MONDAY, June 24,—P.M.

The Stock market to-day is not very active but generally firm. Farmer's Loan improved ¼ ⅌ cent and was the only stock in which there was any important change. For Governments there was a moderate demand and the quotations are about as on Saturday.

In Freights the movement is moderate and rates as before. Engagements of 15,000 bush. Corn, 3d. 1,000 bbls. Naval Stores 9@12d; Dead-Weight 8@10s; Cotton 5 32@3 16d. The Havre packets of the 1st and 10th are nearly full at ¼c. for Cotton, ⅛c for Whalebone. Amsterdam is quoted at 40@40½. Hamburgh 35½@35¾. Bremen 79½@80.

The market for Exchange is very firm although not active. Sterling is held at 10@10½ with moderate business. Francs are better and leading drawers ask 5 29@5 25 for 60 days bills.

In money there is no change. The supply is abundant at low rates.

The English Board of Trade returns for the month ending on the 5th of May, show an increase in the declared value of exportations, as compared with the corresponding month of last year, of £1,400,000. During the first four months of the present year, exports have been £20,067,999, which as compared with the first four months of 1849, shows an increase of £3,231,352.—Part of this must be attributed to the rise in price of cotton, but probably two-thirds of it are due to the steady and actual increase of general trade.

The receipts at the Sub-Treasury to-day were 30,031; Payments 65,027; Balance 3,571,233.

The private letters confirm the statement of dullness in the London market for American Stocks. We hear of but few orders by the steamer for our stocks.

Messrs. Barings, in their Circular, dated London June 6th, 5 P M. say: American Stocks are dull, and the demand has been slack this week. The Boston City Water Bonds, with Coupons payable in Boston, have come over to several parties, and have been sold at 93 per cent, with interest for the buyer from 1st April. United States 5's 93@94; do. 6's of 1867, 109@110; do. 1868 Bonds with Coupons, 111@111¼; New-York State Stock of 1858 60, 98@99; Pennsylvania 5's 86@87; Ohio 6's, 1860, 102@103; do. 1870, 108@109; Massachusetts 5's Sterling, 107@109; Maryland Sterling 92@92½; Mississippi, Planter's Bank, 58@60; do. Union Bank, 19@20; Alabama Dollar Bonds 70; do. Sterling 75; Virginia 6's 95@96; Kentucky 6's 97@98.

Another London House quotes as follows:

The two arrivals from Chagres to-day bring about half a million of dollars, on the manifest and in the hands of passengers. The Ohio has also one hundred thousand Mexican dollars from New-Orleans to a Wall st. house. The Isthmus, which arrived at San Francisco not being one of the regular mail line most of the open policies of insurance did not cover shipments by her and for this reason the amount sent forward was small. We learn by passengers by the Isthmus that a large amount of gold has been collected at San Francisco and will be sent to the States by the next mail steamer to leave on the 1st of June. The amount is estimated variously at one million to three millions of dollars. Probably a million and a half is not far from the truth.

At a meeting of the stockholders of the Chemung Railroad Company, held at Jefferson, Chemung county, on the 3d inst. an election was held for thirteen Directors, when the following named gentlemen were duly elected—viz:

Simeon Benjamin, William Maxwell, John Arnot, Alexander S. Mitchell, Elmira; Charles Cook Havana, William W. Watson, William N. Clark, Nathan Roldert, Charles A. Cook, Geneva; Isaac Ogden, James S. T. Strachan, Freeman Rawdon, Josiah W. Baker, New-York.

A meeting of the Directors was held on the 20th inst. when the following gentlemen were duly elected officers for the ensuing year—viz:

Simeon Benjamin, of Elmira, President; Isaac Ogden, of New-York, Treasurer; H. H. Casey, do, Secretary.

On motion it was resolved that the office of the Company be removed to No. 71 Merchant's Exchange, in the city of New York, to take place on the 1st day of November next; that until then the removal of the office, Mr. T. L. Minier, at the office of the New York and Erie Railroad Company is authorised to act as the transfer agent for the Company. SIMEON BENJAMIN, Chairman.

WILLIAM MAXWELL, Sec'y.

The above road is the connecting link which unites the New-York and Erie Railroad with the central line of road from Albany to Buffalo, via Seneca Lake at Geneva. The road is eighteen miles in length, commencing three miles west of the village of Elmira, and terminating at Jefferson at the head of Seneca Lake. The new steamboat, Benjamin Loder, gives passengers an opportunity of viewing the scenery of this beautiful lake; and the road and boats opens a pleasant and expeditious route to and from the west. This road has been constructed at an expense of just $25,000 per mile, and is leased to the New-York and Erie Railroad Company for ten years, at eight per cent on the cost; the Erie Company to keep the same in repair at their own expense, and to return the road at the end of the lease in as good condition as at the time they receive it. A dividend of four per cent. will be declared on the 1st day of May next; and every succeeding six months thereafter.

