COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

WEDNESDAY, June 7—P. M.

The market was rather heavy to-day, and the transactions were moderate. Treasury Notes went to 103, in the street, after the Board, there were very large sales Harlem which broke down to 55¾. Some large holders are evidently selling out.

The market closed heavy for Bills, and the supply exceeded the demand. Good bills sold at 10¼@10½, but first-class bills were selling at 11@11¼. Some dealers in Exchange are very confident that a decline 1 or 2 per cent. will take place in Exchange within 20 or 30 days, and that the drain of specie will be stopped.

In Freights there is some activity, and there would be more but for the scarcity of vessels on the berth. Some heavy Freight was taken at 20s for Liverpool, and 22s for London.

The Steamer to-day took $274,700 in specie, which is less than was anticipated.

The miscellaneous exports from May 30 to June 6, to Great Britain and to Havre have been as annexed:

To London—145 bale Tobacco, 20 bbls Quercitron bark, 467 hogsheads and tcs hops, 3,767 lbs beeswax, 120,823 lbs bacon, 175,695 lbs Feed, 222,000 lbs soda ash, 24 pkgs furs and skins, 600 bbls pitch, 193 bbls tread, 805 bbls turpentine, 33 bbls Rosin, 414 lbs leaf, 2 M staves.

To Liverpool—777 bale pack, 400 bale leaf, 20 bbls potash, 109 bbls pearlash, 200 bbls tar, 30 bbls turpentine, 20 bbls rosin, 432 bbls wood, 962 lbs wax, 3,000 lbs clover seed, 896,185 lbs hams, &c., 699,793 do lard, 64,704 lbs cheese, 142,741 lbs tallow, 50,000 bush corn.

To Glasgow—100 bbls flour, 200 bushels corn, 206 bbls packed pork, 10 bbls rosin, 21 bbls tread, 52,167 lbs tallow, 233,021 lbs lard, 98,442 lbs hams, 2,500 lbs cheese, 19,410 gallons whale oil.

To Belfast, for Great Britain—3,000 bbls turpentine, 25 bbls wood.

To Havre—42 bbls potash, 28 bbls pearlash, 1 pack furs.

The North American Fire Insurance Company have declared a semi-annual dividend of 5 per cent. and an extra dividend of 3 payable on the 8th inst.... The Tennessee Marine and Fire Insurance Company of Nashville, a semi-annual dividend of $3 per share.

At the adjourned meeting of the stockholders of the Bank of the United States at Philadelphia on Monday last, the President of the Bank, James Robertson, Esq.—under a resolution of a previous meeting, requesting him to procure from the assignees of the three Trusts a statement, as much in detail as was practicable and proper, of the remaining assets in their hands, together with a statement of claims against the Bank—made report that he had notified the several Trustees, and had received from the Trust of 4th and 6th September, 1841, the statements required, and which are as much in detail as was deemed proper, but, in the opinion of the Board of Directors, the "publication of the said detailed statements would be neither expedient nor proper at this time, and they therefore beg leave to suggest to the stockholders that they appoint a Committee, if they think proper, to whom the said detailed statements will be handed, if the stockholders shall so desire, when such action may be had in reference to their publication, as said Committee or the stockholders shall direct." The President of the Board furnished the reports, which were laid on the table. Mr. Kennedy, from the Committee appointed at the last meeting, made a report, which with the accompanying resolutions, was read and finally adopted.

Ist. Resolved, That it is desirable that the trusts created by the three several assignments of the United States Bank, dated May 1, 1841, June 7, 1841, and September 4 and 6, 1841, be brought to a close as speedily as may be consistent with a proper protection of the trust property and the judicious management of the trusts.

2d. Resolved, That, in the opinion of this meeting, the trust estate would bring higher prices by being offered to the creditors of the Bank in payment of their respective claims under the trust deeds, and subject to competition among them.

3d. Resolved, That it is expedient to ascertain at an early day as great a sum of the amount of claims entitled to be paid out of the trust estate, and that with that object the Trustees under the deeds of September 4 and 6, 1841, and the Directors of the Bank be requested to unite in connection with the Committee hereafter named, in taking measures for the purpose of obtaining the aid of the Baron Rothschild of Paris, and Hope & Co. of Amsterdam, the expenses to be paid out of the trust funds.

4. Resolved, That the Committee hereafter named be authorized to employ a competent person to examine the accounts of the several Trustees, to ascertain and report what property has been sold and the circumstances attending such sales, and if necessary, to employ counsel about the matter, who shall also represent the interests of the stockholders before the auditors appointed to audit the accounts, and in Court, &c.; and that the Directors and the several Trustees be requested to furnish all necessary information on the subject, and that the Trustees under the deeds of September 4 and 6, 1841, be requested to pay out of the trust funds all the necessary expenses attending the same.

Mr. Freeman moved to amend said resolution by adding thereto the following words: "provided such payment shall not be inconsistent with the rights of creditors," which amendment was adopted by the Committee. The question then recurring upon the resolution, with the amendment accepted by the Committee, was adopted.

5. Resolved, That Messrs. John M. Kennedy, Edmund Wilcox, Mark Devoe, and Christopher Fallon be appointed a Committee to carry the foregoing resolutions, and generally all the recommendations of this report into effect, and to procure the framing and passage of such act or acts of Assembly as may be thought necessary and requisite for that purpose.

Resolved, That said Committee take charge of the papers annexed, and that they also ascertain and report to the next meeting the names of gentlemen competent and willing to act as directors of the bank, who are wholly unconnected with any of the several trusts or as trustees, or their clerks, and that they also report to the next meeting of stockholders the reasons for their action whatever may, in their opinion, be advantageous to the interests of the stockholders.

Mr. Kennedy moved to amend said resolution by, "and that said Committee likewise take charge of the communication and accompanying documents furnished to this meet by the Board of Directors of the Bank," which amendment was accepted by the Committee, and thereupon the said resolution, as amended, was adopted. The Meeting then adjourned to meet on the 2d Monday in December.
