NEW-YORK TRIBUNE.

SONG FOR MY OWN LOVE.

Oh! come to me, asthore machree!
I love you more than my heart can tell;
I've not a thought in the night or day
But to prove how deep and well.
The softest green of the summer trees,
The sweetest strain of the wild bird's son,
The holiest sunbeam that lights the sky,
Were welcome small for the *one* whom I
Have worshiped and wept so long!

There's none I know, on earth below,
Could treasure and dost on my love like me;
The laughter and tears of my inmost soul
Rush on in a stream to thee.
There's hardly place in my heart's deep cell
To hold the wealth that on thee I'd pour,
And I sit alone all the long, long hours, [ers,
While a heaving joy swells thro' tearful show-
In my fondness for you, asthore!

Then come to me, cushla machree!
You're left by the world to me *alone*;
And wild and bright is my joy and pride
When I think of my darling one!
I know not how I can greet you best—
I know not how I can most adore;
But in winged delight still I rove along,
With a dreamy step and a voice of song,
Waiting for you, asthore! [Dublin Nation.

Late Religious Intelligence.

☞ The Central Presbyterian Church at Newark, N. J. at a meeting on Monday week, voted a unanimous call for Rev. Dr. PATTON to become their Pastor, which it is understood he will accept. The congregation intend building a new church, and with such a pastor they will no doubt meet great success. Dr. Patton was deservedly celebrated and honored during his residence and ministry in this City during his Pastorship of the Spring-st. Church.

☞ The friends of the Sabbath in Ohio have recently held a large and animated meeting at Xenia, and as one of the results, formed an association to promote its better observance, under the title of the Western Sabbath Union. There were 251 delegates present, from twenty Counties in Ohio, and from the States of Pennsylvania, Indiana, Kentucky, and Iowa. A series of Resolutions—thirteen in number—was adopted, affirming in judicious and explicit language the authority, utility and desirableness of the Sabbath, in all the relations of life, and specifying and deploring many of the usual methods in which it is desecrated. The Constitution of the Union is brief and practical, authorizing the employment of agents to labor for the promotion of sound Scriptural views on the subject. Hon. BELLAMY STORER was chosen President of the Union. The need of such a consolidation of public sentiment is very much felt at the West; and the present is a most favorable opportunity for effecting it.

GREAT INCREASE.—From letters received at the Baptist Missionary Rooms in this City since the Anniversary in May last, it appears that 1,150 Karens have recently joined the Churches connected with the American Missions.

MESMERISM NOT ORTHODOXY.—At the Troy Conference of the Methodist Episcopal Church, Rev. Mr. Sprague of Amsterdam in this State, was tried on the charge of being a Mesmerizer. The charge was sustained, and he was expelled from the ministry.

MISSION TO TURKEY.—Messrs. Edward M. Dodd and Oliver Crane have been ordained at Newark, N. J. as Missionaries or Evangelists to the Armenians and Jews in Turkey.

☞ There are no newspapers in Syria or Persia; and in Egypt, the Barbary States, and other countries, including 40,000,000, speaking the Arabic language, there is but one newspaper in the native tongue, and but three or four in the French or English, showing that there is nothing in Mahomedanism favorable to general enlightenment.

SAILORS.—At a recent meeting of a benevolent society in Bangor, Me., Rev. Mr. Chickering remarked that since his return from Europe he had four wonders respecting seamen. 1. That any parent ever sends a son to sea. 2. That any sailor ever goes to sea a second time. 3. That any man who is a sailor is not morally ruined. 4. That so little is done by Christians in behalf of sailors.

RELIGIOUS TOLERATION IN NEW-GRANADA.—This South American Republic has become of special interest to the inhabitants of this country, in consequence of the late Treaty, which secures the right of way across the Isthmus of Panama to the Government and people of the United States. In that arrangement the interests of both countries will be promoted. Along the line of transit, towns will spring up and attract immigrants from all countries. Immigration is greatly desired by the Government of New-Granada, and in order to secure it, they have determined to offer large inducements in the shape of lands and privileges, and among these privileges is the most ample religious toleration.

