Thomas Rush, Esq. a distinguished member of the Loco-Foco party, died at his residence this morning in Spring Garden, of paralysis. He was Chief Clerk in the County Commissioner's Office at the time of his death.

FIRE.—A fire broke out yesterday morning in the large building known as the Washington Iron Foundry, situated on Conway st. between Little Green and Warner, and owned by Messrs. Gilman & Co. The building was almost entirely destroyed, with a number of the valuable patterns which it contained. The loss is more than covered by an insurance of $2,700 at the Firemen's Office, and of $2,400 at the Agency of the New-Jersey Protection Insurance Company. [Baltimore American.

BOARD OF CLAIMS.—The second meeting of the Board of Claims, under the treaty with Mexico, took place yesterday. Hon. C. B. Smith was in his seat, and all the members are now present in Washington. [National Whig, 18th.

TRIAL FOR SEDUCTION.—The March term of the Circuit Court closed on Thursday night. The last cause, which was a trial for seduction, occupied two days, and excited a considerable degree of interest.—The action was brought by John Frayer, the father of Esther Frayer, against John Esselstyne. The parties reside in the town of Claverack, the defendant a well off bachelor farmer of some 30 years of age, the girl young, simple and uneducated, and previous to the seduction, accustomed to earn her livelihood as a domestic in the family of David S. Ten Broeck. The girl gave birth to a child in August last, and the prosecution proved by her as well as by two other witnesses that the defendant had previously improper intercourse with her on several occasions. The plaintiff's counsel also offered to prove that this intercourse was the result of a promise of marriage by the defendant, but the Court ruled out the evidence. On the part of the defence it was shown that the girl had made very contradictory statements in relation to the matter, and it was also contended that the probabilities were that some person other than Esselstyne had succeeded in seducing the poor girl. The jury gave a verdict for the plaintiff of $1,200. C. P. Collier and M. Sandford for plaintiff; K. Miller and M. Pechter for defendant. [Hudson Republican.

RETURNING FROM CALIFORNIA.—A party of five or six New-Yorkers, who had started for the El Dorado a few weeks since by the land route through Texas, arrived here on Wednesday evening on the Peytona. They were thoroughly disgusted with gold-seeking before completing half the journey, and concluded that they had seen enough of "the elephant." They took the Telegraph No. 1, *en route* for home that same evening. One of them had expended $1,600 in his outfit and journey, and the whole party had the jaded and worn-out appearance of the pioneer soldiers of the late Mexican war. During their entire progress they had not seen a speck of gold, except that which was glittering through the interstices of their own purses, and that had got so scarce that it could barely be discovered. [Louisville Journal.

A GANG OF COUNTERFEITERS ARRESTED.—On Monday evening a gang of counterfeit-bill circulators were arrested at Albany, while in the act of attempting to pass a $5 counterfeit bill, Marine Bank of New-Bedford. They gave their names as William Ray, Abijah Latten and Frederick Green. They had just reached Albany from the West, and had been residing during the Winter in Venten, Chenango Co. On examination and search of Ray, the officers found in his possession $89; three $10 bills on the Hampshire Manufacturing Bank; one $10, Rahway; two $5, Marine Bank, New-Bedford; eight $3, Battenkill Bank; and $10, Randolph. Ray was fully committed for trial, and the others for farther examination.

GRAND TEMPERANCE PROCESSION—THE MARKETS—*Baltimore*, April 18—The steamer Chesapeake from New-York, arrived at Norfolk yesterday. The Grand Temperance Procession, in honor of the dedication of the new hall in North Gay-st. came off this morning. Notwithstanding the unfavorable state of the weather, the turn out was very large, and the procession with its banners, devices, music, &c. magnificent in the extreme. But little change to notice in the markets this morning, as there is a disposition not to operate until the arrival of the steamer. Howard-st and City Mills Flour is still held at $4 25. In Grain the transactions are extremely limited. It is still raining.

FREEDOM OF THE PRESS.—A postmaster in Virginia refuses to deliver the *Cincinnati Globe*, a Van Buren paper, as such papers are forbidden to be circulated in the State.

Board of Education....WEDNESDAY, April 18.

The President, ROBT. KELLY, Esq. in the Chair.

REPORTS—Of the Finance Committee, in favor of appropriating $1,620 50 to meet deficiency in necessary expenses of Schools in Twelfth Ward....Also, $180 75 for iron railing for new school-house in Marion-st. Fourteenth Ward. Adopted....Do. in favor of appropriating $935 21 to meet deficiencies in Schools of Fourteenth Ward. Referred....Do. appropriating $1,025 30 for deficiencies, erecting and fitting up new school-house in Clark-st Eighth Ward.

A question was asked by Commissioner Greeley, of the Twelfth Ward, as to whether the law requiring estimates to be made had been conformed to. Commissioner Getty explained that the building had been originally prepared but for 1,000 scholars, whereas a much larger number offered, and various alterations and improvements became necessary; but the necessity for such was discovered only at interval, and the bills now handed for carpenters and others accrued through a space of three or four months, and that no one engagement amounted to $200, the sum required to be contracted for.]

