NEW-YORK TRIBUNE.

From Mexico—Rumored Capture of Paredes.

The principal facts in the following Mexican intelligence have already been received by Telegraph from New-Orleans, and published in *The Tribune*, but the details will be found interesting:

From the New-Orleans Picayune, Aug. 4.

The steamship Fanny, Capt. Scott, arrived yesterday from Vera Cruz the 27th ult. Her advices from the Capital are to the 23d—four days later than we had previously received. The news is important, but may be told in a few words—our restricted limits and the pressure of news from other quarters would constrain us to be brief.

Official and private letters received in the City of Mexico, by Express from Guanajuato, announce that on the 18th ult. the troops of Bustamente gained an important triumph over the insurgents. Gen. Miñon submitted a plan of attack, which was approved. The attack was made and the principal points defended by the insurgents carried.

Father Jarauta was made prisoner, and in obedience to orders of the War Department he was immediately shot. When he was apprised of his approaching execution, he demanded an interview with Gen. Miñon, in which he represented to him that Paredes had in his hands several prisoners, all of whom would be shot were the life of his second in command to be taken. He tried other means of saving his life; but the orders of the Department were too positive, and were carried rigidly into execution. It is represented that this act of justice has entirely disconcerted Paredes and his followers; but this comes to us from a Government source. The official dispatches mention that the scoundrel Jarauta partook of the last sacraments of the Church prior to his death, with extreme fervor. His remains were buried with the honors of war due to his rank.

Bustamente entered the City of Guanajuato the evening of the 18th, without encountering any resistance, as the forces of the insurgents were already dispersed, their leaders having concealed themselves as soon as they heard of the execution of Jarauta. A few prisoners were made, but none of them of note, all the principals having escaped save Jarauta. The Government is urged to the utmost diligence to ferret out the fugitives, that they may be brought to strict account for their treason.

The latest dispatch from Bustamente is dated the 19th. In it he says that Paredes, with a few attendants, fled early in the action, and that he had dispatched troops in pursuit of him. A body of troops had been ordered to Lagos, and another to Aguas Calientes, to arrest Paredes, if possible, and to hold in check any who might be disposed still to assist his waning fortunes. Capt. Scott, of the Fanny, informs us that when he left Vera Cruz, a report was current there that Paredes had been taken, and would be shot. We think the rumor doubtful.

We have before us Miñon's plan of attack and Bustamente's dispatches; but our readers would derive little satisfaction from their perusal. They will be able to judge of the desperate nature of the conflict between the Government troops and the insurgents when we inform them that on the part of the former three men were killed and eight wounded.

The papers of San Luis give accounts of successes obtained over the insurgent Indians, near the hacienda of Tapanco, on the 12th ult. A body of 400 were defeated, with a loss of thirty killed in battle, and some prisoners were made who were immediately shot.

There is a letter in the *Monitor* from Upper California, which represents that territory as exceedingly flourishing, now that it has ceased to belong to Mexico.

The number of deputies to the Congress in Mexico not being sufficient to constitute a quorum, the Government had resolved upon the substitutes to take the oaths of office.

A letter from Durango, dated June 23, says: "There are 600 soldiers here, and among them 300 or 400 American deserters. Gen. Urrea is commandant. There are 600 or 1,000 Indians in the State, who are marching on the City of Durango, and the inhabitants are much alarmed, the Indians having cut off communications by the roads."

The papers announce the death in the City of Mexico on the 18th, of John Henderson, a British subject, who had resided there many years and accumulated a large fortune.

Wisconsin—Homestead Exemption Act.