DR. BAIRD AN EDITOR.—The *Christian Union*, heretofore edited by a committee of the American Evangelical Alliance, is hereafter to be edited, says the *Evangelist*, by Rev. Dr. BAIRD, whose competency and peculiar qualifications for the office are well known.—Under his management and with the aid his extensive European acquaintance will supply him, the *Union* will become a valuable and interesting journal.

THE SABBATH LAWS OF PA.—The case of Specht vs. the Commonwealth, has at length been decided by the Supreme Court of this State, now in Session at Harrisburg. Specht is one of the sect of "Seventh Day Baptists," and was convicted in Franklin County upon an indictment for working on Sunday. He appealed from the decision, in order to test the constitutionality of the laws of the Commonwealth, enjoining the observance of Sunday as a day of rest from manual labor. Judge Bell delivered the opinion of the Supreme Court, affirming the proceedings of the Court below, and establishing the constitutionality of the laws. The ground upon which the opinion was given is, that the appointment of Sunday as a day of rest from secular labor is a social and political regulation, which gives a preference to no religious establishment or mode of worship. [Reading (Pa.) Gazette.

SABBATH CONVENTION.—The Western Sabbath Convention commenced its sessions at Cincinnati on Wednesday, the 21st ult. and closed on Thursday afternoon. About 200 Delegates, many of them from distant points, were in attendance. The following officers were chosen: J. P. WILCOX, of Columbus, President; Hon. Jeremiah Morrow, and others, Vice-Presidents; Rev. J. H. Trimble, and others, Secretaries. A Western Sabbath Union was formed, and it is believed a strong impulse has been given to the cause of Sabbath reform.

AMERICAN BETHEL SOCIETY.—The Annual Report of this Society, just published, discloses a degree of activity and success in a difficult but all-important field of Christian labor, but little apprehended by the Church at large. On all the principal inland water thoroughfares at the North and West, zealous and efficient missionaries have been appointed, whose business has been to hold direct personal intercourse with the sailors, boatmen and hands employed, and to distribute tracts and religious reading, and to exert a kindly Christian influence as they found opportunity. The Report presents specimens of the success which these various missionaries have realized, and exemplifies by many very interesting cases, the importance and blessedness of this field of labor. When the destitute condition of most of these men and boys is considered, and the powerful influence for evil they are scattering abroad, the benefit of some such reclaiming agency as this Society exerts, will be very apparent. Its affairs, says the *Evangelist*, are managed with economy and skill, and the efforts of its judicious and energetic Secretary are well directed. At the principal ports, chapels for boatmen are kept open, and the Gospel preached to many who could not be persuaded to enter any ordinary house of worship. The receipts of the last year were $7,313 19, besides $2,000 raised in Ohio, to be expended there—in increase of nearly $2,000 over the receipts of the preceding year. The Society deserves well of the public on all accounts.

BOSTON SOCIETY FOR AIDING DISCHARGED CONVICTS.—This Society has existed two years, and has aided 189 discharged convicts. When discharged convicts are let loose from State Prison, the community are afraid to receive them into their families and give them employment, and hence they frequently resort to their old mode of obtaining a living, by committing depredations upon the property of others. This Society designs to take this temptation out of their way. A temporary home is furnished, employment furnished, and good advice given them. Such a mode of treatment will save the discharged convict from the committal of further crime, if any human means can do it. Such an association wisely conducted will be a blessing to the community and to the discharged convict. From the facts stated in the Report some good has already been accomplished, sufficient to encourage the Society to proceed with its labors. [Boston Recorder.

A 'DEAD-HEAD' IN AN UNUSUAL PLACE'—A remarkable journey was performed by a cat on the Auburn and Rochester Railroad a few days since. As the freight train east stopped at the several way stations, the mewing of a cat was heard, and on reaching Fisher's an investigation was gone into, resulting in the discovery that a cat was within one of the plate-wheels, which were hollow, and having three openings about the size of a man's fist. Poor Puss had made her way into one of these holes before the starting of the train, and being unable to make her escape had been carried fifteen miles, making in that distance 14,666 revolutions. On being relieved from her uncomfortable position she manifested no particular uneasiness, but took it very coolly. We venture to say that none of her race have ever performed a similar feat. [Rochester Adv.

