COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page.

MONDAY, Sept. 10—P. M.

The Stock market is quiet and without marked change in prices. Governments are steady and in fair request. The tendency of the Fancies is upward, but there is but little of the spirit of speculation afloat.

In Exchange there is yet but little movement. Sterling is 9¼@9¾, but good bills can be had less, and there is not much inquiry. France are dull.

In Freights we do not here of much doing. To Liverpool 500 bales Cotton were taken at 75 cts. per bale, and some Dead Weight at 15s @17s. 6d. To London about 1,000 bbls. Naval Stores at 1s6d. To Havre, Cotton ⅛c.

The amount of coin in the Sub-Treasury is now larger than ever before known and is still increasing. As yet the accumulation has produced no effect on the Money market, as the Banks have still ample supplies in their vaults. This large abstraction of coin, however, from the Banks shows the ability of the Sub-Treasury to do mischief when the Banks are in a less favorable position. The Receipts at the Treasury, today, were $100,000; Payments, $27,092; leaving a balance, $3,535,000.

It is expected that a locomotive will be run on the Hudson River Road on Wednesday or Thursday, as far as Sing-Sing, and in all next week as far as Peekskill. The road is finished to Peekskill with the exception of a few spots. The report made last week by the Company, of the condition of the work, has had a very favorable effect upon the stock, which sold to-day at 64, an improvement of 4 per cent.

The Somerville (N. J.) Road have made a contract for their iron, about 3,000 tuns, in the neighborhood of $42 per tun, delivered here. The *Ledger*, by the way, says:

The English iron, we have understood, that is offered here to our Railroad Companies at $40 per tun, has been found so inferior in quality as to be dearer than the domestic manufacture is at $50 per tun—and the probability is that a trial or two of the foreign low priced article will prove what is now asserted, and its use be abandoned for our own cheaper though higher priced article.

We have heard no such complaints, and the above probably emanated from some from some friend of a low Tariff.

The total exports of Specie last week were $76,175, and since the 1st January $1,913,109.

A proposition was made at the Board of Brokers, this morning, that the Stock of the Morris Canal Company should be consolidated into one quarter the amount, thus reducing the nominal amount of capital, but proportionately increasing the value; one share of the consolidated stock to be equal to four shares of the present. The proposition was not acted on; but was laid on the table.

The Atlantic Bank, Brooklyn, has declared a dividend of four per cent for the last six months.

The recent advance in Pennsylvania Five Per Cents, is supposed to be caused by purchases for account of the Sinking Fund, which amounts to $200,000. There is, however, no positive evidence that such purchases are being made.

At Boston business continues to improve and merchants are very busy. Money was easy and the Street rate was eight per cent.

Mr. Alvah Crocker has been elected President of the Norfolk County Railroad, and it is thought this road will now be relieved from its difficulties. Creditors to the amount of $200,000 have agreed to take the bonds of the Company in payment of their claims. The outstanding debt is $200,000.

The Baltimore exports for August were $631,234 against $545,188 same month last year. The Mobile exports for the year ending June 30, were $12,823,735, of which $7,469,900 went abroad in American bottoms.

The total coinage at New Orleans for June, July and August, was $745,000, of which $255,000 was in gold and $490,000 in silver.

The following comparative table of the production and consumption of Cotton, for the last fifteen years, will illustrate the doctrine of over-production, and may afford some data to that class of writers who are converts to this theory:

	Production.	Consumption: In Europe.	In America.	Total.
1834	1,254,000	1,092,000	221,000	1,252,000
1835	1,360,000	1,106,000	236,000	1,342,000
1836	1,422,000	1,097,000	222,000	1,322,000
1837	1,800,000	1,092,000	240,000	1,332,000

1842	2,379,000	1,689,000	325,000	2,014,000
1843	2,030,000	1,643,000	347,000	1,990,000
1844	2,394,000	1,870,000	380,000	2,250,000
1845	2,100,000	1,850,000	422,000	2,281,000
1846	1,780,000	1,520,000	417,000	1,934,000
1847	2,348,000	2,002,000	321,000	2,323,000
1848	2,700,000	2,312,000	600,000	2,912,000
Total	28,422,000		Total	28,279,000

Fifteen years ago the crop was 1,254,000 bales, and the consumption 1,252,000, or nearly equal. In 1848 the crop had more than doubled, say 2,700,000, and the consumption will probably reach 2,900,000. The production of the entire fifteen years, it will be seen, is 28,422,000; and the consumption 28,279,000.

