have taken refuge on the frontiers of Turkey, in consequence of events which have taken place in Persia at different periods, and among whom are Assaied Dewlet, the Shah's maternal uncle, and Zullus-Soultan, who resigned several months after the death of Fetti Ali Shah, under the name of Ali Shah, will probably make some attempt on the Southern Provinces, where they have numerous partizans. These two last princes are at this time at Kerbella, living upon a pension granted them by the Ottoman Government. It is said that the communications between Tauris and Teheran are already intercepted."

INDIA.

From the London Times of Friday Oct. 27.

We have received by express from Marseilles our advices from India in anticipation of the overland mail of the 15th of September. The dates thus received are—from Calcutta to the 6th, Madras to the 9th, and Bombay to the 15th of September.

The present advices are still without decisive news from Moultan. They give accounts, however, of the arrival and junction of the Lahore and Ferozepore forces on a general encamping ground in the vicinity of the citadel, having thus reached Moultan some six weeks earlier than was originally proposed. The troops were all in good health. The final blow stood suspended until the arrival of the siege train, expected to get up about the 6th of September, when the guns would be put immediately in position.

The Dewan is said to have had around him about 5,000 infantry and 1,200 horse. It is also affirmed that he had cast many cannon, and put his fortress generally in an excellent state of defence. He is said to boast of having the bravest of the Sikh soldiers under his standard.

CAPE OF GOOD HOPE.
Defeat of the Boers.

The following particulars are given in a Government notice: On the 26th August, Sir Harry Smith, at the head of his troops, found the rebel Boers posted in a very strong position at Boem Plaats, on the Kroon Elleboog River. There is here a succession of ridges of low hills, backed by a higher range, through a pass in which the road runs. On a reconnoitering party approaching the first ridge, the rebels suddenly sprung up, and opened a heavy fire; the left of their position was, however, quickly carried by the Rifle Brigade, 45th and 91st Regiments, the Artillery (six pounders, opening at the same time a very effective fire.

The rebel's right was attacked by the Cape Mounted Rifles, and driven back toward the pass, in the direction of which the enemy were now at every point hurrying, pursued from ridge to ridge of the low hills by her Majesty's troops, and suffering great loss as they retired from the guns which opened upon them wherever they could be brought to bear. It was afterward found that twelve men had been killed by the well-directed round shot. On reaching the summit of the Pass, the enemy made a bold effort to maintain their position; but by a combined attack of the Cape Mounted Rifles with a body of the Griqua Auxiliaries, they were driven from this their last position, and fled in the utmost disorder. His Excellency continued the pursuit for several hours, and until it was dark. Evidence was everywhere afforded of the precipitate retreat of the rebels, a number of horses, having been left on the road; 40 of the enemy were counted dead upon the field. Their wounded may be considered upward of 150. Owing to the nature of the ground, which afforded great advantage to the rebels, the loss on the side of her Majesty's troops is rather heavy.

Liverpool Markets.

Correspondence of The Tribune.

Per America.] LIVERPOOL, October 27, 1848.

Since the departure of the last Steamer there has been rather more doing in Cotton, but with a downward tendency in prices. To-day the sales reach 7,000 bales, arising in a great measure from the large attendance of buyers collected by the sale, at public auction, of 2,000 Uplands, under an order from the Court of Chancery. The quality proved from Middling to Fully Fair, and sold at 3¾ to 4¼d, being the price of ¼d per lb. on the prices of last week. Some little rather better inquiry for the lower qualities, and slight quotations for the finest, below Fair, which are still lower, remain unchanged. Fair Orleans are placed at 4¾, Middling 3¾; fair Uplands and Mobiles 4¼, Middling 3¾d per lb. The sales of the week are 28,860 bales, of which 2,000 exporters have taken. 450 bales of American, and 1,000 bales more 24¾ to 24¾ in Bond, 1,000 Alabama and Mobile, at 3¾, 3¾d; 3,000 Uplands, at 3¾ a 4¼; and 210 Texas, at 3¾ a 4¼d per lb. The stock of Cotton in this port is 530,000 bales against 424,000 that of American is 274,000, against 211,000 at the period of last year. The large arrival of Wheat has had a depressing effect on the market. Western Canal Flour is quoted 33s. Philadelphia and Baltimore, 36 a 37s per bbl; Wheat 7s 3d a 8s 6d per bush, being a decline of 1s 6d per bbl on Flour and 3d per bush on Wheat. Indian Corn continues to decline, and is 3d per quarter and 1s per bbl lower than last week. The duty on Wheat has advanced to 8s per quarter, and on Flour to 2s per bbl.

