NEW-YORK TRIBUNE.

SONG.

THANK HEAVEN, I'M STILL A BOY.

THEY smile at me—they laughing say,
"When will you be a man?
The parting year leaves you the boy
You were when it began."
And I, in love with the disgrace,
Their smiles and jests enjoy,
And thank kind Heaven that, old in years,
In heart I'm still a boy!

What is it, this they 'd have me win—
This gain from which I start?
A keener calculating head—
Ah, loss, a colder heart!
Well manhood's sense, or boyhood's warmth,
But one, if I enjoy—
Leave, leave the heart and keep the head,
I still will be a boy. W. C. BENNETT.

CITY ITEMS.

FRIDAY, December 15.

BOARD OF HEALTH.

QUARANTINE, STATEN ISLAND, Dec. 15, 1848.

HIS HONOR THE MAYOR: Since my report of yesterday six cases of Cholera and three deaths have occurred at the Marine Hospital, all of them passengers in the ship New-York. Respectfully, ALEX. B. WHITING, Health Officer.

[We understand that the sick and well passengers from the New-York have all been, thus far, kept in the temporary Hospital at Quarantine, the late Public Store, there being no other place to put them. A hulk has now been sent down, however, to which to remove the well passengers.]

THE NEW MUSICAL HALL.

—— PLACE, "Above Bleecker."

MESSRS. EDITORS: Pardon the intrusion of one of my sex into your editorial presence. I should not presume to come, did not you "lords of creation" neglect a positive duty. I am a passionate lover of music. I enjoy it with singular zest, especially when furnished by such accomplished artists as Strakosch, Herz and Clung!.

Long have the ladies of our City been sighing for a fitting place for concerts, unlike the Tabernacle, which is so unsightly, so cheerless, and so incapable of awarding to delicate sounds their true spirit and intonation.

Well, a new Hall, expressly for music, has been erected and opened on Broadway, at the Costar Mansion. In size, beauty and adaptation to personal comfort and artistic execution, it is all that could be desired, excepting the damp walls and green plaster at present, which have made scores of invalids already. But this is not the evil, great as it is, concerning which I would plead with you. It is the want of *ventilation*—a deplorable oversight in owner and architect, concerning this essential feature in a public assembly room, if personal comfort and health are ever to be regarded.

I have attended three Concerts in the new room in December, and at the atmosphere was close, heated and poisonous, almost beyond endurance. Pray call public attention to this most culpable defect, for if this is the condition of things now, what will it it be in midsummer? While fascinated by sweet sounds, lulled into security by delicious music, do not let us continue to inhale slow poison, when there is a glorious sky full of pure atmosphere above us. Yours, ELIZABETH.

[If our fair correspondent does not prevail upon the sensibilities of the persons who have it in their power remedy so important a defect, they do not deserve that their Hall should be graced by her presence, and that of kindred lovers of music. An ample and unobstructed ventilation should be the first consideration in building a hall for public assemblies, and we are surprised that it should have been neglected in one otherwise so admirably constructed as that of the Costar Mansion.]

THE CITY HALL BELL.—The Fire Alarm Bell upon the City Hall cracked while ringing for the Fifth District last evening, much to the joy of all Firemen and others, who depend upon its sonorous tones to snatch them from the arms of Morpheus. The present Bell has proved a total failure; its diminutive size and weak lungs have long since condemned it. Petition after petition was presented months ago to the Common Council for its immediate removal, but in vain. Circumstances certainly have favored the petitions, and we hope, in common with the whole Fire Department, that a tocsin will now be placed in the tower of the City Hall worthy of the City and her brave defenders against the ravages of the fiery element.

HIBERNIA BENEVOLENT BURIAL SOCIETY.—The ninth annual Ball of this large and truly benevolent Society will take place at Castle Garden on Monday evening next. We understand that PATRICK KELLY, who has for a long time filled the honorable situation of President of the Society, has resigned that post, and that John McNicol has been elected with great unanimity. The Ball will be one of the best entertainments of the season.

☞ The inhabitants of the Seventeenth Ward were thrown into consternation yesterday, by the fact of Sixth st. between Second avenue and Avenue A, being invaded by sweepers. We are informed by an old settler that during the year 1848, the street has not seen a corporation cart. In that part of the City the prevailing sentiment is, "Peace to their ashes."

