COMMERCIAL AND MONEY MATTERS.

For sales of Stocks, &c. see Fourth Page.

THURSDAY, Sept. 14—P. M.

There was but little activity in Stocks to-day, and the fancies were heavy. Treasury Notes were also dull at the First Board, but at the Second Board sold at 3½ per cent, which is an improvement of ¼ per cent.

The Bill market is entirely quiet at previous rates.

In Freights there is something doing, but the quotations are lower. A vessel was taken up at 11d for Ireland, and one to load at Norfolk at 12d. Some 6,000 bbls Flour were engaged at 2s 3d, Cotton at 5-32d@ 3-16d, and Grain at a decline, supposed 2d per bush.

There is nothing from abroad in relation to Mr. Corcoran's mission, excepting an expression of opinion in some of the letters that the condition of affairs was more favorable to him than it had been. The improvement in the prospects of the harvest has produced a better feeling in the London money market, and rendered his success more probable. He had been in London but one day, we believe.

There was but a moderate business doing in American Stocks, but the quotations were without marked change from the previous steamer. Government Sixes sold at 96@96½, there being sellers at the last date at 96. New-York 6s were 90; Pennsylvania, 67@68; Ohio, 86@89; Massachusetts, 98@99; South Carolina "Barings" 83@85, "Palmers" 80@82; Maryland, 69; New-York City, 80. The months of August and September are always dull in London, and the impression that an advance in the rate of interest would soon take place had rendered business more than usually dull.

The private letters in regard to Breadstuffs are about to the same tenor as the printed accounts. They show a decline of a shilling per bbl in Flour, and four shillings per quarter in Corn. The prospect continues to be good for a fair demand for our surplus Breadstuffs at remunerating prices. Although the weather had been favorable, yet enough danger had been suffered in the cereal Grain and the Potatoes to prevent the gathering of an average crop. We consider the whole news as quite favorable for this country. The saving of the crops had already had a favorable effect upon the trade of Great Britain. The subsidence, in a measure, of the fears of large imports of Breadstuffs, and a consequent export of Bullion, would give a new impetus to Commerce and prevent that contraction of the Bank which would react with more or less effect here. We doubt if the eventual consequences of high prices for Breadstuffs in Great Britain would be favorable to the United States. All we should desire is to sell enough of our Corn, Flour, Provisions, Cotton, &c. to Great Britain at prices sufficient to amply repay the grower for his labor, and to an extent sufficient to keep the balance of trade on an even keel, and prevent the disturbance of the specie basis of either country. One of the favorable features for Breadstuffs in the news by this steamer is the statement that the harvest is a bad one in France.

The return of the Bank of England for Aug. 26, compared with Aug. 19, is as follows:

Public deposits	£4,868,374;	Increase	£329,276
Other deposits	8,715,182;	Decrease	140,673
Rest	3,566,680;	Increase	52,104

And on the other side of the account:

Governm't securities	£12,462,795;	Same as before.	
Other securities	10,899,009;	Increase	£36,041
Notes unemployed	9,234,240;	Decrease	216,070

The amount of circulation is £18,618,871, an increase of £305,536; and the stock of bullion in both departments, £13,503,663, an increase of £272,117.

The announcement that the deficiencies of the revenue were to be made up by sales of small amounts of stock had had a favorable effect in the money market. Consols had been firm until the complication of the French-Italian question had produced apprehensions for the general peace of Europe. The following table shows the fluctuations in Consols from August 26 to September 1:

	For Money.			For Account.		
	Aug.	Lowest.	Highest.	Closing.	Lowest.	Highest.
Satur.	26	95⅞	96⅛	96⅛	95⅞	96⅛

The *Moniteur* publishes the usual returns of the importations and exportations of France for the month of July, and also for the first seven months of 1848, with a comparative table for the corresponding periods of 1846 and 1847. From this table it appears that the exports, though considerably greater than in June, are still deplorably low. The duties received on importations for July, 1846, were to the amount of 12,957,914f; for July, 1847, 11,507,483f; and for July, 1848, only 7,985,570f. For the first seven months of 1846 the duties received amounted to 87,634,664f; for the same period of 1847 to 77,404,158f, and of 1848 to 45,436,124f. The exportations, especially of French manufactured articles, show a similar falling off. The *entrepôts* are still gorged with merchandise, for which there is no outlet.

