A RAINY MAY.—Yesterday and Saturday were seasons of continued rain. Since Saturday morning, we have had nothing but a cold, cheerless drizzle—flooding the streets, keeping people away from church, and making free a pleasant accompaniment. As our April was as chilly and gusty as March, so our May is to make up for the missing showers.

THE MOST ELEGANT.—Great improvements have recently been made in the style of fitting up saloons for hair dressing, shaving, bathing, &c.—but there was a still a step in advance of anything that had been done. That step has been taken by our old time friend GEORGE CIPRICO, at his new establishment in French's Hotel, Frankfort st. Luxurious chairs, splendid mirrors, beautifully painted ceilings, marble laving apparatus, razors keen as wit and hands light as the laugh of childhood—clean brushes and soft tender napkins—with the bathing rooms adjoining and fitted up with an exquisite sense of convenience and comfort for the enjoyment of this indispensable luxury—such are the elements of George Ciprico's new establishment.

CALIFORNIA GOLD.—We saw yesterday a gold rock, weighing *eight ounces*, twenty-three carats fine, which was obtained from the wet diggings by Mr. Edward Burgess, of the New-York Regiment. Mr. Burgess returned from California about three weeks ago, via Vera Cruz, bring $35,000 in gold dust. He purposes to go back in about a fortnight. He was in the mines, at times, for ten months, and fully confirms the accounts we have had of the severe labor to be endured to obtain gold. He has heard of but never saw a larger lump than the one he obtained.

FRENCH'S NEW HOTEL.—This new and elegant establishment is situated on the east side of the Park, near the Tribune Office, and has been in process of construction for the last sixteen months. The builders, Messrs. SIMPSON, have executed their part of the work in the most substantial manner. It is now completed, and will be thrown open to-day for public inspection.

The Main Entrance is on the corner of Frankfort st, finished in the Corinthian style—the ornamental decorations of the order of Louis Quatorze. The floors are of marble, and the windows on Frankfort st. of stained glass. In the office there is a Post Office, with a box for every room in the house.

On the second story there is a splendid suit of parlors, the finish of the order of Louis XIV. with furniture, drapery, &c. to match. Into every apartment the Croton water has been introduced, flowing into every washstand—each composed of marble top with silver faucet. The arrangements are on the same style throughout, to the highest story. When we got to the top of the house we found a magnificent washing, drying and ironing establishment and mangling department.—There are twenty washing sinks, alternately supplied with hot and cold water. There are as many as one hundred clothes horses moving on frames—the whole operation, washing, mangling, drying, &c. by steam. A gentleman may have his linen washed, dried and ironed all in fifteen minutes. The Croton water for baths, &c. is in great abundance on every floor. There is a large and commodious reading room, where the leading journals of the Union may be found.

The Refractory is extensive and elegant. It has a marble floor and marble oyster stands. Attached to this room is the carving room, where there is one of Grant's unique carving tables, which introduces the steam beneath every dish, keeping it hot to the last.—The steam is supplied by one of Force's Tubular Boilers, which is particularly worthy of notice. The plumbing is by Hudson, one of the greatest "pipe layers" in the world. In this house alone he has laid 21,500 feet of pipe. The painting is by his brothing Hudson. The hot-air furnaces, of which there are eight, are by Dewitt. The marble work by Bird & Fisher. The elegant ornamental painting is by H. F. Schultz, 103 Reade st. and the glass staining by Harrington. All the linen, sheeting, &c. have been made under the immediate superintendence of Mrs. French.

CAPITAL PUNISHMENT.—We understand that WENDELL PHILLIPS of Boston, Dr. WM. ELDER of Philadelphia, and HORACE GREELEY, are expected to address the New-York State Society for the Abolition of Capital Punishment, at the Minerva Rooms, 406 Broadway, this evening. There are in the United States few better speakers than Messrs Phillips and Elder.

IKELHEIMER.—This talented young violinist gives his Concert to-night at the Apollo Rooms. With his own host of rare qualities and the coöperation of Tafanelli, Corelli and Maretzek, it must be an attractive occasion to all lovers of music.