JARDIN D'HIVER IN THE PARK.—Our notable City Fathers have at length hit upon a splendid project for adorning and beautifying the City-Hall Park, which cannot fail of meeting universal approbation. Immense quantities of street manure have been carefully spread over the grass in the Park, and we expect in a few weeks to see a splendid crop of roses, geraniums, pinks and daffy-down dillies covering that beautiful promenade and shedding a delicious perfume through its romantic walks. Beautiful idea! Wise City Fathers! We expect in a few weeks to see Broadway and the Bowery luxuriating in a fine crop of potatoes.

P.S.—We are informed by an experienced horticulturist that, on account of the convenience of the Park as a dumping ground, about four times the necessary quantity of manure has been deposited there, and that it won't take the flowers and things more than a couple of years to grow through it.

FATAL ACCIDENT.—A man employed in the Phœnix Iron Foundry, 268 West st. whose name was not learned, was killed this morning in that establishment, by some iron accidentally falling upon him.

FIRE.—A fire broke out last evening in the third story of premises 30 Old-slip, occupied by Thos. Wilde. It was extinguished, however, before any material damage was done.

Mr. Editor: REWARD OFFERED AND GREAT MANY QUESTIONS ASKED.—Has any person the remotest idea what has become of the street cleaners, contractors, &c. who were engaged in cleaning out the sewer situated on the corner of Front and Whitehall sts. on Tuesday last? About four cart-loads of filth and dirt were taken out of the sewer and dumped into the street, where it has remained ever since. This is not the first time that this nuisance has been overlooked by the residents of that neighborhood. Invariably the dirt is left in the street until the rain washes it back to its former resting-place. EYE WITNESS.

BROOKLYN AFFAIRS.

☞ The Grand Jury, after presenting a number of bills of indictment yesterday, were discharged for the term.

JUVENILE ROWDIES.—A gang of young rowdies, about 20 in number, and varying from 14 to 18 years old, nightly congregate at the junction of Washington and Fulton sts. and Myrtle-av. and insult every female that passes by them. Cannot the police abate the nuisance?

LIBEL.—The Grand Jury, it is said, have found a bill of indictment against Justice Pierce for procuring the insertion of an article in the *Long Island Star*, reflecting upon the character of Justices Atwater and Dikeman.

CALIFORNIA.—The *Hartford Evening Whig* says: "A California expedition is really on foot in this city. Some of our most industrious and estimable young men are engaged in it. The plan is, we learn, for the party to contribute $2,000 each, for chartering a vessel, to be gone on a trip of two-and-a half years—The vessel is to be sent around Cape Horn, while the party cross the country. From the names mentioned to us, we draw assurance that Hartford will be heard from in future, by advices from California. In fact, one of our old citizens, Don Walter Colton, Alcalde of Monterey, is one of the pioneers of the American settlement of California already."

THE SPRINGFIELD MURDER.—Nothing has yet transpired to throw any light upon the mystery which enshrouds the circumstances of Clark's death. The reward of $200 offered by the Selectmen (the maximum allowed by statute) for the apprehension of the guilty parties in this case, has been increased to $700 by a subscription among those in the employ of the Western Railroad there. Mr. Gilmore, the President, headed the paper with $100 in behalf of the Company, and the remaining $400 was made up by the agents, clerks, conductors, mechanics, and laborers generally, in subscriptions of $5 and upward.

[North Adams (Mass.) Transcript.

☞ We notice that Mr. Greeley has given notice of his intention to introduce in Congress a bill "to discourage speculation in the public land, and to secure homes thereon to actual settlers and cultivators." We think the objects specified are commendable, and we hope to see a bill passed by Congress to give a reasonable quantity of the public lands to any individual who will become an actual *bona fide* settler thereon. It is important to our country to have our public lands occupied and brought into a state of cultivation and production; and the comparatively small amount of revenue which would thereby be lost to the Treasury is of little consequence compared to this object. [N. H. Patriot.

☞ A man calling himself Richard Dillingham was arrested in Nashville, Tennessee, the other day, on charge of stealing five slaves who were found in his possession. He promised the slaves that he would take them to Canada, but it was believed that his design was to have sold them.

☞ Three barns, the property of Messrs. H. Ely, D. Hoff, and T. Carr, of Lambertville, N. J., were destroyed by fire on Thursday evening of last week. Supposed to have been the work of incendiaries.

Law Courts.

