NEW-YORK TRIBUNE.

LABOR MOVEMENTS.

WATCH CASE MAKERS.—The Journeymen Watch Case Makers of this City number from 150 to 200 men, and a fine looking body of men they are. In the general uprising of the working classes, for advance of wages and the amelioration of their labor condition, these men have not been backward. Their first meeting was held, we believe, on Saturday night last. At that meeting the following scale of prices was adopted:

For Common Lepine Cases	$2 00
Solid or Bascine Cases	2 50
Lepine Case with gold cap	3 00
Lepine Case to fit the brass cap	3 00
Magic Imitation Case	4 50
Lepine Hunting Case	4 00
Lepine Hunting Case, with gold cap	5 00
Solid or Bascine-Lepine Hunting	5 00
Minature Cases	7 00
Double Bottom or Imt pr Cases	2 00
Double Bottom or Imt pr Cases, solid or bascine	3 50
Double Bottom or Imt Hunting Case	5 00
Solid or Bascine Hunting Case	6 00
Cooper open face Dome Case	5 00
Cooper Hunting, Dome Case	7 00
Solid or Bascine, Dome Case	8 00
Solid or Bascine, open face, Dome Case	5 50
Magic Hunting Cases	10 00

This bill was extensively circulated among the employers, and, we are pleased to say, almost every one of the shops agreed to it, only suggesting some very slight modifications. There are only one or two exceptions to a full acquiescence in these requests, and it is believed that these persons will finally agree. What makes it more singular is the fact that this bill of process if from 40 to 55 per cent. The success of these men is probably partly owing to the fact that their business is not very extensively carried on, and there are very few persons in this country who are expected in it. A great many of the watches used here are imported from France and Switzerland, already cased and ready for use. So many of the case-makers now here are of foreign birth, that it is necessary at their meetings to have a Vice-President who can speak French.

At the meeting last night at Stoneall's, R. W. G. Simpson was chosen President, Edward Humbert, Vice-President, and J. H. Grillis, Secretary. The principal business was the very favorable report from the Committee to wait upon employers, which we have sketched above. There were about 75 or 80 persons present. The subject of forming a Protective Association has been proposed, but they have not acted upon it. We trust the Watch Case Makers will so conduct their affairs as to merit success. If they do they will attain it. They have started well.

The TURNERS held their third meeting last evening at Mechanics' Hall, Hester st.—Mr. SCHILLING in the chair, and CHAS. KLINGENBACK (officiating as Secretary. The attendance was very large, and the highest degree of interest was manifested. A Corporation has been formed under the title of "The Turners' Association of the City of New-York"—to which over fifty members have been already added. The aim of this Association is that "each member shall be guaranteed work forever, and each receive the full value of his labor." The workers have struck for 12s. per day; and, in the event of the masters declining to accede to their demands, provision has been made for the establishment of receiving shops, or workhouses, where work shall be readily obtainable, by all who may be compelled to leave their old situations. The Turners' Association is formed for the purpose of forwarding the objects thus set forth, and to afford encouragement to any branch of the Trade which may at any time be in need thereof. The initiation fee is $1, with stated monthly dues. The regular meetings are held at the same place on Thursday evening of each week. All journeymen Turners in our City and vicinity are earnestly requested to unite with the Association in its efforts to advance the interest and well-being of their fellows.

NEW-YORK AND BROOKLYN INDEPENDENT SOCIETY OF SAWYERS.—The second general meeting of the Ship Sawyers, was held last night at the Assyrian Rooms, Third street, between Avenue D and Lewis streets. JOSEPH EUSTACE, President, and PATRICK COLEMAN, Secretary.

The Committee of twelve appointed at the last meeting, reported an excellent Constitution, through Mr. Coleman, from which it appears that this Society is a Trades Union for the preservation of a uniform rate of wages, so that no boss can take advantage of the journeyman by cheapening labor. The Sawyers now receive $2 per day, and get paid for piece work in proportion. These rates of wages were obtained by union among the workmen.

