The exports of Domestic Products for the week ending Dec. 15, from Boston, amounted to $119,957 21—foreign, $44,726 33. Same time in 1848, domestic, $386,666 73; foreign, $55,496 52.

At Philadelphia there is an increased demand for money and the out-door rates are 6@9 per cent.

The *Buffalo Commercial Advertiser* in an article on the deficiency of the General Railroad Law recommends the following plan for adjusting this matter and for relieving the Legislature of the undue influence of Railroad lobbying, as one that ought to receive the favor of both parties to the question:

1. Modify the 21st section of the General Railroad Act, so as to enable corporations framed under it, to acquire title to lands without a special application.

2. Allow every existing Railroad corporation to construct such branches as they may think proper with the like power to acquire title to lands.

3. Allow any two or more existing Railroad corporations, whose lines of road are contiguous, to consolidate or amalgamate.

4. The Directors of existing Railroad corporations not to be permitted to exercise the powers contained in the last two clauses without the consent of two-thirds of the Stockholders at a meeting called for the special purpose.

The chain of Railroads from Savannah and Charleston to the Tennessee river, at Chattanooga, near the Georgia and Tennessee State line, is completed by the opening of the north-western section of the Western and Atlantic Railroad. Cars reached Chattanooga on the 1st inst. when an appropriate celebration took place at that village. The chain of railroads from Savannah to Tennessee is as follows: Miles.

NOTICE OF DISSOLUTION.—The partnership formerly existing between NICOLL SANFORD and the subscriber, under the firm and style of N. SANFORD & CO. or SANFORD & FORTES, was dissolved by mutual consent, on the 23d day of November last.
Dec. 17, 1849. [d17 1w*] FRANCIS M. FORTES.

CANADIAN TRADE.—The shipments of Canadian produce through this port under the warehousing law has largely increased during the season just closed. Among the articles thus shipped through in bond for export to foreign ports, the present season, there have been 209,000 bbls of flour, including some 2,000 or 3,000 bbls, to go forward by railroad. Over and above this amount, some few hundred barrels of Canadian flour have been sold at this port and paid duties here—probably not over 500 barrels. There have also been imported into this port 631,909 bushels of Canadian wheat, of which 379,912 bushels have passed through in bond for the seaboard, and 243,997 bush. have been sold, and have paid duties here.

The Canadian wheat crop of this year was uncommonly abundant and of excellent quality, nearly or quite equal to the best samples of Genesee. By the purchase and mixing of the last named quantity of Canadian wheat, our millers have been enabled to manufacture into superfine flour over a million of bushels of low qualities of upper lake wheat, which would not make flour required by New-York inspection for superfine. The process of mixing has tended to make a good market, and to enhance the value of both kinds at this point. [Oswego Times.

HOLIDAYS.

THE MOST ELEGANT AND USEFUL HOLIDAY PRESENT EVER PUBLISHED IN AMERICA.

THE BOUQUET OF MELODY, FOR 1850.

A COLLECTION OF SONGS, Duetts, Waltzes, Polkas, and Quadrilles, written expressly for this work and never before published, composed and arranged for the Pianoforte, by the most celebrated American composers.

The Embellishments are designed and executed by artists of the highest talent in the country, many of them being printed in colors—making, in all, the most attractive and elegant work ever offered to the public.

It is not as most Annuals, which, after one perusal, are thrown aside or kept as a mere ornament in the center table; it is a work that will be of utility for years, and will become more interesting with every perusal. The typographical style in which it is put up will make it a prominent place among the works of taste and beauty.

The music is composed and arranged with a view of being within the capacity of all classes of players, and, though it is far from being difficult, yet the most fashionable musician could not in any way find fault with the compositions. The contributors to the work are among the most celebrated composers in the country, and all their pieces are written with a view of combining general utility with the most perfect and unexceptionable style.

New-York, published by WILLIAM HALL & Son,

HYDRANTS—HYDRANTS.

INVENTED AT LAST, a Hydrant, for which letters patent have been applied.—The improvements are: It does not affect nor burst the tightest pipe, no wear to the valve, therefore, will not want to be renewed; will not waste water, the water is drawing; will not freeze if even out of order; can be repaired and warranted as good as new by any plumber; its is cheap as the old and still have been approved by the best plumbers in the city. To be seen in operation at 327 Bowery, one door above Second-st, where a sight from the most minute examiner will convince of its merits, and of its being a new invention. I cannot say imprimatur.
