The Wanamaker Store.

HUMBER BICYCLES.---A TRADE REVOLUTION

The logic of events creates a complete change in future methods for their distribution.

The cost of selling becomes a part of the cost of merchandise, and consumers must pay it. That statement is trite—everybody knows its accuracy.

Combined in our organization are fifty odd distinct stocks—over fifty Stores under a single roof.

Bicycle makers and dealers who support distinct stores and numerous branches have to pay the cost of twelve months' organization for practically four months' business. The result---heavy loss.

The vast combined interests of our business in which many goods alternate as the seasons change, enable us to dove-tail our facilities, transfer Store space and so assign Store help that continuous activity prevents loss.

The intelligent Public is finding out this fact, and is insisting upon its general application. Bright manufacturers are understanding it with increasing clearness. It is trade law. We did not create it. But we hitch our business to the *fact*, and are drawn by it to cumulative successes.

The Humber Company is the latest and greatest convert to our modern merchandise methods. They have discovered that their costly systems are simply taxation of their customers. The result is, that contracts with us for distribution will reduce the retail price of Humbers to the Public, and leave better net returns to the Company.

This combination begins with very large bona fide orders given by the

FIRM OF JOHN WANAMAKER TO THE HUMBER COMPANY

for Bicycles of the models to be produced for 1898. The next year's models will be on exhibition in our Store on December first at the price of

ONE HUNDRED DOLLARS FOR HUMBER ROADSTERS

Silly people have started trade talk that the Humber Company would retire from manufacturing in America. The foregoing nails *that* falsehood. The company is now more intensely alive than ever before.

By the agreement under which the business between our firm and the Humber Company is to be transacted we take over the entire sale for the cities of New York and Philadelphia, with the territory covered by a radius of one hundred miles in each direction from each centre, including the cities of Hartford, Conn., on the East, and Washington, D. C., on the South.

Parallel to the contract for next year is the purchase of the

ENTIRE STOCK OF HUMBER BICYCLES FOR 1897

They are all guaranteed to be of the full Humber quality. If jealousy or ignorance asserts that there is anything inferior about these Bicycles you can, upon our authority, brand the statement as false.

By this operation we are enabled to introduce our Humber business to the vast and loyal Humber Public in most interesting fashion. It will be our privilege to book orders and promptly deliver

HUMBER ROADSTER BICYCLES AT $65
HUMBER TOURIST BICYCLES AT $67.50
LADY HUMBER BICYCLES AT $75

All sizes are shown in our stock this morning.

Humber salesmen will be here to meet the Humber patrons, and Humber mechanics will be in our repair shops.

The Humber Branch at Bedford and Fulton avenues, Brooklyn, will be continued.

The Humber Branch at Fifth avenue and Forty-second street will be continued.

At both of these places there will be full stocks of 1897 Humber Bicycles for sale this morning, and every convenience for facilitating general business with our Store in New York will be afforded. Orders will be accepted and any desired commissions for our customers will receive prompt and thorough attention.

The Humber Branch at No. 3 Park Place will be closed.

JOHN WANAMAKER
