NEWS OF THE RAILROADS.

The Grand Army Will Travel for Nothing if the Fight Doesn't End Soon.

The situation in regard to rates for the Grand Army encampment at Detroit seems to be growing worse every day. When the Western Passenger Association meets to-day it will find that the complications have increased since the meeting was called, and that it will be no easy task to straighten out the snarl resulting from the controversy between Chairman Finley and the Alton management. Mr. Charlton exploded another bombshell yesterday in the following brief note to Mr. Finley:

"The Wabash has notified us that it has made a rate of $8 from St. Louis to Detroit and return, and that under the rules of that company all tickets reading via the direct line in either direction between St. Louis and Detroit may be honored via Chicago. To meet this we shall have to make a rate from St. Louis to Chicago and return of $5, tickets to be sold July 31 and Aug. 1 and 2, good going on date of sale and good for return passage to Aug. 18, inclusive. The rule of the Wabash that its excursion tickets to Detroit and return are good either via the direct line or via Chicago is prominently announced in circulars issued by Grand Army posts in St. Louis."

Chairman Finley has authorized the associated lines to meet any rates made by the Alton. The Atchison gave notice that it would make a round-trip rate of $8 from St. Louis to Detroit, by way of Chicago. A report was current to the effect that both the Illinois Central and the Wabash had decided to withdraw from the Western Passenger Association, but the officials of those roads deny that there is any truth in the story.

CHICAGO, July 24.—The Colorado Midland is responsible for the most novel of this year's railway devices to gain traffic. It is in the form of a combination ticket which is good for passage on all the regular trains of the lines between Colorado Springs and Woodland Park, and allows the holder to stop at any of the hotels in the famous Ute Pass. The tourist buys a ticket at any of the offices of the Santa Fe or Midland roads for as many days as he expects to be out, paying therefor a fixed amount. This ticket entitles him to the best accommodations at the hotels between the points mentioned for as long or as short a time as he desires. He has the benefit of the lowest weekly or monthly rate, and can divide his time among the various resorts and pay no more than if he spent the whole time at a single place. These tickets are made good for a week or any number of days up to thirty. The purchaser thus knows to a dollar what his trip is going to cost him.

The Southwestern Railway and Steamship Association, which adjourned its meeting from St. Louis to Chicago to get the benefit of the lake breeze, is holding daily sessions at the Auditorium Hotel. The association had to make a careful revision of the agreement in order to keep the Missouri, Kansas and Texas in the fold. The new management of that company held that it was not liable for obligations contracted by a former management, and it declined to be governed by an agreement in the framing of which it had had no voice. For this reason it was decided to reorganize the association, and the Missouri, Kansas and Texas is assisting in the work. It is not expected that any very important changes will be made.

The Wabash has withdrawn the coal tariff by which it made a rate from Toledo to the Missouri River seventy cents per ton less than the rate by way of Chicago. The publication of the fact that there was such a tariff in existence caused the Wabash people to send a hasty message to Chairman Midgeley of the Western Freight Association with the intimation that a mistake had been made and that the tariff would be immediately withdrawn. They explained that the tariff had been issued as long ago as last September, and that when new ones were agreed upon in January they forgot to withdraw the old one.

David Brown has resigned as General Manager of the West Shore fast freight line, to take effect Aug. 1. His successor will be James McQueen, Jr., with headquarters at Detroit. Mr. Brown continues as assistant general freight agent of the Chicago and Grand Trunk.

CHICAGO, July 24.—"All this alleged 'scare' in the South grows out of the fact that the railroad companies object to being obliged to fumigate and disinfect their cattle cars after each shipment from the South to the North," said Secretary of Agriculture J. M. Rusk yesterday. The Secretary referred to a despatch from Nashville to the effect that Tennessee cattle growers are incensed against an order of the Secretary declaring quarantine against Tennessee cattle, and that the new order was considered a blow at the agricultural interests of the South.

"No new order has been made," said the Secretary.

A despatch from Glacier, July 20, says: "The Raymond and Whitcomb Alaska excursion party came over the mountains to this point this afternoon, after stopping two days at Banff. The journey will be resumed in the morning. The trip from Calgary to the coast will be by daylight, so as not to miss the fine scenery.

A party of London, New York, and Philadelphia capitalists were in Carthage, N. Y., yesterday, looking over the ground with a view of building the connecting link between the Northern Adirondack, Carthage and Adirondack and the Elmira, Cortland and Northern Railroads, via Watertown and Camden, and making a connection through to Canada.

THE CALIFORNIA BIG TREE PARK.

Settlers Defy the Troops and Refuse to Cease Cutting Timber.

WASHINGTON, July 24.—Among the acts of the last Congress was one creating the Sequoia National Park in California. One of the purposes of this park is to preserve the magnificent trees that grow to almost marvellous dimensions within its boundaries. At the time the act was passed a colony of people known as the Kaweah Cooperative Society, whose mode of operations are modelled after the theories of Edward Bellamy, was located within the proposed limits of the park. Some of the colonists had secured patents to sections of land, while others had made entries to lands. On July 1 the Government stationed a force of troops on the reservation to prevent the further cutting of the timber by the colonists, but it appears that the people are not obeying their orders. Capt. Dorst, who is in command of the troops, has made a report to the effect that the people in charge of the Axtell sawmill within the reservation have defied the troops and have refused to cease cutting timber.

A difference of opinion as to the rights of the parties exists among the officers of the Interior Department. Commissioner Carter of the General Land Office entertains the opinion that the act of Congress was powerless to affect the vested rights of those persons who held patents for lands at the time of the passage of the act, and that the department has no jurisdiction whatever over such patented territory. It is said that Secretary Noble is of the opinion that the act of Congress, which included patented lands within the park limits, carried with it the control by the department of such patented lands, and that the park laws and regulations should be enforced thereon the same as on public lands. Pending the settlement of the question Acting Secretary Chandler has telegraphed the Government special agent in the reservation to desist from any interference with colonists who are cutting timber on patented lands until further instructions are received from the department.

One of Uncle Sam's New Fleet.

SAN FRANCISCO, July 24.—The first rivet in cruiser No. 6 was driven to-day by Henry S. Scott of the Union Iron works. The contract provides that the cruiser be completed April 1, 1893.

ARE WE

Right

or

Wrong?

A Shoe Dressing *must* restore the brilliancy of a worn shoe, and at the same time *preserve the softness* of the leather.

LADIES will the Dressing you are using do both? Try it!

Pour a dessert spoonful of your Dressing into a saucer or butter plate, set it aside for a few days, and it will dry to a substance as hard and brittle as crushed glass. Can such a Dressing be good for leather?

Wolff's ACME Blacking

will stand this test and dry as a thin, oily film which is as flexible as rubber.

25 Dollars worth of New Furniture for
25 Cents. HOW? By painting
