ENGLAND.

LONDON, Saturday, May 18.

There was a general indisposition yesterday to transact Exchange business upon Continental places, with the exception of Hamburg, which continued in demand. Bills were generally firm at higher rates.

FRANCE.

PARIS, Friday, May 17.

The *Journal des Havre* contains the following: "Ministerial orders received by the Naval authorities at Havre, command that all seamen from 20 to 40 years be placed on the list of permanent Navy seamen. This category had been suspended some months since by a decree of the Minister of Marine. We are assured that maritime armaments are commanded in all of our ports.

The price of gold had risen in Paris from 16 to 27 francs per 1,000 francs. Bourse—Fives 87 40f; Threes 54 40f.

In the Assembly on Thursday, the attention paid to the debate after the announcement of the recall of the French Minister from London, was slight, and M. Drouy de Lhuys, who continued to be the object of much attention, remained in the House till 6 o'clock, at which time the Chamber rose. The *Patrie* states that the Electoral Committee of a great many departments—which are the *Seine Inferieurs pas de Calais bouches du Rhone*, &c.—have requested their representatives to vote the Bill of Electoral Law without amendment.

The *Herald* correspondent states that the Legitimist journal, *Union*, lets out that the order for the recall of the French Envoy was issued in the absence of the President, and without his knowledge or consent. He had left for Fontainbleau. Before he went a general question had been put to him, whether he would not recall Drouyn de Lhuyn in case Lord Palmerston should offer some insult to France. The President, of course, generally replied in the affirmative. During his absence the Ministers assembled, and then, in company with a non official personage, the letter of recall was concocted. The President, on his return, heard of it with deep emotion. The *Nationale* says the rupture can lead to no serious consequences. The first object of the recall is the revenge of the Orleanist party against Lord Palmerston, and the second to take France from the only constitutional power of Europe, and to throw her on that of Russia. All the opposition papers, without exception, speak to the same effect. The *Presse*, in particular, upholds the English Alliance, acknowledging that but for England there would have been an invasion of France immediately after February, 1848. "France," says the *Presse*, "showed no anger when Lombardy, Venice and Hungary fell; but now she attempts to disturb the peace of Europe, because an English Vice-Consul makes an additional demand of 60,000 drachmas for the pillage of his house and furniture." Some of the papers assert that Lord Palmerston has taken advantage of France's present position to insult her.

The *Courier François* pretends that a plan of a general insurrection has been settled to break out on the passing of the electoral law. This paper passes for being the organ of the commander of the forces.

DENMARK.

The *Hamburgh Borsenhalle* of the 4th states that the Prussian General Below intended to visit Copenhagen on the 15th. That all persons on furlough in the Danish army were yesterday desired to return immediately, and that nearly all the frigates and smaller ships of the line, as well as a man-of-war, have been equipped.

ITALY.

NAPLES, May 8.—Olive oil market is depressed, but no material decline in prices expected.

ODESSA, May 3.—Wheat further declined in consequence of accounts from England; fair business was doing. English first-class vessels inquired after.

Late from Hayti.

By the schr. Peerless, Capt. Conklin, from Jeremie, Hayti, 19th inst. we are favored with the following extracts of letters:

JEREMIE, Saturday, May 18.

The steamer Vixen, Capt. Wood, went past this port a few days back, bound to Aux Cayes.

The West India American Fleet was at Port au-Prince. The Haytien Government had acknowledged the St. Domingo Government independence.

Capt. Wood appointed a Mr. Dalton, an Englishman, to be American agent at Aux Cayes, very much against the wishes of the Americans at that place.

JEREMIE, Saturday, May 18.

Coffee deliveries were falling off. Business rather dull, and will most probably remain so for a few months. The last crop was not so abundant as expected, owing to the want of rain.

The monopoly law will be finally repealed on the 30th of June next. The Government will continue claiming one-fifth of all quantities of Coffee shipped for foreign ports. This fifth will be paid at $40 per hundred pounds, instead of fifty, the prices paid up to date.

On Thursday, the 18th of May, Coffee was worth 72 to 75—Haytien currency and daily rising. It would not be surprising to see it go up to $90a95, which, if shipped at these rates, comprising duty expenses, bags and commissions, and then taking in the difference lost on the Government's 1-5th, will come to $120 to $125 per ct. which sold at $6 net, brings the doubloon up to $332 Haytien, and the Haytien dollar down to 5 cents Spanish currency. Until the 1st July, the goods monopolized by the last tariff, if imported, must be sold at the rate therein stated. We truly pity those that will be entrapped; knowing that several vessels were daily expected. Their goods will be sold at low rates by the Police, who never fail, if opportunity offers, to show their foolish influence. Undoubtedly repeal of this law will sicken the Emperor's influence over the country darkies, as already it has caused some sensation. They are really dissatisfied, and most assuredly will openly manifest themselves shortly.

