A CARD.
TRADE WITH MEXICO.
THE UNDERSIGNED, during a visit to Mexico since the war, having been enabled, through the advantages of an official position, to make himself acquainted with the state of the arts and manufactures of its citizens, and to become conversant with their views and wishes on these subjects, now offers to manufacturers of the United States, generally, special facilities for the introduction of their machinery and fabrics into that country. Having obtained commissions to purchase for established houses in the cities of Vera Cruz, Orizava, Mexico and Guanajuato, he is desirous to receive proposals, accompanied by specimens and rates of prices, for such as Agricultural Implements, Pianos, Carriages, Works of Art, Hydraulic Apparatus, and every variety of Machinery, upon which advances will be made upon more favorable terms than by general commission houses. DR. CHILTON'S NEW MAGNETO ELECTRIC MACHINES for medical application.—These instruments possess a great superiority over all others for medical use, the shocks being obtained entirely from permanent magnets, and the mechanism is so arranged as to cause the current of induced electricity to pass always in one direction. They require no galvanic battery to put them in action and consequently there is no need of acids or other liquids, so objectionable in the other kinds now in use, and they are always ready for immediate application, and are in nowise liable to get out of order. All that is necessary to put the instrument in action is simply to turn a small handle, which could be done by a child.
They are put up in a very portable form, being secured in small neat cases, from which they do not require to be moved.

DEATH TO IMPOSTORS.—The method I have taken to introduce my Nervous Antidote to the public was first to obtain the certificates of about one hundred persons who were perfectly cured of the worst nervous diseases, for about eighteen months before I began to make it public. I then rendered myself responsible in law by an affidavit of a proclamation before Mayor Woodhull. I then published the names of about twenty-five of the most respectable citizens, as referees, and from the first moment I ever sold a bottle have advertised to return the money if not found to be all that it is represented, and now, after two years of experience of thousands of cases and not one failure, will forfeit $1,000 if it does not cure all nervous debility or neuralgic pain and depression. Mind it is nothing but a nervine; but it is powerful and positive for all nervous complaints. $1 a bottle; $9 a dozen

NOW IN PRESS: THE GREAT NATIONAL WORK
CRUISING IN THE LAST WAR.
BY CHARLES J. PETERSON.
AUTHOR OF "THE KEEVER OF '76," ETC. ETC.
A Naval Story of the War of 1812.
ON the first of June next, T. B. PETERSON, 98 Chestnut-st. Philadelphia, will publish the above great National Work, in a volume of 116 pages, octavo, price 25 cents. The narrative is founded on the cruise of a private armed brig, the journal of which was presented to the author. "Cruising in the Last War" originally appeared in "Graham's Magazine," in 1840, when it attained an unprecedented popularity all over the United States, and numerous applications have since been made to the author to issue it in a volume; but hitherto unsuccessfully. He has now, however, carefully revised it, and allowed it to be put to press.
Founded on fact, and full of thrilling incidents, now picturing the storm, now the battle, now the escape, it will prove the most interesting book of its kind ever issued; *and will be sold by thousands and thousands.* Every American, who is proud of the triumphs of the stars and stripes, will require a copy of this book for himself and children. Orders are required to be sent in at once, as first come first served. Single copies 25 cents, or five copies will be sent to any one to any place in this country for One Dollar; eleven copies will be sent for Two Dollars, or thirty copies will be sent for Five Dollars.
Booksellers, News Agents, Pedlars, and all others will be supplied by the dozen, hundred or thousand, at the lowest rates. Price Thirteen Dollars per hundred.
Any person in this country can remit any amount of money they please for any number of the above National Work they may want, and they will be sent at once to them, in any way they may direct.
The work will be ready to send to persons in the country by the 20th of May, but will not be published in any of the large cities until the first of June.
The whole of the above will be published in one large octavo volume of one hundred and sixteen pages, printed from new large type, and on the finest white paper. Price for the complete work 25 cents, or five copies for One Dollar. Published and for sale by T. B. PETERSON,

TALBOT AND VERNON.
BAKER & SCRIBNER have just Published Talbot and Vernon—1 vol. 12 mo.
"It is never for a moment tedious or dull. From beginning to end the narrative moves forward with spirit and force. In that part of it devoted to the hero's adventures in Mexico, while following the army of Taylor, the author has broken ground in a new field for the novelist, and nothing can be finer than his description of some of these scenes. There is a wild and picturesque reality thrown over this portion of his Story, in which we see the signs of a master. The battle of Buena Vista, also, in which he would appear to have been engaged, is given with singular boldness and vividness; while the trial at the close, after the hero's return from the War, is effective and exciting in an extraordinary degree. If we were disposed to commit ourselves to a literary prophecy, we should say that this book cannot fail of a great run. It is too rich in the elements of popularity, too full of vigorous genius, not to have a triumphant sale."

