NEW-YORK TRIBUNE.

Horrid Murder at Sandy Hill, Md.

It has never before been our duty to publish so awful an event as occurred at Sandy Hill, in this County, on Friday morning last, the 23d inst. James Biard Bishop, a young man of high standing in society, and of the most respectable family connexions, was shot down by Rev. Thomas J. Burrows, a minister of the Methodist Episcopal Church, stationed at Chestertown, in this State. The circumstances, it seems, are as follows: Burrows, some time during the past year, married at Sandy Hill, a highly respectable lady, of considerable property, named Holland; but this match was strongly opposed by many of the friends and relatives of the lady. Among the number who took a part in this opposition, as Burrows supposed, was the unfortunate victim—young Bishop. Subsequent to his appointment to the Chestertown circuit, and shortly after he took charge of the same, he wrote a lengthy and abusive article to be published as an advertisement in this paper, (and desired the usual charge should be made for it,) respecting Dr. George W. Bishop, brother to the deceased, at Sandy Hill. In this article he cast some grossly immodest and slanderous reflections upon the character of the young man whom he slew.— The communication referred to, we refused to publish, not only because we knew the statements and innuendoes to be untrue and malicious, which was of itself a sufficient cause for its rejection, but because of his desiring the authorship to be kept secret, unless it was demanded to be known by the parties attacked. The uncle of the young man, George W. Bishop, of this place, hearing of the existence of such a letter, called upon us for it, and without hesitation we surrendered it to him; and upon deceased's desiring to see it, we learn it was shown to him. These seem to be the remote causes of an unpleasant feeling between Burrows and Young Bishop—the immediate one, it appears, was a demand on the part of Bishop for money owing him by Burrows, when, as Burrows alleges, but of which there is no proof, Bishop, in calling upon him on the morning of Friday, said, "unless you pay me I will pay you, and raised his left hand, as if to strike, when Burrows drew from his breast pocket one of Colt's six barrel revolvers, and fired the contents of one barrel at him, the ball taking effect in the left breast. He fell at once to the earth and was a corpse in five minutes, even before he could be borne to a house close at hand. The only witness who saw and heard a part of the difficulty states that both of young Bishop's hands were in his pockets when the pistol was fired. He fell with his left hand under his head, and his right one in his over-coat pocket. He was an enterprising young farmer, of about 25 years of age, and universally esteemed for his correct deportment, and admired for his peaceable quiet disposition. Burrows has been in the ministry about four years. He is about 26 years of age, and of rather prepossessing appearance. His education, however, is very limited, and he possesses but a moderate share of talent. He is a native of Cambridge, in Dorchester County, and, while a lad, sustained a good reputation for piety and industry; but since his arrival at age, and elevation to the ministry, his general character has not been without blemish. After he had committed the deed, he quietly and coolly walked over to a farm near the village, owned by his wife, and after attending to some business there, returned to the house of Captain J. M Holland, where he was stopping, and where was shortly after arrested, without resistance, and brought to Snow Hill. During the whole day he was perfectly composed, ate heartily, and his manner had rather the air of the bravado about it, since, we learn, he has seemed penitent. He was committed to jail on the oath of Mr. Selby, to whom, among others, he had made a confession of the deed, and will be tried at the May term of our Court, unless he claims a change of venue; in which event, it is probable his case will be carried to Dorchester County. We understand he has employed Hon. James A. Pearce, of Kent County, as his leading counsel to defend him.

☞ A tremendous hail storm happened in Abbeville District, S. C. on the 17th inst. The stones were bigger than musket balls. A tornado occurred in the same region on the 19th. The *Abbeville Banner* says: "Col. John C. Martin has suffered a severe loss by it. His mill, dwelling, and all his out houses were blown down, a carriage crushed to pieces, and a fine piano and other furniture. Fortunately there was no loss of life, and the escape is miraculous; his miller, we learn, was the only person injured, and he is so badly bruised, several of his limbs being broken, that it is thought he will not recover. We have heard of several other houses being blown down, but no loss of life. Much damage has been done to fencing and timber. Wherever the tornado passed, its foot-prints may be traced by fallen houses, scattered fences and prostrate trees. It was really an awful storm, and we may yet hear of loss of life from it."

FIRES.—The house of William J. Griffin, in Oliver-st. Newburyport, (Me) was burned on Thursday last. Insured for about $700.....At Montreal, on Sunday, the premises of Messrs Mead & Co. hatters and furriers, 99 Notre Dame-st. were destroyed by fire—supposed to have caught from an escape of gas. Insured for $3,000.

THE SEASON IN WISCONSIN.—The weather is daily becoming milder and more Summerlike. The vast body of snow has gradually melted with far less damage than was apprehended. The frost is generally out of the ground. [Milwaukee, 20th.

FIRE AT YPSILANTI.—The row of wooden buildings adjoining Larzeller's brick block, were entirely destroyed by fire on the 23d, occupied as two groceries, cabinet shop, meat market, milliner shop and dwellings. Loss nearly $2,000.

