Not classed—Messrs. Allen, of Mass. Giddings and Root of Ohio.

The above table is arranged to show as nearly as possible the actual sympathies of the Members as between the two great parties dividing the Union. In it we have placed Messrs. Booth of Conn. Julian of Ind. Preston King of N.Y. Wilmot of Pa. and Durkee of Wisc. (all distinctive Free Soilers) in the Loco-Foco column, because we believe they severally lean that way. We have placed Messrs. Mann of Mass. Sprague of Mich. Tuck of N.H. Campbell and Hunter of Ohio, and Howe of Pa. in the Whig column, because they were elected mainly by Whig votes, are in feeling and principle Whigs, and we presume will vote for a Whig Speaker whenever required to choose between a Whig and a Loco-Foco. Mr. Allen of Mass. we cannot vouch for, but we believe he too prefers Whig to Loco-Foco ascendency. Messrs. Giddings and Root at present incline the other way, but their Districts do not, and we cannot guess how they will ultimately vote. The three 'Taylor Democrats' from South Carolina will vote for a Loco-Foco Speaker if he signed and approves the Calhoun Address of last Winter; and it is doubtful whether any of the Members from that State will vote for any other. But none of the 'Free Democracy' can afford to vote for a signer of that Address, while John Wentworth and several more of the regulars will have hard work to do it.—On the whole, our conclusion is that ROBERT C. WINTHROP will have the most votes for speaker on the first ballot, as we trust we may have on the last, but that is at best but a probability.

☞ *The Express* declines any further controversy respecting the alleged injustice done to Adopted Citizens in our City nominations for office, on the plea that such discussion would not be "profitable to the Whig party."—That, in our judgment, would be or not be according as the exposure of a wrong should or should not lead to its redress.

But The Express does not decline to catch at our remark respecting the preference of another to an Adopted Citizen as a candidate for County Clerk, which it says refers to

"Mr. Robinson, *one of the writers in the Tribune*, now holding the highly lucrative and not laborious office of Measurer in the Custom House, but for a short time a resident of our City."

This paragraph has all the meanness without the boldness of falsehood. Mr. Robinson did formerly write for The Tribune, but relinquished that connection to embark in a paper of his own some weeks before Gen. Taylor became President. He has never since had nor professed to have any connection with this paper, though he may possibly have contributed a paragraph to its columns once a month, as he doubtless has done to other papers. His "highly lucrative" office pays him $1,500 a year, (good enough,) and we are very sure the fact that he had formerly written for The Tribune did not weigh a hair either way with the Collector in making him a Measurer. If he had not claims, apart from that, then no man had.—Mr. Robinson was a resident of this City before either Hon. James Brooks, Editor of the Express, or Hon. George Briggs, two gentlemen who had resided here long enough, a year ago, to be deemed fit to represent us in Congress—a judgment in which we heartily concurred.—But there is no question pending as to the fitness of any particular Adopted Citizen for some special office. What we contend for is the practicability of finding Adopted Citizens who *are* fit, and that we are confident can and will be accomplished.

NEW-YORK ELECTION.

Latest Telegraphic Reports to The Tribune.

ONONDAGA CO.

SYRACUSE, Tuesday, Nov. 13—P. M.

The official canvass of this county reflects GEORGE GEDDES, Whig Senator, by *one hundred and four majority.*

On the State Ticket, there is a small Loco-Foco majority. Lott, 95; Follett, 76. Yours, V.

ST. LAWRENCE CO.

OGDENSBURGH, Tuesday, Nov. 13—1 P. M.

The steamboat from Ogdensburgh is just in. St. Lawrence has elected one Whig Assemblyman, perhaps two. The State Ticket is said to be only 600 to 700 Coalition majority.

JEFFERSON CO.

The average majority for the Coalition State Ticket is about 400—less against Spencer and Beach, (of course, then, more against the other.—Ed. Trib.)

THIRD JUDICIAL DISTRICT.

WM. B. WRIGHT, Whig, is reelected, it is set, by a small majority. He has (official) in Albany Co. 1,197, in Greene 119, in Rensselaer Co. 106; total, 1422. Hogeboom has in Columbia, 595.

[We do not the less believe Judge Wright is re-elected. Allow that Schoharie will use up his 800 official majority above, we know that Sullivan has given him something, and believe Delaware has given him 400, which we are confident Ulster has not overborne. Still, it is a close run, and Judge Wright may be beaten. Ed. Trib.]

UTICA, Nov. 13, 1849.

Harvey Brayton, Whig, is beaten 54 votes for Assembly in the Northern District. We have but one Whig in this County.

[Our dispatch closes as follows:

"Henry Gray, Whig, has a majority of 1,051."

The majority is of course a blunder, and we apprehend it is a blunder that Mr. Gray has any majority at all. We don't; half believe this dispatch was put on the wires at Jackson, Miss. as late as its date, (Monday), when the result must have been known there. In short, we consider it a Roorback altogether, and caution all Whigs against being bit by it. Hinds, (no vote for Congress sent) has of course given Gray a good majority, but we believe he is beaten a hundred or so, as an older dispatch to The Union affirms. We put McWillie in our table as elected, but stand ready to take him out again on the shortest notice.

WISCONSIN.—We tried to say yesterday that the vote in this State was *Whig*, but it was printed *right*, which is very wide of the fact. Not two-thirds of a full vote has been polled, and nominal Democracy had everything its own way, electing its State Officers and at least three-fourths of the Legislature.

