National Rebate Company

is a co-operative enterprise which is offering to the public a method of saving money that must commend itself to all who have to figure on expenses. It is composed of business men and there is no sentiment or brotherhood nonsense about it. Any one may become a member. The National Rebate Company has made contracts with merchants in various lines of goods to allow to its members, upon presentation of membership ticket, certain discounts or rebates from selling prices. The members are under no obligation to trade with merchants under contract, though it is to their interest to do so. The members save substantial sums of money out of their household and personal expenses. The merchants get a sure and certain line of custom because of the membership interest in rebates. The fundamental difference from all other co-operative efforts is that the members make no investments and have consequently no risk. Even membership is free, and whatever is saved is clear gain. Naturally the association is growing rapidly in this city, and applications are coming from the suburbs and all parts of the country as well. Full particulars may be had upon application by letter or in person at the office of the Company, No. 80 Fifth avenue, near Fourteenth street, New York city.

VELVET CARPETS.

Encouraged by the great success we have had with those popular Velvet Carpets at 99 cents per yard, we have made arrangements with the manufacturer to take his entire production as fast as made, and have the goods confined to ourselves. We therefore invite all intending buyers to examine this line of popular goods and secure what they need of them while the assortment is complete.

Schools and Colleges.

Young Men Stenographers Still Wanted.

We are still in want of Packard graduates for good positions, both as clerks and stenographers. Our advertisement of last Sunday brought us plenty of applications, but none from Packard graduates. That is what we asked for and what we want. We cannot vouch for persons whom we don't know. The reason why business men send to us for clerks rather than to advertise is that we know our men and always speak the truth concerning them. We can to-day place ten Packard stenographers if we can find them. Address