Religious opinions were up to the highest pitch. Any one professing any other faith but that of the Roman Church, was hated worse than the Mexicans ever hated "Old Zack." This, however, is of late date; we cannot candidly say it has always been so, but certify that the building of a Church by the English Wesleyan Society, has created a furious jealousy against them. The Church is now half finished, and a sudden stop has been put to the work. The contractor has applied to the Government, and as the Constitution permits, protects, and authorizes all rights, they expect shortly to receive orders to continue their labors.

Some time since a man stole, with several others, a trunk of money. It was found and the chaps taken. They were tied to a tree and were beaten most horribly with long canes. One of them died four hours afterward, being beat up till he could not move. He was left where he fell, dead, and was taken up the next morning and buried by strangers. The others we believe are yet sick.

DESTRUCTIVE FIRE AND LOSS OF LIFE.—There was quite a destructive fire on Monday night last, the 20th inst. at the little village of Brownstown, Jackson Co. Indiana. The fire originated in the drug store of Dr. Grant, which, with all its contents was destroyed. The adjoining house, occupied by Messrs. Waddell & Burrall, as a tin and stove store, and the one next to it, occupied by Mr. J. Mooney as a dry goods store, were also entirely destroyed. Mr. Mooney saved a portion of his goods. Dr. Grant, who was sleeping in his store, could not be found after the fire, and on a search being made, his remains were found among the ruins. He had been much dissipated recently, and from the fact that he was heard to wish on the evening previous to the fire that he might not live until morning, it is supposed that he communicated the flames to the house with the design of thus putting an end to his existence. [Louisville Courier.

☞ The Episcopal Convention of the Diocese of New-Jersey commenced their annual meeting this morning at Trinity Church in this city—Bishop Doane presiding. The morning was occupied with the usual religious services. The Convention Sermon was preached by the Rev. Mr. Stubbs, of Christ Church, New-Brunswick, from 1st Cor. ch. 4, v. 1. "Let a man so account us as of the ministers of Christ and stewards of the mysteries of God."—The Convention will be permanently organized and proceed to business this afternoon. [Newark Daily Adv. 29th.

☞ The annual Episcopal Convention of the Diocese of Maryland commenced its session in Baltimore yesterday, 29th.

WEDNESDAY, May 29.

The Stock market to-day has been heavy for Fancies, but recovered somewhat toward the close.—Erie went down to 78, but recovered to 78⅞. Harlem also fell off, but Farmers' was steady. Governments were in fair request and firm. Generally there was a want of animation.

Freights are firm, with engagements of 20,000 bush Corn at 3¼d, Cotton 3-16d, Dead weight 10 @ 12s 6d.

Exchanges are quiet, but held steady.

In Money there is no important change. A loan of $150,000 was made in first-class stock at 4 ₱ ct. and $75,000 at 5 ₱ ct. in Erie Bonds. First-class paper is not plenty.

The private letters by the Asia state that inconsequence of the high prices of Government Stocks the demand was moderate, but there was more attention being paid to obtain American securities.—A London banker quotes as follows:

At Hamburg there was a small business doing at rather better than London prices.

An offer of more than 90 has been made for the whole amount of Income Erie Bonds to be issued.

The prospects of the Pennsylvania Railroad are brightening every day. At the meeting of the Committee of 300, 2,150 shares were subscribed, leaving but 5,185 shares yet to be taken.

The Richmond, Fredericksburg and Potomac Railroad for the year ending on the 1st April, realized an advance of $40,000 over the income of the preceding year. On the same road, during the month of April last past, there was a further increase of $3,000 over the corresponding month of the preceding year.

The Merchants' Bank has declared a semi-annual dividend of 5 ₱ ct.

The bids for the Bonds of the Counties of Muskingum and Franklin and the City of Zanesville, were opened to-day. There were but three bids, one for four bonds and the others by two leading houses in the street, each for the whole amount of the bonds. The taking bid, the exact rate of which was not made public, was at a price so much above the views of capitalists that the general impression of the street is that it was for account of the owners of the bonds.

At Philadelphia money continues abundant, and good paper is easily negotiated at a low rate of discount. Exchange on England continues at 109¾ @110¼.

At Baltimore money is abundant, and loans on call are easily effected at 5@6 per cent. The rate on the street ranges from 8 to 10 per cent.

The Charter of the Bank of Newburgh will expire on the first day of January next; but the business of the Bank will be continued without interruption, under the management of the present Board of Directors—the stockholders having associated under the General Banking law of that State, with an increasing capital.

Directions have been issued by the Pennsylvania State Treasurer to the collectors of canal and railway tolls not to receive the notes of the Erie Bank.