At Louisville the Money market is rather tight.

Markets.....CAREFULLY REPORTED FOR THE TRIBUNE.
MONDAY, Sept. 10.

ASHES—Are steady, but quiet. The sales are small, at 6 44@6 50 for Pearls, and 6 87½@6 87 for Pots.

COTTON—The market is a little more firm to-day, with sales of 1,000 to 1,200 bales. The accounts from the South—Georgia, New Orleans, Alabama and Louisiana—are more favorable for the crop, but from south Mississippi the accounts are still bad.

	Florida & Uplands	N. O. Tex & Mob
Inferior wanted	8¾	8¾
Ordinary and good ordinary	9 @ 9¼	9 @ 9¼
Middling to good middling	9¾@10¼	9¾@10¼
Middling fair and fair	10¼@10¾	10 @10¾

The Savannah Georgian says: A private letter to a friend in the city, dated near Tallahassee, Sept. 1, states "the cotton crop is almost all the finish breakbolls and are rapidly eating the top and young forms, &c. My opinion is, the weather of the top crop entirely determines the crop. What with the rains and wet weather, in addition to the appearance of the caterpillar, the Cotton crop in our section will be very short."

The Charleston Mercury has the following relative to the South Carolina prospects: At Edisto the caterpillar has appeared in several fields, whether they will do much injury or not we cannot say. In Kiatts the crops are very far from being good, the generality of them quite bad. They have been badly diseased; but what is most remarkable is, the caterpillar has not appeared to several fields. They are in the neighborhood of Mr. Mazyck's Mill on the Mercury. I don't think they will be very general, as it is now late for them to pass through the three changes of brood and do much injury.

The Fairfield (S. C.) *Herald*, of Sept. 1, says: "We much regret, from some of our most experienced planters, that the Cotton crop in Fairfield District will not average over half a crop in comparison with previous years. The severe drouth which is now experienced causing the forms and blossoms to drop, literally covering the ground, as well as severely scalding the bolls, and consequently causing a loss of that which was forthcoming on maturity."

FLOUR AND MEAL—The market is again lower for Flour, with a moderate demand. The supplies exceed the demand, although not exceedingly large. The shipping is confined to inferior descriptions. The quotations are irregular, but generally 6c to 12c below those of Saturday. Many of the quotations are nominal. The sales are 1,000 bbls. Other sales are supposed to have been made privately. Corn is also easier for the buyer. Sales 27,000 bushels at 60@61c for mixed, 60@61c for No. Yellow, and 60@61½c for Yellow. NAVAL STORES—Crude Turpentine is 2 75, but we hear of no sales. Rosin is improving, and in fair demand. Sales 1,000 bbls. at 1 90 for North County, and 1 95c for Wilmington. A sale of 300 gals Spirits was made at 29½c, cash.

SAVANNAH, Jan. 31, 1849.

Messrs. Editors—Having been requested to testify to the properties of Dr. Wistar's Balsam of Wild Cherry, I take great pleasure in stating that I have frequently used it myself and family, and have found it unfailing during the past two years in cases of obstinate coughs, colds, soreness of the chest, &c. and always with the most happy result, and such is my unbounded confidence in its merits, that I prescribe it for my friends in each of the above cases as the first and most efficacious remedy. I am also fully convinced that if given in the incipient stages of consumption, it would be found a speedy remedy and sure preventive of that fatal and much dreaded malady. Wishing its proprietor an extensive sale, and regretting that its virtues are not more universally known, I am yours, &c. E. P. H.