LECTURES ON PHRENOLOGY.—The Messrs. Fowler are to lecture at Clinton Hall every evening this week. See notice.

VOIGTLANDER'S MICROCOSMIC VIEWS.—The brilliant and extensive machinery connected with Voigtlander's apparatus having been completed, the exhibition will be opened to the public to-night. The glowing colors and curious transformations of his views, greatly surpasses all other attempts at reproducing pictures by means of the hydro-oxygen gas. The exhibition will no doubt be thronged, especially during the busy week which has just opened.

ST. GEORGE'S SOCIETY.—'*The People*' of Saturday last has a powerful article, extending to some six or seven columns, reviewing with just condemnation the proceedings and speeches of the late celebration of St. George, at the City Hotel. A few copies are still on sale at the office, 5 Spruce st. It was only the crowd of other matters on hand that prevented our noticing the same proceedings.

MR. EDITOR: May I add one to your list on the score of benevolence, and to aid in restoring a lost child to its parents? On my usual visit at the City Prison to-day, I saw a bright little girl of five years, who says her name is Martha Broadhurst, and that being lost in the streets, the officers brought her there.

PRISON VISITER.

BROOKLYN AFFAIRS.

SUICIDE.—A man whose name or residence our reporter was unable to learn, was found dead on Friday morning in Greenwood Cemetery, with his brains blown out and a pistol lying near him. Coroner Ball held an inquest on the body, and the Jury rendered a verdict in accordance with the above facts. It is hoped that the Board of Supervisors will attend to the application of our worthy Coroner, (who is always ready to give all the information which lies in his power,) for a suitable office for the performance of his duties.

Canton Markets.

CANTON, Feb. 25.—Business here at present is almost at a stand, in consequence of the unsettled state of the opinion about opening the ports gain on the 6th of April. The disinclination of Hong Merchants and Second Security to have resulted in a reference being made to Peking; and until an answer is returned, which will not be in less than 40 days, no improvement can be looked for.

AMERICAN GOODS—14,000 pieces of drills were sold in the early part of the month at $1 90 to $1 95 for 28 yards, and $2 60 to $2 70 for 36 yards; but the arrival of the Kenilworth has caused a slight decline, and a number of a few cases upon these quotations. Stocks in first and second hands very large. Teams nominal at $2 45 to $2 50. Sheetings—2,000 pieces sold at $2 50.

COTTON YARNS—1,100 bales English have been disposed of during the month, at, for Nos. 16 to 24, $2 50 to $2 75; 28 to 32, $26 to $27; 36 to 40, $27 to $28. 600 bales American have also been sold at $27.

EXPORTS.—TEAS—The business done this month has been mostly in green for the American market, and on the whole at rather lower rates. For England the transactions have been of small extent.—Black: About 20 chests of congou are reported as sold, partly for the English and partly for the continent. Souchong: Some 40 chests have been sold at prices above those of last month; 20 chests are left, all below medium quality.—Scuchong: A few sales only; about 1,000 chests are left.—Flowery Pekoe: Some 3,000 chests have been sold, leaving 3,000 chests.—Pilm Orange Pekoe: 4,000 half-chests have been taken, leaving about 1,000 of very inferior quality.—Scented Orange Pekoe: 500 half-chests have been taken.—Sing Kong, Kokoe, and Ankoe: The stock in market of all qualities does not exceed 5,000 packages.—Green: Young hyson has been taken freely at lower rates for cargo and good cargo qualities, but superior sorts being scarce have brought full prices. 20,000 packages have been bought at the following quotations, leaving only 7,000 in market of saleable quality.—Talping, 16 to 18 taels; other kinds, carging from 18 to 22 taels; superior to fine, 28 to 40 taels; extra fine, none.—Hyson: About 5,000 chests have been sold at 20 to 23 taels for fair, 25 to 31 taels for good; and 36 to 40 for fine; 1,000 chests are in stock.—Skin: The stock is now reduced to about 9,000 chests, mostly of common quality. We quote cargo 9 to 10 taels, and 12 to 16 taels for superior to fine.—Twankay: 2,000 half-chests have been taken at 11 to 20 taels; leaving 2,000 in stock.—Imperial and Gunpowder: The sales are about 5,000 packages, at rates something below those of last month; 5,000 packages are left.—Canton: 2,500 half-chests of gunpowder had been sold at 18 to 20 taels, and 2,000 half-chests of young hyson at 12 to 16 taels for superior and fine. Nothing going forward in the market, but many orders cleared, and higher rates are wanted by the holders.

