Terrible Tragedy at Macao.

By a late arrival, the following dispatch, announcing the assassination of the Governor of the Portuguese settlements at Macao China, has been received by the Secretary of the Navy. Whether this foul deed grew out of certain disturbances which occurred at Macao, some time before, between the Portuguese and the Chinese, or was a new and deliberate manifestation of the hatred of the natives to foreigners generally, is not stated. It is probable both causes had their influence. The catastrophe produced, very naturally, the greatest anxiety and consternation. Commodore Geisinger seems to have acted with promptness and energy in furnishing the American citizens all the aid within his power to bring to their protection. The public vessels of other nations, on that station, will of course do the same for their respective citizens, and for the general security.

U. S. FLAG-SHIP PLYMOUTH,
MACAO ROADS, Aug. 26, 1849.

SIR: I have the honor to communicate to the Department information of a horrid tragedy, attended with circumstances of unusual atrocity and barbarity, which occurred in the immediate neighborhood of the City of Macao, on the afternoon of the 2d inst. His Excellency, J. M. Ferreira de Amaral, Governor of Macao, who was taking his customary evening ride on horseback, accompanied by his aid-de-camp, both unarmed, was waylaid by some six or eight Chinamen, and brutally assassinated in the public road at a short distance within the barrier gate that separates the Portuguese from the Chinese territory. His body was much mutilated, and his head and hand had formerly (one his right arm) were cut off and carried away. No clue has yet been had to the perpetrators of this foul deed.

By this deplorable death her most faithful majesty has lost an energetic and truely servant, and the Colony of Macao an upright, public-spirited, and much loved Governor.

You will perceive from the protest of the Council of the Government, (a translation of which is herewith inclosed,) that allusion is made to placards that have appeared from time to time at Canton, offering a large reward for the Governor's head, and that the suspicion is cast upon the Chinese authorities of Canton, of conniving and sanctioning the crime.

The audacity of this cruel and premeditated murder filled the public mind with astonishment and consternation, and evinced no little apprehension of the foreign community here, that (at the request and with the consent of the authorities) I instantly ordered a force, necessarily small, to be landed from the Dolphin for the protection of our countrymen on shore in case of need, and dispatched a flat boat to Whampoa with orders for the Plymouth to tender to this place with all dispatch.

Upon receipt of the intelligence at Hong Kong, her mail-steamer Medea, having the ship Amazon in tow, proceeded to the place, and arrived here on the evening of the 23d inst.

I have the honor to be, very respectfully, your obedient servant,
Signed D. GEISINGER,
Commanding U. S. Squadron East Indies.
HON. W. B. PRESTON,
Secretary of the Navy, Washington.

Burned to Death—The Tuscarora Markets—Stocks.

Correspondence of The Tribune.
PHILADELPHIA, Wednesday, Nov. 21.

A colored servant girl, aged 14 years, employed in the family of Mrs. Mary Field, of Southwark, was so shockingly burned yesterday morning, about 4 o'clock, while making a fire, that she died last night, at the Pennsylvania Hospital. This was one of the most terrible cases of burning that has ever occurred in Philadelphia. Strong hopes are entertained by the wreckers of getting the Tuscarora afloat. Her cargo is now being discharged.

The Cotton market is dull, and prices are barely supported. Sales of 80 bales Upland, at 11@11¼ cents per lb. The demand for Flour is limited, and the sales are mostly confined to small lots for the supply of the city bakers, at $5@5¼ 12½ per bbl. for common and good brands, and $5 37½@5 62½ for extra. Rye Flour and Corn Meal are in limited request at $3 per bbl. Grain—The demand for Wheat is less active. Sales of good and prime red at $1 20@$1 7, and white at $1 15 per bush. Rye is scarce. A train of cars passed over the New-London Willimantic and Palmer Railroad, for the first time, from New-London to Willimantic. The President, Directors, and a host of invited and uninvited guests, made up the load. The Road is completed from Willimantic to New-London, with the exception of the bridges and a few hundred yards of the track at each end of the route. These would be finished in a week. The distance from Willimantic to New-London is twenty-eight miles—from Willimantic to Norwich about fifteen miles. The Road is in progress of construction to Stafford, Monson, Palmer, &c and will be finished in a few months. New-London and Norwich will then be in immediate communication with Springfield, Albany, Boston, &c. Willimantic is growing fast. Its business being mostly manufacturing, and with the immense amount of water power it has, it will not be long before it will become a second Lowell. The Road is excellent in every respect. Gen. Palmer of New-Haven is the Engineer, and he has done great credit to himself in so managing the whole work as to have it so soon in successful operation. It is not more than fifteen months since the Road was commenced. In a few weeks, at most, there will also be in full operation a railroad to Hartford.

Business on the Northern Railroads is increasing, and more particularly those near Boston. The receipts on the Fitchburg Railroad last month were $50,000; and on the Vermont and Massachusetts road were $14,000, the receipts of both the roads being $19,000 more than last year. Other roads also show great improvement.

The amount of Gold received at the Branch Mint in Dahlonega, Ga. during the month of October was $35,000, of which about $800 was California, and the remainder Georgia. The amount coined was $30,428, of which $3,950 were of gold dollars.

A bill has been reported to the Vermont Legislature taxing Railroad stock held by non-residents. It is said there are $5,000,000 of Railroad stock of that State owned by foreign stockholders.