In the accounts from Bombay we notice a statement of a sale of 2,500 pieces American gray Drills, received per ship Tartar from New-York. This was the first importation of American Goods under the new act, which allows them to be imported upon payment of double the duty chargeable upon British manufactures.

The following Circular was prepared by Messrs. Cammann & Whitehouse for transmission by the last steamer. It confirms the statements we have heretofore upon the same subjects:

(Per Niagara.) NEW-YORK, September 13, 1848.

We have but limited transactions to report since the date of our last regular circular, and no material change has taken place. For prominent securities the market has been steady. United States Loans have been in moderate request for investment. Money is in active request, and discount on favorable signatures (having of course the Mexican dollar in view) is readily obtained. The Assistant Treasurer in this city has a large amount of coin (about $2,000,000) temporarily on hand, arising from the payment of the month's instalment on the $16,000,000 loan, and the commencement of receipts from duties, which warrants for more than half the amount having been issued, the sum will soon find its way into the banks again. The Autumn trade is longer than was expected, and is satisfactory. Importations yield fair profits. A very large amount of domestic manufactures of cotton and wool have been disposed of at public sale which, considering the quantity, sold well, although the prices realized were not sufficient to indemnify the manufacturers. The recent accounts from England of the state of the crops, &c. give hopes of a regular demand for our flour, grain, corn, meal, &c. which, with the promised yield of a large cotton crop, will secure an equal or further export of Specie. The regular and steady export of produce is much to be desired, and we regret that the advance in prices and freight in this market prevents foreign orders from being filled.

The supply of foreign exchange does not now appear, although the demand for the same continues to be more active, and transactions to a fair extent have been effected. The result of the application to European capitalists for loans on the U. S. 6 per cent stock of 1868, on behalf of sundry parties here, is awaited with some anxiety. The high standing and information of the gentleman sent on to England, as the applicant, is fairly in favor of success. The stock is a good one, and the loan is a capital one unquestionable security; but the discouraging aspect of the English harvest, and the unsettled position of political affairs on the Continent, may lead to the belief that money will become more valuable in those quarters, and we may therefore have to depend upon our own resources for the disruption of the stock on which loans are now asked for. Temporarily, such a result might be unfavorable; but, in view of the increasing wealth of the country, and the foreign demand that is now regularly experienced, it cannot be doubted that ere long the whole amount would be absorbed by investments. Remittances from the interior are made with more punctuality than was anticipated, and the "jobbers" are therefore prompt and regular in their payments. The aspect of the Fall trade is sound and wholesome, without any disposition to force it or to speculate.

Very respectfully, CAMMANN & WHITEHOUSE.

The tolls on the Canals of this State, as will be seen by a statement on the outside, have fallen off $84,870 in August, as compared with August, 1847, equal to 25 ⅌ cent.

A good and practicable route has been surveyed for the continuation of the Baltimore and Ohio Railroad to Wheeling. It has no grade over 80 feet to the mile.

Correspondence of The Tribune.

Per Europa. LIVERPOOL, September 1, 1848.

Since the departure of the last steamer there has been a large business done in Cotton, but the improvement in the demand, which is confined almost exclusively to the ordinary and middling descriptions, must be attributed to the favorable change in the weather and to the armistice till the 10th of March next between Prussia and Denmark. This demand has not in the slightest degree improved prices, the favorable reports from America of the growing crops having checked all animation. Fair Orleans are quoted at 4¾d, fair Mobile 4¾d, and fair Uplands 4¾d, middling 3¾d per lb. The sales for the week, ended this evening, are 30,000 bales, of which exporters have taken 6,170 and speculators 1,000 bales. Of American descriptions sold, 7,470 are Uplands, at 3¾d @ 4¾d; 20,400 Orleans, at 3¾d @ 4d; and 3,730 Alabama and Mobile, at 3d @ 4¾d per lb. Of 2,000 bales of Sea Islands offered to day at public auction, only 200 sold, at a decline of ½d per lb. The total stock of Cotton in this port is now 646,000 bales, against 457,000 at the year; that of American is 419,000, or an increase of 100,000 bales as compared with the same period.

