our own merchants and from neighboring cities. The supply, however, is equal to the demand, and there is no change to notice in rates. Best short paper goes at 7@8 ⅌ cent, with an occasional sale of favorite names at 6@6½. Six months paper goes at 9@10 ⅌ ct for best signatures. Considerable good paper, however, is sold at 11@12 ⅌ cent. On first-class collateral short-call loans are making at 5@6 ⅌ ct. The Banks are discounting liberally, but cannot do everything which is offered.

The address of the Directors of the Erie Railroad Company, which we published yesterday, is one of the most satisfactory which has ever been published by that Company. It is a candid representation of the affairs of the Company, and a conclusive answer to the infinitesimal attempts of interested parties to destroy the credit and embarrass the operations of this Company. Even the questionable satisfaction of success is denied these parties, and the Road will go on triumphantly to fulfill its great mission of prosperity to this City and to the whole country, leaving its traducers to endure the contempt of the whole community. The people of this City, and of the Southern tier of Counties, owe a large debt of gratitude to the Directors of this Road for the energy, faithfulness and devotion with which they have fulfilled the duties of the great trust committed to them. They have largely sacrificed their time and involved their property, and at last they begin to see the end of their labors. To use their own language, they have now reached a point in the progress of the work from which they can almost catch a glimpse of the shores of Lake Erie, and it must be to them a high source of gratification that the work has so steadily and successfully progressed to its Western terminus.

The exports of Coin since the first of January are only $96,000.

The Butchers' and Drovers' Bank has declared a dividend of 5 ⅌ ct for the last six months.

M. NOURSE Register ad interim.

The Bonds of the State of Alabama falling due in 1859 and 1860 have been extended to 1872, by an Act of the Legislature.

There were $133,500 of Federal Stocks transferred to foreign account at Washington, last week.

*Amount awarded to E. Mills in settlement, which enables the Company to part with one half of the bonds of the Government contract to the Havre line, for which they are to receive $400,000 from the United States. The balance will therefore be covered from the Havre line, but $67,679 beside, which are set down into consideration in this statement, and may be considered as additional profit.

Disasters, &c.

FAIR STORM.—Matters in report at the ship Rotan, before reported as wrecked at Moore Point, Hewitt, are substantiated up. Mr Aspinwall of St John, NB, owner of the ship, says she was not injured. The cargo was coal, of which 30 tons of coal only could be in St John, the remainder having been taken out and delivered by vessels to England and the Provinces, and but little of it was stored in good condition. It is said the difficulty of using, protecting and getting the cargo to market will leave but a small profit to be divided by the stockholders.