FLOUR AND MEAL—The Flour market is rather heavy at the close, and outside quotations are not freely paid. The demand for speculation is less active, but there is a fair trade demand. The sales are 5,500 or 6,000 bbls, including a few hundred Canadian, at 5 12@5 25, bonded. The quotations for State and Western are as yesterday; a sale of 1,000 bbls for June delivery was made on private terms. In Southern descriptions the market is easy, but there was rather more firmness at the close than at the opening; sales are 2,500 bbls at 5 81½@6 00 for mixed and straight brands. Meal is quiet and firm, with sales 200 bbls Jersey at $3. Rye Flour is 2 95@$3, with sales 100 bbls at $3.

Export from 1st to 28th May	1850	1849
Wheat Flour	bbls. 26,938	40,435

GRAIN—For Wheat there is a fair demand, with sales 1,500 bush, in lots, at 128@130c for free Canadian, 110c for mixed Ohio. Genesee is held at 150c. FISH—Dry Cod are dull at 2 75@2 87½.

FOREIGN MARKETS.

Baring's Circular.

Per Asia.] LONDON, Friday, May 17—5 P.M.

In American Stocks there has been less business this week, as the high prices have produced a pause in the Continental demand. United States Sixes in inscriptions of 1867 all, are offered at 110 per cent. Bonds of $1,000, with coupons, at 111½ per cent. Massachusetts Sterling at 108 per cent. A parcel of Pennsylvania has been placed at 85 per cent and there are sellers at 87. In other stocks we have no change or business of consequence to mention.

The produce markets have been characterized by increased firmness this week, and rather higher prices have been obtained for several articles, as will be seen by the subjoined remarks. The Corn trade too has shown a further tendency to improvement, and Cotton continues very firm.

COCHINEAL—We have had more inquiry, and 370 bags Honduras silver have found ready buyers from 3s 7d a 3s 8d, with 20 bags Mexican silver from 3s 7d a 3s 8d, and 10 bags black 3s 8d a 3s 9d; Tenerife bought in at 3s 8d a 3s 10d.

COCOA—260 bags Trinidad on sale to-day brought 28s a 45s; and 226 bags Guayaquil were bought in at 30s.

COFFEE is firmer, and Ceylon, of native growth, is in demand at 46s a 49s 6d, at which there are few sellers; 129 casks, 250 bags Jamaica have sold a sadily from 38s for ordinary up to 50 shillings for low middling. In the Continental markets holders are generally showing more confidence, but the demand for consumption remains limited.

The following were the imports and stocks on the 1st inst. viz:

	Imports. 1849.	1850.	Stocks. 1849.	1850.
Gt. Britain lbs.	9,500,000	9,560,000	40,200,000	37,200,000
Other parts of Europe	113,500,000	102,700,000	82,300,000	110,400,000
Total lbs.	123,000,000	112,200,000	122,500,000	147,600,000

The Corn trade is again firmer, and prices of Wheat, Barley, Beans, Peas and Indian Corn have advanced 1s per quarter. Oats are 6d a 1s dearer. Flour, also, has been in more demand, and may be quoted 6d per bbl and 1s per sack higher. Western Canal Flour is now worth 22s 6d a 23s, and Baltimore 23s a 24s per bbl. For Gaintz Indian Corn, 26s has been paid, floating. There are still buyers thereat, and in proportion for other descriptions.

COTTON—There has been a general demand at Liverpool, which has been freely met by holders, and prices are firmly supported. Middling Orleans, 7d. With us there has been more inquiry, and the sales comprise 6,100 bales Surat from 4¾d a 5¼d, being an advance of ¼d in the fortnight.

DRUGS, &c.—The small sales yesterday went off flatly; 400 chests Castor Oil, however, brought the former value; 600 cases Shellac sold from 33s 6d a 43s, for black to red, and Liverpool orange being again 2s lower. Oil of Cassia 1½s, and Peppermint 10s, both nominal. Cinch dull at 19s. Gambia firmer at 11s 6d. Camphor yesterday sold at 60s; terms, however, unfavorable to the buyer to the extent of 4s per cwt; 130 tuns Bimas Sapan Wood brought £10 10s a £11 15s, being rather cheaper, and 350 tuns Lima Nicaragua Wood, £12 2s 6d a £12 5s. Cream of Tartar dull at 67s 6d for fine.

HIDES—64,400 East India were offered at auction yesterday, when 59,432 were sold. The best descriptions may be quoted ¼d a ½d lower, but other sorts realized fully late prices.

INDIGO.—The quarterly sales commenced 14th inst and were adjourned, yesterday, till the 21st inst. 12,223 chests were originally declared, but 1,703 lots were not priced, so that the quantity for sale was only 10,525 chests. 4,848 chests have been gone through, of which 2,562 have been sold, and 1,941 withdrawn, leaving 6,231 chests still for sale. The sales have gone off, thus far, with fair spirit, at prices, compared with February, from 2d to 4d higher for Bengal, the finest sorts par, Madras par to ½d, Oude 2d a 3d, and Kurphas generally 3d a 4d dearer.