The Corn market is very dull to day and prices almost nominal, at a decline of 6d per bbl on Flour, and 4d per 70lbs on Wheat. Western and Baltimore Flour, duty paid, is quoted 24s 6d @ 25s per bbl. Wheat 7s to 8s per 70 lbs. Sour Flour 20s @ 20s per bbl. Indian Corn Meal 16s @ 16s 6d per bbl. Indian Corn has declined 4s per qr, 30s @ 32s being the present quotation. The duty on Wheat is now 9s per qr, and on Flour 4s 6d per bbl.

250 barrels of very fine Turpentine have been sold this week at 8s @ 8s 6d per cwt. Common American Rosin is some easier 3s 3d @ 3s 6d per cwt has been paid. Yours, respectfully,

BROWN, SHIPLEY, & CO.

SALES OF REAL ESTATE.

Markets....CAREFULLY REPORTED FOR THE TRIBUNE.

THURSDAY, September 14.

☞ The effect of the news by the Europa has been depressing on all articles of Breadstuffs, and although the markets are scarcely yet fully opened, yet the decline is marked. Flour is a full shilling cheaper and dull at the close at the decline.

ASHES—Pots are in demand at 6 75, and Pearls are firm at 5 87½. Sales 190 bbls Canadian Pearls on private terms.

COTTON—The holders feel better, and the market has become quite firm, without any material advance. Sales 600 or 700 bales.

FLOUR AND MEAL—The sales of Flour before the news was made public were at 6@6 06, but after the news was made public the quotations declined to 5 87½@6. The sales are about 5,000 or 6,000 bbls, including 2,000 bbls for export at 6. Some round hoop Ohio sold at 6 12½. Shippers offer 5 87½ for common to favorable parcels. Sales 400 bbls New-Orleans at 5 75. In Southern there is more movement, but the quotation is lower. The top quotation is 6. About 600 or 800 bbls Georgetown, &c. sold at 6@6 12½. Meal is dull, without sales of importance. Jersey could be bought at 5 25. In Rye Flour there is nothing doing.

GRAIN—The market was very much unsettled by the news, and of Corn especially it was difficult to get quotations. Buyers kept out of market, not having digested their letters, and no sales of importance were made. Shippers were offering 60 cts for mixed, and about 64@67 for round yellow, for Southern, Long Island and Jersey, nearly all of private brands. A small parcel white Southern sold at 62 cts, and another of flat Southern yellow at 70 cts. Round yellow is supposed to have sold at 71 cts, and low mixed at 69½ cts. A sale of 40,000 Irish Marled was made yesterday afternoon at 60c. In Wheat the mar ket shows a decline of 1 to 5 cts ⅌ bushel. About 8,000 bushels Genesee changed hands for export, supposed at 127 cts, and 3,000 do Ohio at 125 cts for milling. A portion of the same parcel sold on Tuesday at 130 cts. Rye is also lower, and 2,000 bushels sold at 71 cts. Barley and Malt are dull. 2,000 bushels Canada sold at 71 cts. Oats are dull—some 8,000 or 10,000 bushels sold at 34@36 cts.

PROVISIONS—Pork continues firm and in good inquiry. Some 600 or 800 bbls sold at 12 62½@12 75 for Mess and 9 87½@10 for Prime. The latter quotation is for a large parcel. Lard is without change. Some 400 bbls sold at 8@8½ cts for prime and 8½ cts for inferior. Some Packed Meats have been received, but are unsold. Butter is doing better; Ohio is 10@12 cts, State 12@17 cts, the latter for prime. Cheese is without change.