The carpenter's bill was from McDermott & Hopper, and amounted to $858 70. Considerable debate took place, Messrs King, Sweeney, Bleecker, Murphy, Bosworth, and others speaking—some being in favor of referring the bill, and others of adopting it. Commissioner Greeley explained that the object of his inquiry was solely to know if the law had complied with. His own opinion is whether the amount of work required is less or more than $200, the best way is to give notice to different mechanics and obtain estimates—such is the course adopted in the Twelfth Ward. He would vote in the present case, under the explanation for the report. Adopted....Also, appropriating $4,000 to purchase the lease of Franklin S. Kinney, for 21 years, from 1842, of premises Nos 42 and 44 Trinity-place, (ground rent $175,) now occupied as a primary school. Adopted....Also, appropriating $14,302 for the erection of a school-house in Twenty fifth-st. near Second-ave in Eighteenth Ward. The plan of this building is to be different from the other schools. Instead of one large room and four recitation rooms (in the latter of which the scholars pass 4 or 5 hours out of the 6, it is intended to have each story divided into six distinct departments, with walls between them, the two middle rooms to have folding doors—and the attic of the building to be fitted up as a main room for examinations. The walls are to hollow, to secure good ventilation, &c.—The expense will only be about $2,000 more the present plan.

Mr Fellows, Chairman of the Committee on Evening Schools, presented a communication showing the number of scholars that have attended the evening schools during the past season, and showing the great benefit which has accrued from them. Resolution that it be printed, in connection with the annual report, and 1,000 extra copies be printed. Adopted.

Appropriations were made to fit up Drawing Department, &c. in Free Academy.

A communication was received, showing there are some vacancies in the Normal School at Albany, to which this county is entitled, &c.

Some other little business was done, and the Board adjourned.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

WEDNESDAY, April 18—P. M.

The Stock market felt the change in money matters and closed at improved prices. United States Securities are not on the market in any considerable quantity. Within a few days past there has been a somewhat increased demand for them. Treasury Notes, United States Fives, Farmers' Trust Co. and Long Island Railroad closed at yesterday's prices. Canton Co. advanced ¼ and Erie Sevens and Harlem Railroad ¼.

The improved condition of the Money market referred to yesterday is continued to day. Money on call and for good paper is more abundant than it has been for ten days past. Should the Europe bring the expected amount of specie, there will be no farther pressure, for some time to come at least, as the subsequent steamers will doubtless bring considerable amounts.

The following is the business at the Sub-Treasury to-day: Receipts 50,224 91
Payments 20,390 26
Balance on hand 2,182,175 07
Advices $51,000 00

Freights are steady with a fair amount offering. Cotton, ¼; Heavy Goods 25s. and Flour 2s.

The Utica City Bank has declared a dividend of 4 per cent for the first 6 months.... The Merchants' Insurance Company of Boston has declared a semi annual dividend of 1# per cent, payable on demand.

The receipt of coal at Philadelphia, both by Railroad and Canal, continues very light, and there appears to be a determination on the part of the operators at Pottsville not to forward any Coal until they receive a remunerative price for it.

A meeting of the corporators and subscribers to the stock of the Troy and Greenfield Railroad, was held at Shelburne Falls, on Thursday last. The act of incorporation was formally accepted, and it appeared that $100,400 had been unconditionally subscribed to the stock.

The Governor of Pennsylvania has approved and signed the bill increasing the capital and dividing the shares of the Bank of Pennsylvania.

The earnings of the Central Railroad of Georgia for March were $75,879 72; an increase of 47½ per cent over the same period of last year. The increase for the four months since the last annual report in December is nearly in the same ratio.

JUST PUBLISHED,

PRICE 25 CENTS—No 1.—To be completed in four numbers—Linear Perspective, or the Art of representing objects by lines, clearly and practically explained, so as to be useful to the amateur, architect, artist and mechanic, and designed to be a book of instruction for seminaries and public schools, by F. Jones.

"No art or science explained so much more generally useful—no one can draw without it, and with it every form can be correctly represented. As the rules of grammar are essential to the correct speaking of a language, so is a knowledge of Perspective to the delineation of objects in good drawing. Linear Perspective may be realized with facility by any one, and yet it has been surrounded by technical difficulties that have deterred many from attaining it.

THE CHRISTIAN UNION

AND RELIGIOUS MEMORIAL. Edited by Rev. Dr. Baird, published monthly at $2 per annum in advance. This magazine is the organ of the American Evangelical Alliance, and its object is the promotion of christian union among all Evangelical Denominations. All proper efforts to do away sectarianism, and infuse a spirit of love and brotherly kindness into the hearts of professing christians we feel sure must be approved by all who possess the true spirit of the great Head of the church. An important feature of this work is its memorial or resumé of the progress of religion throughout the world, in the various departments of the church. Particular attention is paid to religious progress in foreign countries, and the missionary intelligence presented each month is more complete and full than in any other publication in the world. While we do not deem it within our province to discuss doctrinal points, we shall not fail to advocate every true christian reform which we view as designed to develope and improve the heart. The work has received the highest commendation and is recommended by many clergymen of different denominations. It is published monthly, royal octavo size, 64 pages each number, and forms a yearly volume of 768 pages.
