NEW MEXICO AND TEXAS.—In an address of several of the leading men of New Mexico to the people of that Territory, urging them to take measures for the formation of a State Government, the following passages occur:

Again: It is known to you that the Mormons have formed a Republican Constitution, sent it to Washington, and are preparing to send two Senators and a Representative to Congress, and will demand admission as a State—claiming the Sierra Madras as the line between New-Mexico and their State of Deseret. It is also known to you, that California is supposed to have formed a State Constitution, elected her Senators and Representatives and will claim, at an early day, admission into the Union. If Fremont's maps be drawn by Preuss, by order of the Senate of the United States, are evidence of any one fact, then it is established California will claim her line to run between us, as claimed by the State of Deseret, and on an average less than fifty miles west of the Rio del Norte, and both may, at the same moment ask for the same identical territory.

Again: A table prepared for the President of the United States, under the direction of the Commissioner of the General Land Office, dated Nov. 22, 1849, gives to New-Mexico only the narrow slip lying between the Rio del Norte and the Sierra Madre—the balance to California; and that portion of New-Mexico which lies north of El Paso and the Jornada River, up to lat. 42° north, including the whole Santa Fe country, is marked on the map as a part of Texas. To this table is attached an appendix, dated Jan. 31, 1849, which shows no change of opinion in reference to the right of Texas to all of New-Mexico east of the Rio del Norte, up to that period, at the General Land Office. Are you prepared to yield your rights to all the territory between the Sierra Madre and the Pacific? Are you prepared to see us in Texas sell off the territory east of the Rio del Norte?—We are ready, and we trust you are too. Now remember this is no joke. If Senators and Representatives from Texas, California and Deseret shall be urging and demanding their claims, having the power to give four or six Senatorial votes and not less than three votes in the Representative branch, can we expect a full measure of justice, without a vote in either branch of Congress and with no voice in the Senate of the United States? It is impossible, and of this you may be ignorant.

But there are those who affect no apprehension in relation to the claims of Texas, although distinguished individuals, high in the confidence of the American people, have warned many of the citizens of this Territory against the dangers to be apprehended from it. It is known that Texas has already seized possession of the Salt Lakes, points, surveying and granting lands of New-Mexico as far up the Rio del Norte as Don Ana. Now, add to this fact another, of a yet more decisive and threatening aspect, and that is, the late Administration instructed the Chief in the Department to aid, rather than oppose, the extension of the jurisdiction of Texas over this Territory to the Rio del Norte, and no counter instructions have been received from the present Administration, and many believe the instructions of the former have been reiterated by the present. Are these fair warning to you, in the fane, are you willing longer to remain inactive, and all west quietly and passively to be swallowed up by California or the Sale of Deseret, and those east of the Rio del Norte forced into an unnatural and repugnant association with Texas, where you would necessarily be taxed to an amount greater than would be sufficient to support the Government of your own, in order to pay the millions which Texas now owes? If this is what you desire, do nothing, and be advised by the secret friends which Texas may possibly have in this Territory. It is especially incumbent upon us, fellow-citizens, to ascertain the truth in relation to the facts here submitted. We warn you, our nonentity is at hand unless you heartily yourselves believe.

Texas has already taken possession of your Territory as far up the Rio del Norte as Don Ana. She is quietly, day after day, approaching your capital, and if nothing can arrest her movements but the organization of a State Government,

JOHN P. HALE.—The *Elmira (O.) Courier* places on its name of Senator Hale at the head of its columns as a candidate for the Presidency.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks &c. see Fourth Page.

THURSDAY, Feb. 28—P. M.

The market for Stocks was rather quiet to-day. Governments were a shade below the highest rates of yesterday. The heavy foreign orders being then filled, a slight reaction has ensued. There are, however, no considerable amounts of these securities offering for sale. Indiana Fives improved again, selling at 80. At the First Board Sixes of '67 declined ½, and Reading Railroad ¼, Canton and Erie each advanced ½. The business at the Second Board was moderate.

The demand for Money continues quite active, but the supply is fully adequate, and is increasing. We have never known so active a mercantile demand, accompanied with so much ease and abundance. This feature of the times shows the immense growth within the past few years, of the monied wealth of the country.

In Freight there is but little offering except Grain. Corn is taken at 5½@5d in bulk, and 6½d in bags.—Cotton, 5-32d.

Exchange rules dull at 8½@8¾.