WHISKEY—Sales of 150 bbls were made at 28@29 cts, showing a decline.

OIL CAKE—A sale of 100 tons this evening was made on terms not made public.

BOOKS—Sales 7,000 lbs North west at 27 cts to the trade.

OIL—Whale is in demand at 32½ cts, 35 asked. Sales English Linseed at 59@60 cts, American at 60 cts.

NAVAL STORES—Crude Turpentine is held at 3 25. Sales 600 bbls Rosin at about 1 40 cts for Wilmingtons, and 150 bbls Spirits at 34 cts.

FISH—Sales 600 bbls No. 1 Mackerel to Messrs Rice at 10 50. A small parcel No. 3 at 3 31½, and 1,500 quintals Dry Cod at 2 62½.

LEAD—The market is steady at 4 37½ cash for soft.

HEMP—We note sales 500 bales American at $180, 6 mos.

HIDES—Sales 10,000 Buenos Ayres, 6 mos to prime at 14½@16½. The news by the steamer is favorable for Hides, and the market is firm, with but little doing.

HAY—The market is firm at 60@65 cts for good parcels, with sales 300 bales.

TIME—The market is 75 cts for Eastern, with sales of 1,000 casks.

GROCERIES—The market is quiet to-day, and we hear of no sales worth notice. Sugar and Molasses are nominally very firm.

RICE—Sales 150 tierces at 4 37½ cash for good.

COAL—Sales 400 tons Liverpool at 3 50 cash, 6 mos.

WHALE OIL—Sales 2,000 gals South to prime at 34½@36½. The news by the steamer is favorable for Hides, and the market is firm, with but little doing.

Howes, from Dublin, and landed at St. John, N. B. 10th inst. Captain Melcher, who arrived in Boston 12th inst. states that the Glasgow sprung a leak on the 8th ult. in moderate weather, by pressure of her cargo of material, which broke her bottom. The leak was not very bad at first, but gradually increased, until pumping was of no avail. When last seen at night, it was blowing fresh, her painted ports were under water, and she was rolling badly, so that there can be no doubt that she soon went down a short time after. The Glasgow was 504 tons, built 11 years old, and with her cargo is probably insured in Boston in whole or in part.

The ship Agenoria, arrived at Gloucester on Sunday last. The Alton lost topgallant mast, split sails, broke several stanchions, and received other damage in her hull. Handle starting part of her carge.

In a gale at Galveston, 17th and 18th ult. pilot boat Jas M'Knight, and schr Mary and Elizabeth, dragged their anchors and went ashore.

GENERAL NOTICES.

☞ **Democratic Clay Whigs**—Rally once more for Whig principles and your own HENRY CLAY. The undersigned invite their Democratic Whig fellow-citizens and all others in the Eighteenth Ward of HENRY CLAY for President, and MILLARD FILLMORE for Vice-President, to unite with them in a public meeting, to be held at Washington Hall, on Friday evening, the 15th inst. at 7½ o'clock, for the purpose of sustaining True Whig Principles, and nominating Candidates of the People, and opposed to the dictation of military availability and the nominees of a packed Convention of office-holders and office-seekers.

WILLIS HALL, E. DELAFIELD SMITH and Col CARROLL have promised to be present and address the meeting. Several good Clay Songs will be sung. [*Names omitted.*]

Jersey City, Sept. 14. s15 1t*

☞ **Eighth Ward.**—At a meeting of the Delegates of the Sixth Assembly District, held 12th September, it was unanimously

Resolved, That JAMES GRIDLEY be elected as the Ninth Delegate to this Convention.

On motion, it was unanimously

Resolved, JAMES W. BEEKMAN, Esq. be and is hereby unanimously elected a Delegate to represent Sixth Assembly District in Whig Convention, to assemble at Utica on the 13th inst.