☞ WILLIAM ALLEN of Ohio, late U. S. Senator, is proposed in several Loco-Foco journals of that State for next President. DAVID T. DISNEY of said State is now proposed for Speaker of the House. They had better secure one of these snug berths before 'going in' for the other. Gen. Sam. Houston is suggested for Vice-President. He is best for Vice of any thing.

☞ Col. JAMES WATSON WEBB, we understand, has been tendered the post of Charge d'Affaires to the Court of Naples, but declines it.

GEORGIA.—The Inaugural Message of Governor TOWNS was delivered on Wednesday last. It is brief, filling barely half a column. He alludes in quite a rapturous strain to the varied products of the State, and its finely planted and prosperous Agriculture; says that ignorance must be banished, the disorders of the State removed, and quiet restored to the public mind. In conclusion, the Governor asserts that he has no motive but to serve the State, and no ambition but to prove useful; but declares himself 'on hand' to maintain his fellow-citizens' rights, and to protect their interests by all the weight of his authority.

TENNESSEE.—Parties in the Tennessee Legislature are exactly equal. The Opposition have three majority in one House, the Whigs have three in the other; on joint ballot there is a tie. Hence, when they go into convention for elections, there is a dead lock, and nobody is elected. They tried to elect a Judge on the 19th ultimo, but gave it up after four ballottings, tie and tie all the time. [Nat. Intel.

Taking the Presidential vote as the test, says the Republican—and the Coalition have sturdily claimed it as the only true one—and the Whigs gain in the above towns **10,106** votes.

These 265 towns include the whole State except Barnstable County and a portion of Berkshire, with a few scattering towns of other Counties, which will not materially vary the result. The Republican thinks they will be for, rather than against us. Of course there is no choice of Governor by the People, but the Legislature will take care of that part of the business.

[Very few towns remain to be heard from, and they cannot materially vary the result.]

CROPS IN GEORGIA.—A Milledgeville Correspondent of the *Savannah Republican*, says that the prospect of the cotton crop is more promising than it was some weeks ago. The weather is still very favorable, it being dry and warm; and the impression seems to be general that the crop will be larger than was anticipated.

Hebrew Benevolent Society—Anniversary Dinner.

The Anniversary of the Hebrew Benevolent Society, in connection with the German Hebrew Benevolent Society, was celebrated by a Dinner at the Apollo Saloon last evening, at which sat down something more than three hundred and fifty persons—Among the invited guests present we observed Dr. RAPHALL, Dr. S. M. ISAACS and Dr. LILIENTHAL of this City, Dr. LEWEN of Philadelphia, M. SCHLESINGER, a political refugee from Germany—a number of the members of the Common Council, and others.

The saloon was fitted up with appropriate decorations, and the evening was enlivened by excellent music from Lothian's Brass Band. At 7, the Dinner was served, and when full justice had been done to the viands spread forth therein, the customary routine of toasts, speeches and contributions followed. At a late period in the evening, a number of letters from distinguished gentlemen, excusing themselves, were read by Maj. NOAH, who presided. Among them were two from Hons. DANIEL WEBSTER and Wm. H. SEWARD. We regret that our limited space this morning prevents our copying any portion of these letters or the regular toasts of the evening—the latter about a dozen in number, and which called forth appropriate addresses from Dr. ISAACS and Dr. RAPHALL.

The two Societies thus joined in one Anniversary are impelled by similar objects, and both inculcate the fundamental Christian principle of Charity in all things. It appeared last night from a statement by Maj. Noah, that the expenditures in improving the condition of the poor during the past year have been about $7,000, and the income of the Societies for the same period a similar sum. The exchequer must have been well replenished on this occasion, to judge from the prompt cheerfulness with which donations were showered in upon the Secretaries. The amount received up to the time we left (near 11 o'clock) was in the neighborhood of $2,000, with a prospect of the festivities continuing till well into the small hours of the night. The occasion throughout was characterized by much good feeling, harmony and pleasure.

Late from Jamaica—The New Tariff.

By the English Royal Mail Company's steamer, from Bermuda, we have received our Jamaica correspondence to the 23d October, two days later than the Crescent City's dates from that Island. The day previous to the Crescent City's sailing, the new Tariff (after being 19 days in abeyance,) passed the Council and received the Governor's signature. We subjoin a copy of the Tariff for the information of shippers, time not permitting our correspondent to send the particulars by the Crescent City. The new bill differs from the one thrown out by the Council, inasmuch as it admits of the surplus remaining in the Treasury, received under the bill, also providing for the police, prisons, hospitals, and interest of the island debt, to be applied "to general purposes," thus admitting of the officials' salaries being paid from that source—whereas in the rejected bill the surplus was to be applied to the liquidation of the island debt, without any provision being made for the holders of office. This step was adopted by the Assembly with the view of forcing the Council to accede to a retrenchment of the public expenditures. The question of Retrenchment, although loudly demanded by the people, still remained in abeyance, but it was expected that the matter would be shortly taken up by the Assembly.

A clause was inserted in the new Tariff bill, subjecting all cargoes that had arrived between the 5th Oct. and the passing of the bill to the old rates of duties. This of course was very unacceptable to parties receiving cargoes during that period, who expected as no Tariff was actually in existence, that their goods would pass duty free. Some dissatisfaction was felt on this point, but the number of grumblers is small. The Island Chest was reduced to its last ease.

The weather was favorable for the Planters, and the island was generally healthy.

The following is the new Tariff:
