NEW-YORK TRIBUNE.

MISCELLANEOUS NEWS ITEMS.

THE CINCINNATI MURDER.—Mrs. Howard was arraigned at Cincinnati on the 6th inst. for the murder of Mary Howard, alias Mary Smith, on the 2d of February. The *Chronicle* says that at about 5 o'clock Margaret Howard was led into Court by the Deputy Sheriff and conducted to a seat beside her counsel. She appeared pale, but not agitated. She wore a black silk mantle, and black dress, and muff, and was otherwise unostentatiously, but respectably attired. Her eyes were cast down till addressed by the prosecuting counsel, when she immediately looked up and rose from her seat. The prosecuting counsel (having read the indictment) said—Margaret Howard, do you choose to be tried in this Court or the Supreme Court of the State? Accused—In this Court.... Counsel—What is your plea to the indictment?.... Accused, (in a mild but firm tone of voice)—Not guilty. The defendant was then led out of Court.

☞ A shocking murder was perpetrated in Scarborough, in this County, on Saturday last. Mrs. Nancy, wife of George Plowman, was brutally murdered—having her skull beaten in and several fa wounds on her body. When discovered, she wa and rigid; and had evidently been for hours mur Plowman and his wife lived by themselves in a mi ble tenement about two miles from Weatbro k be on the Saco road. They were both confirme ates, and lived in wretchedness and strife. He Englishman, and came to this country as a sailor, marrying the deceased several years ago, and settling down in Scarborough. He is about 60 years old. They have one child, a son of 14 years or so, but he did not live at home. Plowman supported himself after a fashion by making baskets and working round; and is represented as well-disposed when sober, but devilish when in liquor. The last seen of her was on Saturday morning, when she told some one on the road she was going after some brandy for her husband, to get him drunk so that he might not kill her. Toward night the alarm of foul play arose, and the poor victim was found cold in death, with her head and body shockingly mutilated. Plowman was secured at once, and a Coroner's Jury summoned, who brought in a verdict of death by his hands. Mr. Baker, the jailer, went to the bloody spot yesterday, brought Plowman into the city and committed him to jail. He is taciturn, and divulges nothing as to the fearful circumstances, or of himself as the murderer. He must remain in jail till November before he can have his trial. Thus, almost every declining sun sets upon some new tragedy, that has its origination in the excesses which the Demon of intemperance foments and concludes. [Portland (Me.) Argus.

FRENCH IMMIGRANTS.—The arrival of 281 French Communists at Nauvoo, Illinois, is noticed in the *Quincy Whig*, where, we learn from the same source, they intend to locate permanently. They are composed mostly of mechanics and farmers, having with them their implements of husbandry and a variety of tools suited to their several trades. Their religion is similar to that of the Unitarians, and their manner of living much like the Socialists; though, unlike many of the French and English Socialists, they are scrupulously strict in the preservation of the virtue of their domestic circle. This company is headed by Monsieur Cabet, the great French politician who for forty years has been the leader of the Republican party in the House of Deputies, fire years Chief Justice of the Island of Corsica, was instrumental in the overthrow of Charles X. and Louis Philippe, and was banished by the latter from France for the term of five years. In this company are, many of Monsieur Cabet's firm friends, who have been with him in his endeavors to extricate France from kingly power, and have often been imprisoned for their advocacy of republican principles. Monsieur Cabet and company lead the way, and 30,000 follow in the wake.

COL. FREMONT.—By a private letter received yesterday by a gentleman in this city from his brother in Santa Fé, brought to Independence by one of Col. Fremont's own men, we learn that that gentleman after relieving his men from their perilous position in the mountains, returned to Santa Fé, where he equipped a new company and proceeded down the Rio Grande 150 or 200 miles, and thence to the Gila, and down that stream to its confluence with the Colorado, thence on a north-westerly course to the Pacific. [Cincinnati Globe, 7th.

LOVE AFFAIR.—A gentleman from Williamstown, Ky eloped with a young lady from that place, coming to this city to be married. The gentleman left his lady in Covington, while he came over to our city to make arrangements for the wedding. In the mean time, the father, who was in pursuit of his daughter, found her, and conducting her to his carriage, returned home. The young man returned to Covington, and found her he loved not there, and he is now almost frantic. [Cincinnati Commercial.

AUBURN PRISON.—Mr. Jesse Eggleston has been appointed keeper of the State Prison at Auburn, vice Mr. Hyde, resigned.

☞ Isaac Hardesty has been chosen Mayor of Harrisburg, Va.

Notice to Mariners.

COLONIAL SECRETARY'S OFFICE, Sydney, Oct. 20, 1848.
LIGHT-HOUSE ON CAPE OTWAY.—His Excellency the Governor directs the publication, for general information, of the subjoined memorandum respecting the Light House which has recently been erected on Cape Otway in Bass's Strait:

The Light-House on Cape Otway, Bass's Straits, lat 38 51 S, lon 143 30 E, having been completed and lighted on August 29, 1848, a light is burning, and will continue from sunset until sunrise.

The Reef off Cape Otway is to the S of a mile distant, bearing SE to SW, and extends 1½ miles westward.

The Light-House is erected on a cliff 291 feet 6 inches above high water mark; the supporting column is 45 feet high, and the lantern 7 feet high.

The Light is 291 feet above high water mark to the center of the light is 300 feet.

The light is a revolving catoptric of 3 groups of lamps, each group containing 7 lamps, the entire revolves round once in 2 min 30 seconds, showing a flash of light of 3 seconds duration and 30 seconds of darkness. It is estimated that the light will be seen 8 leagues.

HENRY GINN, Clerk of Works.
(Signed)

GLEN COVE SEMINARY.—Situated in a delightful and eminently healthy part of Long Island, 25 miles from New-York; daily city communication by steamboat and railroad; large extensive grounds; course of five months each, commencing in May and November; charges very reasonable, and no extras. The school has been in operation five years. The Principal appeals to his past well-known success, and would assure those who may confide their children to his care, that he will sedulously study to promote the physical, moral and intellectual culture of his charge. Please address the Principal at Glen Cove, or A. J. Bleecker, New-York. [s7 2w] ANSELM H. TOBEY.

CHESNUT GROVE COLLEGIATE INSTITUTE, Clifton, Staten Island, under the direction of Rev. T. TOWNSEL, assisted by the most competent Professors of the ancient and modern languages and other branches of mathematics, &c. the success of which has attended the mode of instruction pursued by the principal of this school, for the past five years, and a desire to meet the applications for admission, which for want of sufficient accommodation he has heretofore been obliged to refuse, have induced him to erect a large and most commodious establishment, surrounded by eight acres of land, to be dedicated to the Institution as a Gymnasium, Workshop, School of Design, Lecture Room for Instruction in practical Agriculture, &c. For full particulars, references, &c. prospectuses, containing a treatise on education, may be had at all the principal book stores in Broadway, or of Rev. T. TOWELL, Stapleton, Staten Island. a4 1m

THE ORCHARD HILL FAMILY BOARDING SCHOOL FOR YOUNG LADIES—Directed and instituted by Mr. and Mrs. D. MACK, assisted by the best Professors in Music, Drawing, Painting, Dancing, &c. is six miles from Boston, in a beautiful and healthy eminence, in extensive grounds, in a house built by them for the accomodation of twenty pupils. Their course of instruction is designed to make thorough scholars in elementary branches, and as far as the abilities of their pupils and the period of instruction permit, in Ancient and Modern Languages, the Sciences and accomplishments suitable to promote a healthy development of physical, moral, intellectual and religious culture. They prefer to receive pupils to commence young, with the intention of completing school education with them—No pupil received for less than a year. TERMS: Board, tuition in all branches, use of piano, care of clothes, pocket-money, &c. for an entire year, $300; Board and tuition for a school year of 44 weeks, except in music, painting and dancing, which are at masters' prices, and use of piano, $200. Boxes, &c. at instead of money. Tuition and board always in advance, and three months' notice of intention to withdraw a pupil. Satisfactory information and references had by inquiring of C. A. Dana, Esq Tribune Office, or by addressing Mr. and Mrs MACK (Care of S. O. Mead, Esq Boston) The next quarter commences on Wednesday, May 2 a11 2w*

MALE BOARDING SEMINARY.—This Institution, located at Wilton, Conn. is sufficiently retired to render it pleasant, yet it is easy of access to N Y City—Cars leave N Y City 3 times a day and stop at Norwalk Depôt; from Depôt to School 2 miles. Stages. A house has been erected by the Proprietor upon a selected elevation—which situation is exceedingly delightful and healthy.—English branches, Latin, French and Drawing are efficiently taught by teachers of superior qualifications and experience. Terms entirely reasonable. The teaching is conducted in a manner which never fails to interest even the stupid student. The government is such as to produce the highest degree of order without resort to severity. It is desired that those wishing to consult with the undersigned Principal would leave their applications at Mr. S B STURGES, 765 Chatham-st. where circulars with unquestionable references can be had. The fullest references are made to city patrons.

We embrace this method, being patrons of the above Institution, to express our candid approbation of its management. We cordially endorse our name to its commendation.

BOARDING SCHOOL.

IRVING INSTITUTE, Tarrytown, New-York. Winter session commenced 1st of November; Summer session 1st of May; each continuing five months. The course of instruction includes the whole range of English branches, together with French and the Ancient Languages.

To those who desire to place sons at Boarding School, the advantages offered at this institution are believed to be equal, if not superior, to any.

It has been in successful operation eleven years. The location, delightful and salubrious, is convenient of access from the city. The edifice is commodious and comfortable; the play grounds ample and due protection from the village. The government is kind, but firm; inculcating the habits of a well-regulated Christian family, and no day scholars are admitted to counteract the salutary influence of a family training.

The system of instruction is designed not merely to advance and perfect the pupil in the branches studied, but to develop and instruct the judgment, to enlighten the understanding, to fix the habits, and to give a moral and useful direction to the inclinations.

For particulars see pamphlet circular, at Clark & Austin's, 205 Broadway, or at S. Raynor's, 76 Bowery.

TARRYTOWN INSTITUTE.

A SELECT BOARDING SCHOOL FOR BOYS, at Tarrytown, N. Y.—This Institution is pleasantly situated one-third of a mile north of the village, near the spot on which Maj. Andre was taken, and about half a mile from the steamboat landing and Hudson River Railroad. In this Institution young gentlemen will be thoroughly instructed in all the branches of an English and Classical education required for commercial pursuits or entering College. The Principal having been more than 20 years successfully engaged in his profession feels himself fairly competent to give perfect satisfaction to those who may patron ze the Institution, and he pledges himself that special attention shall be paid to the manners, morals and intellectual improvement of the pupils committed to his care, their number being limited to 25. There are two vacations in a year, each 12 weeks. The Winter term will commence on the 1st of May, and the Winter on the 1st of November. The price of Board and Tuition, including bed, bedding, washing and mending, for the Summer term is from $75 to $85, and the Winter from $80 to $90 payable in advance. A. NEWMAN, Principal.

CALIFORNIA GOLD TESTS.—A compact box containing assays, troy weights, microscope, tubes and acids for testing the different metals, pocket compasses, spy glasses, improved iron retorts for quicksilver, &c. all 3t* JOHN ROACH, Optician, 52 Nassau-st.

TO CALIFORNIANS.—With an experience of 15 years, the subscriber confidently offers his services in preparing stores, in suitable packages to cross the Isthmus, or for the longer route. All articles warranted to keep. Printed estimates for any number of persons furnished gratuitously. [s2 2w*] A KEMP, 138 Wall-st. N. Y.

FOR CALIFORNIA—A company of 14 gentlemen whose money is put up in the hands of trustees, are desirous of associating with them 3 or 4 more gentlemen who will each take a share of $1,500 for an equal fund to California. Their plan will embrace every requisite for mining based upon recent private information. To any one who may value social advantages it is believed this opportunity is desirable. Apply in the front parlor of 78 Broadway, between the hours of 11 and 4. References as to personal character given and required. a9 1w*

PORTABLE IRON HOUSES FOR CALIFORNIA.—The galvanized iron houses constructed by me for California, having met with so much approval, I am thus induced to call the attention of those going to California to an examination of them. The iron is grooved in such a manner that all parts of the house, roof and sides, glide together, and a house 20x15 can be put up in less than a day. They are far cheaper than wood, are fire proof, and much more comfortable than wood. A house of the above size can be shipped in two boxes, 12 feet long and 2 feet wide and 8 inches deep, the freight on which would be about $14 to San Francisco. There will also be no trouble in removing from one part of the country to another, as the house can in a few hours be taken down and put up. By calling upon the subscriber a house of the above size can be seen.
PETER NAYLOR, 13 Stone-st.

CALIFORNIA MINERS' DEPOT, 149 Broadway, corner Leonard-st—where the subscriber manufactures and offers for sale, Jennison's Felt Machine, which is worked in connection with decidedly the best Miner's Pump that can be found in the city; also weighs 75 pounds—can be taken apart and packed in a space of 4 cubic feet, and will lower 20 feet capable by actual experiment here, to wash the labor of 20 men. The Submerged Whirling Pan, an admirable contrivance, approved by Profs. Torrey and Renwick, and Dr. Chilton, for saving the quicksilver lost in the for-nap cutting parties. (Patents applied for above.) Rockers, cradles, pans, pumps, hose, test chests, drills, and other mining appliances; all the production of a long and practical mining experience. WALTER M. GIBSON,
149 Broadway, cor. Leonard-st.
a5 6t

FOR CALIFORNIA.

