Every Owner of a Piano Needs a

PIANOLA

The PIANOLA will enable every owner of a piano to play upon his instrument whenever he desires. Not only this, but every member of the family can also play upon it—not one or two pieces, but practically every composition ever written for the piano.

The PIANOLA is the only thing which warrants the investment in a piano by nine-tenths of those who own them. At least it is the only thing which makes a piano worth a hundred cents on a dollar.

Perhaps you or your wife or your daughter "play a little," but the difference between playing a little and playing everything you wish is considerable. It is worth thinking about. The PIANOLA supplies the deficiency. It even makes no difference if you do not know one note from another.

The fingers of the PIANOLA rest upon the piano keys, and strike the notes for you just as they are printed on the music sheet.

You experience all the pleasure of hand playing, because you control the expression, which is the soul of music.

Before deciding upon the purchase of a piano, you should hear the PIANOLA. It is on exhibition at the warerooms. You may wish to buy a PIANOLA and invest less money than you originally intended in the piano itself, and get the full benefit of it; or you may even wish to rent a piano temporarily and purchase the ability to play upon it anything you desire whenever your mood calls for it. It would be at least judicious to hear the PIANOLA.

Price $250.

Can be Bought on Installments.