The Treasurer of the Philadelphia Mint has given notice to holders of certificates of gold deposits, that he is ready to pay No. 170, and all antecedent numbers.

The *North American* says: We are informed that the holders of the common loan of the Lehigh Coal and Navigation Co. are freely subscribing to an agreement to renew the said loan, and to receive certificates of loan for all the arrears of interest that may be due on the 1st of April, 1851; the Company, on their part, entering into an obligation to pay, from and after that date, the interest on all the common loans in money. The payments to be made quarterly.

A bill has been reported to the Senate of Pennsylvania, providing for the destruction of the relief issues.

In Boston, the demand for capital outside of the banks, on business paper, continues to slacken, and the surplus in the hands of lenders is gradually finding its way into week loans, which are still abundant, at rates ranging from 3@12 ⅌ cent. There are but very few loans of any description made in the street at less than 5 ⅌ cent; but lenders are now the applicants instead of borrowers, and the advantages of negotiation are with the latter class. Stocks are steadier in quotations, and rather inclining to further rise. The demand for Bank Stock is altogether beyond the supply, and prices throughout rule higher.

The bill authorizing the Boston and Worcester Railroad Co. to increase their capital stock in the sum of $300,000, has passed the Massachusetts House. An amendment, striking out a clause which provided that no dividend should be paid until the debt of the Company shall be reduced to 5 ⅌ cent. was adopted by a vote of 39 to 74.

The subscription of $250,000 applied for by the Michigan Southern Railroad Co. for the extension from Hillsdale to Coldwater has been taken, a large portion of it by the citizens of Jonesville and Coldwater, and other places along the line. A contract has been made with the contractors for the Cleveland and Columbus Road, for the construction of the division between Hillsdale and Coldwater, the work on which is now in progress. The division is 22 miles in length, and is to be completed by the 1st of August. The cost, laid with heavy iron rail, will not exceed $12,000 ⅌ mile.

A large Railroad meeting was held at Mansfield, Ohio, to promote the construction of the Ohio and Pennsylvania Railroad, through Richland Co.

The Stock Debt of the City of Baltimore is $8,454,481 79.

A Railroad Convention was held at Vandalia, Ill. on the 7th inst. at which the preliminary steps were taken for the immediate commencement of the Railroad from Terre Haute west across the State of Illinois to Illinoistown, opposite St. Louis, a distance of 160 miles. The Convention resolved that no obstacle shall prevent them from "*forming the connecting and closing link of our great chain of railroads from the Atlantic ocean to the Mississippi.*" Three Commissioners were appointed to open the books in each county, for subscriptions to the "*Mississippi and Atlantic Railroad Company,*" to remain open until the 1st of April next. It was resolved that, when the railroads from the east shall have reached Terre Haute, "Illinois will extend to them the hand of true sisterhood, and with a hearty welcome conduct them speedily and safely to the banks of the Mississippi."

A DISCERNING PUBLIC may see gratis at 101 Nassau-st, a list of the names and addresses of the persons of whom reference may be made, and who will, speaking from experience, say that it is entirely true that any lady may, by using my pills, get through the washing of her family however large, in one hour at an expense of less than 6 cents, without employing help or any machine or using cam phene, turpentine or any other material that will injure the clothes, or the person using it; no rubbing is required, the clothes will be of a beautiful color and remarkably clean than those washed on the antiquated plan. In addition to the testimonials from General Taylor, numerous Clergymen and citizens, also the laundress of Queen Victoria, I refer to the Editors of the following papers: Christian Intelligencer, New-York Daily Ledger, New-York Path-Finder, Norwalk Gazette, Rochester Register, Fairfax News Letter, Washington Telegraph, Shelby News, Webster Telegraph, Kinderhook Sentinel, Paterson Guardian, Northern News, Plainfield Union, Huntingdon Democrat, Lancaster Union, Cincinnati Times, Germantown Gazette, Bangor Advertiser, Maidstone Gazette, Manchester Constitutionalist, Professional Almanac, Frederick City Examiner, Fishkill Standard, Niagara Press, Rhinebeck Gazette, Peekskill Republican, St. Mary's Beacon, Derby Standard, Republican Advocate, Zanesville Messenger, Home Journal, Ellicott Mem'l, Free Mountaineer, Sullivan County Whig, Port Tobacco Times, The Lily, Savannah Republican, Vineyard Gazette, Scioto Gazette, Mother's Magazine, Boston Saturday Rambler, The Excelsior, New-York City, Burlington Gazette.