THE SUBSCRIBER continues to supply individuals, companies, and the trade, with Gold Sifters and Washers, Miners and Gold Picks, Pickaxes, Spades, Shovels, Hoes, Axes and Hatchets, Rifles and Forks, Hunter's Knives, Bowie Knives, Guns, Rifles, Carbines, Pistols &c; Percussion Caps, Sand Crucibles, Black Lead Pots Mortars and Pestles, Jewelers' and Smiths' Forges, Ingots for running Gold, and Tests for Gold; Powder, Shot, Pig and Bar Lead, Tents, Hammocks, &c. comprising a general assortment of Hardware, Cutlery, Edge Tools &c. Persons intending to go to the Pacific Coast, will find it the particularly advantageous to the California market and the trade in general. [m31 1m] C. S. LITTLE, 33 Fulton-st.

CALIFORNIA GOLD WASHERS.

THE SUBSCRIBERS beg leave to call the attention of the public to their Gold Washer, as the simplest, most efficient and useful machine of the kind now offered for sale. It is a combination of the motions produced by the bowl and cradle, which motions have been found, by long experience, to be the most effectual in separating Gold by its specific gravity from lighter matters.

They have multiplied one of this kind, made of light, but strong materials, constructed in such a way that they can be taken apart and packed in a very small trunk.

This machine weighs only thirty pounds, and is capable of washing over 200 bushels of dirt in a day.

Those who wish a machine for washing Gold, are invited to call at the store, 124 Fulton-st, where one for themselves may be seen, and those who think they have a better one, are invited to a public test in the Park, in front of the City Hall, any fair day they please to name.

The Patent has been secured for this invention.

BULL'S PATENT CONCENTRIC GOLD WASHER.

THIS MACHINE HAS BEEN BEFORE THE PUBLIC but a few weeks, yet it has already received the highest commendations from every scientific and practical man who has examined it, and every one of whom pronounces it to be superior to anything of the kind ever invented; it even elicited a notice from Mr. Robert Allser on himself, who in his lecture at the Tabernacle on the Gold Regions, made use of the following language when describing the various machines at the Mission:

"I have before a machine for gold washing, invented by a gentleman of this city, which, I believe, is Eldorado it, which I consider a superior one, and I would advise those who intend going to the Gold Digings, to examine it, it is very simple, and very easy to work."

This machine has also been thoroughly tested upon a lot of gold ore in the large gold assaying establishment of John Warwick, Esq. one of our oldest and most experienced assayers, where it performed its work so well that Mr. Warwick expressed his satisfaction in glowing terms, and voluntarily furnished me with the following certificate:

"I do hereby cheerfully state that Mr. James H Bull is satisfactorily some and reliable in the manufacture of washing gold, which I have inspected, and that I found to be the best article for that purpose ever brought under my notice. I may add that my experience in gold washing during a lifetime is not a very limited one by any means."

CAUTION.—Attempts have been made to palm upon the public a spurious machine as being the one invented and made by me. In order to prevent such impositions from succeeding, every machine made by me hereafter will be branded with my name upon it. J. H. BULL,

THE EAGLE LIFE AND HEALTH INSURANCE COMPANY.

NO. 40 WALL-ST, Manhattan Bank Building, N. Y.—Capital $100,000, beside a Surplus of Twenty-five Thousand Dollars.

The charter makes the Directors personally responsible if the capital is impaired, by returning any portion of it in dividends.

The insured incur no responsibility beyond the payment of the premium; the entire liability to have the sum insured reduced, or to make further contributions in case of mortality beyond the estimate.

Losses are payable sixty days after proof of death, or immediately, on allowing the discount.

No risks is taken on any life for a greater amount than five thousand dollars, and no insurances are made on fire or marine risks.

Persons insured with this company may participate in the profits, in which case sixty per cent is carried to the credit of the insured, and added to the policy, and becomes payable in addition to the the sum insured, at death. Without participation, a very material reduction in the rates.

The insured may dispose of their policies to the company on their decease, if no heirs or loans will be made upon them according to their value.

Tables are framed for insurances in different forms so as to meet the circumstances of all persons, whether a policy is desired to provide for their families, or as security for moneys borrowed.

The rates for insurance is in any form are as low as those of any responsible company in this country or in England, and as low undoubtedly as is consistent with safety to the insured and the stability of the company.

In point of security, liberality in terms and conditions, fairness of rates, and equity of principles upon which the business is conducted, this institution will compare favorably with any in existence. To the confidence inspired by the prudence which has governed the management hitherto, and to the public advantage found in the practice of Life Insurance, the Directors look for a continuance of that patronage which has so far been liberally extended.

DIRECTORS.

Hon. William Wright,	C. S. Rogerdus,	C. S. Van Wagoner,
Edward Coles,	James Vessier,	Noah Woodruff,
John McCham,	William A. Wheeler,	Jas. M. Chapman,