A BILL to exempt a Homestead from forced sale in certain cases.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. A Homestead, consisting of any quantity of land not exceeding forty acres, used for agricultural purposes, and the dwelling-house thereon and its appurtenances, to be selected by the owner thereof, and not included in any recorded town plot, or city or village; or instead thereof, at the option of the owner, a quantity of land not exceeding in amount one-fourth of an acre, being within a recorded town plat, city or village, and the dwelling-house thereon, and its appurtenances, owned and occupied by any resident of the State, shall not be subject to forced sale on execution, or any other final process from a Court, for any debt or liability contracted after the first of January, in the year eighteen hundred and forty-nine.

§2. Such exemption shall not extend to any mechanic's and laborer's lien, or any mortgage thereon lawfully obtained; but such mortgage or other alienation of such land by the owner thereof, if a married man, shall not be valid without the signature of the wife to the same.

§3. Whenever levy shall be made upon the lands or tenements of a householder, whose homestead has not been selected and set apart by metes and bounds, such householder may notify the officer at the time of making such levy of what he regards as his homestead, with a description thereof, within the limits above prescribed, and the remainder alone shall be subject to sale under such levy.

§4. If the plaintiff in execution shall be dissatisfied with the quantity of land selected and set apart as aforesaid, the officer making the levy shall cause the same to be surveyed, beginning at a point to be designated by the owner, and set off in a compact form, including the dwelling house and its appurtenances; the amount specified in the first section of this Act, and the expenses of said survey, shall be chargeable on the execution and collected therefrom.

§5. After the survey shall have been made, the officer making the levy may sell the property levied upon, and not included in the set-off, in the same manner as provided in other cases for the sale of real estate on execution; and in giving a deed of the same he may describe it according to his original levy, excepting therefrom, by metes and bounds, according to the certificates of survey, the quantity set off as aforesaid.

§6. Any person owning and occupying any house on land not his own, of which land he shall be in rightful possession by lease or authority, and claiming such house as his homestead, shall be entitled to the exemption aforesaid.

§7. Nothing in this Act shall be considered as exempting any real estate from taxation or sale for taxation.

Law and Lawyers in Norway.

The administration of the Civil Law in Norway is most admirably contrived. In every school district, the freeholders elect a Justice of the Court of Reconciliation. Every lawsuit must be brought before this Justice, and by the parties in person, as no lawyer or attorney is allowed to practice in this Court. The parties appear in person, and state their mutual complaints and grievances at length, and the Justice carefully notes down all the facts and statements of the plaintiff, and after due consideration, endeavors to arrange the matter, and proposes for this purpose what he considers to be perfectly just and fair in the premises. If his judgment is accepted, it is immediately entered in the court above, which is a Court of Record; and if it is appealed from, the case goes up to the District Court, upon the evidence already taken in the writing, by the Justice of the Court of Reconciliation. No other evidence is admitted. If the terms proposed by the Justice are pronounced to be just and reasonable, the party appealing has to pay the costs and charges of the appeal. This system of minor courts prevents a deal of unnecessary, expensive and vexatious litigation. The case goes up from court to court upon the same evidence, and the legal argument rests upon the same facts, without trick or circumlocution of any kind from either party. There is no chance for petty sharpers—the banditti of the bar.—Poor, rich, or stupid clients cannot be deluded, nor Judge or Jury mystified by the skill of sharp practitioners in the courts of law in Norway. More than two-thirds of the suits commenced are settled in the Court of Reconciliation, and of the remaining third so settled, not more than one-tenth are ever carried up.

The Judges of the Norwegian Courts are responsible for errors of judgment, delay, ignorance, carelessness, partiality or prejudice. They may be summoned, accused, and tried in the Superior Court, and if convicted are liable in damages to the party injured. There are, therefore, very few unworthy lawyers in the Norwegian courts. The bench and the bar are distinguished for integrity and learning. They have a great influence in the community, and the country appreciate the many benefits which have resulted from their virtue and their wisdom. (Maxwell's 'Czar, Court and People.'

