COMMERCIAL AND MONEY MATTERS.

For sales of Stocks, &c. see Fourth Page.

WEDNESDAY, Sept. 13—P. M.

The Stock market shows no improvement generally. At the Second Board, sales of $55,000 Treasury Notes were made, closing at 3¼, a. 3, which is lower.—Operator are now waiting the receipt of foreign news and the result of Mr. Corcoran's negotiations. Mr. C. probably arrived in London four or five days before the Europa left.

There was not much business done in Bills today, bt the market continues steady. Sterling is 9@9¼ for good bills.

In Freights there is considerable doing, but the rates are heavy. Four or five vessels were taken up to load for Ireland at 11d@12d for Grain. Some Cotton for Liverpool was engaged at 5-32d@3-16d; 10,000 bush Wheat at 8d; Bacon, Cheese, and other heavy goods, 25@30s; Pork, 3s per bbl; Turpentine, 2s 6d@3s. To London, Flour at 3s; Turpentine, 3s; heavy goods, 30s@32s 6d, Provisions, 3s 6d per bbl. To Glasgow, Flour was engaged at 3s and heavy goods at 30s. To Antwerp, Cotton at ⅛c; Ashes and Rice, 25s. To Havre, the 20th inst. the packet is full at ⅛c for Cotton.

We are told that the specie received by Messrs. Hargous & Co. from Vera Cruz, alluded to yesterday, is to go forward to London. It arrived here packed in pork barrels.

"Justice" writes us from Cincinnati, and not from Connecticut, as the types made us say.

The Bowery Insurance Company loses $7,900, and not $10,000 as the published list has it. The Kings County Mutual have determined to wind up. The Franklin of Philadelphia, it is now stated, lose but $29,000.

The receipts of the Housatonic Railroad Company for August were:

Freight	$12,183 99
Passengers and Mail	7,464 40
Total	$19,648 39
Same month last year	16,159 76
Increase	$3,568 63

The receipts of the Little Miami Railroad Company for August were as follows, compared with the same month last year:

	1847.	1848.
Passengers	$11,017 99	12,619 66
Freight	6,274 96	9,019 10
Total	$17,291 35	27,699 66

$4,348 33	12,246 75	17,291 35	27,699 65

An uninterrupted railroad communication is now open through from Cincinnati to Lake Erie, which is giving a large increase of business to the road.

The receipts of the Montgomery (Ala.) Railroad Company, for the 10 months ending September 1, 1848, were $60,156 94
Same period in 1847 ..... 55,951 34
" " 1846 ..... 54,057 21

This shows that the income has more than doubled within the past two years.

The receipts on the Providence and Worcester Railroad for the week ending Sept. 2 were:

Passengers	$8,295 60
Freight	1,175 76
Total	$9,471 36

The receipts on the South Carolina Railroad for the months of July and August, 1847, compared with the same of 1848, were:

July and August, 1847	$66,432 93

At Philadelphia the Money market is stringent, but not more so than it has been for the last two months. Business is comparatively brisk, and trade more healthful, perhaps, than in seasons when it was larger.

In Boston the Money market remains comparatively easy. The Banks discount more liberally. The present rate of interest in the street may be stated at 1 to 1 per cent a month. In Stocks, the prevalent feeling is rather one of confidence. Vermont Central Railroad, since the relief of the corporation from embarrassment, is in good request with an upward tendency.

The Pennsylvania Central Railroad Company has already contracted with Messrs Kimball & Gorton, for seventy-five double eight-wheeled burden cars, to be placed on the road as soon as a portion of it is opened for travel.

At Baltimore money is worth 1 per cent. per month. The market is not very stringent.

At Cincinnati the Money market is a trifle easier. Eastern exchange is 1 per cent. and firm.

A new Bank, to be called the "Grocers' Bank," is to be established at Boston. Half the capital has been subscribed.

The stock of the "Waterbury (Conn.) Bank" has all been taken, and Mr. Bennet Bronson elected President.