COURT OF COMMON PLEAS—Before Judge Daly.—*Horace Dresser vs. William Traylor.*—Action to recover of Mr. T. and wife, formerly slaves, but manumitted, a large sum, for alleged professional services as to the will of the late Mr. Baldwin, of Louisiana, which devised to Mrs. T., with the exception of a bequest to Mr. A. Harrington, one of the executors, the whole of his estate, she, as an illegitimate daughter, although formerly a slave to his father, and by inheritance to himself, having the same blood flowing in her veins that he had. Referred to yesterday.

This case was continued—The principal testimony was that of Mr. Harrington and Mr. Dresser. The latter stated that he received a letter from New Orleans, asking him to call on Mr. Dresser, relative to a will left in his hands by the late Mr. Baldwin. Knew that the heirs at law (his cousins) would probably contest the will, but think when I called, I did not tell Mr. Dresser so; I had been requested by the writer of the letter, if I thought the executor named in the will, to see if it was right from Mrs. D. I forwarded the will to Mr. Pearce, a lawyer of New Orleans, at Mr. J.'s request, leaving a receipt for the will and copy with Mr. Dresser; when I first called Mr. Dresser had an impression that he had such a will, but could not lay his hands upon it; I called more than once, and he finally gave it to me; think I had not seen the Taylors before then, but might have done so; have since received money from New-Orleans on their account, about $2,000, which was paid them; Mr. Dresser probably knew there would be a contest on the part of the heirs; Mr. Baldwin, when here, was in delicate health; Mr. *Richard M. Harrington* sworn.—Is an attorney and counsellor at law. [The witness was sworn as to interest in the suit, and he stated that he had none whatever.] Was admitted to the bar in 1843; in 1844 was in Mr. Dresser's office as a salary, subsequently removed to an office in Nassau-st.; received the documents in this case as attorney in behalf of the Taylors, but with the understanding with Messrs. Seaman, Wood & Dana, the attorneys of Mr. Dresser, that I should do no more, or be considered counsel in their behalf; my principal motive was I did not wish to be a party to a bitter feeling between the parties; I refused, to Mr. Dresser; there was a final arrangement, in which a sum was included for my services, made with Mr. Jonning, a lawyer of New-Orleans, by which Mr. and Mrs. Taylor parted, with all their right, title and interest to the estate to the five cousins of Mr. B., the Taylors receiving a certain sum of money, which I understand was in Europe, as their $2,000 was paid to them in cash, and $16,000 to be paid in 8 years, with interest at 4 per cent, and $2,000 at the latter rate, so interest to be paid yearly, the sum, as to them, for professional services for them for past and future, was $2,000 and $1,000 to principal; the balance of the assets to Mr. Baldwin; Mr. and Mrs. T. were entitled to the almost $400 for advances for expenses of maintenance, &c. when they received the $2,000 in lieu of the will being sent by Mr. Dresser and Mr. Delafield, who took it to the Post Office and handed it to Mr. Morris; it was sent by direction to Mr. Pearce, at N. O. Mrs. Taylor was opposed to the will being sent; I told Mr. Carter, when he first came to here, did not call upon me; I first saw him at Dresser's office; Mr. D. came down and invited me up; I was counsel for Mr. and Mrs. Taylor; I did not keep with Mr. Dresser then; Mr. D. said there was a man come from New-Orleans about the will; I said I was glad to hear it; I had had a long conversation with him and he believed he had now met a man who would be of great service to us; I went to Mr. Dresser's office and met Mr. Carter there; he was a lawyer of New-Orleans and a brother in law of Mr. Pearce. [The testimony as to the negotiation with Carter was here objected to by Mr. Sandford; the objection was overruled for by Mr. Clark for defence. He read a partial agreement that had been drawn up ready for execution by which Mrs. Taylor was to agree to pay, in cash, one-half of all that was obtained for her from the estate, to Messrs. Carter, Pearce, Dresser, and Harrington, who were represented in the case, also pay a fee of $500 in case of Mr. Carter to settle the estate, also to agree not to settle with or employ others; a majority of three out of the four above named were fully to settle everything in relation to the estate. Mr. Sandford stated that Mr. Pearce was of undoubted reputation. The testimony was then ruled out as irrelevant to the issue with Mr. Carter, &c. was allowed.]