Mr. HART offered the following Resolutions, which were unanimously adopted:

Resolved, As the sense of this Convention, that the approaching State Convention offers an appropriate occasion for presenting the claims of the City of New-York, to the selection of a Whig candidate for the office of Governor from a section of the State which, since the days of De Witt Clinton, has conceded the choice of the Executive to the North and West, although from our population, resources, and contributions toward the support of the State Government, the prosperity of its institutions and the advancement of its enterprise, we have been justly entitled to a more frequent participation in that honor.

Resolved, That the individual worthy of a nomination for the distinguished office of Governor of this great State, should be qualified for a faithful, honest and impartial administration of the Executive power, without attempting interference with the legislative department of the Government, or seeking to gain personal influence by favoring factions and sectional interests, or making himself subservient for ambitious purposes to the views of political partizans.

Resolved, That the nomination of Hon. HAMILTON FISH, as the Whig candidate for Governor, will meet with the warmest approbation of this Convention, and we recommend to the Delegate chosen to the State Convention from this District, to give his earnest and unwavering effort to effect that result.

EZRA SMITH, Ch'm.

JESSE D. PRICE, Secretary. s15 1t*

☞ **Eleventh Ward Whigs—Friends of Henry Clay**—With gratification we announce to you that we have organized the ELEVENTH WARD CLAY CLUB, and have entered the campaign under the banner of HENRY CLAY, and invite all those who desire to see him PRESIDENT to unite with us in doing justice to him, to Whig principles, and to our own feelings. We are not without hope, and have strong prospects of success, in consequence of there being three candidates already in the field, it is rendered nearly certain that the election for President will go into the House of Representatives; in this state of affairs we present you with a FOURTH, in the person of that illustrious PATRIOT and STATESMAN, HENRY CLAY, with whom (without any disrespect to either of the other candidates) we invite a comparison. The State of New-York is already lost to Gen. Taylor, and we are desirous of securing the 36 votes of the Empire State for HENRY CLAY, and thereby send him into the House of Representatives as one of the candidates. Who can doubt the choice of that body when it is in their power to elect the greatest statesman of the world?

Should, however, defeat be our lot, with what heartfelt satisfaction would our memory revert to our devotion when we could tell our children that *we were not even among the* LAST *to desert him*, but were of that faithful band who NEVER DESERTED HIM OR HIS PRINCIPLES.

The Club, now numbering 113 members, will meet TONIGHT, and every Tuesday and Friday nights, at 8 o'clock, during the campaign, at Tinkham's Hall, corner of Avenue C and Fourth-st, where the roll may be signed. Good singers and speakers will be in attendance every night of meeting. By order, J. D. B. STILLMAN, Pres't.

☞ **Thirteenth Ward in the Field.**—The Democratic Whigs and all others friendly to the election of General ZACHARY TAYLOR for President and MILLARD FILLMORE for Vice-President, are requested to meet at Thalian Hall, 460 Grand-st. on Friday evening, the 15th instant, at 8 o'clock, for the purpose of forming a Taylor and Fillmore Association.

All friendly to the cause are expected to attend and enroll themselves under the Rough and Ready Banner, and thus promote success.

Several eminent speakers have been invited and are expected to address the meeting. s15 1t*

☞ **Henry Clay in Old Onondaga.**—CLAY MEETING AT MARKET HALL, Monday Evening, September 11.—The Whigs of this city in favor of supporting HENRY CLAY for the Presidency, are requested to meet at Market Hall this evening at 7 o'clock.

Let us come in that true spirit of that Great Statesman

"I SHOULD RATHER BE RIGHT than PRESIDENT."

Pursuant to the foregoing a large concourse of the Whig citizens of Syracuse, favorable to the objects indicated in the call, assembled at the appointed hour, and the meeting being called to order, on motion of Dr. William A. Grover, JOSEPH W. LOOMIS was called to the Chair, and HIRAM CHURCH appointed Secretary.

