CITY ITEMS.

TEMPERANCE DIFFUSION.—At a meeting of the American Temperance Tract Society, held in the Broadway Temperance Hall, No. 360, on Friday evening, Aug. 4, Warren Rockwell was called to the Chair, and Howard Meeks acted as Secretary.

The object of the meeting being stated, the Secretary read the proceedings of the last meeting and presented a report of the condition of the Society and its operations thus far. Letters received from various gentlemen accepting office as Vice-Presidents, and pledging their cooperation and aid, were read, and some explanatory remarks made by the Secretary.

Auxiliary Societies had been formed at Peekskill and Sing Sing, and preliminary measures taken to organize auxiliaries at Brooklyn, Jersey City, Hoboken, and other places.

Spirited and appropriate addresses were made by John B. Manchester and John Golder, Esqrs. when, on motion of Mr. Golder, the Society proceeded to fill some vacancies in the Executive Committee.

By open nomination and *viva voce* election, the following gentlemen were chosen:

On Finance—WARREN ROCKWELL, in the place of Dr. J. G. Candee, declined.

On Publication—Dr. SHEARMAN and Mr. H. MEEKS, in the place of Dr. Trall and Rev. Jno. Marsh, declined.

On Distribution—JOHN GOLDER, in the place of Dr Schinckly, absent; B. H. ESTES in the place of J. W. Oliver, declined.

The Secretary stated that over Forty Thousand pages of the Temperance Publications of the American Tract Society had been distributed during the last three weeks, principally on the docks and river streets of the City, and expressed the hope that soon this Society might be able to scatter its own publications broadcast over the whole Union.

On motion it was Resolved, that the *New-York Tribune*, and all other papers friendly to the objects of this Society, be requested to publish the proceedings of this meeting. On motion, the meeting adjourned.

WARREN ROCKWELL, Chairman.
HOWARD MEEKS, Secretary.

THE YOUNG FRIENDS OF IRELAND.—The members of the Young Friends of Ireland have determined to meet at the corner of City Hall-place and Duane-st this evening at 7 o'clock, for the purpose of proceeding in procession to the Meeting of the Friends of Ireland in Vauxhall Garden. We call attention to the advertisements.

☞ The *Hermann* was about fourteen days and a half on her voyage from Southampton to this port. She is in admirable trim, her machinery being as sound as when she started. She brings over a greater quantity of freight than has heretofore been shipped from Europe in any one steamer, amounting to *four hundred tons*, in addition to one hundred tons of baggage. In comparing her passage with that of the *America*, it will be seen that she must have drawn at least four feet more water. This circumstance prevented her from crossing the bar at Sandy Hook, on Friday night, when she arrived. She has made an exceedingly profitable trip for her owners. The passengers, 171 in number, have presented a letter of thanks to Capt. Crabtree, and the other officers, for their care and kindness during the voyage.

☞ Messrs. G. L. DUYCKINCK of this City, and F. FRAZIER of Philadelphia, came passengers in the Hermann, as Bearers of Dispatches from American Ministers abroad.

A NEWSPAPER OFFICE BURNT.—The Office of the French Journal, *Les Deux Mondes*, in Nassau-st. was set on fire on Friday night last, and totally destroyed. It was with great exertion that the building was saved. We are glad to learn that M. LAPEYRE, the talented editor, has received assistance which will enable him to continue without interruption the publication of his Journal. A Scotchman was arrested on Saturday morning, in whose possession several things belonging to the office, were found. He declared, that being without resources for a living, he had committed the crime in order to be sent to jail. Neither M. Lapeyre nor the workmen had any knowledge of him.

LAUNCH.—The fine steamer Oregon, intended for the California line, was launched on Saturday afternoon, in the presence of a large crowd of spectators.

STEAMSHIP UNITED STATES.—This splendid steamer sailed at 2½ o'clock on Saturday afternoon for Southampton and Havre. She carries out about fifty passengers, some specie, and a fair cargo.

NIBLO'S.—The brothers Placides took the characters of the two Dromios, in the *Comedy of Errors*, on Saturday evening, which they played admirably, to the great satisfaction of a large audience. An unusual dramatic treat will be given to-night, in the *Merry Wives of Windsor*, with Hackett as Falstaff, (the only one,) Vandenhoff as Ford, and Miss Rose Telbin as Mrs. Ford. This announcement will be sufficient to draw crowds to Astor Place.

