NEW-YORK TRIBUNE.

Law Courts.... SATURDAY, August 25.

U. S. MARSHAL'S OFFICE.—*Alleged assault with a dangerous weapon*.—Capt. Rob Lee, of the ship William Hitchcock, was complained of by Edwin Bustin, one of the crew, for an assault alleged with a dangerous weapon (a handspike.) Capt. R. was bailed to bail. [The Captain, it will be recollected, had previously complained of Bustin and four others, charging them with an endeavor to make a revolt.]

U. S. COMMISSIONER'S OFFICE.—Edwin Bustin and four other seamen of the ship William Hitchcock, charged by the Captain with endeavoring to create a revolt, were examined on Saturday. Some acts of insubordination, such as a portion of them, when a man had been tied up as for punishment, coming on the quarter deck and claiming his release, &c. were shewn. They were committed for trial.

SUPREME COURT—*Special Term*—Before Judge Edwards.—*The People ex rel. Alexander Havens and others, Committee of the Prison Association of New-York, vs. Edward L. Porter, Warden of the State Prison at Sing-Sing*.—The Prison Association was chartered in 1846, with power to hold real estate and convey real estate, &c. provided the yearly value shall not exceed $10,000, nor be applied to any purpose than that for which the corporation is formed, which is the amelioration of the condition of prisoners, the support and encouragement of reformed convicts after their discharge; to have power to establish a workhouse in New-York, and in their discretion to receive and take into the said workhouse any person or persons committed as vagrants, to bind out minors whom, of such, with their consent, &c.—The charter or law also gives them power to visit, inspect and examine all the prisons in the State, and to possess, for that purpose, the power of inspectors of county prisons—each of the said examinations or visits to be by an order first granted them for that purpose from any Judge. The Association is to make an annual report to the Legislature as to the result of their examinations, with such suggestions as they may see fit, so as to "enable the Legislature to perfect the government and system of prison discipline."

The present is a petition setting forth that Mr. Isaac Hopper and Dr. John D. Russ as authorized Committee of the Association, were desirous in June last of visiting the State Prison at Sing Sing, and made application to Mr. Porter, the Warden, to that effect, but that the Warden refused them such permission unless they permitted an officer of the Prison to accompany them in their interview with the prisoners. As this would be abridging the privileges and usefulness of the Society, they declined, and now ask this Court for a mandamus requiring the said Warden to permit the visits of the Committees of the Association according to the meaning of the act.

The Warden in his return denied that he refused such permission. In his affidavit he says that he is employed by the Inspectors of State Prisons; that last year the Inspectors had under consideration the claim of the Prison Association to visit and converse with the prisoners in secret, and came to the conclusion that the Association had no just right to such a course, and that it would endanger the discipline and safety of the prison, and lead to that the visits they must be accompanied through the Prison by the Warden or some officer appointed by him for that purpose—that on the Committee in the present instance calling, he invited them to visit it, he accompanying them, which they declined. They, however, visited the Female Department, not in the interior of the building, and expressed themselves much gratified with the order and discipline, &c.

The applications for mandamus was argued by Mr. R. Reed for the association, and Mr. R. Lockwood opposed. Mr. R. contended that the Association had a right, through its committees, to visit and converse with the prisoners without the Warden or one of his officers being present, or the visit would be useless, as a prisoner knew some means would afterward be found to punish him or her were they to disclose any grievance to the Committee—that the claim of having an officer present was made at no prison but that of Sing Sing—and that Mr. Weis, after having been Warden, and now an Inspector of Prisons, was opposed to them—that he (Mr. R.) himself, as one of a Committee, on visiting the prisons has seen the necessity of this power given to the Association—among other cases to which had come under his observation was one at the prison in Clinton County, where a prisoner had been kept locked up in his cell for four months, and he understood his offence to have been that he disclosed the fact that one of the officers employed the convicts to make shoes and clothing for his family—he afterward understood that the prisoner was a bad man, but the inducement for locking him up was apparently that which had been stated. Mr. R. urged that they had a right to the mandamus asked for.