A TIGHT PLACE.—On Thursday evening, says the *Boston Transcript*, an Irishman, sick with the ship fever, and insane, was sent to the office of J. B. Munroe, Superintendent of Alien Passengers, on Long Wharf, for the purpose of being removed to Deer Island. He was put into a side room to wait the sailing of the boat, but soon afterward made his escape. Yesterday morning he was found in a cavity under an adjoining store, divested of his clothing. How he came there is a mystery, as the only opening to it was through a hole 8 by 12 inches. The brick at the foundation of the store had to be removed before he could be got out, which was done, and the man released and taken care of.

A GOOD OLD AGE.—An exchange paper chronicles the death, at Cedar Creek Hundred, Sussex Co., near Milford, Del. on the 5th of June, of Jacob Deputy, at the advanced age of 117 years, 9 months and 15 days. He was born on the 20th day of August, 1730, in the Hundred aforesaid, and there lived, a cultivator of the soil up to the time of his death.

A FACT AND AN INFERENCE.—A Cass paper Down East, speaking of the Ratification Meeting at Cooperstown, says: "The number in attendance, although respectable, was by no means great. The truth is the public mind is *not at present prepared* for political excitement." The Editor should be put upon the pension list as a reward for his valuable discovery! [Roch. Adv.

HORRIBLE BUTCHERY IN IPSWICH.—On Tuesday night last a man named Adams, aided, it is believed, by an Irishman in his employ, while under the influence of liquor, entered the residence of two persons, a male and female, and, without the least provocation, cut their throats from ear to ear, and, horrible to relate, cut their bodies into small pieces, a portion of which were thrown into the river, and the remainder packed away in barrels in his cellar, where they have since been found and identified. The fact that the female was in delicate circumstances adds to the atrocity of this deep-dyed crime. Adams has been arrested and is now in Ipswich jail. [Newburyport Advertiser.

AN INCIDENT.—We have seen a letter from a young Philadelphian now at Paris, who states that during the insurrection, a member of the Garde Mobile was captured, by the insurgents, and strung up by a rope to an eminence. Just at this moment, and while the poor fellow was writhing in torture, a party of the National troops made their appearance, and discharged their pieces among the revolters. A musket ball struck the rope by which the captured guardsman was suspended, cut it in twain, and thus saved his life. [Phil. Inq.

CHICAGO AND GALENA RAILROAD.—Messrs. Ogden and Turner, of Chicago, have returned to that place from the East, having the iron for the above road. A portion of it is already on the way, and it is contemplated to have 15 or 20 miles of the road, westward from Chicago, in active operation the present season. This work is one of no inconsiderable importance, not only to Chicago, but to the Lake interests. [Rochester Daily American.

APPROPRIATION OF THE SALES OF PUBLIC LANDS.—R. L. Colt, Esq. of Paterson, N. J.—a gentleman well known to agriculturists and the public at large as a munificent patron of Agriculture—has, we understand, petitioned Congress that a section of ten miles square of the public lands, shall be given to each State and Territory of the United States, for the purpose of endowing an Agricultural College in each State. It is a good move, certainly a reasonable one, and we hope to see it acted upon.

STEAMBOAT ACCIDENT ON BLACK RIVER, LA.—On the 21st ult. the steamboat Ridgley, after discharging a large quantity of iron opposite to the town of Trinity, started to cross the river in a listing condition and immediately collapsed a flue. Not more than one man is known to have been killed, but upward of twenty persons were dangerously scalded by the accident. An extra of the *Trinity Gazette* gives the details of the melancholy accident.

A ROLAND FOR AN OLIVER.—The *Salem Register* tells this good story: "Daniel Webster was once standing, in company with several other gentlemen, in the Capitol at Washington, as a drove of mules was going by. 'Webster,' says one of the Southern gentlemen, 'there go some of your constituents.' 'Yes,' instantly replied Mr. Webster, 'they are going South to teach school.'

je30 BELL & GOULD, Law Stationers, 156 Nassau-st.