HOUSE'S TELEGRAPH.—This line is again in working order between this City and Philadelphia.—With two separate lines there will be less chance of interruption in our lightning communication henceforth.

HARPER UNION DAUGHTERS OF TEMPERANCE.—An Anniversary Pleasure Excursion of this Society takes place to-morrow, in the excellent steamer North America, to Biddle's Grove, Staten Island. For particulars we refer the reader to the announcement in our advertising columns. It will doubtless be a very pleasant excursion, and we recommend our friends to bear it in mind.

GRAND CONCERT EXCURSION.—One of the most novel and delightful excursions of the season, (should the weather prove fine,) will take place on Thursday night. The American Musical Institute, as will be seen from its advertisement, has got up a moonlight trip around Staten Island, with a Grand Concert at Biddle's Grove. This will be, in every way, a charming recreation for our busy citizens, and the cheapness of the tickets enables all who enjoy moonlight and music, to participate in it.

BURTON'S.—The Lehmann Family are playing to excellent houses at Burton's Theatre. They appear to-night in the amusing piece of *Le Diable Rouge*, in which Mazetti accomplishes some very clever feats. These light performances are the very thing for such hot and lazy weather as we now have.

BROOKLYN AFFAIRS.

NAVAL.—The store-ship Chili, having taken in her supplies, will sail in the course of a few days for California. Her cargo is said to have cost upwards of $200,000. She carries out a steam saw mill, which was built in Washington, and is to be put into operation at the place of the vessel's destination. The store-ship Relief is now undergoing repairs, and will soon be ready for orders.

FREE SOIL MEETING.—At a Meeting of the Friends of Free Soil opposed to the Baltimore and Philadelphia nominations of Cass and Taylor for the Presidency, held at the Washington Hall, Brooklyn, on Saturday evening, Aug. 5, GILBERT A. GRANT was appointed Chairman, and MARCUS SPRING, Secretary.

The following gentlemen were elected as Delegates to represent the City of Brooklyn in the Convention to be held at Buffalo on the 9th inst:

GILBERT A. GRANT,	SETH B. HUNT,
FRANCIS C. TREADWELL,	AMOS P. STANTON,
HIRAM BARNEY,	JOHN S. NOBLE,
SAMUEL E. JOHNSON,	ALDEN J. SPOONER,
MARCUS SPRING,	H. S. CLAFLIN,
ALPHEUS R. TURNER,	WALTER WHITMAN,
WM. E. WHITING,	FRANCIS FERES.

The following Resolutions were unanimously passed:

Whereas, A crisis in the history of this country has come, and the great question that will come before the American people, to be decided at the next election, will be—Shall we elect for President a man who represents the principles of the Declaration of Independence, or a man who would extend the area and the curses of Slavery over the territory we have conquered from the Republic of Mexico? As American citizens who stand ready to serve our country when she needs us, or fly to her relief when she is in danger, we have come together to consider what we ought to do.

Resolved, That we cannot and will not vote for a candidate for the Presidency who is known to be in favor of extending Slavery over soil now Free—Therefore, we cannot vote for Lewis Cass, for he has declared that he would veto the Wilmot Proviso.

Resolved, That we cannot and will not vote for a candidate for the Presidency whose principles (if he have any) are unknown; who has given us no pledge of action for the future—it being a monstrous assumption for a man in an intelligent country to suppose that men whose liberties and honor are at stake will confide great power to a public servant without knowing how he is likely to use it—Therefore, we cannot vote for Zachary Taylor.

Resolved, That we approve of the call for the Buffalo Convention, and will send delegates to it, and support the candidate who shall be recommended with unanimity by that body, provided he be a man who favors the spirit of these resolutions, and is in other respects worthy of the respect and confidence of the nation.

Resolved, That we disclaim and abhor a party of sectional spirit—that we have no ill will against our fellow-citizens at the South—that we love the Union and Constitution of these States—but we will never give our consent to the extension of an institution which has done so much already to peril our Union, to impoverish our soil, to endanger our institutions, to corrupt our virtue, and to disgrace our Republic among foreign nations.

Resolved, That we believe that a large majority of the people of the Slave States are in favor of our principles; and that when the hour comes for them to speak, we shall hear from them a clear and bold condemnation of any and all measures which favor the conquest of a Free Soil, to curse it with Slavery.