Nothing doing in Turpentine—prices nominally 28s 6d per cwt.

Yours respectfully, BROWN, SHIPLEY & CO.

In addition to the import of American Wheat, noted on other side, we have 16,000 quarters from European ports within the week, along with considerable supplies of other grain.

The arrivals are decreasing, and the Duty on Wheat has advanced to 8s, with 3s on Flour.

LARD—Holders have given way, and, at a decline of 4s per cwt, a few sales have been effected, but the market remains inactive.

LINSEED CAKE meets less enquiry, and English makers have reduced their price 5s per ton.

CITY ITEMS.

THURSDAY, November 9, 1848.

CHILD DROWNED.—The body of a boy about 2 years of age was found floating in the slip at the foot of Grand-st. yesterday morning, and was taken to the Thirteenth Ward Station-House. Some time afterward he was recognized as the child of persons living at No. 471 Cherry-st. An inquest will be held on the body this day.

SICKNESS.—On Wednesday night at 10 o'clock, a woman named Eliza Stevens was found at the corner of Orange and Cross-sts. in a dying condition. She was immediately conveyed to the Sixth Ward Station-House, and thence sent to the City Hospital.

FURIOUS DRIVING.—Richard Finlay was arrested on Wednesday on a charge of furiously driving through one of the streets of the Third Ward and severely injuring a young man named James Duzan, by running over him. Held to bail in the sum of $300.

INQUEST.—Coroner Walters held an inquest on Thursday morning on the body of the child found a few nights since in a sink at the rear of house No. 147 Leonard-st. supposed to have been thrown there by its mother. Ann Grafton. From the evidence adduced, it appears that Ann Grafton went to the above house to work about six weeks ago, and was at that time pregnant. After her delivery she was visited by Dr. Whitaker, to whom she at first denied that fact, but afterward acknowledged that she had given birth to a dead infant. The child had evidently been born alive, and the Jury returned a verdict that it came to its death by the want of proper treatment at the time of its birth.

POLICE COURT.—Carson Brennan was arrested for illegally voting in the Eighth Ward; Frederick Gilmore for voting twice at the election in the Second Ward....A woman named Mary Sweetman was taken into custody last night on suspicion of stealing a horse and cart, the property of Robert White.

TEMPERANCE IN U. S. VESSELS.—Mr. Waters G. Haines, a zealous seaman, has been for several days past engaged in procuring signatures to petitions, asking Congress to prohibit the use of intoxicating liquors, for other than medicinal purposes, in vessels in the United States service. He has already obtained a large number among whom are many of the first merchants and public men of the city. Mr. Haines has seen so much evil resulting from the use of these liquors on shipboard, that he has, with true philanthropy, although a poor man, resolved to devote his live time, if necessary, to this reform. In connection with this effort, he has a petition in circulation for the abolition of corporal punishment in the Navy, which we hope will also be universally signed. It is high time that this mode of torture was banished from the service.

Mr. Haines mentioned to us a fact that is full of instruction on these subjects. He said that he had no doubt that more instances of severe punishment on board United States vessels occurred from the use of liquors by the officers than from the disobedience of men. Orders for punishment often are given by the officers themselves half drunk, and unoffending men, when the officer deserved the lashes. [N. Y. Observer.

[Any contributions to assist Mr. Haines in this work will be thankfully received, if enclosed to him at *The Tribune* office. He has expended of his own hard-earned wages over $33. He starts this day for Albany where it is hoped he will meet with encouragement.]

BREAKS ON THE TELEGRAPH.—The Southern line of Telegraph still remains broken near Fayetteville, preventing the receipt of returns from the Southern States. The Western line of wire was cut in several places near Bedford during yesterday, evidently the work of design, probably for the purpose of allowing bets to be made. [Phila. N. American.

NO MORE GOVERNMENT LOANS WANTED.—In reply to an intimation in one of the papers of this city, that Uncle Sam would soon be again in the market as a borrower, the *Washington Union* says:

"The idea of Mr. Walker desiring a new loan in time of peace, and when nearly one-half the loan of 1846 is yet to be received, and especially when the act reducing duties for the first quarter of the fiscal year (as published officially) exceeds nine millions of dollars, being at the rate of upward of thirty six millions of dollars a year from customs alone, would seem to be most preposterous. Even Daniel Webster, in his speech recently published, admits that Mr. Walker's estimate of the revenue of this year will be realized. There is but one event in which a loan may be anticipated. A loan in one contingency might possibly be wanted—namely, by restoring the anti-revenue *Tariff* of 1842, which, as shown by the records of the Treasury, produced six millions of dollars less per annum than the Tariff of 1846."