Witness resumed.—Mr. Carter was an attorney in New Orleans, and when Mr. Dresser first introduced him to me I recognized him as a man I had seen there; [Mr. Harrington passed the Winter in N. O. on the invitation of Mr. Baldwin, and who had frequent interviews with the latter in conversation; after the interview ended, I went to my own office, and met Mr. Dresser afterward at his new house. I boarding at the time with him; Mr. D. asked me what I thought of Mr. Carter; I told him I did not like the character of the man; he asked me why? I told him I had from what I had seen of the Orleans; I was sensible he bore a bad reputation, and as one instance, he was a defaulter to the United States Government, I think for one hundred thousand dollars, and spoke of his insolvency and his general character; his reply was, that I might not to my disadvantage, be seen in company with Mr. Carter; Mr. Carter was to be influential and active man, and capable of doing, in a case like this, a great deal of good; we had a long conversation; I told him if he would wait a few days, some gentlemen that I knew were coming on, Judge Moreau and others, and would tell us to form, I feel he was decided in favor of Mr. Carter; and I was decided against him; I put my objections to treating with him on the ground that he was in no respectable man, and that his standing was not good, and I thought not a respectable man; and I did not wish to associate myself with him, and I did not think Mr. Dresser would; I thought the Taylors would better be very cautious in negotiating with Mr. Carter; I do not recollect any distinct reason why it ought to be done, and Mr. Carter had told us if he was not employed and had an interest in the case, that he would be employed by the heirs at law, and would do so if he did not get a fee; I recollect that Mr. Dresser said to me, that Mr. Taylors had not seen Mr. Carter then; this was after the will had been sent, but before it got there; subsequently, the paper was drawn up which has been spoken of, giving one-half of the proceeds to Mr. Carter, &c. [Objected to; I believe that death was made by Mr. Carter, and was copied in Mr. D.'s office; the endorsement of the word 'draft' in the copy here is in Mr. Dresser's handwriting; my name was left blank at first, till my assent was obtained; I never authorized the insertion of my name; the agreement was never executed; the proposed agreement never was carried out, owing to my objection; I stated, as one of my objections, that there were debts for $70,000 owing by the estate—that the creditors resided in New-Orleans and Louisiana; they were in mortgages and judgments, and would be closed at once—and Mr. Jenning, one of the Executors of the will, was the person upon whom they had influence with the creditors; that, by entering into that agreement, the estate would be thrown into the hands of Pearce and Carter, when the creditors would become dissatisfied, and would upon mature consideration, not be made; and that forcing a settlement immediately, at that season of the year, they would sacrifice almost the whole of the estate; other reasons were that a majority of the persons mentioned in the agreement would control it; I knew that Pearce and Carter would act together, and that Pearce was much more influential than Mr. Dresser; I stated, as another reason, that I knew nothing of Mr. Pearce at all, as to his responsibility or standing, and I did not think that either he, or Mr. Dresser, or myself, standing in the legal position we did, were, or thought by us, competent to negotiate with another person; another reason was that, standing in the position which I did with the Taylors, I would not contract or bargain with them against their interest; that my duty was to protect their interest, and not to create one of my own; Mr. Carter said he would show us to the good faith of the Pearce, &c. [Objected to by Mr. Sandford, as the agreement, the here at law and creditors would come to an issue, to the injury of the estate.

Mr. Clark then wished to show by a charge made by Mr. Dresser against the estate of Mr. Baldwin, of $2,500, which Mr. C. and Carter had accompanied till after Mr. B.'s death, and which he gave Mr. Carter to collect when he got to New-Orleans; that Mr. D. had an adverse interest to the Taylors to this amount, as well as other points, instead of being their counsel and making so large a claim as he did; that Mr. Baldwin had left a large sum of money in Mr. Dresser's hands, which he had not accounted for. Mr. Harrington stated that he knew Mr. Dresser expected some little remuneration for some professional business he, Mr. H. did, but it was not much; was present when Mr. Dresser and Mr. Carter made up together Mr. D.'s account for $2,5 0 against the estate. Mr. C. said he would do it for $500; was present when Mr. Dresser spoke to Mr. H. about it; it was too much, remarked that he would charge enough and get all he could. The account has been presented by Mr. Carter. Objection was made as to showing the nature of the account, and the Court adjourned till this morning.

Before Judge Ulshoeffer—*Wm. C. H. Waddel vs. Eli Hoppes.*—Messrs. Wadsworth & Smith, in their schedule in bankruptcy, alleged that $200 were due them on breach of warranty as to several hats, shoulders bought of Mr. H. and sent to Charleston by them six years ago. The claim was bought by George Burnham for about $7, who then to recover about $200 from the debtor. The hats, on being opened at Charleston they were found not to be good, returned, and Mr. H. refused to receive them back.—No proof of warranty was shown.—Verdict for defendant.—For plff. Mr. Woodruff; for deft. Gen. Sandford.