A TREATISE ON
DISEASES OF THE SEXUAL SYSTEM.
ADAPTED TO Popular and Professional Reading, and the Exposition of Quackery. By Edward H. Dixon, M.D. Editor of the Scalpel. Price $1.
OPINIONS OF THE PRESS.
Horace Greeley, Editor of The New-York Tribune remarks:
"This work contains a complete review of the origin, symptoms, and treatment of every known disease, in language adapted to every reader; also, a thorough exposition of the consequences and treatment, moral and surgical, of specific diseases and self-abuse in all classes of society, and their effects in the production of scrofula, its descent to offspring, consumption, bronchitis, &c. &c. Every question that can possibly interest the reader is considered in its pages. This is a work for which there was the most urgent need. Thousands are annually hurried to premature graves by vices which they scarcely know to be such, who would have been preserved for lives of usefulness and honor, by the seasonable perusal of a work like this; there is not a page that does not bear on its face an impressive warning; shall not the warning be heard?"
From the Evening Post.
"Dr. Dixon is a pupil of Dr. Mott, the inventor of a great number of valuable surgical instruments, and a practitioner of eighteen years' standing; his books are written with great delicacy and care, yet with an apparent desire to communicate truth with the utmost force and earnestness."
From the New-York Journal of Medicine and Collateral Sciences.
"It is written in a clear, nervous style, and is calculated, as we think, to do much good. The descriptions are accurately drawn, and the remedial measures judicious. The practitioner will find it abounding in valuable hints, and the general reader will come across many useful cautions and premonitory warnings."
From the Boston Medical and Surgical Journal.
"Dr. Dixon has written much and well on various branches of Surgery; his book shows a thorough acquaintance with modern practice; Strictures, Gonorrhœa, Varicocele, Hydrocele and Fistula are particularly well treated of. His ingenuity under trying surgical circumstances, stamp it with more than ordinary interest."

MORE MYSTERIOUS KNOCKINGS.—The neighborhood of Bleecker and Carmine streets, was throw in to the utmost consternation last Saturday night by the occurrence of mysterious knockings similar to the Rochester and Stratford affairs, the truth of which can be verified by a number of the most respectable inhabitants of the Ninth and Fifteenth Wards. In the clothing store of WM. R. McKIMM, 17 Carmine-st. at 8 o'clock, a number of persons being present, a large molasses cask crossed Bleecker st from the store of C. S Benson, and rolled into the tailor's store about 45 feet, when it righted itself on one end. At the same moment a tailor's goose flew like lightning through the store, carrying away the hat of Mr. Draper of 20 Maiden-lane, and landing in the dry goods store of Mr. H. Hall on the opposite corner. Mr. Peck, a large dealer man, (weight 280 lbs) stepped to the door to look after the goose when he was assailed in the rear by invisible feet and kicked to the top of Knickerbocker stage No. 149, crying "Och Hone! Tailor McKimm!" A married lady, Mrs. ——, purchased a pair of shoes at Aldermann Groesbeck's opposite, but was ashamed at finding a pair of breeches in the same bundle when she got home. After an intermission of 15 minutes the knockings were resumed. A tremendous crash was heard overhead and a large ball from S. Dodge's fell through the skylight and ran out of the store, leaving behind a strong smell of sulphur. This so frightened Mr. S. Jackson that his life is despaired of. Dr. Forrester will not permit any one to see him. If he recovers some astounding developments will ensue, as he saw the spirits frolicking while in a trance. After the store was closed the proprietor was surprised to find $2,000 in his money drawer, which he supposed was placed there by his customers during the evening. Mr. Matelli has placed 10 men under the orders of Ald. Ball to preserve order for the future as spirits will not long exist where policemen are present. The curious in these matters will be more fully informed by calling on