Mr. Lockwood, in opposition, said the orders of the Inspectors applied to all the prisons in the State; that at Sing Sing there are 700 prisoners, the most desperate persons that could be found in the nation, with but few persons to guard them, and on the visits of the Committee there is a general commotion among them, and almost the idea of a general jail delivery. He contended that the right of conversation with prisoners, without the presence of an officer, did not apply to persons under sentence in State prisons; also that the application for mandamus in the present case was defective, in not setting forth all the facts, &c.

The Court seemed to entertain an impression that the Association should have traversed the return, and the case be submitted to a Jury. The papers, however, were taken for advisement.

Charlotte Taylor vs. David Taylor.—Order.

COURT OF COMMON PLEAS—*Special Term*—Before Judge Ulshoeffer.—*Neal Mullen vs. Wm. Swan and wife*.—Action for slander in saying plaintiff "is a thief and a pickpocket, and ought to be in the State Prison." Damages laid at $1,000.—Referred to Daniel W. Clark, Esq. sole referee.

[Action for slander can be maintained for words falsely charging another with an act which would be a felony or misdemeanor at law; also, in cases where a disparaging term or nickname is given or applied to another, the meaning of which ignorant persons are unacquainted with; or one which does a person an injury by causing the loss of employment, preventing any particular person or persons keeping company with them, or by special damage shown in other way.]

Habeas Corpus.—Five German seamen, part of the crew of the brig Don Quixote, were brought up on habeas corpus, and their discharge from the vessel demanded on the ground that the voyage is ended, which is denied.—Postponed to to Tuesday.

DESTRUCTIVE FIRE.—A fire broke out, between 12 and 1 o'clock Thursday night, in the building on Main-st. near the corner of Stone-st. The flames communicated from the building where the fire first took to the Washington Hotel adjoining, and both were entirely destroyed. Another building eastward from the tavern was very much burned, though not entirely destroyed. The first building was owned by D. Brown, of Irondequoit, whose loss is about $5,000, insured $3,000. The tenement was occupied by a number of people as shops and lodgings. The tavern stand was owned by Mr. Benj McFarland, who, with his family, were absent from the city, and the house was occupied by two persons only. Mr. McF's loss will be about $3,500 on the tavern and $800 on the furniture, which was injured by removal. He also owned the house adjoining, upon which his loss is estimated at $1,000, which is covered by insurance. It is supposed that the fire was set by design, there having been quite a number of deaths by Cholera in the block. The Washington Hotel was one of the oldest tavern stands in the city. It was erected about the year 1817. Mr. Adonijah Green, bought it from the first owner in 1824, and continued to occupy it until 1840, when it was sold to Mr. McFarland, who has kept a public house there since that time. A portion of the losses fell upon the following insurance companies: Genesee Mutual $6,700, Albany 1,500, Firemen's $1,800. [Roch. Dem. 24th.

DEATH OF REV. DR. PIERCE.—It is well known to many of our readers that the venerable Dr. John Pierce, of Brookline, has for some months labored under a painful but incurable disease, and has awaited with the resignation of a Christian, the hour when he would be taken from the scene of his earthly duties. That hour has arrived. His sufferings were brought to a close yesterday afternoon by the hand of death. He died at the ripe age of seventy six, in the house near his church, where he has passed many years in nobly fulfilling his duties as a Christian minister. There are few men, even in the holy profession to which he belonged, whose practical virtues, genuine piety, learning, and deep-seated philanthropy, secured more respect and esteem from all Christian societies. His zealous yet judicious labors in the cause of the Temperance reform, of which he was one of the earliest advocates, have become a matter of history—and the death of this truly good and wise man, will be deeply regretted by all friends of humanity, literature and religion. [Boston Journal, 20th.