HORRID MURDER.—About a week ago, two young men, named Reuben and John Morris, arrived in this city with a drove of cattle from Franklin Co. Ohio, which they sold for $1,000. On the road, about 57 miles from this city, as they were coming here, they fell in with a man who made them an excellent offer for one of their horses, and desired them to stop on their return home, and he would take the animal and pay them the money for him. In getting back to the neighborhood on Thursday last, Reuben started with the horse to the place designated. He had his saddle-bags, containing the thousand dollars, with him. John stopped at the tavern on the road, waiting his return, but as he did not get back in a reasonable time, John started in pursuit of him, and, after searching the country, at last, on Friday, the body of Reuben was found lying near the road, dead.

There was a stab in his left side, penetrating the heart, which of course caused his death. The horse, saddle-bags and money were gone. John immediately returned to the city and communicated the facts of the murder to us yesterday. He could not tell the name of the place where the murder was perpetrated farther than that it is near the White Horse Tavern, on the main cattle route from the West to this city. He said it was the first time they were from home, and they did not think of the names of all the places through which they passed or stopped at. He recollects Shippensburg and Carlisle, but none of the names of the towns near the city. From the circumstances attending the commission of this cold-blooded and mercenary deed, it is evident that the movements of the men were watched, and the bargain about the horse was but a plot to separate the men and enable the assassin to obtain the proceeds of the sale of their cattle. [Philad. Ledger, 14th.

☞ An unknown malady has made its appearance in Greene, Chenango Co. Twenty-four deaths have occurred in two weeks. A correspondent of the *Albany Evg. Journal* says "The subject baffles the skill of all our physicians in Binghamton, Oxford and Norwich. It is very gloomy times here. The bells do not toll, as the effect upon the sick is bad. Several families have fled to the mountains."

☞ A disturbance occurred at Bogota, the Capital of New-Granada, on the 13th of June, between political factions. The President, Gen. Mosquera, was the principal actor. No lives were lost. Gen. Flores was at Costa Rica maturing his plans against the Republic of the Ecuador. He was expelled from Panama by a decree of the Government of New-Granada.

By Telegraph to the New-York Tribune.

FOREIGN MARKETS.

Baring Brothers' Circular.

LONDON, Friday, 28th July.

Various causes have given rise to a feeling of uneasiness during the past week—the unsettled state of Ireland, and the postponement of the armistice in Schleswig-Holstein, being the most prominent—the weather, too, have been very unsettled, and this has led to more importance being attached to the reported progress of the Potato Disease. We believe, however, it is a good deal exaggerated, and that a few days of fine weather will probably dispel the gloom.—Money continues abundant. Consols, despite the cloud, closed yesterday at 86¼ a 86⅝ for the account. The overland mail arrived 25th instant, bringing date from Bombay and Calcutta to the 3d of June, and from Ceylon to 22d of May. The commercial news from the President shows it took very important, but at Canton exchange had declined to 4s per dollar.

ASHES have fallen considerably, and the following are the quotations in detail: United States Pot, 25s 6d to 26s; Pearl, 30s; Canada Pot, 27s; Pearl, 31s to 32s per cwt.

BRANDIES move off slowly without change in value.

COCHINEAL.—In the absence of sales there is rather more demand for Honduras Grain at 3s 7d to 4s 3d for Silver, and 4s 6d to 5s for Black.

COCOA.—A dull market with a stock of nearly 15,000 pkgs against about 11,000 last year.

COFFEE.—The finest description are scarce and being much wanted by the trade, commanding advanced prices; but ordinary and middling sorts remain without improvement. In the Continental ports the article continues neglected, and Brazil and Ceylon descriptions are nominally 2s to 3s.

COTTON.—Shewhing remains at 9d per lb, for 16 ounces and upward, and Yellow Mobile 7½d.