Resolved, That Martin Van Buren, by the high and honorable stand he has taken upon the question of the Free Soil, and the non-extension of Slavery, has entitled himself to the respect of the American people.

The meeting was ably addressed by Messrs. C. Edwards Lester, Warden, Sperry, and others, and the most earnest and enthusiastic feeling manifested.

GILBERT A. GRANT, Chairman.
MARCUS SPRING, Secretary.

N B—The Delegates are requested to meet at 10 o'clock this morning, (each of them as shall not have already left for Buffalo,) at the office of the *Barnburner*, 87 Cedar-st. New-York.

Interesting from Cuba.

The following is the copy of a letter to a member of Congress from Florida, written by a gentleman of high character at Pensacola, and can no doubt be relied upon.

"PENSACOLA, July 27, 1848.

"At this moment, just before the departure of the mail, I snatch the little time I have to say, that by the arrival of the schooner General Bennett from Key West, we receive accounts of an insurrection at Havana, Island of Cuba. Five hundred of the insurrectionists were killed. It seems their plot was discovered before it had fully matured. Finding that their conspiracy was detected, they forcibly possessed themselves of ammunition from the stores, after an engagement with the regular troops, and retired to the mountains.

"This is the beginning of what must follow, and foreshadowing what it will be necessary for our Government to do in relation to this great gate-way to our Southern and Western commercial interests."

[We publish the letter as we find it, without professing to understand precisely the import of the last paragraph, or passing any opinion at all upon the subject.—UNION.]

From the Pensacola Democrat, July 27.

FOUR DAYS FROM KEY WEST.—*Insurrection at Cuba.*—We learn by Captain Thomas E. Miner, of the schooner Governor Bennett, that a smack arrived at Key West the day on which he left for this port, and reported that an insurrection was to have taken place at Havana on the 20th of this month. But fortunately the Governor became apprized of it, and took precautionary steps to arrest it. The insurrectionists, on perceiving that the conspiracy was detected, broke into the stores, and forcibly possessed themselves of ammunition, &c. Whereupon the Governor called out the regular troops, and the insurrection was suppressed, after the slaughter of five hundred of the insurrectionists; the remainder were driven to the mountains.

FROM RIO AND MONTEVIDEO.—The bark *Whitton* Capt. GELSTON, from Rio Janeiro, brings dates to the 27th of June. The Brazilian news is unimportant.

Baron Gros, the French Minister at Montevideo, had arrived at Rio on his way home. All negotiations with Oribe had been broken off, as that General had retracted all the former propositions he had made, in consequence of General Rosas refusing to sanction them.

Baron Gros, on leaving Montevideo, ordered Admiral Le Predour to suspend the blockade of the port and coast of Buenos Ayres, and effectually blockade all the eastern coast, occupied by forces under command of Gen. Oribe. Besides this, the French Agent determined to make the Government of Montevideo a monthly allowance.

The Government in the Banda Oriental had repealed the decree of the 20th May, which established a tax on articles of consumption, substituting for it another one on all commercial houses, by which they would have to pay every month the fourth part of their annual license.

Several individuals were in custody in Montevideo, suspected of being concerned in the assassination of Dr. Varella.

Mr. Gore, the associate of Baron Gros in his mission, was residing at Montevideo as British Chargé d'Affaires. From Buenos Ayres no news of importance.

FROM LIBERIA.—The bark *Liberia Packet*, Capt. Goodmanson, arrived here yesterday from Liberia, having made the passage from Monrovia to the Capes of the Chesapeake in twenty-six days, it being the shortest passage ever made from Liberia to this country, and taking the character of the voyage into consideration, the working from the coast-winds into the trades, and again from these into the variables on our own coast, it is one of the shortest ever made by a sailing vessel.

The *Packet* brought several passengers, among whom are Judge Benedict, the Chief Justice of the Republic of Liberia; Hon. Mr. Russwurm, Governor of the Maryland Colony at Cape Palmas, and Mr. James B. McCall. We learn that at the time of the sailing of the bark, nothing of any interest was transpiring at Liberia. The inhabitants were all enjoying good health, and matters were progressing in their usual quiet but satisfactory manner. [Balt. American, 5th.