COURT OF GENERAL SESSIONS.—Catharine Ryan was called to trial at the opening of Court yesterday on a charge of stealing bits in gold from Francis Hanlon, at a house of ill-fame in Orange-st. The evidence adduced on the part of the prosecution failed to establish the charge against the prisoner, and the Jury acquitted her. Ann Maria Hall was next placed upon his trial on a charge of stealing a gold watch and two gold chains and $50 in money from Philip Newsham. The Jury in this case also rendered a verdict of not guilty.....Stephen Anderson and Henry Williams, colored boys, were next placed at the bar on a charge of having broken into the store of Stephen Cox, 135 Water-st and stolen therefrom 48 copper boilers. The accused were found guilty, and each sentenced to 2 years and 3 months imprisonment in the State Prison.....Office Kenny, of the Ward Police, while at the corner of Hudson and North Moore sts. yesterday afternoon found a fellow calling himself John Thompson alias Cassel secreted in his house, evidently with the intention of committing a robbery. The rogue fled, but after a short race was secured and locked up.

POLICE COURT.—Capt. Wiley of the First Ward, and officer Relyea of the Independent Police, last evening arrested Mehuston Bliss, of 74 Front-street, on a warrant issued by Justice McGrath, on a charge of being concerned with Adam Smith in obtaining goods under false pretences.....A young man calling himself Abraham Moline was taken into custody last evening on a charge of stealing a valise containing a trunk and carpet bag on board the steamboat Hudson, and stealing clothing and money of the value of $20, the property of Wm. H. Perry and another passenger.....John Snell was brought up and held to answer a charge of stealing a horse and cart valued at $75.....Officer Dowling, of the Independent Police, arrested John Johnson on a charge of passing a spurious $5 bill to Francis Collins of No. 40 Cherry-street.....As officer Finney was taking his round last evening in the Second Ward, he discovered three suspicious-looking fellows, who afterward gave him the slip. Suspicions of their design, Officer Finney followed and James Doral, prowling about, whom he soon detected in the act of helping themselves to a piece of cloth valued at $70, from the door of Mount & Gaskey's store, No. 42 Maiden-Lane. Officer Finney succeeded in secuting the trio, and Justice McGrath committed them to prison for trial.....A man who gave his name as Andrew Michael was taken into custody last evening on a charge of stealing a gold watch, key, a fancy box containing several articles of value, the property of Mr. Law; also some articles of apparel belonging to Mr. B. F. Easton, boarding at No. 1 Brooklyn-street, where the accused has been employed for a short time as a waiter.

BROOKLYN.

POLICE COURT.—Officer White yesterday arrested two men, Christian Doe, senior, and Christian Doe, junior, father and son, on a charge of burglary, in having broken into a house at the corner of Pearl and Nassau-st. and stolen therefrom a watch and other articles valued at $25, the property of George Smith. The accused were held for examination.....A fellow who gave his name as John Dillon was detected, yesterday, in the act of prying copper off the bottom of one of the Navy Yard boats. On observing that he was discovered, he dropped the instrument that he was using to pry off the copper and took to his heels; officer McKenzie started in pursuit of Mr. Dillon, after a sharply contested race for some distance, succeeded in capturing the thief, who was locked up for examination.....A young man, whose name was not learned, while in a state of intoxication, entered the parlor of a house located near his own, in which there were a number of ladies, and proceeded to make use of the most indecent language. Justice Burton fined him $5, which he paid and was discharged.

MARINE JOURNAL.

PORT OF NEW-YORK, DECEMBER 15.

ARRIVED—Packet ship Sheridan, Cornish, for Liverpool, 19th Nov with mdse to Spofford, Tileston & Co. 208 passengers. On 9th inst. in lat 40 40, lon 64 40, saw a steamship steering East.

Ship Liverpool, Weeks, fm Rotterdam, 38 ds, mdse and passengers to E D Morgan & Co.

Brig Emma Frances, Barton, Cuba, Ms, 10 ds, lumber.

GENERAL NOTICES.

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES,

☞ And Magnetic Fluid, for the removal and permanent cure of all nervous diseases, arising from an impaired, weakened or unhealthy state of the nervous or vital system. The astonishing and unprecedented results which have been achieved by this new and wonderful discovery of the mysterious powers of Galvanism and Magnetism, has induced the proprietor to extend the knowledge of its virtues, that the thousands who are now suffering beyond the reach of relief, may become partakers of its acknowledged benefits and be restored to the enjoyment of health and happiness.