The Corn Market has been in rather an excited state this week, and prices of Wheat have advanced 1s to 4s, with an increased disposition to buy foreign to be shipped, for the chance of a low duty. Spring Corn, too, has been firmer, and Indian Corn is held for extravagant prices. The duty on Wheat has fallen to 8s per quarter, equal to 5s 6d per barrel for Flour. At to-day's market, with fine weather, the trade was extremely dull, and grain of all kinds was cheaper to sell, though very little was done. We subjoin the duty-paid prices, at which sales to-day would have been practicable in detail. We must remark, however, we have hardly any American produce in stock. United States red Wheat, 45s American produce in stock. United States red Wheat, 45s per imperial quarter; white, 48s to 53s; ditto, ditto, Flour, 27s to 29s per bbl; superfine best brands ditto, 22s to 23s; ditto inferior and sour, ——; Indian Corn, 32s to 34s per 480 lbs; Indian Corn Meal, 16s 6d to 18s per bbl.

The demand for Cotton has been checked by the political causes alluded to above, and the market is dull, though we do not find it necessary as yet to make any change in our quotations.

DRUGS.—The public sales yesterday, consisting of small and mixed parcels, went off flatly, and very little progress was made in realizing. Fine Castor Oil is dearer, and bring up to 7½ for the best. Camphor is in active request at 49s, but no sellers under 52s 6d. Turkey Opium 8s 6d; Quicksilver 5s 6d; Sapan Wood sells slowly from £13 10s to £15 for Bimas. Hemp is held for advanced prices, and £10 has been paid for old St. Petersburg. Clean Manila £32 to £34.

HIDES.—There has been rather more doing generally, and heavy salted Rio Grande Ox may be quoted 3d dearer, having been sold at 3¾d. We still quote New-York salted 2½d to 2¾d, and New-Orleans 2d to 2½d per pound. Prices of Leather do not improve as yet.

INDIGO.—There has been a fair business doing since the sales, and occasional advance has been realized for picked lots of both Bengal and Madras; but within the last day or two the demand has slackened.

There has been rather more demand for British Iron, and several contracts have been made at £6 for rails and £5 17s 3d, both free, on board, in Wales. Scotch pig 45s to 46s, on the Clyde. Swedish £10 15s to £11.

LEAD is more demand at 28s to 40s for American. Linseed Cakes in continued demand—£9 for thin oblong New-York, and £7 10s for New-Orleans; a parcel of good round, from Boston, has been sold at £8 26s per ton.

OIL.—Sperm is dull, at £75 for British; but American, to show the duty of £15 15s, is firmer at £76. Southern seals readily from £24 10s to £25. In Neat and Cod, little doing. Linseed dull, at 22s 6d. Palm, 30s 6d. Cocoa Nut, 42 to 45s.

RICE has been in speculative request, and prices had again advanced 1s to 1s 6d per cwt for all descriptions of East India, but the market has become dull again at the following quotations: Bengal white, 11s to 15s; cargo, 9s to 10s; Arracan, 9s 6d to 10s 6d.

RUM.—The Government contract for 100,000 gallons, in equal proportions of East and West Indies, has been taken at the low price of 1s 4½d per proof gallon.

SALTPETRE continues depressed, prices ranging from 22s 6d to 25s 6d for Bengal, according to quality.

RAW SILK.—About 500 bales China have been placed since last of the currency of the Mail at a slow sale. Bengals without change. Italians are somewhat less urgently offered, while in Turkey silk a fair business has been done, under a growing impression that prices of Chambers are but lower.

SPELTER wears an improved aspect. About 200 tons have been taken at £14, and holders will not now sell under £14 10s.

SPICES.—Pimento is 4d dearer, say 3½d to 4d, the sales reaching about 800 bags. 842 boxes Cassia Lignea have been taken at 64s to 65s, and 600 bbls. Malabar Pepper from 2½d to 3d per lb. Public sales of 1,500 bales cinnamon will be held 31st inst.