EXCHANGES.—On London, at six months' sight, 4s 3d to 4s 3½d. Company's accepted commanded at 2½, but ran up to 2¾.

DOLLARS, &c.—Mexican, $ 1 to 2 per cent. premium.—Sycee 7½ per cent. Gold, $25 5 per tael.

Coleman, Huppon & Co.'s Circular.

RIO DE JANEIRO, March 29, 1849.

Imports from the United States this month 6,071 bbls Flour, 48 pkgs Domestics, 201 boxes Sperm Candles, 140 M lumber, 450 bbls Rosin, 121 doz Chairs, 13,000 bls Wax and sundries from Valparaiso, 500 bags Flour and 760 bags Wheat.

FLOUR—The sales have been greater than for some time past, but at no improvement in prices, being about 18,500 bbls for consumption and 2,500 for export. The prices have been 16½ a 17½ for Richmond, 14½ a 15½ for Co. Mills, Columbia and O Danae, 14½ for Baltimore, 13½ a 14½ for Philadelphia and New-Orleans.

The purchases have been only in moderate parcels, the bakers showing no disposition to lay in stocks, expecting continued shipments from U. S. An entire cessation of imports for a month or more will alone enable an advance to be obtained. The stock in first hands is 11,000 bbls. Gallego, 11,000 bbls Cassiall, 5,000 Col and O Danae, 2,000 Baltimore, 3,000 and 3,500 Philadelphia and New-Orleans, &c.—total 32,500 bbls, and the import from Chili. The bakers are estimated to hold 30,000 bbls. Dates from Rio Grande to 14th quote Flour very dull at 12½ for Baltimore, 17½ a 18½ for Richmond. Stock 14,000 bbls.

DOMESTICS remain in the same dull state, and quotations are nominal at 22½ a 25 for blue Drills, 19½ brown do; 150 ps brown Shirtings, 50 inch.

LUMBER—Sales have been made for export to California at 4½ on board for consumption; 4½ could not be obtained.

SPERM CANDLES have been sold at 900 rs. The stock in second hands have at last been quite reduced, and moderate parcels of prime will command the quotation.

PROVISIONS are in demand and Beef would bring 30; Pork 40; and Lard 28c and Ham 40c.

TEA—Sales of fine quality Hyson at 1,250 a 1,300, good and superior 1,300 a 1,700.

SALT is abundant. Last sales at 600 rs.

WAX—Sales at 750 rs, for demand.

COFFEE—The arrivals have been limited and the quality generally quite ordinary. More favorable accounts from Europe to 4th February have given animation to the market, and large purchases have been made at 50 a 100 rs advance on prices.

We now quote superiors 3,100 a 3,200; good fine 2,800 a 3,000; ordinary do 2,600 a 2,750. The stocks are reduced to 20,000 bags, and holders are very firm. The article has an upward tendency which will continue hence forward, as the receipts will be limited. The accounts of the deficiency of the new crop are are daily confirmed, and there is not the least doubt of its being a short of the usual average—the general opinion is that it will be nearer 4 than 3 millions of bags, of which 32,435 will be sent to the U. States.

HIDES—The demand has been brisk, and prices have advanced to 150 and some are held at 155. The stock for sale is trifling.

FREIGHTS—Continue very dull. To U. S. 30 cents; Europe 32c 6d a 40s.

EXCHANGE was also done to a large extent for the last packet at 24 per ct. It is now firm.

Doubloons 31½. Dollars 29100.

COLEMAN, HUTTON & CO

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

SATURDAY, May 5—P. M.

The Stock market continues to be heavy for fancies, and most descriptions declined. There is an entire lack of speculation. Government Stocks were in fair demand and steady.