THE GREAT BANK ROBBERY.—We have been furnished with the facts in connection with the recovery of money left by Mr. Childs with Mrs. Whitlock—Mrs. W. according to her own account, had spent Sunday night at the house of Mrs. Childs. On Monday morning she received from him—he wishing to place them in her charge for safe keeping—a certificate of deposit on one of our banking houses for $2,000, a note for $200 on a dry goods house, and a sight draft on a minister in Cincinnati for $100. Mrs W. also produced a bank book had left to her last Spring by Mr. C. with a credit to herself of $2,000, minus $200, which she had used.—Mr. Childs is not administrator of the estate of Mrs W.'s husband; there was no estate to administer upon. Mr. Childs had also fitted up the house of Mrs. W. with valuable furniture, a piano, &c.; and had purchased costly jewelry, &c. [St. Louis Reveille, 15th.

A NEW CHURCH ON A NEW PLAN.—The Third Presbyterian Congregation of Trenton propose erecting a new and spacious church edifice. The Trustees, as a corporate body, to issue 100 shares of stock at $100 each. The subscribers to this stock to be furnished with certificates, redeemable in pews. Those who hold several shares can dispose of them to purchasers of pews, and thus receive back their principal without loss. Those who hold a single share are entitled to a pew of its value. The Church is by this means relieved of debt, and the responsibility left with the individual stockholders. It is also proposed to retain several pews for the exclusive use of the poorer members—not according to the present invidious custom, in *rear of the Church*—but scattered indiscriminately over the edifice. [Burlington Gazette.

CUBA EXPEDITION.—Reports have been circulated for several days that enlistments were being made in this city, at $7 a month, and $1,000 at the end of the year, and that a vessel was shortly to sail with them for the Gulf. We have good reason to believe that these reports are founded in fact, but what the real facts are, we have been unable to ascertain on account of the secrecy observed by the parties. The U. S. Marshal and District Attorney have been notified from Washington to keep a vigilant eye upon the movement. [Baltimore Pat 23th.

A BIG MAJORITY.—Ned M Gaughey, who was rejected by the U. S. Senate as Governor of Minnesota, has been elected to Congress from Indiana, by a majority of more than eighteen hundred. McGaughey rolls up a big majority. The rejection of him as Governor of Minnesota because he was not a 'six footer,' was rich. The men of small calibre who urged this objection, after sending little Ned Hannegan to Berlin, forgot that the biggest man the world ever saw was styled by his men 'the little corporal.' [Cincinnati Dispatch, 22d.

PAINFUL RUMOR.—There is a rumor afloat in this city, as we learn from Mr. Kendall, who took charge of his library and rooms, that Dr. A. Randall has been killed in the wilderness, on the route to the Rocky Mountains. The news is said to have been brought by Mr. Johnson. The man who is said to have killed Dr Randall, lived near Hamilton, in this State. His name is given as Kimball. A quarrel about a mineral was the cause. [Cincinnati Commercial, 23d.

REFUSAL TO RECEIVE THE VOLUNTEERS.—I understand that a communication was received by the Governor yesterday, [Aug. 15] from the Secretary of War, *refusing* on the part of the General Government to receive the volunteers, mustered in pursuance of orders from the State authorities, into the service of the United States! [Florida, Tallahassee, correspondence of the Savannah Georgian.

SCHOOLS.

ST. PAUL'S COLLEGE COLLEGE POINT,
NEAR FLUSHING, LONG ISLAND, N. Y.

THE TWENTY-SECOND SESSION of this Institution will commence on the first Monday of October next. Pupils are admitted into the primary classes at 10 years of age, and into the collegiate classes whenever they have attained sufficient scholarship.

There is two months' vacation of the Institution in the year. It commences on the first Monday in October, and ends on the first of August.

It is requested that all who desire to place their sons in the Institution will present them for admission at the beginning of the session in October. Pupils are received, however, after the Christmas and Easter recesses, and on the first Monday in March. Application to be made to the Rector at College Point.

MECHANICS' SOCIETY SCHOOL.—This excellent and very popular institution, situated 474 Broadway and extending through to Crosby-st. will be reopened on Monday, the 3d of September, under the most highly favorable circumstances. The various rooms have, during the present vacation, been thoroughly repaired and many improvements made, which will add very much to the convenience, comfort and happiness of the pupils.