The Hartford and Providence Railroad Company have contracted for 3,000 tons of railroad iron, weighing 60 pounds to the yard. The contract is made with Thompson & Furman of Boston, at $50 per ton. By this contract a saving to the amount of $45,000 is effected. The total saving made on the original estimates for grading the bridge over the Connecticut River, and iron for this road, exceed $100,000.

The Insurance upon the Ocean Monarch is $145,000.

The Directors of the Cleveland, Columbus and Cincinnati Railroad have determined on the Western, or Delaware route. This route leads through or near Worthington, Delaware, Cardington, Gilead, Iberia, Shelby and Greenwich, to Cleveland. The Board are undetermined whether to go through Elyria, Oberlin, &c. or more southerly through Berea. The line selected crosses the Sandusky Railroad 12 miles north of Mansfield.

GENERAL NOTICES.

☞ **To Manufacturers, Mechanics, Artisans and others.**—An *Association* has been planned to purchase in a healthy and desirable situation in the West, an extensive, cheap and partly improved water-power, having advantages and facilities for manufacturing and business equal to any location at the East, with sufficient land to build up a large manufacturing city, suited to the present and growing wants of the country for manufactures and mechanical labor, and for necessary agricultural and ornamental use. Manufacturers, mechanics, associates and other friends of enterprise and industry, desirous of taking an interest in the purchase, can do so on equal terms, and receive their proportion of the same separately for improvements by appraisal, or by bidding for choice of location for lots, land or power.

The increased value of property where capital and labor is concentrated in a new country, and where there are advantages for the commencement of business, together with the cheapness of living, is sufficient inducement to take an interest in the purchase, by those desirous of settling at the West, and this plan of associating for the purchase and division of the property on equal terms, is sufficient guarantee of its not being a speculation, only so far as equal benefits are received on the amount invested, while it gives persons of moderate means and mechanics advantages to prosecute their business more in equality with the agricultural settlers of the West, and to be better protected in their labor than by Tariffs or protective duties.

Editors and publishers friendly to the progress, advancement and security of labor, are desired to give this communication a insertion in their papers and to call attention to it, and if the plan shall meet with their views, be carried out, which it is confidently expected it will be, the favor will be satisfactorily acknowledged.

Persons and Associations will be given more particulars by addressing *Association*, post-paid, New-York Post-office.

☞ **Important Announcement!**—New-York, Sept. 10, 1848.—A period of just three years has elapsed since Dr. Christie's Galvanic and Magnetic Curatives were introduced to the public of the United States. The extraordinary demand for these articles has only been equalled by their unparalleled success. From this date, therefore, the established prices of the articles will be as follows, being a deduction of nearly one half from the original prices, both in this country and in Europe.

" " Necklace	Two do
" " Bracelets	One Dollar each.

☞ **It will actually force the Hair to grow** on any part where hair will grow naturally; the head, face or body. It will strengthen the roots, thus saving the hair from falling off, cleaning the dandruff from the scalp. It causes light, red or gray hair to assume a dark color, and, by degrees, permanently to restore the hair great naturally dark from the roots. If used merely for dressing the hair, it will keep the hair soft, dark, silky and beautiful, at least three times as long as any other preparation.

☞ **Gentlemen's Hats—Fall Style**—Bird, cor. of Pine and Nassau sts.—Gentlemen's Hats of the Fall standard, embracing all the recent improvements in the various branches of the art, are now ready for inspection and sale. The new style is submitted to the critical judgment of the connoisseur as well for the style and finish, as the quality of the article offered.

The subscriber relies with much confidence upon the just discrimination of a discerning public resting his claims upon the known merits of his hats for *quality, durability* and *superior finish*, as the *best evidence* of their intrinsic excellence; and the liberal patronage hitherto enjoyed is a sufficient test of their quality, notwithstanding the extravagant pretensions of dealers so common at the present time.