SUGAR.—The discussion on the duties is postponed till Monday next. In the meantime, the trade continue their purchases to immediate wants, but the refiners have taken about 4,000 bags yellow Havana from 38s to 41s 6d, and about 800 cases Brown Bahia at 18s to 18 6d, and 30 hhds Porto Rico at 18s 6d. The latter two to refine in bond. There is rather a firmer feeling on the Continent, in anticipation of the Company's sale, which took place yesterday at Amsterdam, the result of which will not be known in time for this.

FOR TALLOW, we have a somewhat firmer market, at 44s 3d for St. Petersburg Y. C. on the spot, and 43s 6d for delivery the last three months of the year.

TEA.—The advices from China have had no effect on our market, which remains very firm, with a steady demand, and consumption is going on very favorably. There is no common Congou now to be had under 8½d per lb.

TIN.—Banca, though nominally quoted 82s, might be bought for cash at 80s, and Straits at 74s per cwt.

TOBACCO.—There is no export demand, and as the trade continue to buy sparingly, prices are supported by the firmness of holders alone.

TURPENTINE.—Nothing done in rough, which remains dull at 6s 3d to 6s 6d for old, and 7s 6d to 7s for new. Spirits in moderate request, at 32s 6d for British, and 34s for American. Rosin without change. For Whitehone the market is dull, at £130 for Southern, and £125 for Northwest. In American Stocks transactions continue unimportant, and we have no change whatever to notice in prices.

Shipping Intelligence.

BOSTON, Aug 14, 9 A. M.—Arr steamer Acadia, Stone, Liverpool, 26th ult, arr at Halifax, 11th inst, 3 P. M, and left for Boston at 8. On the 31st ult, 100 miles West of Cape Clear, saw steamer Caledonia, from NYork, on the 11th inst, 7 A. M, 45 miles E. of Sable Island, 7 hours from Halifax for Liverpool. The steamer Jefferson, Hayward, 5 ds fm Quebec for NYork, arr at Halifax, 9th, put in for coal. Off Liverpool 27th, packet ship Yorktown, fm NYork.

CITY ITEMS.

MONDAY, August 14, 1848.

LORD JOHN RUSSELL SHOT!—A company of young Irishmen, from 30 to 40 in number, who have enrolled themselves as volunteers in the proposed Irish Brigade, yesterday mustered in front of the Sixth Ward Hotel, Centre-st, preparatory to leaving the City on a target excursion. The target on this occasion appeared to have been got up at considerable expense. On one side was painted, in showy colors, a full-length figure of "Lord Clarendon, the Hangman," and on the other that of "Lord John Russell, the Chief Assassin," which the company succeeded in penetrating with ball to their entire satisfaction, and with the full conviction that had the originals only received the same dose their fates would have been sealed, and farther opposition to Irish Independence for ever quashed.

SMALL POX.—The ship Mary Ann Adeline, from Bremen, arrived at Quarantine on Saturday, had 6 deaths on board, during the passage, by small pox. Twenty cases have been sent to the Marine Hospital at Quarantine.

'A NIGHT AT BIDDLE'S GROVE.'

To the Editor of The Tribune:

I think your Item man must have a very curious idea of romance if he calls that miserable Excursion of the American Musical Institute romantic and pleasant. It was an imposition from beginning to end.

1st. It was an imposition to allow so many to be jammed on to the boat that you could barely get a place to stand, much less to sit.

2d. It was an imposition of the lowest kind to let out a good part of the main deck for the sale of poisonous rum and vile cigars, the perfumes of which were enough to sicken any one not in the habit of using those (to me) new companions of music.

3d. Their Concert was as great or a greater humbug than the Excursion. One can hear better instrumental music any evening in front of the Museum, and that gratis. True, Mr. Meiggs apologized for the absence of some of the performers—but should not two thousand people command their attention and the fulfilment of their promises? I wonder that the discontent of all was kept so quiet as it was; for every countenance was plainly written with disappointment and disgust, and groups you could hear murmurings against the managers and getters-up of the great Moonlight Excursion of the American Musical Institute. D. M. F.