Provisions are made for the protection of the trade. The Sawyers have united into a society for the purpose of supporting the honor and interests of the trade. The Constitution was adopted by a unanimous vote. The initiation fee is $5, and 12½ cents monthly dues. The Society meets on the first Tuesday of every month. No strike can take place without the consent of the acting Committee, and an order from the President. Very strict provisions are made against working for under wages. A considerable number then came forward and were initiated.

A good share of the Sawyers are residents of the Eleventh Ward, Brooklyn and Williamsburgh, the greater portion of them being employed in sawing logs and timber in the East River shipyards. It is supposed that there are upward of 400 of these hardy artizans employed in New-York and vicinity. The permanent officers of the Society are to consist of President, Vice-President, Secretary, Treasurer and Standing Committee to be elected quarterly. The Sawyers have gone to work understandingly, and have considered upon every step for the good and welfare of the trade in the drafting of regulations for the Government of their Society.

SHIPWRIGHTS AND CAULKERS.—We learn that the Shipwrights and Caulkers have a Society in full operation, but have not agreed upon any plan for a uniformity of wages, many of these mechanics being but poorly requited.

THE RETAIL GROCERS CLERKS.—A preliminary meeting of these clerks was held last night at Thalian Hall, 492 Grand street, for the purpose of taking measures for changing the hitherto unlimited hours of labor which they had to endure. They have been encouraged by the success of the Dry Goods Clerks and the Clerks of other cities, and the justness of their course. Although mindful of their rights they do not wish to interfere with the interests of their employers and the public generally, without first consulting them. The following gentlemen were appointed a provisional Committee in carrying out the designs of the Clerks: Messrs. A. A. Black, W. H. Van Cleef, Robt. Wiley, F. M. Devoe, Wm. H. Gardner and W. S. Hutchings, who have agreed upon the following petition, which is to be left for signature at the various stores and public resorts:

We, the undersigned, do hereby request all Retail Grocers in this City and the public generally to attend a meeting for taking into consideration the early closing of grocery stores, which meeting shall be held at such time and place as shall be deemed expedient by the committee of Clerks in the fulfilment of their designs.

W. S. Hutchings presided at this meeting and W. H. Gardner acted as Secretary. Eloquent speeches were made by Messrs. Van Cleef, Oakley and Hutchings.

Do. Transferred.—Nos. 91, 94, 86, 34, 92, 100, 38, 105, 146, 106 to 113.

SUPERIOR COURT.—Before Judge Sandford—*Catherine Lawler* vs. *Wm. McGovern.*—Slander, in calling plaintiff a thieving ——. The Court thought the term as to thief actionable. Verdict for plaintiff, $50.

Opsiden vs. *Schwartz.*—Plaintiff claims $250, the value of two trunks left at the public house of Mr S. He left four with him, and wrote from Boston for Mr. S. to send them on, but he received only two. The entry on the mate of the steamer Vanderbilt's book was two. Mr. S. however, proved that he sent the four trunks from his house and that they were delivered on the boat beside the steamboat. The Court thought this sufficient.—Verdict for defendant.

Before Judge Paine.—*John Carroll* vs. *John Henretta, et al.*—Action for assault and battery, already referred to. The defense is that Carroll entered the porter-house of Mr. H. corner Lewis and Seventh sts. became noisy and boisterous, and was put out, when he attempted to break the door in, &c. Verdict this forenoon.

UNITED STATES MARSHAL'S OFFICE.—*Charge of Endeavoring to Make a Revolt.*—Peter May and Treat Blakeman, seamen of the bark Gipsy, were arrested on the above charge, while the vessel was in the Sound.

A seaman of the ship America was also arrested on a charge of confining Mr. Moore, the first mate, while the vessel lay off Liverpool.

COURT OF COMMON PLEAS—Before Judge Woolruff.—*Sellick Andrews* vs. *John H. Bower*—Plaintiff sent some statuary, called "The Graces," in defendant's vessel to this port, which became injured. He seeks to recover $120. It was alleged in defence that the statuary might have been broken in carting, &c. Verdict for plaintiff, $65.