IRON—We have to no ice more firmness in our market, and common bars are now not to be had under £4 12s6d a £4 15s in Wales. Rails £4 17s6d, Scotch pig 44s, at Glasgow, and not much doing.

LINSEED CAKES—In more demand, and rather dearer. Best N Y. £6 15s a £7; round common, £5 15s; London made, £6 5s.

OILS—Sperm, firm at £83a84; Southern scarce at £81a 81; Seal, pale, nominally £35a36; Cod, £34 10s; Cocoanut, 52ea53s; Palm, 50s; Linseed, in limited demand—but, being in small supply, held firmly at 32s 6d per cwt.

RICE—The demand for East India sorts continues, and about 35,000 bags have again changed hands at 3¼d¼d advance; Bengal, 9s a10s 6d and 12s; Madras, 8s 6d a9s.

SALTPETER is generally held for higher prices. Transactions limited to 500 bags Bengal, from 24s 6d to 26s 6d, for 12½ to 3½ lbs refraction.

NITRATE SODA brings 15s a15s 3d in retail.

SPELTER—Dull, at £14 15s on the spot. Sheet Zinc, £20 10s.

SPICES—The sales have been confined to 350 bags Pimento from 4½d a 4¾d, being rather dearer, and a few packages of Nutmegs, Mace and Cloves, at steady rates. Pepper remains neglected.

SUGARS—There has been a good demand from both Grocers and Refiners, and rather higher prices have in some instances been paid. We estimate the sales at 25,000 hhds and 20,000 bags, with the addition of 800 baskets Java, from 37s a 43s, and 2,240 boxes yellow Havana of the new crop, from 39s 6d a 43. Foreign descriptions are more inquired for by exporters, but business has been checked by the advance required. 200 cases Bahia have been taken from 17s a 18s and 23s, and 1,000 bxs Havana 19s 6d a 20s. The Continental advices report a firmer feeling, but no extensive transactions. Nothing doing at St Petersburg.

TALLOW is steady at 36s 9d a 37s on the spot, and 38s a 39s for late delivery.

TEA—Transactions continue limited and chiefly confined to recent imports, but in all cases prices have been in favor of the buyer, though quotations remain nominally without material change.

TIN—English is in somewhat improved request at former prices. Banca has again been sold at 72s, and Straits at 71s. Tin plates continue firm.

TOBACCO—The market has been unusually quiet this week, but holders remain extremely firm.

TURPENTINE—Further sales of Rough are reported at 6s 6d per cwt. Spirits are dull again at 30s 6d and 29s 6d for American and English respectively.

The Colonial Wool sales of 22,000 bales were brought to a close to-day with more spirit than at the commencement, and at very nearly last sale prices for all descriptions.

Per Asia.] LIVERPOOL, Friday, May 17.

The Cotton market main also the same healthy tone reported in our last, and if there be any change in prices it is in favor of sellers, but not an upturning to a quotation, except in fair and good qualities adapted to the export demand—which, being relatively scarce, are advanced ¼d per lb by the official quotations, as some think should have been done the previous week.

Fair Uplands now are 7¼d, fair Orleans 7¼d, and fair Mobile 7½d, and middling qualities 6¾d a 7d per lb.

The sales for the week amount to 48,640 bales, of which 10,700 have been taken on speculation and 2,800 for export; and the American descriptions consist of 9,700 Upland at 6¾d a 7½d, 15,940 Orleans at 5¾d a 8¼d, 7,130 Alabama and Mobile at 6¾d a 7½d, and 240 Sea Island at 11¼d a 19d per lb. The sales to-day have been about 5,000 bales—the market closing with less business, but steady.

The import for the same time is 41,900 bales, and the stock now in this port is estimated at 515,000 bales, of which 331,000 are American, against a total stock at this period last year of 682,000, of which 485,000 bales were American.

The continuance of cold weather has created a more active demand in our Corn market, with an improvement in prices of 6d per bbl in Flour, and 2s per qr in Indian Corn; while Wheat has advanced 2d per 70 lbs. The quotations are as follows: Yellow Indian Corn, 32s; Mixed, 31s 6d; White, 35s per qr of 480 lbs; Western Canal Flour, 20s a 22s 6d; Baltimore, 21s 6d; Philadelphia 24s; Canada, 21s 6d a 24s; and Scotch, 20s a 21s per bbl. Wheat, 3s 6d a 6s 3d per 70 lbs; and Indian Corn Meal; 15s per bbl.

700 bbls Turpentine have been sold this week at 6s 6d a 6s 9d per cwt. The sales of common American Resin reach 3,000 to 4,000 bbls, at 2s 3d a 2s 9d per cwt.

Yours respectfully,

BROWN, SHIPLEY & CO.