New-York, Saturday, Aug. 12, 1848.

ACCIDENT FROM INTEMPERANCE.—A woman by the name of Williams, living in the rear of No. 122 Wooster st, while in a state of intoxication, accidentally set fire to her clothes, and was severely burned before the flames were extinguished.

DEATHS AT THE EMIGRANT HOSPITALS, August 10.—With the exception of a child, there were no deaths this day either at the Hospital at Staten Island or that attached to the Asylum at Ward's Island.

ROBBERY.—A man by the name of Peter Smith was thrown down and robbed of a watch and chain valued at $50, while passing through the Fourth Ward at an early hour yesterday morning. Two sailors, who gave their names as Charles Stebenore and William White, were shortly afterward arrested by Officers Langdon and Sweeny on a charge of having committed the robbery, and they were both committed to prison for trial.

DARING THEFT.—Some daring rogue yesterday morning entered the basement of dwelling No. 77 West Thirteenth-st, during the momentary absence of the servant, and stole a number of silver spoons, the property of Mr. Stiles Curtis.

INQUEST.—Coroner Walters held an inquest yesterday at No. 14 Pelham-st, on the body of Wm. Driscoll, a native of Ireland, aged 52 years, who, while engaged in conversation with an acquaintance in the street relative to the affairs of his country, fell down and almost instantly expired. Verdict, death by disease of the heart.

GENERAL SESSIONS.—George Howland, convicted of an attempt to commit a petit larceny, was sentenced to 20 days' imprisonment in the City Prison.... Daniel McDonald, convicted of a grand larceny, in having stolen $400 from Patrick Callogan, was sentenced to be imprisoned in the State Prison for the term of two years.

POLICE.—A fellow calling himself John Evans was arrested yesterday by Officer Barker of the Eighth Ward, on a charge of having feloniously entered the premises No. 25 Wooster-st; for which alleged offence he was detained to answer.....Two young men named John H. Thompson and Charles Watson were also arrested by Officers Ridabock and Hoffman of the Seventeenth Ward, on suspicion of having been engaged in the commission of a burglary, for which they were detained for examination.....A man named Patrick Reilly was locked up on a charge of having attempted to pass a spurious $5 bill on Charles Shultz, in the Fifth Ward.....A young woman by the name of Elizabeth Noble was arrested yesterday by Officer Barange on suspicion of having relieved a gentleman of his gold watch. Detained for examination.

POLICE.—Officer Nespie last night arrested a man, named John Wilton, on a charge of breaking into house 45 Eleventh-st, near Third-avenue, with intent to rob.....A man calling himself Samuel Carter was arrested last night, by officer Mathews, on a charge of stealing a double set of harness, valued at $25, the property of William Archer, living at West Farms.....Officer Flavey, of the Fourth Ward, last night arrested Michael Barton, on a charge of having attempted to rob a sailor.

Law Courts.

COURT OF COMMON PLEAS—In Chambers—Before Judge Daly.—Application was made by a gentleman, for the assent to the Lunatic Asylum of his father, alleged to be insane. The Judge said that he made it a rule to require further proof, and that he would never be a party to committing an individual to a Lunatic Asylum unless on positive satisfactory testimony independent of the affidavits. The Judge also said that the law requires the signature of the magistrate to the commitment, evidently showing that it impels the magistrate shall be satisfied that the commitment is proper. The gentleman said that he had had numerous commitments in the affidavit of two physicians, and that he would go to Ald. Conlon, who understands it. The gentleman then left the office.

Shameful Harrassment—Frederick Kolling was arrested on complaint of Frederick Ripper, under the Stalwart Act, the act R. charging that Mr. K. owes him 60—that a year or two ago, and since, Mr. K. has been in the habit of following him up and down Avenue C, for upward of a year, and that he is about leaving the City with his family, &c. Kolling denied that he intended to leave the City. He said he had money last week, which he paid, to pay his rent, but he had to pay it over again, and which he paid, to prove that he had money to pay his rent. Mr. R said he could support his charge. Mr. K. remanded in custody, unless a settlement could be effected.