DR. CHRISTIE'S GALVANIC BELT

has been pronounced by many distinguished physicians both in Europe and the United States, to be the most valuable medical discovery of the age. It is a beautiful instance of Art aiding Science to produce the highest beneficial results, and it is believed that few inventions have ever been so perfected and so entirely successful in their results. It is used with perfect and certain success in all cases of General Debility from whatever cause it may arise, strengthening the weakened system, and invigorating the body. Fits, Cramp, Rheumatism, Spinal Disease, Epilepsy, Lumbago, Paralysis, Palsy, Indigestion, Dyspepsia, Tremors, Stiffness of Joints, Palpitation of the Heart, Apoplexy, Neuralgia, Pains in the Chest and Side, Liver Complaint, Diseases of the Kidneys, Spinal Complaint, and Curvature of the Spine, Hip Complaint, Spasms, and all

NERVOUS DISEASES

arise from one simple cause—a Derangement of the Nervous system. No drug has, or can have any effect on them except to increase the disease, for drugs but weaken the system; while under the strengthening, life-giving, vitalizing influence of Galvanism, health succeeds disease, and the patient is restored to bloom and vigor solely by the outward application of DR. CHRISTIE'S Galvanic Belt. The peculiarity and great beauty of CHRISTIE'S Galvanic and Magnetic curatives consist in the fact that they cure disease by outward application, instead of the Demon menace of drugs! Disease is driven out by the patient till exhausted Nature sinks under the infliction. They strengthen the whole system, a power possessed by no other remedial agent except Galvanism—Since their introduction into the United States, more than 30,000 persons, including children, and ladies of all classes, have been the recipients of their benefits. To illustrate its use—suppose the case of a person afflicted with that bane of civilization—Dyspepsia. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the Galvanic Belt—Take a dyspeptic sufferer, even in the worse symptoms of an attack and simply tie the belt around the body, using the magnetic fluid as directed. In a short period the warmth of perspiration will act on the positive element of the belt, thereby causing a Galvanic circulation which will pass to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of Dyspepsia are permanently cured. A few days is often amply sufficient to eradicate the disease of years.

Certificates and testimonials, from the most respectable sources, regarding the wonderful cures and efficacy of Dr. Christie's Galvanic Belt, could be given sufficient to fill every column in this paper.

During the past three years these remarkable curatives have never failed, when used according to the full and plain directions which accompany them. It is absolutely impossible that they can do the slightest injury.

No inconvenience to the interests or attends their use, and they may be worn by the most delicate with the most perfect ease and safety. In fact, the sensation attending their use is highly pleasurable.

PRICES.—The Galvanic Belt, $5 each; The Galvanic Necklace, $2 each; the Galvanic Bracelets, $2 a pair; the Magnetic Fluid, $1 a bottle.

CAUTION.—Beware of spurious imitations.

CAUTION—Genuine Instruments are always signed in ink, AMOS G. BULL. [eoly 17

THE BEST AND CHEAPEST TRUSS IN THE WORLD.—No one who has worn HART'S IMPROVED TRUSS would ever wear any other kind as a gift, and no person who ever saw one of them will ever buy any other description. No other Truss possesses in itself the property that this does, of healing the rupture, while it is not to be equaled for ease and durability. In the language of one of our best physicians and surgeons, "It is just the thing that was wanted." For sale, at wholesale and retail, at 49 Fulton-st. N Y. d4 1m*

THE LEVER METALLIC TRUSS AND SUPPORTER, which was awarded the highest premium at the late Fair of the American Institute and received the sanction of the Medical Faculty, as well as of hundreds who have experienced its benefits, is an article entirely novel in its construction and mode of application, giving the requisite support without the painful pressure caused by the ordinary spring truss, and is now acknowledged to be the best article known for Hernia, Prolapsus, Spinal or Abdominal Weakness in either sex. Office 170 Broadway, cor. Maiden-lane, room No. 24. d2 ow1f

THE LARGEST ASSORTMENT of Bedsteads, Beds, Mattresses, and Feathers ever offered for sale, at M. WILLARD'S Warerooms, 196 Chatham-st. cor. Mulberry. The attention of house-keepers and others is particularly called to Willard's Patent Right-and-Left Screw Bedstead, which drew the premium at the late Fair of the American Institute. Old beds renovated. Cots wholesale and retail. n28 3m*