1848. NOTICE TO MERCHANTS. 1848.

In consequence of the frequent claims for damages presented against the forwarders of merchandise on the Western Canals, arising from the abstraction of goods from packages imperfectly secured, the Board of Forwarders of the City of New-York have felt it their duty as well for the security of the merchants as themselves to adopt the following resolution, viz:
Resolved, That we will not receipt as in shipping order any boxes or cases of dry goods, hats, caps, earthenware goods, boots or shoes destined for the West, unless such boxes or cases are properly hooped and sealed when shipped; nor any boxes or casks containing goods of any description unless such boxes or casks are well strapped or hooped before shipment. H. N. HOLT, President.
GEORGE H. TRACY, Secretary. 19f tf

MEDICINES.

TO THE PUBLIC.

WHO CAN BEHOLD our fair and happy country and not feel deeply grateful to the Deity for the blessings he has bestowed upon us, and how the heart swells with joyful emotion, as we contrast our happy condition with the calamitous position of foreign countries. When the despotism of Europe shall have crumbled away and lost in oblivion, America will still exist, the proud, imperishable monument of free institutions; yet who can look onward and witness the fearful amount of suffering and disease that exists, without feeling a painful sympathy accompanied with the desire of rendering relief, an eagerness to succor those afflicted! Although at the same time, conscious of our inability to combat successfully that scourge Disease, sympathy is a soothing source to mind, but cannot cure the pain and agony of the sufferer. Those familiar with the history of disease must be struck with the rapid increase of that peculiar range of disorders emanating from an impure state of the blood or bile of the system: diseases of the mucous tissue, also of the osseous and glandular systems; scrofula, cancerous ulcers, and obstinate cutaneous eruptions, chronic sore eyes and diseases of the ear, are the chief cause of their increase is owing to their being hereditary, running their path through generations, and spreading destruction along through whole generations, and spreading destruction along their path.

For a series of years Sarsaparilla has enjoyed deservedly a high reputation in the cure of disease; and never in the history of remedial agents has any remedy held so long and so successfully its position as a specific in chronic complaints; but with this distinction, it is nevertheless true, that in many instances it has failed of success; this desideratum, claims to be supplied by the discovery, for removing these obstructions which are the source of their ailments at certain periods.

Fluor Albus, or the Whites.—Persons who have been troubled for years with this debilitating and weakening complaint, have been entirely relieved by the use of this Compound in two or three days, and in a very short time restored to perfect health and strength.

Dizziness.—The most severe cases we ever heard of have been cured by the use of this medicine in a few days.

Costiveness is immediately relieved by the use of this medicine.

Jaundice, Yellow Complaint, and Yellowness of the Skin are removed in a few days, and the complexion rendered fair and healthy by the use of this Compound.

Consumptive Complaints.—This medicine will remove all those obstructions which cause so many cases of consumption.

Scurvy.—This medicine will cure and prevent scurvy and is strongly recommended to seafaring men.

For the preservation of health, it should be used occasionally by those in health, and it will keep the stomach, the internal organs, and the blood, in a good healthy condition, and thereby act as a preventive to disease.

Pimples on the Face, Blotches, Cutaneous Eruptions and Roughness of the Skin are removed in a very short time by this medicine.

Weak Stomach, Lame Side and Back are cured by the use of this medicine.

To married people without children, this Syrup is particularly recommended.

CERTIFICATES.

The following is one of the many severe cases of raising of Blood which have been cured by using this Compound:

HOPE VILLAGE, SCITUATE, R. I. Jan. 25, 1848.

MR. CHARLES MORSE, Jr.—*Dear Sir*: Knowing that too much testimony cannot be given in favor of an article which justly merits praise, I wish to inform you of the benefit I have received from the use of your COMPOUND SYRUP OF YELLOW DOCK ROOT! I had been greatly reduced by frequent bleeding from the lungs; I usually discharged near half a pint of blood at a time. I was obliged to relinquish all business, and thought myself quite past recovery. I employed a number of the most eminent physicians in the city and country, to whom I paid a large amount of money, without receiving any permanent benefit. They at length despaired of affording me any relief, and advised me to visit the South, and try the influence of a warmer climate, but having heard of a similar case to mine being cured by your Compound, I determined on trying that, and after taking a few bottles of your Compound Syrup, I was restored to health. I now have a good appetite, have regained my flesh, and feel myself well, and have resumed business again. I do most earnestly recommend your valuable Compound as a very safe, try and effective medicine. Yours in the cause of Christian love, WM. WALLACE RAY.
Clerk is H. W. Emmon's store, formerly of Mendon, Mass.

