MELANCHOLY EFFECTS OF AN OUTRAGE—The lifeless body of Miss Morrisette has been found in the Alabama River. The direct cause of the melancholy which led to suicide was excitement and mortification from the outrages against her father by a mob in Mobile, who had taken umbrage at a vote given by Mr M. in the State Senate, of which he was a member. The outrage has excited the indignation of the people of Alabama. They have denounced it in various public meetings. The aggressors should be punished.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

THURSDAY, April 27—P. M.

The Stock market was heavy to-day and the fancies fell off materially in some cases. Reading was very heavy and sold at 53¾. Treasury Notes were in good demand and sold at the Second Board at 2¼, which is an improvement.

There is nothing doing in Bills and the market is nominally as before, 10¼@11 for best Sterling. The demand is yet moderate and will be until the America arrives.

In Freights there is little or no movement. The condition of affairs in England induces an indisposition to ship until further advices are received, and consequently there is but little freight offering. Cotton is nominally 1d per lb. heavy goods 19s@17s 6d, Naval Stores 2s.

The apprehended difficulties in England are having an injurious effect upon our Commerce. Many of the houses connected with the English trade decline to make advances on Produce to be shipped to their friends. This tends to embarrass trade and reduces the amount of bills in market. A considerable portion of the remittances by the next Steamer will be made in Government stocks and Treasury Notes. It is believed that they will prove a better remittance than bills or specie. We know of purchases already made for this purpose.

The *Boston Traveller* rather sneeringly alludes to the statements that $250,000 in specie came in the Steamer, and that a large amount of Government stocks have been bought to go abroad. We can assure the *Traveller* that more specie came in the Acadia than the consignees of that ship or the Custom-House at Boston have any knowledge of, although we think the above amount not high. We think the amount received by her exceeds $400,000 considerably. As to the stocks bought to go abroad, we have the best authority for the fact. The telegraphic dispatch to the Boston papers alluded to by the *Traveller*, was correct we know.

The City of Brooklyn has issued proposals for a loan of $167,000 at 6 per cent. payable in 20 years

The Commercial and Farmers' Bank of Baltimore has declared a dividend of 4 per cent. for the last six months. The United manufacturing Company of Maryland a dividend of 15 per cent. in stock on the capital paid in.

The value of exports from Boston for the week ending 26th April was $146,926, of which $60,167 was of foreign merchandise.

In order to preserve the interests of the Girard Bank, and the Trustees of the United States Bank, in the Vicksburg Railroad Company, an arrangement has been made by the agents of the two banks with the creditors of the latter Company, which will render it necessary for a sum exceeding $200,000 to be raised. A petition has been recently presented by the Trustees of the June Trust of the United States Bank to the Court of Common Pleas of Philadelphia County, asking authority to loan this sum to the Girard Bank, who are to expend it for this purpose, receiving the amount as a deposit from the United States Bank, and pay interest upon it—the same to be repayable when demanded by the United States Bank. The property of the Vicksburg Railroad Company has been recently seized by the sheriff for debts approaching $250,000; and if it should be sold, claims of the two banks, amounting to nearly two millions of dollars, will be entirely lost. They therefore have a great interest in the proposed arrangement.

On Tuesday, the opinion of the Court was given to the petitioner's counsel. The Court were divided on the subject

They however stated this—that if the facts set forth in the petition were as stated, and if the trustees were to loan the money, there would be no difficulty in the settlement or confirmation of their accounts. But the Court could not confirm or ratify the loan in advance.

Judge Parsons thought the circumstances would justify the trustees in making the loan. He thought the Court had authority to make the order prayed for.

Judge Kelly was of the same opinion.

Mr. Wharton suggested that as the petition was filed, if the Court refused its prayer, although favorable to its object, the entry that the petition was refused might create difficulty hereafter, if the Trustees should loan the money, acting under the favorable intimation of the Court.

It was then suggested that the petition should remain as filed, without any entry of the action of the Court being made. So the matter went off, and the presumption is that the Trustees will take the responsibility and loan the money.

The Naugatuck Valley Railroad, intersecting with the New-York and New-Haven Road near Bridgeport, and passing through Birmingham, Ansonia, Humphreysville, Naugatuck, Waterbury, Plymouth, Wolcottville, and terminating at Winsted on the State line, is already under contract and the grading commenced. This road is to be the great thoroughfare through the interior of Connecticut.

The money market at Buffalo was tight, and the Banks were discounting very moderately; about enough to enable receivers to pay freight.

The number of boats cleared at the Pittsburg of Sec of the Pennsylvania Canal last week was 155. The tolls received reached $3,614, and for the entire season $90,775.

Information of the failure of Joseph S. Lake & Co. had been received at Galveston. It was feared as this house and the branch in New-Orleans were agents in the United States for the Agricultural and Commercial Bank of Galveston, that that institution might be embarrassed. Four days after the failure was known, only $2,600 of the notes of the Bank had been presented for specie. The Bank will go on with its business precisely as before.

The following statement of the number of hogs packed in the West during the last season is from the *St Louis Republican*. Entire authenticity is not claimed for the statement, but the numbers given are sufficiently correct for the purpose of an aggregate:

MARKHAM'S

SCHOOL HISTORY OF ENGLAND—D APPLETON & CO. will publish on Saturday, History of England from the Invasion of Julius Cæsar to the Reign of Victoria, by Mrs. Markham. A new edition, revised and enlarged, with Questions adapted to schools in the United States by Elizur Robbins, author of "American Popular Lessons," &c. 1 neat vol. 12mo. Price 75 cents.

"There is nothing more needed in our schools than good histories; not the dry compends in present use, but elementary books that shall suggest the moral uses of history and the providence of God manifested in the affairs of Man—Mrs. Markham's history was used by that model of all teachers, the late Dr Arnold, master of the great English school of Rugby, and agrees in its character with his enlightened and pious views of teaching history. It is now several years since I adopted this history to the form and the price acceptable in the schools in the U. S. I have recently revised it, and trust that it may be extensively serviceable in education."—*Extract from American Editor's Preface.* a28 2t1s

The realities of his book render it extremely life-like and engaging. * * * The book, in short, is full of pleasant reading as well as instructive remark, and must take a useful place in any series of works."—*Athenæum.* a28 2t1s