John Akshaho vs. *Columbus Insurance Co.* (Joseph Hoxie, agent.—Mr A. insured in December, 1848, $3,000 on stock in store and cellar 61 Cliff st. at which a fire occurred on 20th January, 1849, and he claims to have lost $2,[illegible]. The amount of loss is disputed. To be continued.

COURT OF GENERAL SESSIONS—Before the Recorder and Aldermen Griffin and Dodge.—*Trial of Joseph C. Ashley postponed.*—The witnesses in this case were in attendance this morning and ready to proceed to business. The panel of Jurors was exhausted yesterday and a new panel summoned for this morning. It was ascertained when the return was made, that the extra Jurors had been summoned as talismen, instead of being drawn from box in the County Clerk's Office. In consequence of this irregularity, the case was kept at a stand still, in order to afford time for the regular panel to come in. Things were in this state when the defendent moved the Court to put off the trial till the May term. This course was finally assented to, and the Court made an order assigning the first day of next term for the commencement of the trial.—Adjourned.

HEAVY LOSSES.—It is estimated that the destruction and injury to steamboats on the Mississippi River in the month of January, amounted to the enormous sum of $806,600.

Old Bullion is Game!

The following letter from Col. BENTON to a friend in St. Louis, shows that he and his enemies are equally indisposed to give or take quarter:

WASHINGTON, Friday, March 8, 1850.

DEAR SIR: I have had a great many letters from friends in different parts of the State, in relation to a union with the Calhounites in the ensuing elections; such letters are very mortifying to me—too much so to be answered. I was sounded upon this point last Summer, when the articles were going through the Calhoun papers, for a general convention of the party, as it was called to meet and settle all differences. *I answered instantly and truly, that I would sooner sit in council with the six thousand dead, who had died of Cholera in St. Louis, than go into convention with such a gang of scamps, and that is my sentiment to-day.*

There is but one principle on which the Democracy and the Calhounites can meet in any election, and that is the one which Calhoun said held the party together, "the cohesive bond of public plunder." That may be true of him and his, but it is not true of me and mine; and I will prove it during these elections, by standing clear of all connection with them. I will not mix with them, nor give nor take help. Let them have their own ticket, and we ours. Let us have a clean ticket, a clean Democratic ticket—no taint of Calhounism, *i. e.* secession, Disunion, Nullification in it. Let them have their own ticket, and elect if they can, or defeat ours if they can. The point is to defeat them. The public good requires it; the harmony and the preservation of the Union require it.

The Missouri elections this year, are a turning point in the drama of Disunion. The Disunionists count upon Missouri. They believe they have the State, and that belief emboldens them in the highest degree; success in one election will confirm it; therefore they must be defeated, and if confined to their own ticket they will be defeated. City and County, State and Federal, Congress and all, they should be put to their own ticket, and be made to congregate by themselves. We shall be stronger when they are gone, and what is more, we shall be clean—no timid calculations about losing elections; we may lose some few, but still the great point will be gained. Calhounites will be put down, and even the election of Whigs will be a triumph over them—a victory in behalf the Union, and that is the overruling consideration at present.

Fear of seeing Whigs elected can have no effect upon me, under present circumstances—not even a fear of seeing a Whig elected in my own place. I am for the country and the Union, and the country and the Union require Calhounism to be exterminated in Missouri; and I am for the extermination as courageously as the Calhounites are for the dissolution of the Union, "at all hazards, and without regard to consequences."

People ask me here why I do not speak? I tell them when I was at the bar I never interrupted the adversary counsel while he was proving up my case for me.

This letter is not for publication, but is not for concealment. Friends may see it.

Yours truly, THOMAS H. BENTON.

THURSDAY, April 18—P. M.

The Stock Market to-day was active and buoyant for the fancies, and this remark applies especially to Erie stock and bonds. The former went to 69¾, and the latter to 94¾. The sales of Bonds reach over $150,000, closing very firm. Reading and Canton were also firm, and generally there was a disposition to operate for a rise. Governments were not very active, but sound Stocks were all firm.