INWARD HUMORS, STIFFNESS OF JOINTS, NUMBNESS, GENERAL DEBILITY, &c. CURED

PROVIDENCE, Feb. 1, 1848.

One year ago now I was very suddenly attacked with a severe sore throat; the palate seemed to be ulcerated, and after trying many remedies which I had had recommended to me without any relief, I employed several physicians, receiving but little benefit from their prescriptions or medicines. Soon after this I commenced having quite a soreness and distress in my stomach, and all over my system, together with a stiffness of joints, and numbness, and general debility, and much distress from my food, and being fully satisfied that all my complaints proceeded from an inward humor, I was induced to make use of the COMPOUND SYRUP OF YELLOW DOCK ROOT, which is prepared by Charles Morse, Jr. at 167 Broad-st. having heard it highly spoken of for the benefit of those in my situation. And after seeing the effect it had upon my sister, as she had taken it for a severe cough, loss of appetite, spitting of blood, which she was troubled with for a long time, it brought out an eruption on the skin, and after this she began rapidly to recover her health, with relish of appetite. And after taking two bottles of it, well the eruption began to appear, and I persevering plenty, which it never failed to bring out with other medicine. As the eruption came out, the stiffness of joints, and numbness and soreness began to remove, and I continued taking the Compound until my system seemed to be completely removated, and now I enjoy good health.

EPHRAIM RICHMOND,
Corner High-st. and Pleasant-sts.

TWO CASES OF BAD HUMORS CURED IN ONE FAMILY.

PROVIDENCE, March 6, 1848.

MR. CHARLES MORSE, JR.—*Dear Sir*: It is with much satisfaction that I say to you at this time that, after being severely troubled with a very bad humor on my arms and otherwise for years, and at the same time my daughter was still more, if possible, afflicted with humors than myself—so much so, that her head was covered with sores, which were quite unsightly and painful to her; we were both entirely cured by using your valuable Compound Syrup of Yellow Dock Root, a short time. We made use of seven bottles of the preparation. It is very pleasant to the taste, and I think the most efficacious medicine ever offered to the public.
Yours truly, WILLARD SMITH.
313 South Main-st. Providence.

I hereby certify that Mr. Smith purchased the medicine above-mentioned at my store, and the public can rely upon his statements. B. D. BAILEY, Druggist.
46 Wickenden-st. Prov.

SEVERE CASE OF SCALD HEAD CURED.

PROVIDENCE, December 1, 1847.

I hereby certify that my little daughter, four years of age, was sorely afflicted with scald head; the sores, apparently, were nearly an inch thick all over the head. I had about come to the conclusion that it could not be cured. The Compound Syrup of Yellow Dock Root, prepared by Mr. Charles Morse, Jr. at 167 Broad-st. was recommended to me as being a sure cure for all kinds of sores, humors, &c. and after using that a short time my child was completely cured.
JUDITH DONLY, 62 Pine-st.

PROVIDENCE, April 4, 1848.

MR. CHARLES MORSE, JR.—Dear Sir: I gave my testimony most cheerfully in behalf of your COMPOUND SYRUP OF YELLOW DOCK ROOT. My wife was greatly afflicted for two or three years past with inflammation of the 'tonsils.' They were much enlarged, often very painful, and affecting her speech, and rendering swallowing quite difficult. She was entirely cured by a few days' use of your Syrup. My child, three years old, had, at the same time, a very bad, painfully and offensive sore, covering the whole face—this, also, was completely removed and cured by the use of the Syrup.

Both of these cases have been variously treated without any mitigation. From what, therefore, I have seen of its effects, I can truly declare it a valuable constitutional remedy, and shall continue to recommend it to all with whom I may meet suffering from such diseases, as it proved so beneficial to me. Yours, truly, WILLIAM A GREENE
8 Lockwood-st.

We might add any number of names to the above, but deem it unnecessary.

A copyright has been secured for the above medicine, according to act of Congress.