The Canandaigua Road which is an extension of the Chemung is under contract for everything excepting the cars, at ten thousand dollars per mile to experienced and faithful contractors. A considerable amount of Stock has been subscribed which with the amount to be taken by the contractors will be sufficient to get the road ready for the iron. It is believed that eight hundred thousand dollars will be ample to build and equip it completely. A saving of several hours will be made by running this road from Canandaigua to Jefferson over the Geneva Lake route, which will attract travel over the Chemung Road. It is contemplated to extend the Canandaigua road to Batavia and eventually to Lockport and the Niagara River. It will no doubt become a favorite route, being the shortest between the West and the East, and the Chemung road be a large tributary to the Erie. The Chemung at all events, is secure of eight per cent. dividends for the next ten years. Its business at present would pay nearly the same dividend if not under lease.

The New-York and Harlem Railroad Company have declared a semi annual dividend at the rate of eight per cent. on the preferred stock, payable on the 2d of July.

The Mercantile Mutual Insurance Co. have given notice of their readiness to redeem the certificates of profit issued in 1848, on the 8th of July next. The interest thereon will cease on that day.

Mr. White, the Canal Bank receiver, is about closing up his trust. The unavailable assets of the Bank, amounting to $364,000, are to be sold on the 1st of September.

San Francisco Market....MAY 15, 1850.

We have received from E. B. Sutton & Co. 84 Wall-st the annexed circular from their house at San Francisco, Messrs. Turner, Fish & Co.

Referring to our respects of 30th April, we have now to advise that the late disastrous fire of 4th inst has to a moderate extent revived the demand for Lumber and Building Materials; prices of good quality have advanced from 50 to 75 per cent and as, ere this, shipments from the States must have ceased, rates may steadily improve under the local demand and the orders from the upper country, which are being very considerable. Hopes are entertained that no further losses will result from shipments of this article now on the way to this market. The accounts from the Gold Mines are in the highest degree encouraging. Money is more abundant and the rate of interest, on undoubted securities, on the decline. Business is gradually on the increase as the season advances. The immense increase of population has created a demand beyond the increase of imports, which has imparted firmness to the improved state of trade. We quote as follows:

Saleratus, 9c cents. Flour, whole sacks, $16@12 50; half sacks, 6 50; Oregon, in bbls at $11; Richmond City Mills, 9 50@$10. Sugar, 2c to 35 cts, for Manila, and 40@50 for Crushed and Loaf. Molasses, $1@1 25. Lumber, demand moderate, at $30@$35 ⅌ M for Rough and Worked. Vinegar in demand at 60 cts. Segars, good quality, scarce at $50@$60 ⅌ M. Butter, 75 cts. Lard, 37½ cts. Cheese 70 cts. Raisins, $7@7 50. Boots and Shoes have sustained prices in the face of large arrivals; sales heavy. Brogans, at wholesale, at $30 ⅌ doz. Coal at $35 to $40 ⅌ ton. Coffee scarce at 30 cts ⅌ lb. Dried Apples, 35@37½ cts. Candles abundant at 65 cts. Cotton Goods and Heavy Clothing much in demand. Brown Drillings are commanding extravagant prices, being wanted for making bags to dam the rivers. Sheeting and Prints are advancing. Chocolate in request at 35@38 cts. In Drugs no variation from previous quotations. Barley Starch and in request. Beans scarce. Corn Meal, $3@$3 ⅌ bbl. Bread, American Pilot 8 cts—Crackers, in wood, 12½ cts. in tins 20 cts. Clear Pork, in bbls $19@$50; Mess do, in bbls 28@24 50; in half bbls, $17; Prime do, no demand. Rice, 5@7 cts. Tea 60@70 cts. Bricks, $60 ⅌ M. American Sheet Iron, 25@27 cts; Russia sheet Iron, 55@65; Galvanized 18@25. Sperm Oil, 1 25; Whale do, 60 cts. Spices, no change. Brandies in demand and advancing. Sales 100 baskets Champagne Wine at 12 50. Sales Plug Tobacco at 30 cts and advancing. Rents are recovering from the extreme depression.

Very respec fully, yours, &c.

TURNER, FISH & CO.

San Francisco Markets.

WEDNESDAY EVENING, May 8.—Prices of good business locations and rents for the same are the only subjects which seem affected by the recent fire, and to which anything like activity seems imparted. Light houses, small and easy of erection, being wanted for temporary purposes on the burned district, are held at advanced prices. Bricks continue firm at the advanced quotations of Tuesday, but the advanced prices for lumber have "fizzled out," there being too large a stock on hand, and the stock being too constantly increased by fresh arrivals to allow any firmness in support of the market. Grain Flour continues firm, with prices a shade upwards. Sales to-day were stopped, whole sacks bringing $12 25—sales of half sacks were closed at $7. Holders are asking $13 a 13 50 per whole sacks and $7 a 7 25 for half sacks. Sacks form the bulk of all present transactions.