PORTO RICO—*Attempted Insurrection among the Slaves.*—By the arrival of the bark Cordelia from Ponce, Porto Rico, whence she sailed on the 24th ult. we learn that on the 18th of July a plot was discovered among the slaves for a general insurrection. It was discovered by information obtained from one or two negroes of an estate, the proprietor of which, on ascertaining the truth of it, immediately gave notice to the proper authorities. Three of the ringleaders were arrested, two were condemned to be shot, and one to the chain gang for ten years. The plan, they said, was an extensive one, and included all the negroes upon the South side of the island, from Guayama to Mayaguez. The rise was to be simultaneous. The time fixed upon was the last day of the month. They were to burn all the towns, kill all the whites, and make a second St. Domingo of the island. Since the arrest of the ringleaders confidence was entirely restored.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

SATURDAY, August 5—P M.

There was generally a better feeling in the Stock market and more disposition to operate. Treasury Notes and Government stocks were in fair demand and firm. The former sold at 3¼ and the new loan at 4¼, showing an improvement in both. At the Second Board the Fancies were better.

In Bills there was but little doing. Sterling is 9@9¼ and quiet; France, 5.22½@5.25.

There is considerable activity in Freights, especially Corn, and shipmasters have advanced their rates. Engagements of 60 to 70,000 bushels have been made at 4½@5d. Cotton was engaged at 5-32d, and 1,000 to 2,000 bols Provisions at 17s 6d@20s. There were also two vessels engaged for Ireland at 8@8½d to Cork and a market, or 9d to any port in the United Kingdom.

The relief before noticed in the Money market continues, and although slight is very welcome. There is altogether a better feeling in the street and operators look for farther improvement during the week.

The private letters by the steamer are generally more favorable than the published accounts. Business was gradually improving and should the advance be checked by a short harvest or trouble in Ireland, a moderate degree of prosperity was anticipated. The advices in regard to American Stocks are favorable. There is a steady and increasing demand, and most of the parcels in the market were sold. The quotations by letter for United States Sixes vary from 96 to 97. The latter quotation is equal to 106 here. The following quotations are from an eminent London Banker:

"U S 6s of '67, 95@96; New-York 5s, of '55, '58, '60, 99@100; Pennsylvania 5s, 69@67, ex dividend; Ohio 6s of '50, '56, '60, 87@88; Massachusetts 5tg 5s, 85s, '68, 97@98; Indiana 5s of '51, '52, '56, 91@92; Illinois 6s of '50, '70, 97@98; do Sterling 6s, 87@88; South Carolina 5s, (Baring & Co.) of '58, 80@82; do (Palmer & Co.) of '56, 79@80; Louisiana 6s, (Baring & Co.) of '47, '50, '52, 89@87; Maryland Sterling 5s of '69, 69@67; Alabama Sterling 5s of '58, '59, '66, 86@88; Kentucky 6s of '68, 88; Tennessee 6s of '60, 84; U S Bank, 3 per cent, 74@75."

Baring's London Circular, in speaking of American Securities, says:

"United States 6s of the New Loan, continues in moderate demand at 96 div from 1st of July, but there is no briskness in the market; buyers of New-York State 5s at 91, Ohio also demanded; Pennsylvania 5s, 66@67, ex div."

The United States sailed for Havre to-day with 60 to $70,000, mostly in silver, and all on French account. More than this amount has been received here within a day or two.

The value of merchandise imported into this district, excepting that sent to the warehouse, and the amount of duties received during the month of July, in each of the three years, is as annexed:

During July it will be perceived the imports decreased eleven hundred thousand dollars, 12 per cent, as compared with 1847, and increased fifteen hundred thousand dollars as compared with 1846. During the four days of August the decrease, we are glad to see, continues, and in larger proportion having fallen off $700,000, or 30 per cent. Next week, however, the returns of the Custom House will be very large, the foreign arrivals to-day having been very numerous and bearing valuable cargoes. The Hermann alone has 400 tons of valuable freight. Included in the arrivals were one steamer from Bremen, three packets from Havre, a ship from Leghorn, a bark from Palermo, one from Havana, one from Rio, one from Sisal, one from Ponce, a brig from Rio Grande, one from Gibraltar, and eight from the West Indies.

The Butchers' and Drovers' Bank has declared a semi annual dividend of 5 per cent.

The Buffalo and Niagara Falls Railroad Company have commenced the relaying of their track with heavy T rail.