In Exchange there is nothing of importance doing, and the market is nominal at the quotations previous to the departure of the steamer. Sterling 9 @9¾; Francs 5 30¾@5 27½.

Freights continue quite dull at the current low prices. Dead weight 10s @ 15s, with engagements of 200 or 300 tuns. Corn 34 nominally; Cotton 75c @100c per bale. Naval Stores 15d. Some Cotton and Naval Stores were taken at the above rates. To Havre there is a small business at ⅝c. To California 1½ or 20,000 feet were engaged at 70c, and 200 tuns Coal at $20.

The receipts at the Sub Treasury to-day were $110,155. Payments, $54,137. Balance, $4,661,932.

The Legislature of Michigan has chartered the Government Stock Bank, to be located at Ann Arbor. The circulating notes of this Bank will be secured by U. S. Stocks, deposited with the Treasurer of the State. The Bank will commence on $50,000, and increase as its business will warrant. W. W. Van Zandt, well known as the Chief Clerk in the Bank Department of this State, under Messrs. Flagg and Fillmore, is spoken of as President. The stock of the Bank is owned in New-York and secured; as they are the notes will circulate freely here.

The contractors on the Valley Railroad between Bellows Falls and Brattleboro' are on the ground in great force and pushing the work with vigor. On some of the sections there are as many men as can be judiciously employed. The Road will be in running order as soon as the contract made with Messrs Robert & George L. Schuyler requires. These Contractors are also building the Whitehall and Rutland Road, which will be ready about the 11th of September, some two months prior to the time fixed in the contract.

The Company formed for building a railroad from New-Haven to New-London was organized on Tuesday last, the necessary amount of stock having been subscribed. Arrangements are now being made for putting the road under contract, when the subscriptions will authorize it.

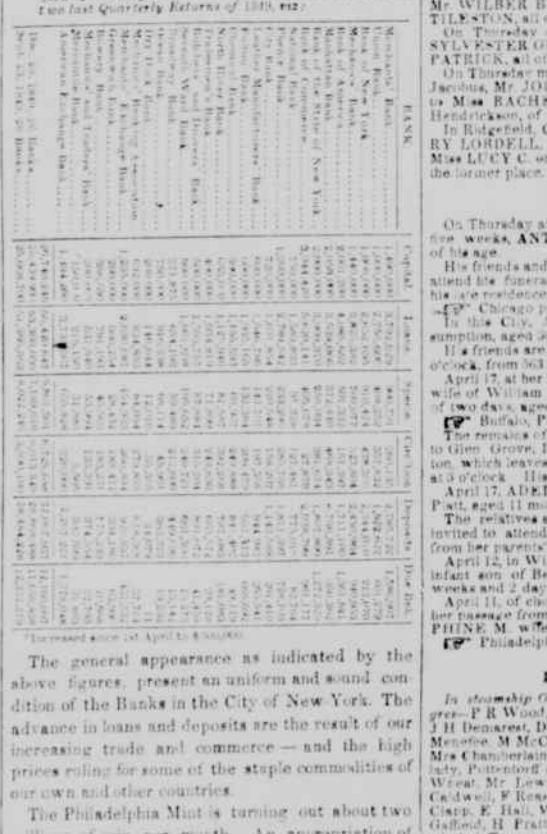
The city of Cleveland, when the Cleveland and Columbus and Cincinnati Road was first projected, with a wise forecast, subscribed two hundred thousand dollars to the capital stock of that Company, knowing that the completion of this important link in the connection of the Lake with the Ohio River would repay tenfold in the business secured to the city by it, the whole investment. For this subscription the city issued its 6 4⁹ per cent bonds at twenty years, with coupons payable in New-York, and these have all been negotiated by Messrs. Winslow, Lanier & Co. the last of them having been closed during the present week. A very large portion of the bonds have been sold to French and German houses, and have gone abroad for actual investment. The work on this road is being finished with great energy, and it will be completed and in running order in November, forming a complete Railroad connection between Cleveland and Cincinnati. The taxable property of the city of Cleveland is $4,500,000; Population 16,000. Total debt, inclusive of their Bonds, $319,000. The Bonds are also guaranteed by the Road, which cost about $2,600,000 and has a debt of $800,000, and will be one of the most productive Roads in the country.

