'TIS THE VOICE of the help I hear complain,
I must up very early; 'tis wash-day again;
Before the sun rises from bed must alight,
And stand at the wash-tub until the night.

I look'd in the wash-house, she'd kindled the fire,
The steam from the boiler rose higher and higher
The clothes she had on her were dripping with wet,
And her labor-worn features were covered with sweat.

The husband came home at the close of the day,
But the suds and the steam were still in the way,
No supper prepared, the house in an uproar,
Says he I am sure married life's a great bore.

Said I to myself here's a lesson for me,
This house is a picture of what mine might be
But for H. TWELVETREE who did me the favor
To teach me to wash without any labor.

Tell it to your neighbors that this day is published, price nothing, Twelvetree's pamphlet, entitled "Washing Days as they are and as they may become," and copies may be obtained by application personally or by letter postpaid to Harper Twelvetree, Professor of the art and science of Washing at room 23, No 80 Nassau-st. SCHOOLS.

THE MOUNT COLLEGIATE INSTITUTE, 219 Fourth-st. corner of Macdougal, facing Washington-square, GEO. W. CLARKE, A.M. and JAMES FANNING, A.M. Principals, opens the last quarter of its seventh year on Monday the 29th of April, 1850, and closes July 15; after which there is a vacation of eight weeks. Past success encourages the proprietors to believe that their plans of instruction and general management of pupils will continue to meet with approbation.

Having several years since observed the unsurpassed beauty and healthfulness of the location of their Institution, they purchased the lot and built thereon the present edifice with rooms specially fitted for instruction and ample in size and number for 150 pupils, devoting three stories of the building to the uses of the school with the average number of 60 pupils in each department. Being a corner house the entrance to the dwelling part occupied by one of the Principals is 219 Fourth-st and that of the school 156 Macdougal. Able Professors are employed in all the branches of English and Classical education, special attention being given to the Mercantile Department. The classes in French are in charge of the venerable and distinguished Professor Edwards, those in German are under the care of Prof. Theodore Gaustenskiel; Prof R. Palenzuela, LL.D. takes charge of the Spanish. The juvenile pupils are under the personal instruction as well as care of one of the principals. The proportion of teachers to the number of pupils is that of 1 to 20, which, under the advantage of classification according to capacity and attainment, greatly multiplies the powers of instruction. The organization of the school encourages individual pupils in any branch to advance to higher classes wherever their proficiency will warrant it.

The pupils are allowed daily exercise in the Park under the observation of teachers, where they enjoy the advantages of the country, a purity of air and wholesome recreation. The known healthfulness of the neighborhood (even in times of epidemic) has enabled the pupils of this Institution (as a general rule) to remain through the entire school year, thus gratifying the hearts of parents by having their children at home and their education conducted under their own influence from day to day.

No sectarian influence is exerted upon the pupils, but the Principals inculcate respect and reverence for all things sacred; and without strict morality no pupil can remain a member of their school.

Applications for entering scholars may be made during any part of the day or evening, when Circulars for particular information can be obtained.

MEDICINES.

SANDS'S SARSAPARILLA
THE ATTENTION of the reader is called to the following certificate of a remarkable cure effected by using only five bottles of Sands's Sarsaparilla.
SIDNEY, (Maine,) April 15, 1850
Messrs A. B. & D. Sands.—Gentlemen—This is to certify that the subscriber, of Sidney, County of Kennebec, State of Maine, has been afflicted more or less ever since my birth with Scrofula, which continued to increase until last February. In January, my legs were so swollen I could not get on a boot or stocking, and I had several large sores on me all the time. In this situation I was about to give up in despair, when I was advised to try Sands's Sarsaparilla. I had not much faith in it but I sent to your agents in Augusta, Me. and procured a bottle, which did me so much good, I went and got another, and continued until I had taken five bottles. I am now perfectly well. If any person who may read this letter is afflicted with any disease of Scrofula, I would most sincerely recommend and advise them to make use of Sands's Sarsaparilla. If any person wishes further information about my case, by calling upon me I can convince them of the healing power of this medicine. Signed, STEPHEN C. HAYWOOD.
Augusta, (Me.) April 15, 1850.
P. S. We are personally acquainted with Mr. Haywood, and believe his statement to be true.
Signed, DILLINGHAM & TITCOMB.