This Compound is composed of articles so happily combined, as to tend directly to give tone to the stomach and bowels, excite to healthy action the liver and the whole glandular system, allay nervous irritability, and promote the free action of the lungs, thus rendering it applicable to diseases of a chronic nature. WILLIAM H. BABBITT,

TO THE AFFLICTED

DR. J. G. HEWETT, 1.1 Maidenlane-st. near Bleecker, New-York, will assure the afflicted that he can afford more relief with the same number of visits than any other practitioner, in the following complaints: Dislocations, hip diseases, sprains, contractions, spinal complaints, rheumatism, nervous affections, tenderness, inflammations and curvatures of the spine, deformed shoulders, white swellings, weakness of the joints, &c.

Country patients are referred to the following persons, who have visited this city expressly to avail themselves of Dr. H.'s attendance, and returned cured: Major B. H. Norton, Boston, Mass.; Hon. H. Y. Cranston, Newport, R. I.; R. M. Larned, Esq. Providence; Chas. Hosmer, Esq. Hartford, Conn.; James C. Townsend, Esq. New-Haven, Conn.; Chas. J. Saxe, Esq. St. Albans, Vt.; Chas. H. Hill, Esq. Montreal, Canada E.; Hon. Jas. T. Gresham, Keesville, N.Y.; Judge Miller, Gouverneur, N. Y.; Paul Mitchell, Esq. Geneva, N. Y.; Wm. H. Winder, Esq. Philadelphia; Hugh McLaughlin, President of Fort Wayne Bank, Fort Wayne, Ind.; Wm. Goodman, Esq. Cincinnati, Ohio.

City reference given on application at Dr. H.'s je20 1m*

SARSAPARILLA
and Syrup of
YELLOW DOCK.

THIS IS THE CHEAPEST—Price 50 cents a bottle—and far the best preparation of Yellow Dock ever offered for sale. It immediately cures scrofula, or king's evil, rheumatism, obstinate cutaneous eruptions, pimples or pustules on the face, blotches, biles, ringworm, tetter, salt rheum, sore eyes, ulcerated throat, swelling of the joints, and pain of the bones and joints, stubborn ulcers, diseases arising from an injurious use of mercury, nettles or dropsy, exposure or imprudence in life, chronic constitutional disorders. The value of this preparation is now widely known, and requires no fictitious certificates to command a sale. Principal depot, 426 Broadway. jel 3mTuThSS

AIR-TIGHT KITCHEN RANGE.

THE UNDERSIGNED have had in use for some time a back, L. WOOD'S Patent Portable Air-tight Two Oven Kitchen Range, which has equaled our expectations in every respect, doing the baking, boiling, broiling, roasting, &c. to our entire satisfaction, and we cheerfully recommend it to others for their use, believing they will be equally well pleased with its operation.
RALPH FORT, 66 Second-avenue.
M. WALSH, State-st. Brooklyn.
H. V. RYDER, 122 East Broadway.
SEYMOUR HOYT, 260 Pearl-st. Brooklyn.
F. DUNCAN, Williamsburgh.

The above are only a few of the numerous recommendations which the manufacturer has received, and would respectfully invite the public to call at his store and examine the Range before purchasing elsewhere. All are warranted to give satisfaction. [Jel3 3m] L. WOOD, 237 Water-st.

CLOTHING.

GENTLEMEN'S SPRING AND SUMMER WEAR.
WM. T. JENNINGS & CO.

DRAPERS AND TAILORS.—Germens of the first quality Ready-made, ready for wear, American Hotel, and Pennsylvania-avenue Washington, D. C.—Having enlarged their premises, are prepared to offer for the inspection of their numerous patrons and the public, an extensive assortment of new goods for Spring and Summer wear, comprising Cloths, Cassimeres, Vestings, Tweeds, Cashmeretts, &c. as can be found in the country, which they are enabled to make up to order at a great reduction from heretofore modern prices, such has been the sacrifice submitted to by importers.

The style and character of our work is too firmly established to require any encomium on these points so essential in realizing the value of a garment; we would refer in particular, however, to the Pantaloons furnished, and solicit a trial from the most fastidious.

In the Ready-made department we shall endeavor to maintain the superiority of the articles, which will be found equal to the best ordered garments, the assortment consisting of Dress and Frock Coats, improved styles; Zephyr, Cloth, Cashmerette and Merino Sacks, Pantaloons, Vests, &c. will be afforded at prices that have characterized the establishment as rendering in all cases the *quid pro quo*. ad tf
