NEW-YORK TRIBUNE.

Normal School.

From the Albany Atlas.

The Normal School for the State of New-York, was established by an act of the Legislature, in 1844, for "the instruction and practice of Teachers of Common Schools, in the science of Education, and the art of Teaching." Its sole object is to improve the teachers of Common Schools; and the course of study and the conditions of admission have been adopted with reference to that object.

Each County in the State is entitled to send to the School a number of pupils, (either male or female) equal to twice the number of members of the Assembly in such County. The pupils are appointed by the Town Superintendents at a meeting called for that purpose.

The following table will show the number of vacancies in each County at the close of the present term of the School, which the Town Superintendents will be expected to fill as soon as possible after the first of April. The next term of the Normal School will begin on the 14th of May.

☞ The *Seneca Observer* says Mr. Alpheus Miller, liquor merchant of Auburn, came to his death at Waterloo, on Saturday last, in consequence of drinking too much liquor. He was discovered by an individual to be their respective powers of drinking, and Miller fell a victim to his folly. His competitor escaped by vomiting the liquor from his stomach ere it had taken effect.

Disasters, &c.

SHIPWRECK.—The French brig Alexandre, Capt Clements, from Martinique, bound to Orleans, was wrecked on a reef of rocks off the Isle of Pines, about 11 o'clock on the morning of the 1st inst. It was a bright moonlight night, and the brig was going about four knots an hour when she struck. Every effort was made to get her off, but without success. The mate were cut away, and when morning dawned a low sandy island was discovered about seven miles off. A portion of the passengers, of whom there were twenty three, had already landed on the desolate island, when the Spanish brigantine Adriense, Capt Oliver, bore in sight and took on board all hands. A large portion of the passengers were poor French immigrants, who had nearly everything they had, and were landed in Havana in a destitute condition.

BUILDING SITES ON THE HUDSON RIVER—Situate between the Albany Post Road and the River, at Dobbs's, to be sold at Auction on the 26th April, at the Merchants' Exchange, by COLE & CHILTON, Auctioneers. The distance from the city by the Hudson River Trains is three-quarters of an hour. The fare is the same as to Dobbs' Ferry, and may be commuted quarterly or by the year. A part of the property fronting the water will be sold in village lots, and in plots on the upland to suit purchasers. The premises are strong land soil, planted and improved. The views are commanding and beautiful, and the position perfectly healthy. The Ferry with Piermont affords constant communication between this point and the opposite shore, and connects the Hudson River and Erie Railroads. The neighborhood is most excellent, including in the immediate vicinity the country seats of Messrs. Washington Irving, Ambrose C. Kingsland, Gen. Paulding, Mrs. Colford Jones, Messrs. Henry Sheldon, James A. Hamilton and George Schuyler, beside the residences of many gentlemen belonging to Westchester County.
Seventy-five per cent of the purchase money may remain on bond and mortgage. For further particulars application may be made at the Auction-house, on the premises to Mr. GEO. W. DEARMAN, at 5 Broad-st to G. A. SACCHI, or at the Auctioneer's office, 9 Wall-st, where maps of the premises can be seen. All the trains of the Hudson River Railroad stop at Dearman, and gentlemen who would view the premises may take the cars at Chambers-st, at 7, 8½ A. M. 3, 4½ and 6 P. M. and leave Dearman returning at 7 25, 9 21 A. M. and 1 23, 5 25, and 10 12 P. M.
N. B.—Persons wishing to build for the Summer can purchase at private sale on very liberal terms, on application as above. m29 3d&Tu25

SCHOOLS.

PRACTICAL BOOK-KEEPING.

NO. 15 CEDAR-ST.

MR. C. C. MARSH, ACCOUNTANT, Author of the "Science of Double Entry Book-keeping Simplified," and the "Art of Single Entry Book-keeping Improved," continues to teach as above.
Courses of Instruction.—The public is respectfully informed and assured that the plan pursued by Mr. Marsh in teaching the important branch, is truly a course of Practice in keeping books, rather than a course of Lectures on the Theory.
There are no classes—each pupil has a desk to himself, is put at once to keeping books, receives separate instruction, and thus becomes conversant with all the account books constituting a set, and also with many important mercantile calculations. Persons of moderate capacity, by this course, become competent book-keepers in about a month, and receive certificates to that effect.
Prospectuses, with terms, obtained at the rooms from 9 A. M. to 9 P. M.
BOOK-KEEPING IN SPANISH.—A beautiful edition of Mr. Marsh's principal work is published in Spanish. Price $1 25. For sale at the counting-rooms. 20t 1mmods

TARRYTOWN INSTITUTE.

A SELECT BOARDING SCHOOL for Boys, at Tarrytown, N. Y., A. NEWMAN, Principal.—This institution is pleasantly situated (neighbor of a male seminary of the village, near the spot on which Major Andre was hanged, and about half a mile from the steamboat landing and Hudson River Railroad.
In the institution young gentlemen will be thoroughly instructed in all the branches of an English and Classical education, requisite for commercial pursuits or entering college.
The Principal having been more than twenty years successfully engaged in his profession, feels himself fully competent to give satisfaction to those who may patronize the institution; and he pledges himself that special attention shall be paid to the manners, morals and intellectual improvement of the pupils committed to his care.
There are two terms in a year, each five months. The Summer term commencing on the first of May, and the Winter on the first of November. The price of board and tuition from $30 to $50 per term, according to the branches pursued.
Circulars containing particulars, references, &c. can be obtained at Spalding & Shepherd's bookstore, 154 Broadway, New-York, or by addressing a note to the Principal.

IRVING INSTITUTE.—LYON'S Classical and Commercial Boarding-School for Young Gentlemen, Irving Institute, Tarrytown, New-York. WILLIAM P. LYON, A.M. Principal and Proprietor.
This Institution was established by the present proprietor, and has been in successful operation under his management for twelve years past. None but boarders are received. The number of pupils has usually ranged between 40 and 50, of ages varying from 9 to 15. These are divided into four or more classes, under experienced and efficient tutors, and the constant supervision of the Principal, and are constantly and thoroughly instructed in every branch of a classical and commercial education. The Principal devotes himself to the well-being of his pupils, and is alone responsible to his patrons.
Tarrytown is distant but 25 miles from New-York, and is visited several times a day by steamboats and by cars of the Hudson River Railroad.
The pleasantness and excellence of carriage, and in general a beautiful development of the physical system, no Principal has introduced a course of elementary military instruction, in accordance with the U. S. Infantry tactics, under the superintendence of Col. W. W. Tompkins, of N Y.
The moral welfare of youth is always a considerations of the first importance; it is an object of solicitude with the Principal to bring his pupils to conduct themselves under the salutary influence of moral and religious principles, but without interfering at all with the tenets of particular denominations.
The Principal is at liberty to refer to distinguished gentlemen who have patronized his School, but deems it unnecessary to commend himself in the selection of names, as the institution is well known in New-York and elsewhere.
The Principal is determined that instruction in all branches shall be most thorough, elementary principles receiving that strict attention which their paramount importance demands.
For additional information apply to the Principal, at the Institute.
Prospectuses may be obtained at Clark, Austin & Co's bookstore, 205 Broadway; Raynor's bookstore, 76 Bowery, and at several of the principal Hotels. m21 2aw1w

WASHING MADE EASY, OR HOW TO WASH CLOTHES WITHOUT MACHINES, WASHBOARDS OR POUNDING BARRELS.

SEND ME ONE DOLLAR, free of postage, and I will send you, by mail, a printed circular giving plain directions for washing clothes that will enable one person to do all the washing of a large family before breakfast, thus avoiding all the confusion of a washing day. This method requires no machines, washboards or pounding barrels—no turpentine, no camphene or other offensive article—no rubbing the skin off your fingers—no tearing off buttons and wearing out clothes. This plan saves the clothes, makes them whiter, and never injures the finest fabric. The articles used cost but a few cents for a large washing, and can be obtained anywhere.
The Circular also contains directions for Clear Starching, Ironing Laces, Washing and Cleaning Silks, Kid Gloves, Removing Stains, Grease Spots, Mildew from Linen, Raising the nap of Velvet, &c. &c.
These are the greatest chemical discoveries of the age. All the hotels, steamers and large laundry establishments use the preparations for which I am selling rights.
To avoid imitations and counterfeits, be sure to direct your letter to Madame BEAVELT, Patent Laundress, 48 Ann-st, 2d floor, New-York, postage paid. m6 3wTuThSa

SAN FRANCISCO BANK.

EDWARD E. DUNBAR has erected in San Francisco a stone building for banking purposes, that is entirely fire-proof, and built in a massive and substantial manner. He receives on deposit money and treasure, and guarantees against loss by any cause. He draws a general banking and exchange business. Remittances between England and China or the East Indies can be made through him with a material saving of time and expense. Capitalists who desire to make investments on the Pacific side of the United States will find him thoroughly acquainted with all the movements there. The subscriber changes only markets that enable a capitalist to realize from 3 to 5 per cent per month, and embraces an amount of work every way worthy of his attention of able and experienced men.
The Company profess to do the whole work of constructing contracts of not less than 30 miles, and for that purpose parties wishing further information are invited to call at the office in Alexandria.
The bids will be made on a basis of payments in cash in the amount of 75 per cent, and the remaining 25 per cent in scrip of the Company. They must be sent to this office not later than the 10th day of April next, to be submitted to the meeting of the Board of Directors to be held on the 15th of the same. By order of the Board
T. C. ATKINSON, Chief Engineer.
For the information of parties at a distance it is well to state that Orange and Alexandria Railroad is now in money mine long and extends from Alexandria through Fauquier, Prince William, Rappahannock, Culpeper, and Orange Counties to Gordonsville, a point on the completed portion of the Virginia Central Railroad, formerly called the Louisa Railroad.
An inspection of the map will show that its connections promise to make it as valuable a thoroughfare as any in the Union. m21 2aw1t16*

DR. CHARLES MUNDE'S

WATER-CURE ESTABLISHMENT,

AT NORTHAMPTON, MASS.—Dr. MUNDE respectfully informs his friends and the public, that he has become owner of the late Dr. Ruggles's Water-Cure Establishment at Bonsecours, 2½ miles from the Northampton Railroad Depot, 7 hours ride from New-York, about 5 from Boston, and 3 from Albany, situated in one of the pleasant valleys of New-England, surrounded with the finest scenery, hills with shady walks, and abundantly supplied with the purest, softest and coldest granite water. The air is pure and healthy, and the climate mild and agreeable. The new and spacious buildings offer all the necessary conveniences for water-cure purposes, such as large package baths, douches and every bathing room for short patients by day, stay for either sex, a gymnasium, etc. The Doctor begs the public will now bring disciple of Priessnitz at Graefenberg, and having an experience of more than 13 years of his own, the writings on Water-cure being in the hands of every European hydropath, hopes to respond to any reasonable expectations from the water-cure system, made on the part of those sufferers who may confide themselves to him.
The establishment will be reopened on the 20th of March. For further particulars please apply to the above address.

HASTINGS'S COMPOUND

SYRUP OF NAPHTHA.

NOT ONLY A NOSTRUM, BUT

A WARRANTED CURE for consumption and all diseases of the lungs. The most eminent physicians decided the curability of consumption, and admitted the medical faculty and all who have used it, that consumption and all affections of the lungs cannot only be cured, but the very deadly and alarming forms, as almost any of the diseases to which the human frame is liable. The operations of this Syrup are so mild and delicate, that it is adapted to any period of life, and even a single dose gives evidence of its extraordinary influence in arresting and eradicating the malady by the immediate relief which it affords. This is no quack or secret remedy. Dr. Hastings, the discoverer, is one of the most eminent physicians of the age, and has made a life long study of the subject, and is the component parts in the world, not wishing to incur the responsibility of confiding to himself, for the sake of profit, a secret which was calculated to do such universal good. And such has been the wonderful results of its operations, that the London Lancet, Medical Times, and the most eminent physicians of both hemispheres, are unanimous in calling upon sufferers to have recourse to it, and the most eminent physicians of known standing, it alone has positively established in history by undeniable proofs of curing consumption and other diseases of the lungs.
The great authority of Hastings's Compound Syrup of Naphtha elevates the necessity of publishing certificates of cures. In fact, so far as can be ascertained, it has cured 19 out of every 20 who have used it, and probably no person has made a bottle but would be so grateful as to give a warm certificate in its favor, as others have already done without hesitation.
Probably two-third of the regular physicians on both sides of the Atlantic are now using Hastings's Naphtha Syrup, to their private practice, and many of them are becoming famous for its wonderful operations, and all diseases of the lungs entirely through its means.
None genuine without the written signature of M. A. P. HARRISON, on the wrapper. Price $1 per bottle, or six bottles for $5. Principal Office, 104 GREENWICH-ST.

WASHING MADE EASY, OR

HOW TO WASH CLOTHES WITHOUT MACHINES, WASHBOARDS OR POUNDING BARRELS.

SEND ME ONE DOLLAR, free of postage, and I will send you, by mail, a printed circular giving plain directions for washing clothes that will enable one person to do all the washing of a large family before breakfast, thus avoiding all the confusion of a washing day. This method requires no machines, washboards or pounding barrels—no turpentine, no camphene or other offensive article—no rubbing the skin off your fingers—no tearing off buttons and wearing out clothes. This plan saves the clothes, makes them whiter, and never injures the finest fabric. The articles used cost but a few cents for a large washing, and can be obtained anywhere.
The Circular also contains directions for Clear Starching, Ironing Laces, Washing and Cleaning Silks, Kid Gloves, Removing Stains, Grease Spots, Mildew from Linen, Raising the nap of Velvet, &c. &c.
These are the greatest chemical discoveries of the age. All the hotels, steamers and large laundry establishments use the preparations for which I am selling rights.
To avoid imitations and counterfeits, be sure to direct your letter to Madame BEAVELT, Patent Laundress, 48 Ann-st, 2d floor, New-York, postage paid. m6 3wTuThSa

TO LET.