Discharge of Seamen.—Several lads were brought up from the U. S. frigate Cumberland (12 of them by Mr. Schiefer, counsel, and also by Mr. Graff) and their discharge from the service of the navy.—One of them alleged to have entered at a time of intoxication, were remanded, the proof not being sufficient. One was also discharged, on application of Mr. Morrill, by Judge Jones, in the Supreme Court, in Chambers, and one or two by Judge Ingraham, in the Supreme Court, in Chambers, and also applications for discharge from enlistment at Governor's Island.

MINING COMPANIES.

ROCKY HILL MINING AND MANUFACTURING COMPANY.—At a meeting of the Board of Directors, held at Camden, N. J. on the 1st July, 1848, an assessment of 50 cents per share on each and every share of the capital stock of the Company was levied, payable in thirty days from the 19th day of July, 1848, at the office of the Company in Philadelphia.

Extract from the Supplement to the Charter, approved 4th February, 1848.

"Any stockholder refusing to pay the assessment regularly laid, and of which notice shall have been given as heretofore provided for, shall forfeit to said corporation each and every share of stock upon which such assessments remain unpaid for the period of thirty days after notice shall have been given, or such assessment shall have been made by laws to the stockholders that such assessment was due and unpaid." By order of the Board of Directors. HUGH CRAIG, DAVID C. SKINNER, Treasurer. [July 29 3m] President.

THE STOCKHOLDERS of the Isle Royal and Ohio Mining Co. will take notice that an assessment of $1 on a share has been made, payable to the Secretary on the 1st September next.—Cleveland, July 25, 1848.

JOHN ERWIN, Sec'y.

A CARD.

THE CITIZENS OF NEW-YORK are respectfully informed that they can obtain Mrs. KIDDER'S far-famed Cholera-morbus, Dysentery and Diarrhœa Cordial of the following named druggists: Rushton, Clark & Co. 110 Broadway, and 10 Astor House; C. H. Ring, 192 Broadway; J. A. Meaden, 511 Broadway; J. & I. Coddington, 365 Hudson-st; Dellue & Co. 2 Park-row, and 561 Broadway; Eugene Dupuy, 609 Broadway; H. T. Kiersted, 529 Broadway; James Weir, 248 Grand-st. The Cordial is so well known and so generally used that a long story is unnecessary. If any are unacquainted with it, they can obtain circulars of the agents that will give full directions for managing these diseases in every stage and form. It is adapted to the youngest child or the oldest person, and the more severe the disease the better opportunity you have for witnessing the wonderful power the Cordial possesses. Physicians have looked on their dying patients with wonder and astonishment at seeing them revive and become restored when the last spark of life seemed to be flickering, and all hope of recovery had fled. MRS. E. KIDDER.

jy29 2m Inventor and Proprietor, 160 Court-st. Boston.

MISS HAINES respectfully informs her friends and the public that her SCHOOL, 16 Gramercy-park, East Twenty-third-st, opposite her house below Fourth-avenue, will recommence Monday, Sept. 4.

The house is commodious and arranged purposely for the School, and the location is unsurpassed in the city. Miss H. has the aid of teachers of acknowledged talent, and those who have confided their daughters to her care in past years may be assured of the continued desire and, as she trusts, increased ability to render to her pupils a substantial, useful and accomplished Christian education.

Circulars, with terms, &c. may be obtained at Messrs. Doremus & Nixon's, 39 Nassau-st, corner of Liberty, or at the bookstore of C. S. Francis, 252 Broadway. Written applications addressed to Miss Haines, care of Doremus & Nixon, will receive immediate attention, and after the 28th August a personal application can be made at her residence. au12 1meod