There is some movement in Exchange, and the market is very firm. Drawers of Sterling ask 8⅝ a ¾, and leading Bills sold at 8⅝ a ¾. Bills not well known can be had at 8⅛ a ¼. France are 5.30 a 5.25. The demand is not yet large for Exchange, and the supply moderate.

The business in Freights is not large, as the letter mail was not received. Cotton was taken at 5-16d; 1,000 bbls Rosin, 2s 3d; 150 tons heavy Freight, 20s; 1,000 bbls Flour, 2s. To London, 500 pkgs Bacon at 30s; 400 tcs Pork, 6s. To Glasgow, Rosin, 3s; Cotton, 9-32; Provisions, 30s, and Flour, 2s 6d. To Rotterdam, Cotton, 1c; Oil, 3cts. The past week has witnessed a greater accumulation of tonnage at this port than was ever known before in the history of its commerce. Within that period there has arrived in our waters, from foreign, 76,300 tons shipping, and from coastwise ports 28,200, making a total of 104,500 tons, exclusive of river craft.

At the Sub-Treasury to-day the Receipts were $87,130
Payments 11,193
Balance 1,940,683

The value of free gooods entered at the Custom House, from the 1st to the 4th May, inclusive, was $42,902 00
Specie 29,138 00
Dutiable goods $1,038,245 00

☞ The corps of surveyors commenced operations last week on the line of the Harlem Railroad Extension from Dover Plains to Chatham.

The National Fire Insurance Co. has declared a dividend of 5 ⅌ cent for the last six months.

The movement in Dry Goods for the week ending May 3, was as annexed:

	Entered for consumption.	Entered for Warehousing.	Withdrawn from Warehouse.
Manufactures of Wool	$66,600	$17,501	$ 8,278
" Cotton	83,591	27,491	19,816

" Miscellaneous	61,729	20,023	2,457
Total	$319,657	$115,159	$59,318

The value of exports for the week was $221,105 00
The amount received for duties was 146,719 53
The drafts upon the Asst Treasurer amt to 348,568 44

The foreign advices are not very important in regard to American Stocks. The letters ⅌ the Canada were not received in London in time to have any influence upon the market. No important sales of American Securities had been made. For the Loan of June, 100 was bid, 100¼ asked. The other quotations were about as before. At Hamburg there was no demand for the Transferable Stock, and the Coupons were dull at 104 ⅌ 105. The blockade had made business very dull. The Money market in London continued to be abundantly supplied with capital at 2½ ⅌ cent on first-class paper, and 1½ a 2 per cent on call. The bullion in the Bank of England had decreased £320,000 within the week, and this drain it was reported, would continue. British funds, considering the disturbed state of the Continent, had been well maintained. The following table shows the fluctuations in Consols from April 14 to April 30:

	Lowest.	Highest.	Closing.
Saturday, April 14	92¾	93¼	93
Monday, April 16	92¾	93	93
Tuesday, April 17	92¾	93	93
Wednesday, April 18	92¾	93	93

In manufacturing districts the interruption of trade on the Continent was being felt, and business was in a less favorable condition. The most favorable feature of the news for this country is the advance in Breadstuffs, in consequence of the blockade of the Baltic ports, which had cut off supplies from that quarter. The quotations of Corn, especially, will allow of shipments from this side at amply remunerating prices. The Bank of France is also losing bullion, the supply having fell off 6½ million francs in a week. The *Debats* gives the following analysis of the revenue returns, which is of interest:

The total receipt for the first quarter is 166,324,000f, while for the corresponding quarter of last year it was 137,904,000, making a difference of 28,420,000; but it allowance be made for the reduction of the salt tax, the difference would in reality be reduced to 14,000f. There is, therefore, but little difference between the two periods. The revenue, however, is increasing for the last two months; for March presents a surplus of 9,207,000f. Several branches of revenue show considerable standing a deficiency. Registry duties are less, by 6,362,000. The stamp duty has lost 651,000f, and 3,557,000 j potable liquors, 394,000f, and the post office, 2,248,000f. The Minister, however, thinks that the increasing prosperity of the country by the reduction of the post office will allow for the loss incurred by the revenue. On the other hand the Customs show improvement. Import duties give an increase of 5,000,000, and on the side of exports there is an increase of 1,000,000, and on the side of exports there is an increase of 1,000,000, showing prosperity for commerce and national industry. An unfavorable side of the picture is that which relates to direct taxation. These remains to be recovered of the 45 centimes a sum of 11,800,000f, which is not very large considering that it is an extraordinary impost, but there is reason to fear that the ordinary taxes, amount 1,000,000f, will not be realized. These sums make nearly 30 millions due on the year 1848—no great burden, if business should resume its wonted activity.

