under authority conferred by the act of Congress, entitled "An act to increase the Naval Establishment," approved Aug. 3, 1886 (24 Statutes at Large, page 215), sealed proposals are hereby invited and will be received at this Department until 12 o'clock noon, on Friday, the 15th day of February, 1889, at which time and place they will be opened in the presence of attending bidders, for constructing and furnishing the machinery, including engines, boilers, and appurtenances, required for the United States Armored Cruiser "Maine," and for erecting and connecting the same on board said vessel at the Navy Yard, Brooklyn, N. Y. The machinery for said vessel is to be constructed in accordance with the conditions and limitations prescribed in the above-mentioned act of Congress, so far as the same relates to the construction of the engines, boilers, and machinery of the armored vessels therein provided for. Proposals for furnishing said machinery will be received "from every American shipbuilder and other person who shall show, to the satisfaction of the Secretary of the Navy, that within three months from the date of the contract he will be possessed of the necessary plant for the performance of the work in the United States which he shall offer to undertake." The evidence thus required must accompany the proposal, or be submitted to the Department in advance. All the machinery, including engines, boilers, screw propellers, shafting, pumps, and all appurtenances, is to be of the best and most modern design, and to be constructed in accordance with plans and specifications provided or adopted by the Secretary of the Navy. The engines must have all necessary appliances for working under forced draught. The machinery must be delivered, complete and ready for erection and connection on board the vessel, within two years and six months from the date of the contract, and must be erected and connected on board, complete and ready for delivery, within twelve months from the date when the vessel is ready for the reception and erection of the same. The contract will contain a provision relating to premiums and penalties in connection with the development of horse power, according as the same shall be above or below the required maximum. Proposals for said machinery, including engines, boilers, and appurtenances, complete in all respects, and including also the erection and connection of the same on board the vessel, are divided into three classes, as follows: Class 1.—For machinery in accordance with plans and specifications provided by the Secretary of the Navy. Class 2.—For machinery in accordance with said plans and specifications, with such modifications thereof or changes therein as may be proposed by the bidder; but no such proposal will be considered unless accompanied by such plans and specifications as are necessary to an understanding of the changes and modifications thus proposed. Class 3.—For machinery in accordance with plans and specifications submitted by the bidder, in which, however, the weight of the machinery and the space to be occupied must not exceed the weight specified and the space allotted in the plans and specifications of the vessel as provided by the Secretary of the Navy, and no such proposal will be considered unless accompanied by full and complete specifications, and by such plans as may be necessary for a thorough interpretation of the design; such proposal must also be accompanied by a sufficient guarantee that the results of the same, if adopted, will be satisfactory to the Secretary of the Navy. Specifications of the work, plans showing the space available for machinery, the general provisions to be incorporated in the contract, blank forms on which proposals must be made, and all other information essential to bidders, can be obtained on application to the Chief of the Bureau of Steam Engineering, Navy Department. Each proposal must be accompanied by a cash deposit, or by a certified check payable to the order of the Secretary of the Navy, which shall become the property of the United States in case the successful bidder shall fail to enter into the requisite contract and to furnish the requisite security on the acceptance of his proposal. The amount of such deposit or check must be not less than five per cent. of the amount of the bid. All deposits and checks of bidders whose proposals shall not be accepted will, on the award of the contract, be returned to them; the deposit or check of the successful bidder will be returned to him when the contract has been duly entered into and the requisite security furnished. Such bidder will be required, on the acceptance of his proposal, to enter into a formal contract for the faithful performance of the work and to give a satisfactory bond for such performance in a penal sum equal to fifteen per cent. of the amount of his bid. Proposals must be made in duplicate, enclosed in sealed envelopes marked "Proposals for Machinery for the U. S. Armored Cruiser 'Maine,'" and addressed to the Secretary of the Navy, Navy Department, Washington, D. C. The Secretary of the Navy reserves the right to waive defects in form, and to reject any or all bids as in his judgment the interests of the Government may require.

WILLIAM C. WHITNEY, Secretary of the Navy.

NAVY DEPARTMENT, WASHINGTON, Dec. 17, 1888.—The time fixed by this department's advertisement, dated Aug. 29, 1888, for receiving proposals for a submarine torpedo boat for the United States Navy, viz., Friday, Jan. 4, 1889, is hereby extended to 12 o'clock noon, Friday, Jan. 25, 1889, at which time the opening of the bids will take place.

WILLIAM C. WHITNEY, Secretary of the Navy.

Trains leave foot of Chambers st. and 23d st., New York. GEO. INGRAHAM, President.
JAMES McGOWAN, Secretary.

Whoever "pulled in" one of those $18 bargain Overcoats we offered yesterday secured a good thing. Don't know if any are left to-day—worth coming to find out about.

Ulster weather is promised. We have the Ulsters; both the old-fashioned, sensible Stormcoats and the more stylish Cape Ulsters. For actual service there's nothing equals an Irish Frieze—the real Irishman. We have both the imported and the domestic imitation, showing the difference in goods and in prices. A few very fine Ulsters in foreign Fur Beavers.

The last there will be of that remarkable $1.25 "Medlicott" underwear reached us yesterday. It goes almost as fast as it comes; and no wonder.

Rogers, Peet & Co.

CLOTHES, HATS, AND SHOES.

JAMES McCREERY & CO., Broadway and 11th St.

SODEN MINERAL PASTILLES

SODEN MINERAL PASTILLES, which were awarded the highest distinction by a medical jury at the International Exhibition at Brussels, have proved to be a first-class remedial agent in all catarrhs of the organs of respiration and digestion.

SODEN MINERAL PASTILLES are prescribed by physicians in diseases of the lungs and chest and asthma. The benefit derived from their use is unsurpassed, and even in the most chronic cases they soothe, ease, and stimulate.

SODEN MINERAL PASTILLES are preferable to all similar preparations, because they are a natural remedy, an unadulterated product of the springs, containing in an undiminished degree all the sanative principles of these springs.

SODEN MINERAL PASTILLES are prepared exclusively under the personal supervision and control of W. STOELTZING, M. D., K. K., Sanitary Councillor.

SODEN MINERAL PASTILLES are unrivalled as a solvent in coughs and catarrhs, even in the most chronic cases. Their success is unsurpassed.

SODEN MINERAL PASTILLES are a superior remedy in whooping cough and diphtheria; in the former they lessen the paroxysm of the attack, while preventing the latter disease, which cannot take hold