The male department is under the charge of Mr. James N. McElligott as Principal, assisted by Mr. C. J. Conway as Vice Principal, and six other competent and experienced teachers.

The female department is under the charge of Miss Mary Y. Bean as Principal, assisted by Miss Mary L. Moffatt, as Vice-Principal, and six other accomplished and efficient teachers.

Those parents who may place their sons and daughters in this institution may rest assured that in the high moral and intellectual standing of the teachers will be found a very sure pledge that the mental and moral powers of their pupils will be under the most able and enlightened course of training.

In addition to the usual English branches, Latin, French, Drawing and Vocal Music are taught in the ordinary course. In the Classic Department, young gentlemen are conducted through a course of study, both classical and mathematical, so thorough and extensive as to meet the the requirements for admission into any college in the country.

Application for admission into the Institution may be made to either of the Principals, or to any one of the School Committee. HENRY T. INGALLS,
Chairman of the School Committee.

OAK HILL CEMETERY.

THESE GROUNDS are located on the banks of the Hudson River, and offer a location to which every variety of hill and dale, the exclusion of which is required, free from the din of business, and dangers of the city, and yet easy of access to it, it commands a prospect which challenges comparison; it is not a bleak and barren hill nor a bare common. It is not a field of sand or a table of rock—but all that could be desired, and cannot fail to give satisfaction to those who may visit it. Price of plots $20, including grading; single grave for an adult, $8; for a child under 12 years, $4. From 40 to 100 persons may attend a burial at Oak Hill Cemetery for the price of one, viz. from $4 and less than $6. 124 cents each way. Persons wishing to purchase would do well in making a trip to these grounds before selecting elsewhere, as we consider this to be the cheapest burial place now offered to the public. All sextons of New-York are authorized to arrange burials and sell lots in the Cemetery.

MEDICINES.

SANDS SARSAPARILLA
IN QUART BOTTLES,
FOR PURIFYING THE BLOOD, AND FOR THE CURE OF

Scrofula,	Mercurial diseases,
Rheumatism,	Cutaneous Eruptions,
Stubborn Ulcers,	Liver Complaints,
Dyspepsia,	Bronchitis,
Salt Rheum,	Consumption,
Fever Sores,	Female Complaints,
Tetter,	Loss of Appetite,
Pimples, Biles,	General Debility, &c.

THE RECORDS OF MEDICAL SCIENCE, abounding as they do with ample testimonials to the value and efficacy of different medicinal agents, scarcely furnish a parallel with the results recorded from a multitude of living witnesses to the great worth of Sands' Sarsaparilla. The remarkable cures of a great variety of diseases effected by its timely administration furnish conclusive evidence of this fact, and the experience of fourteen years has won for it a popularity that no other preparation ever attained. Its extensive use throughout the world, and the numerous unsolicited testimonials received by the proprietors, stand as a guarantee and inspire the invalid with the hope of a speedy and permanent benefit. My daughter's skin assumed a new appearance entirely; from being rough, hard and scaly, it became smooth and soft. My wife's sufferings are almost gone, and its use a short time longer, it is my firm belief, will produce a perfect cure.

Yours, with respect, G. S. HENDRICKSON,
Pastor of the Baptist Church, at the English Neighborhood.

HAMESTOWN, Ky July 10, 1849.

MESSRS. SANDS—*Gentlemen*: It is my duty to communicate facts in relation to the beneficial effects of your Sarsaparilla. My wife was afflicted with inflammation and soreness of the stomach of the worst character; her limbs and chest were much swollen; she had constant headache, and last Spring was attacked severely with inflammatory rheumatism. The best medical aid we could obtain afforded only momentary relief, and, while in this situation, she heard of the many remarkable cures effected by the use of Sands' Sarsaparilla, and immediately commenced its use, which produced instant relief, and less than six bottles entirely removed all the dropsical swelling and every other inflammatory symptom, restoring her to perfect health. I feel the sincerest pleasure in thus bearing it to be my duty to encourage the suffering portion of the human family to use Sands' Sarsaparilla, which I believe has