Markets.....CAREFULLY REPORTED FOR THE TRIBUNE.

SATURDAY, May 5.

☞ The weather to-day has been unfavorable for out-door operations, and the transactions in all branches have been moderate. The new arrival of the steamer's mail had also an unfavorable effect on business.

ASHES—Are 5 62½ a 6 00, with sales 60 bbls. Pearls are dull at 5 75.

COTTON—The sales are 1,000 bales at the full prices of yesterday. The letter mail is looked for with anxiety.

FLOUR AND MEAL—Of Flour the sales reach 4,000 or 4,500 bbls, entirely to the trade. There is no shipping demand at present prices, although we suspect some Flour, perhaps Canadian, is going forward from first hands. The range is 4 50 a 4 62½ for common and good State, and 4 75 a 5 for fancy brands. Included in the sales were sixty bbls fancy Ohio at 5 12½. The medium grades Flour are forward to-day. Of New Orleans the sales were less than 500 bbls at 4 87½ a 5 00. Meal continues in moderate supply and firm. The sales are 500 bbls at 3 62½ a 3 75 for Brandywine, and 3 50 for common.

GRAIN—Wheat is without movement which has been made public, but we think there have been some considerable sales during the week which have been kept quiet. Holders of Corn have been holding at prices above the range of quotations, and the sales are 12,000 bush at one for white Southern, 92 a 94 for Southern yellow, and 96 for round Northern. The market was heavy at the close. Rye is held at 85 delivered, with sales 1,000 bush at 84½c in the trade. Oats are 50 a 52c for Northern, and quiet. Sales 500 bush Barley at 62c. Oats are 30 a 32c per bag of 4 bush.

WHISKY—The market is quiet, and but little doing. Ohio is 22 a 22½c in bond. Prime is 24½ a 25c. Drudge sells slowly at 19c.

PROVISIONS—The transactions in Pork have been to the extent of 300 or 400 bbls at $7 a $8 for old, and 10 a 10½ for 37½. Beef is without change. Lard is firm, with sales 300 or 400 bbls at 6½ a 7c, the latter for strictly prime. Good packers sold at 6½ a 6¾c. In Cut Meats we notice sales 1,000 bbls Hams, pickled and smoked, at 5½c, and 500 do Shoulders at 3½c. In Cheese we hear of sales for Home, and for Sales 400 bbls pickled Hams, middling cured, at 8½c, and 50 bbls at 5c pickle. In Cheese there is much doing. Some 150 pkgs Cheese sold at 5½c.

The *Buffalo Commercial* has the following in relation to the Pork market:

"New-York, Buffalo inspection, sold to considerable extent yesterday at 9 75, but this morning the market is firm at $10, at which figure several lots have been disposed of for the interior. It is a delicate matter to hazard an opinion on the probable advance or decline of any particular article, but when we take into consideration the enormous quantities of Pork in the hog that was sent forward by railroad the past Winter, from the western part of the State clear to the Pennsylvania line, and the demand which now exists to supply the very regions from which the property was sent, we think the prediction that No. 1 Mess Pork will sell in the market at an advance over the present rates before it will sell at a decline, is safe. In this opinion we do not include Prime—for the demand which we think will be steady will have reference to the best quality of Mess."

IRON—The receipts of British Pig continues heavy, and the anxiety of manufacturers to secure a supply has brought forward a further decline in the quotations. Scotch Pig has brought forward some extensive orders, and there have been several sales made, perhaps 1,000 tons or more, although no arrival at Hull. Nothing of importance has transpired in the market for Bars. Sales have been made to a fair extent, but at prices somewhat below those of last week. The greater part of which was sold previously. English Bars have declined 10 ⅌ 37 ½c, but it may be considered a f