The Chairman having stated the object of this meeting to be preliminary to a general and organized movement in Old Onondaga in behalf of the great Statesman of the West, and to place his friends here in unison of political sentiment with those moving in his favor in other sections of the Union, it was, on motion of C. M. K. Paulison, unanimously

Resolved, That a Committee of Three be appointed by the Chair with power to call, at an early day, a Convention of the Whig friends of HENRY CLAY, to be held at the City of Syracuse, and that said Committee obtain for the occasion the services of distinguished advocates of the movement to address the Convention.

The Chair appointed as such Committee, C. M. K. Paulison, John R. Robertson and Hiram Church.

Resolved, That these proceedings be signed by the officers of the meeting and published.

After a brief address from Mr. Paulison, the meeting adjourned with nine hearty cheers for HENRY CLAY.

J. W. LOOMIS, Chairman.

☞ **Dr. Swayne's Compound Syrup of Wild Cherry.**—It cures, permanently, coughs, colds, asthma, bronchitis, liver complaint, spitting blood, pains in the side and breast, nervous debility, hoarseness and cases of consumption, even when life had been despaired of. This medicine has cured its thousands, after the most skillful physicians have prescribed in vain, and all hopes of a cure had been given up, which must plainly convince all that "while there is life there [now] is hope." The original preparation is prepared only by Dr. SWAYNE, corner of Eighth and Race sts. Philadelphia.

☞ **A Word to Country Merchants and Druggists, &c.**—The genuine Tricophoronus, prepared by Prof. Barry of 130 Broadway, is rapidly superseding every other article in the market, as a preventive of baldness and grey hair, a cure for scurf and dandruff, a restorer of the hair, and a means of rendering it healthy, soft and glossy. The best proof of the excellence of this compound is its large and rapidly-increasing sale, both in New-York and in the cities and towns where the proprietor has established agents. There is, in fact, a demand for the article in all parts of the Union. Country merchants and druggists, of whom there are now many in town making purchases will find it to their advantage to give the subscriber a call, when he will be able to give them incontestible evidence of the popularity of his compound. That popularity is not ephemeral, like that of the thousand and one essences, &c. which rise and sink every year. The Tricophoronus was introduced to public notice by all dealers of the hair, and every bottle used will survive a trial to the sale of ten. Sold at 25 cents per bottle, at 130 Broadway. s13 2teodis*

☞ **Gentlemen's Hats—Fall Style**—BIRD, cor. of Pine and Nassau sts.—Gentlemen's Hats of the Fall standard, embracing all the recent improvements in the various branches of the art, are now ready for inspection and sale. The new style is submitted to the critical judgment of the connoisseur as well for the style and finish, as the quality of the article offered.

The subscriber relies with much confidence upon the just discrimination of a discerning public resting his claims upon the known merits of his hats for *quality, durability* and *superior finish*, as the *best evidence* of their intrinsic excellence; and the liberal patronage hitherto enjoyed is a sufficient test of their quality, notwithstanding the extravagant pretensions of dealers as common at the present time.

☞ **WHOOPING COUGH!—REMEDY!!**—This most distressing complaint, now so prevalent among children, and which has so long baffled the skill of the best physicians, can be speedily and thoroughly cured by the use of a very simple remedy. This remedy may be found in the Hoopelaks, a preparation long known in some parts of Europe, but now first offered to the American public. It is simple in its application, but certain in its effects, and will cure, without fail, the most desperate and malignant case of the whooping cough in from four to six days, and in all mild cases, or where the patient has only the symptoms of this disorder, it will almost immediately arrest its progress, so that the sufferer will feel no further effects from it. Lest any one should doubt the effects of this remedy, and class the *Hoopelaks* among the vile nostrums of the day, the proprietor pledges himself to return to every purchaser his money, when the effects are not strictly as represented by him. The Hoopelaks may also be taken as a preventive, at the period when it is thus applied in season, there is not the slightest danger of the disease being incurred, no matter how frequent the exposure may be. For sale by JOHN B. REY, 31 and 33 Burling-slip, and by his agents throughout the United States. s15 1wis*