The Merchants' Insurance Company, Boston, has declared a dividend for the last six months of 15 per cent.....The Greenfield Bank a semi-annual dividend of 4 per cent, making a dividend of 12 per cent in all.....The Franklin County Bank a dividend of 4 per cent.

Land Warrants are dull. The quotations range from $120 to $130.

The *Courier* publishes the annexed table of the City Banks, made up from their reports rendered to the Controller, to the 30th March last:

COMPARATIVE STATEMENT *of the leading features of the New-York City Banks, on the 30th March last, with the two last Quarterly Returns of 1849, viz:*



The general appearance as indicated by the above figures, present an uniform and sound condition of the Banks in the City of New-York. The advance in loans and deposits are the result of our increasing trade and commerce — and the high prices ruling for some of the staple commodities of our own and other countries.

The Philadelphia Mint is turning out about two millions of coin per month. An appropriation of $20,000 has been made by Congress to the Mint to increase the refining and assaying facilities, and the officers of the Mint are quite confident of their ability to furnish coin to the amount of three millions five hundred thousand dollars per month, or forty two millions per annum. The Mint is now paying certificates to 1,046. The New Orleans Mint is again coining. The following table shows the total receipts of California gold at the Philadelphia and New-Orleans Mints up to the present time:

RECEIPTS OF CALIFORNIA GOLD.

Total receipts at the Philadelphia Mint up to March 31, 1850	$9,796,321
Receipts from 1st to 5th of April	75,000
Receipts by the steamers Cherokee, Empire City, &c. bringing the San Francisco shipments of March 1st, 1850	1,400,000
Total receipts at the Branch Mint at New-Orleans up to Feb. 28, 1850	1,694,131
Estimated receipts from March 1 to April 15, 1850	550,000
Total	$13,425,452

The Cotton bills protested in Liverpool were endorsed by the State Bank of Charleston and not by the Bank of Charleston as stated.

The Philadelphia Money market is quiet and easy.

The annexed resolutions have passed the Legislature of Louisiana in relation to the Tehuantepec Route:

Be it Resolved, etc. That our Senators be instructed, and Representatives in Congress requested, to use their exertions to obtain the protection of the Government of the United States to be given to any company of citizens of the United States, and others having the right of way across the Isthmus of Tehuantepec, and to give the mail contracts of the United States which are to be conveyed to the Pacific and the East Indies, to the shortest and most expeditious route, which, from position, is clearly the route designated, the Gulf and Pacific via Tehuantepec and the Coatzacoalcos River, which empties into the Gulf of Mexico, about one hundred and forty miles below Vera Cruz, distant from New-Orleans about eight hundred and twenty miles, whereas the distance from New-Orleans to Chagres is about fifteen hundred and fifty miles.

Resolved, That our Senators and Representatives ask for an appropriation from the National Treasury, and a Commission appointed for a survey of the route from the Gulf of Mexico to the Pacific, in Tehuantepec, in order to decide which route is the shortest, most healthy and practicable of all the routes across the Isthmus.

This is a good move and we hope it will receive proper attention from Congress.

At Boston the money market is easier with good demand. The street rate is 9 ⅌ cent for good names. Bank stocks are in fair demand. Business was reviving.

The Atlantic and St. Lawrence Railroad receipts in March were $14,096.

The earnings of the Michigan Central Railroad for February and March, show a large increase over the corresponding period last year.

	1849.	1850.
February	$15,367 27	$19,326 78
March	19,243 07	26,613 10

The Wabash and Erie Canal is now open to Terre Haute, (Ind.) 310 miles from Toledo, and business has commenced upon it.