STEAMER WRECK.—The *Boston Journal*, of Friday, says: A letter received in this city this forenoon from Hull, states that yesterday morning a trunk was picked up off Nantasket Beach, containing 40 lbs. of the same fragments of paper were found the names, Capt Asa Richardson, Seig Hanson, and William Richardson. Yesterday afternoon, a smaller trunk was picked up, leather covered, brass nailed and marked with the initials M H P, on the top, containing some clothing and a small quantity of paper, which appeared to be in a sailor's work box. About two thousand pockets for fencing were found strewed along the beach, and very small fragments of spars and pieces of wreck, apparently parts of an eastern built craft. The letter adds: "The storm has passed away, and the sea is still tumultuous sea, but the vessels on the Roads are affording it not easily.

ST. THOMAS'S HALL, Flushing, Long Island.—This elegant establishment, erected a few years since by Dr. Hawks, is now in successful operation as a seminary for young ladies, under the care of Rev. WILLIAM H. GILDER, A.M. formerly Principal of the Bellevue Female Seminary at Bordentown, New-Jersey, who is assisted in the government and instruction by a number of highly competent teachers. The location combines advantages of health and beauty seldom met with, and nowhere surpassed, and being but nine miles from New-York, is accessible at almost any hour of the day. The course of study embraces, in addition to the usual branches, the ancient and modern languages, drawing and painting, and instrumental music. The seminary buildings are perhaps the largest and best arranged of any in the United States, and include a handsome chapel in the Gothic style of architecture. The grounds are tastefully laid out, and ornamented with a great variety of trees and shrubbery—the whole forming one of the most beautiful and picturesque views anywhere to be found. The pupils have the advantage of both fresh and salt water baths. Circulars, containing terms, &c. may be obtained at the Branch Bookstore, 138 Nassau-st. or of the Principal, upon application by mail or otherwise. The next session will commence on the first Monday in May.

BOARDING SCHOOL

FOR YOUNG LADIES, GLEN COVE, L. I.

MISS DILLON respectfully informs her friends and the public that she will receive into her care on the 1st of April ten pupils only, for instruction in all the branches of the French (French taught by a native) and English languages, also Music. The location is on elevated ground, with which daily communication may be had by railroad and steamboat—the landing but 1 mile from the house; is not surpassed in healthiness or facility of access by any situation in the State; while the limited number of pupils insures that attention to their instruction and morals which in a large school would be impracticable. Terms will be found extremely moderate. Circulars, with references, to be had of Firth, Pond & Co. 1 Franklin-square; Clark, Austin & Co. 205 Broadway; Dr. Hunter, 108 Sixth-avenue; J. H. TARRYTOWN INSTITUTE.

A SELECT BOARDING SCHOOL FOR BOYS, at Tarrytown, N Y.—This Institution is pleasantly situated one-third of a mile north of the village, near the spot on which Maj. Andre was taken, and about half a mile from the steamboat landing and Hudson River Railroad. In this Institution young gentlemen will be thoroughly instructed in all the branches of an English and Classical education requisite for commercial pursuits or entering College. The Principal having been more than 20 years successfully engaged in his profession feels himself fully competent to give perfect satisfaction to those who may patronize the Institution, and he pledges himself that special attention shall be paid to the manners, morals and intellectual improvement of the pupils committed to his care, their number being limited to 25. There are two terms in a year, each 22 weeks. The Summer term will commence on the 1st of May, and the Winter on the 1st of November. The price of Board and Tuition, including bed, bedding, washing and mending, for the Summer term is from $75 to $80, and the Winter from $80 to $90 payable in advance. A. NEWMAN, Principal.

PORTABLE IRON HOUSES FOR CALIFORNIA.—The galvanized iron houses constructed by me for California, having met with so much approval, I am thus induced to call the attention of those going to California to an examination of them. The iron is grooved in such a manner that all parts of the house, roof and sides, glide together, and a house 20x15 can be put up in less than an hour. They are far cheaper than wood, are fire-proof, and much more comfortable than tents. A house of the above size can be shipped in two boxes, 12 feet long and 2 feet wide and 9 inches deep, the freight of which would be about $14 to San Francisco. There will also be no trouble in removing from one part of the country to another, as the house can in a few hours be taken down and put up. By calling upon the subscriber a house of the above size can be seen.

CALIFORNIA GOLD WASHERS.

THE SUBSCRIBERS beg leave to call the attention of the public to their Gold Washer, as being the simplest, most efficient and useful machine of the kind now offered for sale. It is a combination of the methods produced by the bowl and cradle, which methods have been found, by long experience, to be the most effectual in separating Gold by its specific gravity from lighter matters.

They have machines of this kind, made of light, but strong materials, constructed in such a way that they can be taken apart and packed in a very small compass.

This machine weighs only thirty pounds, and is capable of washing over 300 bushels of dirt in a day.

Those who wish a machine for washing Gold, are invited to call at the store, 94 Fulton-st. and examine for themselves; and those who think they have a better one, are invited to a public test in the Park, in front of the City Hall, any fair day they please to name.

The Patent has been secured for this country.
